ERIN LOWRY

District No. 5
CATHY TOWNSEND

Mission Statement

Committed To Service, Focused On Our Future, Grounded By Tradition

*Revised Final on 5/1

GENERAL RULES AND PROCEDURES – The agenda will typically determine the order of business conducted at today's Board meeting. However, the final order of agenda and items heard is to be determined by the Chair.

INVOCATION-PLEDGE – To bring order and decorum, the BOCC begins its meetings with an invocation followed by the Pledge of Allegiance. Participation is voluntary.

PUBLIC COMMENT – Time is allotted at the beginning of each regular meeting for general public comment.

CONSENT AGENDA – These items are considered routine in nature, are reviewed by BOCC members in advance, and typically do not require BOCC comment and may be voted on with one motion. There is no separate discussion or individual vote on these items unless requested by a BOCC Member.

PUBLIC HEARINGS – Public hearings will commence at or as soon as possible after the advertised time. In no event will public hearings commence prior to the advertised time. These items are heard at Regular or Special BOCC meetings and are normally scheduled for the first and third Tuesday of the month, or as soon thereafter as possible.

As a general rule, when issues are scheduled before the Commission under department request or public hearing, the order of presentation is: (1) Staff presentation (2) Applicant presentation (3) BOCC questions for Staff and/or Applicant (4) Public comment, (5) further discussion and action by the BOCC.

REGULAR AGENDA – Items appearing on the Regular Agenda require BOCC direction, a policy decision, or are otherwise of significance necessitating separate attention and action. Agenda items may consist of proposals for new County policies, adjustment of budgets, requests to approve contracts with vendors for services, and items as requested for presentation and approved through County Administration and the BOCC.

COMMISSIONER UPDATES – These items are presented by an individual BOCC Members as necessary. BOCC Members will use this time to highlight items of interest that impact their districts or special items of interest they feel warrants the attention of the St. Lucie County community.

MEETINGS – All BOCC meetings are open to the public and are held on the first Tuesdays of each month at 6 p.m. and on the third Tuesdays at 9 a.m., unless otherwise advertised. Meetings are held in the County Commission Chambers of the Roger Poitras Administration Annex located at 2300 Virigina Avenue, Fort Pierce, FL 34982. The BOCC schedules and notices additional workshops throughout the year as necessary to accomplish their goals and commitments. Anyone with a disability requiring accommodation to attend this meeting should contact the Human Resources Department at 772-462-1456, HumanResources@stlucieco.gov or TDD 772-462-1428 at least 48 hours prior to the meeting.

RULES OF DECORUM FOR PUBLIC PARTICIPATION

PURPOSE:

Pursuant to Sections 125.01(1)(a) and 286.0114, F.S., this policy sets forth the rules of decorum for public participation at the St. Lucie County Board of County Commissioners Meetings (Rules of Decorum). These Rules of Decorum are adopted to ensure a positive and productive environment that is conducive to good order and discipline which in turn will enhance the democratic process, individual rights of expression, engaging conversations and mutual respect for shared ideas.

As used in these Rules of Decorum, decorum means propriety and good taste in conduct or behavior.

The St. Lucie Board of County Commissioners (BOCC) has numerous public meetings that include, but are limited to, Regular, Informal (Workshops), and Special meetings. Having set rules, policies, and guidelines are paramount in maintaining a civil, respectful, and a courteous environment during government proceedings, which ensure support of and respect for an open, fair, transparent decision-making process.

A. General Guidelines for Appearance Before the BOCC

1. Individuals may participate in the public meeting process.
2. Individuals wishing to speak must adhere to these Rules of Decorum.
3. Individuals will be recognized by the BOCC Chair.
4. Individuals will approach the podium and provide their name, address, and/or associated organization (if applicable).
5. Individuals will be provided with three (3) minutes and a representative of an organization has five (5) minutes to speak during Public Comment and during Public Hearings.
6. Individuals will direct all comments directly to the BOCC. All remarks will be directed to the BOCC as a body and not to any one person or commissioner.
7. Individuals will address all BOCC Members by their proper title.
8. Individuals will limit comments to a proposition before the BOCC, or a subject matter related to county government related items. Individuals should make comments concise and to the point and present any data or evidence they wish the BOCC to consider.
9. Comments in support or opposition to candidates for public office are not pertinent to the BOCC's duties. This includes any speaker identifying himself or herself as a candidate for public office.
10. No person may speak more than once on the same subject unless granted permission by the Chair.
11. Individuals will observe the timer device located directly under the microphone at the podium. Lights indicate the following:

    Green: Indicates commencement of addressing the BOCC.
    Yellow: Indicates the individual has one (1) minute left and should begin to close their comments.
    Red: Indicates time has expired and the individual needs to end their remarks.

12. Once time has expired individuals must cordially leave the podium and return to their seat.
13. The Chair has the discretion to either extend or reduce the time limits for public comment based on the number of speakers. To ensure the orderly conduct of meetings, if a large number of individuals wish to speak for public comment on a topic, the BOCC may require that one representative of a group or faction on a specific proposition be permitted to address the BOCC, rather than all members of such groups or factions, and/or the Chair may designate a specified period of time for public comment.
14. Individuals who are not able to attend a scheduled meeting may submit a public comment via the St. Lucie County Web Page at https://stluciecounty.formstack.com/forms/public_comment_form.

B. Speakers Decorum

1. Speakers will:
   a. Conduct themselves in a respectful manner.
   b. Be clear and concise.
   c. Be civil in nature (polite, courteous and respectful).
   d. Address the BOCC directly.
   d. Speak into the microphone.

2. Speakers will NOT:
   a. Make comments of a personal nature regarding others.
   b. Shout, yell, or /scream.
   c. Use obscene or disruptive language.
   d. Make complaints, remarks, personal attacks or inflammatory comments against any public official or staff member.
   e. Members of the audience will not be allowed to enter the public meeting discussion from their seats. Individuals wishing to speak must follow the proper etiquette, approach the podium, and be recognized by the Chair.
   f. Individuals in attendance may not interfere with or interrupt the orderly procedure of the BOCC, any BOCC Member, or the person speaking whom the Chair has properly recognized.

C. Audience Decorum

1. Turn off or silence all devices.
2. Refrain from inappropriate and/or disruptive behavior.
3. Refrain from private conversations.
4. Restrict disruptive commotion when transiting meeting spaces.
5. To ensure the safety of the public, campaign placards, banners or signs will NOT be permitted in the Chambers.
6. Refrain from disorderly or boisterous conduct to include but not be limited to:
   a. Applause
   b. Whistling
   c. Stamping of feet
   d. Booing
   e. Threatening dialogue
   f. Slanderous utterance
   g. Actions that impede the orderly conduct of a meeting

D. Enforcement of the Rules of Decorum

1. The BOCC Chair is responsible for maintaining and enforcing the Rules of Decorum.
2. Individuals who do not adhere to the Rules of Decorum will receive an initial warning from the Chair to cease and desist in order to restore order.
3. If an individual continues to breach the Rules of Decorum, the Chair may order the individual to relinquish the podium and/or leave the public meeting.
4. If any person refuses to leave following an order to leave, the Chair may order the Law Enforcement on duty to remove them from the public meeting.

Any person who disrupts or interrupts a BOCC meeting by violation of these Rules of Decorum, including the use of profane language or the threat of physical violence, or who makes personal, impertinent remarks or who exhibits loud or boisterous behavior while the BOCC is in session, may be removed from the meeting by the Sheriff's office. Removal may be requested at the direction of the Chair or by consensus of the BOCC, or by the Sheriff's office, if there is perceived to be an immediate threat to any person.

1. CALL TO ORDER

2. INVOCATION

3. PLEDGE OF ALLEGIANCE

4. APPROVAL OF AGENDA - ADDITIONS, DELETIONS, REVISIONS

5. PRESENTATIONS

A. Boys & Girls Clubs of St. Lucie County Updates & State Youth of the Year Winner Presentation

6. PUBLIC COMMENT (excluding Public Hearing Items)

7. PROCLAMATIONS APPROVAL

A. Resolution No. 26-068 - Proclaiming the Week of May 6 through May 12, 2026 as National Nurses Week in St. Lucie County, Florida

8. APPROVAL OF MINUTES

A. Board of County Commissioners minutes for the BOCC Informal Meeting of April 14, 2026.

9. CONSENT AGENDA

A. WARRANTS

1. Warrant Lists 29 - 30

B. AIRPORT

1. Garland Roofing Material & Services Proposal for Airport Main Terminal Roof - $244,235.00

   Staff recommends Board acceptance of Garland Roofing Material & Services Proposal for the Airport Main Terminal Roof $244,235.00 and authorization for the Chair to sign documents as approved by the County Attorney. This initiative is in accordance with ECON 2.4.3.

2. Fort Pierce FBO LLC aka APP Jet Center Ground Sublease JM Aviation and Storage, LLC - **ADD ON**

Staff recommends Board acceptance of the sublease and the Chair to sign documents as reviewed and approved by the County Attorney.

C. COUNTY ATTORNEY

1. Resolution No. 26-067 - Proclaiming May 2026 as Mental Health Awareness Month in St. Lucie County, Florida

D. COMMUNITY SERVICES

1. A Resolution of the Board of County Commissioners of St. Lucie County, Florida, Sunsetting the Veterans Advisory Council Created by Resolution No. 88-66

Staff recommends the Board approve Resolution No. 2026-73, formally sunsetting the Veterans Advisory Council and repealing Resolution No. 88-66; and authorize the Chair to sign documents as approved by the County Attorney.

E. FACILITIES

1. Fairgrounds Restoration/Recoating of Roofing for Buildings A, B & C - $209,326.00

Staff recommends Board approval to proceed with restoration/recreation of Buildings A, B and C as outlined in Garland Proposal #25-FL-260360 via US Communities MICPA # PW1925, in the amount of $209,326.00 to provide a safe and dry environment for patrons at the fairgrounds, as well as preservation and continued use of the existing three buildings and authorize the Chair to sign the contract as approved by the County Attorney in accordance with Strategic Plan Policy QI.3.1.1.

F. HUMAN RESOURCES

1. 2026 Summer of Success - Grant Agreement

Staff recommends Board approval of the grant agreement for the Summer of Success program, and authorization for the Chair to sign documents as approved by the County Attorney in accordance with Strategic Plan Policy AO 2.2.1.

G. OFFICE OF MANAGEMENT & BUDGET

1. Request for Proposal (RFP) No. 26-014 - Disaster Debris Monitoring Management and Consultant Services - **ADD ON**

   Staff recommends Board approval of the short-listed firms for RFP No. 26-014 and permission to:

   - Conduct contract negotiations with the highest-ranked proposer, Thompson Consulting Services, as the primary consultant and Debris Tech, as the secondary consultant.
   - If negotiations are successful, award contracts to both proposers and authorize the Chair to sign the documents as prepared by the County Attorney in accordance with Strategic Plan Policy HS 4.4.
   - If negotiations are unsuccessful with either firm, negotiations will be terminated with that firm and staff will start negotiations with the next ranked firm(s).

2. Request for Qualifications (RFQ) No. 26-016 - Professional Engineering Services – Bridge and Structure Evaluation and Design Services - Continuing Contracts

   Staff recommends Board approval of the short-listed firms for RFQ No. 26-016 and permission to:

   - Conduct contract negotiations with successful short-listed firms;
   - If negotiations are successful, award contracts to the successful short-listed firms and authorize the Chair to sign the documents as prepared by the County Attorney.

3. Request for Qualifications (RFQ) No. 26-017 - Professional Construction Engineering & Inspection Services - Continuing Contracts

   Staff recommends Board approval of the short-listed firms for RFQ No. 26-017 and permission to:

   - Conduct contract negotiations with successful short-listed firms;
   - If negotiations are successful, award contracts to the successful short-listed firms and authorization for the Chair to sign the documents as prepared by the County Attorney.

H. PARKS & RECREATION

1. SLC Children's Services Council - More Than A Game Graduation - Fee Waiver $562.50

   Staff recommends Board approval to waive the facility use fee of $562.50 as outlined in this agenda memorandum and authorization for the Chair to sign documents as approved by the

County Attorney in accordance with Strategic Plan Policy TC 5.2.1.

I. PLANNING & DEVELOPMENT SERVICES

1. Revocation of Economic Incentive Resolution No. 23-006 and Job Growth Investment Grant 23-001 granted to Meyer Utility Structures, LLC, AKA Arcosa

   Staff recommends the Board approve the draft Resolution and allow the Chair to sign documents as approved by the County Attorney.

2. Revocation of Economic Incentive Resolution No. 23-007 and Job Growth Investment Grant 23-002 for PB Holdco, LLC. (d/b/a/ Pursuit Boats) for their Tooling Building Expansion

   Staff recommends the Board approve the draft Resolution and allow the Chair to sign documents as approved by the County Attorney.

J. PROPERTY ACQUISITIONS

1. Bryn Mawr Utility Site - Utility Easement in favor of Florida Power & Light Company Parcel ID 1410-501-0017-010-5

   Staff recommends the Board authorize the Chair to sign the Florida Power & Light Easement and direct staff to record the Easement in the public records of St. Lucie County, Florida.

2. Taylor Dairy Road Water Treatment Facility - Florida Power & Light - Easement - Parcel ID 1313-430-0000-000-5

   Staff recommends the Board authorize the Chair to sign the Florida Power & Light easement and direct staff to record the easement in the public records of St. Lucie County, Florida.

3. Florida Department of Transportation Jurisdictional Transfer - Parcel 104 County Deed - Item/Segment Number FDIP: 438379-2-52-01 - Parcel ID 1336-232-0001-000-5

   Staff recommends the Board authorize the Chair to sign the County Deed and Resolution and direct staff to send the executed County Deed and Resolution to FDOT for recordation in the public records of St. Lucie County, Florida.

4. Florida Department of Transportation Jurisdictional Transfer - Parcel 702 Temporary Easement - Item/Segment Number FDIP: 438379-2-52-01 - Parcel ID 1336-232-0001-000-5

   Staff recommends the Board authorize the Chair to sign the Temporary Easement and

Resolution and direct staff to send the executed Temporary Easement and Resolution to FDOT for recordation in the public records of St. Lucie County, Florida.

5. Florida Department of Transportation Jurisdictional Transfer - Parcel 801 Permanent Easement - Item/Segment Number FDIP: 438379-2-52-01 - Parcel ID 1336-232-0001-000-5

   Staff recommends the Board authorize the Chair to sign the Permanent Easement and Resolution and direct staff to send the executed Permanent Easement and Resolution to FDOT for recordation in the public records of St. Lucie County, Florida.

K. PUBLIC WORKS

1. Florida East Coast Railway Agreement for Signal Improvement and Maintenance at Commerce Center Drive (Go Team Crossing) - **ITEM PULLED PRIOR TO MEETING**

2. Ratification of Administrative Approval of the Lighting Maintenance Commitment to Maintain Forty-six New Streetlights on SR 713/Kings Highway (Project # 438379-4-52-01) and Fifty-seven New Streetlights on SR 713/Kings Highway (Project # 438379-5-52-01) under the Terms of St. Lucie County's State Highway Lighting, Maintenance and Compensation Agreement with the Florida Department of Transportation

   Staff recommends Board approval of the Lighting Maintenance Commitments to maintain forty-six new streetlights on SR 713/Kings Highway (Project # 438379-4-52-01) and fifty-seven new streetlights on SR 713/Kings Highway (Project # 438379-5-52-01) under the terms of St. Lucie County's State Highway Lighting, Maintenance and Compensation Agreement with the Florida Department of Transportation, and authorizes the Chair to sign documents as approved by the County Attorney in accordance with Strategic Policy QI 3-1.1.

RESOLUTION NO. 26-068
A RESOLUTION PROCLAIMING THE WEEK OF MAY 6 - 12, 2026 AS "NATIONAL NURSES WEEK" IN ST. LUCIE COUNTY, FLORIDA

WHEREAS, the Board of County Commissioners of St. Lucie County, Florida, has made the following determinations:

1. Nurses are the backbone of the healthcare system, providing compassionate, skilled, and evidence-based care to individuals, families, and communities across St. Lucie County.
2. Nurses play a vital role in promoting health, preventing illness, and improving patient outcomes across diverse settings including hospitals, clinics, schools, and community organizations.
3. The dedication, resilience, and unwavering commitment of nurses have been especially evident during times of public health challenges, demonstrating their courage, leadership, and adaptability in the face of adversity.
4. Nurses serve not only as caregivers but also as educators, advocates, and leaders who contribute to advancing the quality and accessibility of healthcare within our community.
5. The education and preparation of future nurses through institutions such as local nursing programs and partnerships with healthcare organizations ensure the continued strength and excellence of the nursing profession.
6. National Nurses Week, observed annually from May 6 through May 12, recognizes the invaluable contributions of nurses and culminates on May 12, the birthday of Florence Nightingale, the founder of modern nursing.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of St. Lucie County, Florida does hereby proclaim the week of May 6 - 12, 2026 as **"NATIONAL NURSES WEEK"** in St. Lucie County, Florida and encourages all residents to join in honoring and celebrating the dedication, compassion, and essential contributions of nurses within our community.

PASSED AND DULY ADOPTED this 5th day of May 2026.

2. PLEDGE OF ALLEGIANCE

3. DISCUSSION ITEMS

A. St. Lucie Woods Sensory-Friendly Preserve

Amy Griffin, Environmental Resources Director, presented to the Board an overview of the sensory-friendly nature preserve designed for individuals on the autism spectrum and other neurodivergent individuals. She acknowledged the staff and thanked the chair, commissioners, and other contributors

to the St. Lucie Woods sensory-friendly Preserve project, as well as the stakeholders for their support and leadership. She highlighted the importance of the 12,000 acres of natural areas and 50 miles of greenways and trails in St Lucie County, funded by various commissioners and county leaders over the last 30 years. Since 1994, nearly 7,000 acres have been acquired along the North Fork of the St. Lucie River and 10 Mile Creek, creating a beautiful network of public spaces in St. Lucie County. This includes the Petra family preserve to the north, Oxbow Eco Center, and 225 acres to the west, along with St. Lucie Woods to the south, forming a central hub of connectivity in the area. The nature preserves buffer the river, enabling wildlife movement, natural tidal changes, and floodwater management to recharge local aquifers, while also offering public spaces for enjoying nature. The St. Lucie Woods Preserve encompasses a 33-acre property in St. Lucie County acquired with a grant from the Florida Communities Trust program and additional funding from the state. A grant was received for $229,000 for the acquisition of the land. Thank you to the Florida Communities Trust for support. Additionally, applied for $800,000 from the state to help fund the design and construction of the amenities. Thank you to State Representative Dana Trabulsy and her sponsorship of the legislative appropriations request, the program was awarded that funding allowing them to make the dream and turn it into a reality. Ms. Griffin introduced Dr. Kim Delaney, Director of Strategic Development and Policy at Treasure Coast Regional Planning Council, to present the project.

Dr. Kim Delaney, Director of Strategic Development and Policy for the Treasure Coast Regional Planning Council, addressed the Board and expressed gratitude for the County's confidence in the council, and provided a brief overview of the project. She advised that she has been with the council for 22 years, and they are celebrating the 50th anniversary, and introduced her attending supporting staff for the project. She advised that the project involves broad stakeholder engagement, including local government agencies, a well-established steering committee, and public workshops to gather input from parents, caregivers, and industry professionals. The project aims to create accessible spaces not only for autism but for neurodivergent individuals, seniors, and those with visual or hearing challenges, and conservation and enhancement of natural resources. The site is not a playground; it is a preserve. There are lots of playground opportunities that are beginning to emerge across the landscape, but not as many that are designed for a nature-based experience. The design is not towards construction, but on conservation and enhancement, and using natural resources to create the kind of environment that makes it safe for individuals to use. It is an opportunity for a nature-based classroom, an outdoor classroom, a lot of engagement with the School District and the Education Foundation, as well as IRSC and FAU, to understand ways in which to implement educational experiences. Many partners want to engage in the process, both for programming and for providing materials, and continuing to input their experiences towards the design of the project, and for funding. Dr. Delaney describes the design of the site, including ADA parking, a bus loop, a welcome pavilion, and restrooms with additional facilities for adults. The site has an entry from Oleander Avenue. The expectation is that there will be busloads of individuals coming to use the site, both for outdoor therapy and educational opportunities. The restroom has been designed with additional adult-changing facilities to make the site as accommodating as possible. The site includes a magic meadow for toddlers, individuals who may otherwise elope, and a nature trail with a quieter and noisier side to accommodate different sensory needs. The project includes two trails to the water, a wilderness trail and a boardwalk trail to take you to the water's edge, where there will be a kayak landing and an observation deck as well. The safety features that have been thought about with respect to the project, with red marks on the map for different gates and interventions designed for elopers. There will be double-lock gates along the

journey so that the experience is safe. The fencing that's been designed for the site is specific to make sure that kids and individuals cannot climb to get into trouble. Staff at the Oxbow center, in particular, have worked through a series of interactive exhibits and the theming for the property. The theme the staff has identified with input from the public is about adaptation. Each animal and each element in nature has a superpower that helps it become more adaptable in its space.

The goal is a nature-based set of exhibits that each creates an educational opportunity that ranges from making sound or listening to nature, to the climbable elements, mazes, and puzzles that are again designed specifically to accommodate the neurodivergent population, but the larger population as well. They are designed to be accessible and interesting for all different levels of abilities. County staff and team, with input from the committee, have been working through the types of educational moments on the site. Those educational elements are understandable to the verbally challenged, Braille elements as well, and themed by color to help individuals better navigate the project. Communication boards are designed for the non-verbal population and distributed throughout the site, so that throughout the journey, the communication level can be maintained. The trail is designed to accommodate an individual wheelchair bound, service animals, and someone accompanying them throughout the journey. The water fountains are envisioned to have three levels of access for able-bodied, wheelchair-bound, and service animals as well. While this project may be designed for service animals, other locations for dog parks may be more suitable. With respect to the project schedule, the due diligence work and project planning have been completed. The project is underway with stakeholder engagement, building the web interface, and developing the program and curriculum with the participation of members of the steering committee. The construction is progressing to meet the grant deadline, with the entryway fencing, driveway, and parking currently being worked on. There's a ranger location on the site. The welcome pavilion and restrooms, boardwalk, and trail are underway, and additional improvements will be continued, and those contracts will come before the Board.

Heather Roland, Executive Director of Exceptional Student Education & Student Services for St. Lucie County Public Schools, and Thom Jones, President of the Education Foundation of St. Lucie County, addressed the Board and thanked the commission for their support, highlighting the importance of the project for students with unique abilities. They mentioned that over the past few years, the renovation of 25 sensory rooms in the school district. They have experience in the sensory area and will gladly work with the School District and the Steering Committee in creating those themes for the project, along with creating portable learning kits. The project can be supported through fundraising. The Education Foundation offers support and is willing to serve as a fiscal agent at no charge. This would help streamline the process. They acknowledged Autism Awareness Month. The preserve is more than just a natural space; it is a place of opportunity, inclusion, and connection for students and adults with unique abilities. They advised that the project offers opportunities for families to come together, educators to use as a living classroom, and a safe and welcoming environment for exploration and learning. The Board's support has helped remove barriers and create access where it's needed most.

Anthony Bonna, City of Port St. Lucie Councilman, addressed the Board, applauded the commission's vision for designing the preserve, and highlighted the city's commitment to creating accessible spaces for residents. Access to nature is among their top priorities, leading them to create the Naturally City of Port St. Lucie initiative, a resident-driven initiative launched by the City of Port St. Lucie to preserve, enhance, and connect the community with its natural green spaces for residents. He is looking forward

to this incredible preserve opening, which residents can also access and enjoy the collaborative opportunities it can provide. He mentioned that the city will host an autism awareness and community resource event, and residents can also attend the Oxbow Earth Day festival.

Commissioner Lowry commented, representing the professionals of the steering committee for the St. Lucie County sensory-friendly nature preserve. She thanked the Board for their support and described the project as a legacy that will touch lives for generations. The committee includes professionals with a deep understanding of how environments impact communication, behavior, and overall well-being.

Tiffany Luque, Speech-Language Pathologist with Solutions Therapy and Learning, addressed the Board and expressed the importance of communication in the project, providing examples of core vocabulary boards and communication tools. The Steering Committee of St. Lucie Woods represents something very special. Each has been touched in some way, shape, or form by an individual with Autism, Down syndrome, or another unique ability that may affect sensory processing and communication. The preserve is more than a park; it is a reflection of compassion, understanding, and inclusion. She advised that the project aims to create a space where individuals with sensory and communication challenges can connect with nature and others, fostering a sense of inclusion and support. She also provided her history overview in her experience and an overview of the communication boards within the project.

Allison & Jacob DeRocher of Sunshine Therapies in St. Lucie County addressed the Board and provided a history overview of her family background, company, and experience. She highlighted the importance of the environment in supporting sensory integration, motor planning, and emotional regulation. She advised that traditional parks can be overwhelming for children with sensory sensitivities, leading families to avoid such spaces. The St. Lucie Woods sensory-friendly nature preserve will provide a calming and predictable environment, supporting self-regulation and sensory exploration. The project will be a place where families feel welcomed and comfortable, fostering a sense of belonging and connection.

Ellyn Kulwin, Co-Chairperson, Family Care Council Area 15, addressed the Board regarding the organization and experience of educating and empowering individuals with developmental disabilities and their families, partnering with the agency for persons with disabilities to bring quality services to individuals with dignity and choice. Ellyn also shared her personal experience as a mother of a child with autism, highlighting the challenges of simple outings like going to a park due to sensory overload and unpredictability. She advised that a sensory park would provide a place where children with disabilities can be truly included, feel calm, and explore safely without being overwhelmed. Ellyn stressed the importance of inclusive, thoughtfully designed spaces for individuals with intellectual and developmental disabilities, which are essential rather than a luxury.

Aaron Kulwin, a St. Lucie County student, addressed the Board and provided his experience in the autism-specific classroom at Centennial High School. He expressed that having autism sometimes makes the world feel overwhelming, making it hard for him to relax and have fun like the other kids. He expressed his excitement for the new sensory park, a place where he can feel calm and safe, move around, swing, walk, and explore in a way that helps him feel good. He highlighted that the sensory park is not just for him but also for other kids and adults who need a safe, happy place. He thanked everyone for helping with the project for individuals with autism.

Amanda Thompson, Training & Education Coordinator at the Center for Conservation Initiatives, The Nature Conservancy in Florida, expressed gratitude for the invitation to return to participate in the project. She mentioned the grant from the Florida Community Trust and the Department of Environmental Protection, ranking third out of 30 projects across the state. She shares her personal connection to the project, mentioning that family members have been diagnosed with neurodivergence, and nature has always been a peaceful place for them. She expressed the importance of nature as a safe and inclusive space for individuals with neurodivergence, and the project's potential to provide a much-needed resource for the community.

Karen Spera, Speech Language Pathologist at St. Lucie County School Board, addressed the Board and expressed the importance of considering the needs of adults with disabilities in the project. She mentioned the inclusion of adults with various disabilities and the impact of the project. She thanked the Board for its support.

Discussion

The Board expressed support for the project and thanked Commissioner Lowry for her integral role. They also expressed the need to preserve a critical amenity for individuals with unique disabilities. The Board highlighted the importance of the project for the entire community, including adults with disabilities, and expressed gratitude for the collective effort and support.

The Board did not have any further questions or comments.

No direction was sought. Informational only.

B. Non-Conforming Lot Discussion

Ben Balcer, Planning & Development Services Director, and Kori Benton, Planning & Zoning Manager, presented an overview of the non-conforming lots in St. Lucie County and their impact on property development. In 1961, the County adopted its first set of land development regulations that set minimum requirements for billable lots, such as lot size, width, and road frontage. Since then, code updates have increased those standards, so some once-compliant lots no longer meet the current requirements. In an example, lots were created under a one-acre standard with 100 feet of frontage, and later, rezoned to require 2.5 acres and 150 feet of frontage; the parcels are now considered non-conforming. So even though they were legally created, they no longer meet the current zoning standards. Another source of non-conforming lots comes from historic plats. Many subdivisions were recorded in the 1920s, long before zoning was ever adopted in the County. In an example, a 50-foot-wide lot was platted in 1925, and in 1961, the County required 75 feet of lot width, making the 50-foot-wide lot non-conforming. In 1984, the requirement increased again to 100 feet. So those lots remain non-conforming, often requiring a combination of lots in order to be built on. The key rule, a lot may still be buildable if it was under separate ownership on July 1, 1984, which is the key date when the current zoning regulations were adopted. If the same owner held adjoining lots on that date, they are treated as one parcel and must remain together. If it were separately owned, it may still be buildable, and in these instances, they are called non-conforming lots of record. Going back to September 11, 1961, is when the County first adopted its zoning resolution, which established how the County would handle non-conforming lots. There are two key principles that still currently guide the County. One, non-conforming

lots could continue, but the County would not encourage their survival. The goal was to eventually reduce or eliminate them. Second non-conforming lots must be in separate ownership. In other words, adjoining non-conforming lots under the same ownership were treated as one larger parcel, not separate billable lots. This reflects the long-standing balance between property rights and avoiding undersized parcels. The code does provide relief for a single lot of record created before July 1, 1984, that may still be developed, even if it doesn't meet the dimensional requirements, as long as it was in separate ownership at that time. If multiple lots were under the same ownership in 1984, they are treated again as one parcel and must be combined. This prevents substandard development while preserving property rights. As an example in a subdivision, some parcels lack road frontage and do not meet minimum size requirements. Due to the plat was unrecorded, infrastructure was never provided. As a result, many parcels lack frontage and are non-conforming. Staff must research ownership back to 1984 to determine buildability. These lots often also fail the lot area and width requirements. In an example, located in Harmony Heights, there are 55-foot-wide lots, and they do not meet the required 75-foot lot width within the RS-4 zoning district. Because the two non-conforming lots were under the same ownership in 1984, they're considered an undivided parcel and must be combined to build. In an example further west in the County, located off of North FFA Road, where the parcels do not have any adequate road frontage. The following Lot 1, Lot 5, Lot 6, Lot 7, Lot 8, and Lot 9 were under the same ownership in 1984 and are considered one parcel and must be re-combined to be developed, or a road must be built to County standards.

Staff provided an example of a parcel in St. Lucie Gardens, just south of Dyer Road. The parcel was in common ownership in 1984, and in 2000, the owner illegally subdivided the lot into four separate plots. They were later recombined, and a single-family home is now being constructed on the one larger parcel. In an example, north of Indrio Road along the tree-top trail, the parcels meet size requirements but rely on private easements for access. The easements do not qualify as road frontage. For a single non-conforming lot of record, the code allows a home to be built even without frontage, but if multiple lots were under the same ownership in July 1984, they are considered one undivided parcel. To build, they must be combined and provided with a road, meeting County standards. Similar to the prior example, just to the north, two parcels were under common ownership in 1984 and needed to be recombined to construct a home. To provide flexibility, prior interpretations by the Planning & Development Services Director have allowed lots to be reconfigured, so long as no additional units are created. In another example, three parcels in common ownership in 1984 and the overall development potential of six units. Instead of strictly recombining, the lots can be merged with other conforming lots, and owners can record deed restrictions to prevent future subdivision, as long as density is not increased and the non-conformity is not expanded. This maintained the intended code while providing limited flexibility to owners of non-conforming lots. In other counties, Martin, Okeechobee, Alachua, Brevard, and Volusia utilize the same approach of contiguous non-conforming lots of common ownership being recombined in order to be developed. The takeaway is that the County's approach is consistent with other counties with the shared goal of reducing substandard parcels. The County has a formal process to determine if a parcel qualifies. When someone applies, staff will conduct detailed research, including reviewing ownership history back to July 1, 1984, reviewing deeds and property records, and verifying legal access. If access does not exist, it may require easements or other legal documents. Staff also confirms with legal or the County Attorney's Office on the legal access. If it wasn't in common ownership in 1984 and has legal access, it qualifies as a non-conforming law of record. The application fee for the service is $300.

Staff requested the Board's input on non-conforming lots.

Discussion

Chair Fowler commented on the Board's role in deciding policy and the importance of not engaging in spot zoning. She questioned the tree-top trail example and whether it was properly reported to the County. In response, Mr. Balcer confirmed that the tree-top trail is an unrecorded plat that was never constructed with the appropriate infrastructure, with unpaved private easements for road access/access.

Chair Fowler discussed the deed language that stated the original developer was supposed to pave easements by 1975, which hasn't occurred, referencing the tree-top trail. She asked how someone would learn if something is not buildable if the property was not properly advertised by the realtor, etc. In response, Mr. Balcer explained the importance of due diligence by real estate agents and prospective property owners to check with the County. The County provides a non-conforming lot of record research service. He expressed the importance of the service for anyone before they sign and purchase a piece of property, the need to check with the local jurisdiction, and ensure that they can build, and the intentions of the property.

Chair Fowler discussed her research and mentioned that building is occurring in the subdivision, which is currently zoned one dwelling per acre. She discussed the need to get everyone off septic and the potential for 46 new houses in the area. She suggested exploring options like a limited build-to-suit ability ordinance or a conditional use process.

Commissioner Clasby asked about the possibility of a board of zoning adjustment or individual option for an individual to prove non-self-imposed hardships, to get a variance. In response, Mr. Balcer explained the existence of the Board of Adjustments, Special Magistrate, and Citizen Board of Adjustment. He advised that the non-conforming lots are unbuildable, and a building permit would not be issued. There are provisions in the code, such as the recombination, in order to get them to where they want to go. But an item has not been taken to the Board of Adjustment that would completely waive a frontage requirement.

Mr. Benton provided a subsection of the County Land Development Code Section 10.01.03, Sub-part A, which reads variances shall not be granted. He advised that the section establish parameters that the Board of Adjustments can or cannot grant relief for. Sub-Part one of the section explains that variances cannot permit a building height exceeding 120% of the permitted height or a lot width or road frontage less than 80% of the permitted by said table. For any district that is not AG-1, AG-25, or AG-5 with a parcel of at least 10 acres.

Commissioner Clasby mentioned that he is not in favor of providing any relief to non-standard lot sizes, less than 10,000 square feet, or less than 75 feet in width. He advised that it sets a dangerous precedent for other PUD developments in the County.

The Board discussed the complexities of a subdivision with non-conforming lots to grant additional rights, the need to avoid spot zoning, the importance of fairness and equity, other options, current regulations, changes to the comp plan, record/additional provisions, designing standards, variances, lot

incentives, density, buildable lots, blanket allowances, ensuring environmental requirements are met, BMAP area, and flood zoning. A suggestion was made to look into a special exception process for specific zoning categories, like AR-1. The Board debated expanding the Board of Adjustment's authority to grant individual variances based on the merits of individual sites, but for AR-1 zoning districts.

Mayte Santamaria, Deputy County Administrator, mentioned that despite parcel sizes, there is a need to examine ownership, which will take time due to title research on the ownership structure. It's not just the dimensions and the lack of frontage; it is still that ownership piece that is the difficult part to resolve. She also mentioned that the variance process requires a hardship process and is not self-induced.

Mr. Balcer mentioned holding internal meetings across Planning & Development Services, Environmental, Public Works/Roads, Health Department, and County Administration to analyze the unreported plat/non-conforming lot issue, design and develop specific policy and procedural options. and prepare a detailed proposal to present back to the Board within the coming months.

George Landry, County Administrator, commented and advised that staff would speak to the Board individually to outline a plan to discuss the issue further for the framework, and prepare a detailed proposal to present back to the Board within the coming months.

The Board did not have any further questions or comments.

No formal direction or action was taken; staff will follow up with the Board regarding the suggestions made.

C. SLC Economic Incentive Program Draft Revisions

Benjamin Balcer, Planning & Development Services Director, presented an update of the County's Economic Incentive Programs for targeted industries. This effort is focused on improving transparency, consistency, and accountability, while ensuring economic incentives are aligned with measurable economic outcomes. He highlighted the relevant statutes that allow counties to invest in economic development as a valid public purpose, supporting job creation, tax base, and economic expansion. The key takeaway is that while the incentives are authorized, they are expected to deliver measurable public benefit, and the updates better align the County's program with that expectation. In addition to expedited building permitting, the County currently has three performance-based monetary incentives available to new or expanding businesses that fall within the County's targeted industry list. These incentives include the County's job growth investment grant, impact fee mitigation, and ad valorem tax exemption. These programs have been effective, but they operate independently from each other and without a unified evaluation framework. The eligibility is largely based on minimum thresholds, primarily job creation, a minimum of 10 jobs, and wages of at least 107% of the County's average wage, which for this year is $26.33 per hour. While that establishes a baseline and doesn't fully differentiate between projects to deliver varying levels of economic benefit. The County's job growth investment grant program was created in 1994 to attract new businesses. The program has done an excellent job of creating employment opportunities within the County. The grant pays a new or expanding targeted industry company based on the number of jobs they create over five years. The program pays the company a minimum of $1,500 per job. However, the company can receive bonuses up to $3,075 per job based on the number of jobs created, paying a higher average wage, hiring more than 90% of St. Lucie

County residents, and using local construction contractors. The grant requires annual compliance reporting and stipulates that if a company meets 85% of its job creation goals for that year, the grant can be prorated based on the actual job creation and further reduced by 50%. The company also receives no grant payment for failure to achieve 85% of its yearly job creation goal. While this program is performance-based, it is still somewhat rigid and not applied consistently across all programs. The Job Growth Investment Program (JGIG) also includes clear claw-back language if a company decides to relocate outside of St. Lucie County within five years of their last JGIG payment. The Impact Fee Mitigation Program provides discretionary mitigation for road impact fees with multiple eligible pathways. Impact Fee Mitigation agreements are approved by the Board, and at that point, the County is responsible for paying the company's impact fees using funds that cannot be derived from impact fee dollars. The terms of these agreements require annual reporting to ensure wage and job creation commitments are met, but there are no clear claw-back provisions established. It also relies on separate eligibility pathways, rather than a comprehensive evaluation of overall economic impact. The third incentive is the County's Ad Valorem Tax Exemption, which the Board may grant to a targeted industry that has relocated to St. Lucie County or is expanding. County voters have approved the Board's ability to grant these exemptions in 1992, 2002, 2012, and most recently in 2022. These exemptions are typically granted on a declining scale. However, it has become common for a more one-size-fits-all exemption that provides for 100% ad valorem exemption for the first one through five years and a declining exemption for years six through ten, ending in a 20% ad valorem exemption. Once the tax exemption is approved, the company must provide annual reports to the County and the Property Appraiser to verify compliance with job creation and wage level requirements. In 2003, the Board approved tax exemption program guidelines that create a point system intended to be used to develop the tax exemption scale for the projects. Points are based on the number of jobs created, average hourly wage, and capital investment. This idea and the criteria behind the point system are the basis for the new Scoring Matrix, which aims to standardize the incentive programs. So, it is not a new concept. It's an expansion and formalization of what the County has already been doing since 2003. The public needs to know the County is not starting from scratch. The County already uses elements such as scoring, performance thresholds, tiered incentives, and compliance reporting. However, these tools are not consistently structured or applied across all of the incentive programs. Through the review, the staff identified several gaps, including a lack of a consistent scoring system, limited differentiation between projects, inconsistent application across programs, and the need for stronger compliance and enforcement tools. The proposed framework directly addresses each of the gaps.

The key shift, previously programs were evaluated independently and largely on a case-by-case basis. Under the proposed framework, all incentives are evaluated under a single, unified system using a standardized Scoring Matrix. This is the structural change for the programs. Another major change is how incentives are rewarded. Another major change is how incentives are rewarded, and previously, they were largely negotiated or based on typical structures. The proposal includes incentives that are directly tied to the paid project score, creating a consistent and transparent connection between economic impact and incentive level. In other words, the incentive is no longer negotiated, is earned based on measurable economic outcomes. One of the most significant updates the program shifts to a fully performance-based system. Incentives are proportionate to actual performance, with a minimum threshold of 70% required for payment eligibility. If the performance falls below 70%, no payment is made. Additionally, the County will have clear authority to require repayment either full or prorated, and those obligations will survive the termination of any agreement. Also, a clear timeline requirement has

been added. Any approved incentive must move forward within 24 months, or it expires, unless extended by the Board of County Commissioners. This prevents projects from remaining inactive indefinitely and ensures that projects are prioritized that are ready to move forward. The updated framework introduces a standardized scoring system based on jobs, wages, and capital investment. Bonus criteria have also been included for large-scale projects and catalytic projects, which have the most economic benefit. The scoring framework has been applied across each incentive program. The JGIG is now structured with a base per job value, similar enhancements to the current JGIG program, and the final award is tied to the company's score. Higher impact projects receive proportionately higher incentives. The per-job value can't exceed $2,500 per new job, but the opportunity was taken to increase the project cap from $1.5 million to $2.5 million. The criteria for the JGIG bonus eligibility include substantially higher than the County average wages, high capital investment, and increases for hiring over 90% local residents and using local contractors. The annual reporting requirements have been continued, and clarified that the Board has the authority to require repayment for failure to meet obligations, relocation, or cessation of operations. The Impact Fee Mitigation Program now requires a minimum score and aligns mitigation with the overall project impact. This ensures that the County is only providing direct financial subsidies to projects that demonstrate a minimum level of economic benefit. It has been clearly stated that the Board has sole discretion on awarding this incentive and included language that would require repayment of the impact fees if the performance obligations are not met. The Ad Valorem Exemption Incentive now ties duration and value of the exemption directly to the project score. The revisions identify a recommended schedule based on the economic impact and retain the maximum exemption for those projects with significant economic impact. Again, the Board retains the right and full discretion to grant the tax exemption incentive, as well as the adopted exemption schedule. The annual compliance reporting is still required to maintain eligibility. Clear clawback language has been included if performance obligations are not met, or the company relocates outside of St. Lucie County. It has been added that the Board may authorize a pro-rated exemption if the company achieves at least 70% of its performance obligations. However, if it is less than 70%, they would forfeit the exemption for that year. This ensures that the exemption is directly tied to actual performance each year.

From the last presentation, the Board requested to increase wage expectations, develop a consistent scoring mechanism to ensure that projects providing the greatest economic benefit received a proportionate incentive package, strengthen compliance reporting and clawback provisions across all programs, and establish timelines for project commencement. The updates directly address those priorities from the Board. The updates result in a setup program that ties the award to measurable economic outcomes, applies consistent evaluation across all projects, protects the use of public funds, and sets clear expectations for applicants. Overall, this creates a more transparent, defensible, and performance-driven framework and maintains the full discretion of the Board.

Staff requested that the Board provide input and policy direction on the County's Economic Incentive Programs.

Discussion

Commissioner Leet questioned the rationale behind using 35 hours instead of 40 hours for full-time equivalents (FTEs). In response, Mr. Balcer explained that the 35-hour threshold has been consistent since the initiation of the county's incentive program.

Wes McCurry, President of the St. Lucie County Economic Development Council (EDC), addressed the Board and confirmed that the 35-hour threshold is consistent across most jurisdictions that offer incentives. He mentioned a statewide incentive survey conducted with the Florida Economic Development Council, and the good feedback regarding the FTE's.

Commissioner Leet asked if the hours affected the FTE benefit package. In response, George Landry, County Administrator, explained that the federal rules require benefits for employees working over 30 hours a week on average, aligning with the County's policy. The full-time analysis on the federal side ranges between 35 and 40 hours.

Commissioner Leet asked if the EDC had any feedback on the benefit package and the scoring matrix. He also asked about the competitiveness of the county's incentive package compared to surrounding counties. In response, Mr. McCurry praised the scoring matrix and tiered award approach that the staff put together. Overall, the approach is consistent with survey findings, which were a need to update the point system and transition to a tier-based award that is focused on a higher tier for higher wages and higher economic impact, and lower awards for lower economic impact. He suggested comparing the County's scoring system with the one developed by the staff and EDC to fill in gaps. In terms of competitiveness, the County is situated well compared to other counties. The package of incentives that St. Lucie County offers is fairly competitive compared to its peers.

Commissioner Leet provided a historical context of the County's transition from a citrus economy to a distribution center. He highlighted the increase in wages to 120% and the role of the EDC in replacing the dying citrus industry, the importance of raising employee wages to compete with surrounding counties, and encouraged the Board to work together to make the incentive package more competitive.

Commissioner Clasby discussed government intervention and the previous economic incentive program. He commented on the hourly wage and percentage, noting the $38.26 hourly wage for affordable housing under the Live Local Act. In response, Mr. Balcer explained the difference between the MSA average wage and the County's average wage, with the County's average being $24.61 an hour.

Commissioner Clasby, staff, and Mr. McCurry discussed the need to set a higher standard for wages and only waive road impact fees for the highest categories. He suggested pushing developers to provide workforce housing at a higher AMI range. He discussed the baseline level for incentives, the points/scoring system, road impact fees eligibility, Area Median Income (AMI) limits/conversion, the increase in wages, workforce housing, the County's incentive program, the number of road impact fees waived for a specific project, and the adequacy of current wage standards.

Commissioner Lowry thanked the team for their hard work and acknowledged the need for further refinement of the incentive package. She asked if other counties waived 100% impact fees, and in response, staff advised yes.

The Board discussed the threshold of full-time equivalent hours, wages, and the affordability of housing for median-income county residents.

In response to the Board discussion, Mr. Landry suggested that staff continue working on the incentive package to ensure it meets the County's goals and standards. Staff will formalize a plan based on the feedback and come back to the Board for finalization.

The Board did not have any further questions or comments.

No formal direction or action was taken; staff will follow up with the Board regarding the suggestions made.

D. Budget Discussion - ADD ON - ATTACHMENT AMENDED

George, Landry, County Administrator, discussed and clarified Florida CFO Blaise Ingoglia's most recent press conference statement regarding discrepancies in the County's budget projections, which indicate overspending. He advised that the staff is not disputing his methodology or intentions. The purpose of the discussion is to highlight some points of clarity from the budget book, as the CFO and his team did not reach out to anyone at the County for input. The CFO pulled all the data from the County website and the budget book on the website. Mr. Landry advised that the CFO's presentation included a six-year spending review, identifying $46 million and $123 million in growth and taxes from FY 20 to FY 26. He identified a 72,000 population growth of about 22%, and made a statement that the County grew by 212 FTEs based on his presentation. The formula the CFO utilized, which he called an acceptable general fund budget, took the base budget year and had an index factor representing the population growth and inflation at an acceptable level. He reviewed the base year of FY 20, which was adopted on October 1, 2019, working from estimated numbers rolling into that budget. Going back to the time of FY 2020, the information that was provided to the Board at the time of adoption would have been from January through August of 2019, to adopt a budget from October 1. The CFO then compared it against the FY 26 budget, which was adopted on October 1, 2025. The CFO utilized a five-year factor on six years of his numbers. Looking back at other entities, the CFO ran a five-year budget against a five-year analysis, and for the staff, it was a five-year analysis with a six-year budget run. The CFO basically provided his index factors based on five years, which was a 22.01% population growth, which was the population growth from FY 2019-2020 through FY 2025, and not counting FY 2026. The CFO also utilized an inflation of 25.5% for the same time frame, which was a five-year inflation using the six-year budget process. When using the CFO's same formula over the six years, the County has a 27.38% population growth. Staff attempted to mimic the same inflation numbers and struggled to come up with the information he presented, and are hoping to get the same formula from the CFO and bring it back to the Board in the future. But if the raw numbers of 25.5% are used and divided by five years, the inflation growth is about 5.1%, which is what the CFO allowed, which is favorable. If the numbers are run over six years, it would be 31.3%. Mr. Landry advised that numbers were run through the US Labor of Statistics and ran over six years, coming up with 27.32%, which is close to the CFO's five-year assumptions over six years. The numbers will be provided based on both calculations.

Mr. Landry provided a detailed breakdown of the budget books, comparing FY 2020 and FY 2026 budgets. In the budget book, FY 2020, page 119 of 440 pages, the CFO utilized an assumption, which was that the general fund revenue was $162,006,140 of ad valorem tax collected from residents, commercial, and everything in the County. In the budget book, FY 2026, page 116 of 424 pages, the general fund number is $285,146,261, which are the two numbers used, and the CFO pulled from the budget books. However, in both books for FY 2020, page 111 of 440 pages, the (001) General Fund Ad Valorem account, where the

money is collected, and the amount is $154,932,962, and the (001S) Sub-fund is $7,073,178, which are grants and possibly leftover Covid-19 funding, and not from ad valorem collection/tax money. Same with FY 2026, page 110 of 424 pages of the budget book online account (001) General Fund reviews $263,723,697 and (001S) Sub-Fund account at $21,422,564, which is grant money, American Rescue Plan, and other funds. The CFO only discussed tax money and what was collected and assessed by the residents and businesses, etc. In the analysis that was completed, there is an increase of $108,790,735, which is 70.22%, and by including the sub-funds, the CFO came up with his numbers of $123,140,121, which is 76.01%. The claim is that the County grew by $123 million, and the response is pulled from the budget book, which technically shows the County grew by $108 million. This is only a 6% difference from what the CFO previewed in his press conference. In review of the source of the population and the CPI index, the CFO had 22.01% for population growth and 25.5% for inflation, which both equated to five years. That information can be found in the Florida DOGE Report on Local Government Spending, January 2026, which cites the University of Florida Bureau of Economic and Business Research (BEBR) as the source for population growth and the U.S. Bureau of Labor Statistics as the source for inflation. Using the same resources over six years, it will be viewed with 27.38% for population growth for St. Lucie County and 31.3% for inflation, based on staff trying to understand the CFO's formula. Or staff can pull down to the 27.32% factor from the Bureau of Labor Statistics. Just as a caveat, when the Bureau of Labor Statistics was used for over five years, staff could not mimic the 25.5% either, therefore it is a variance. If staff were able to use the formula and find how the CFO calculated 25.5%, they would have shown that and used that same methodology.

Mr. Landry explained in a recap that staff identified the total as $108 million, and the CFO identified $123 million, which included sub-funds. Taking $123 million and applying the CFO's five-year formula, considering FY20, which is $162,006,140 multiplied by the 25.5% inflation rate and the 22.01% population growth, there is a targeted budget of $238,975,257. The target amount minus the number the CFO utilized, which is the FY26 $285,146,261, equates to the number the CFO came up with, which is the $46,171,004. Everything matches what the CFO presented and can be found in the budget book. When the correct aspects are applied with the same formula, utilizing the same process, but over six years for FY20, is $154,932,962, multiplied by 31.3% inflation rate, and 27.38% population growth equals a target budget of $245,847,624 verses the $238 million the CFO showed. The target amount minus $263,723,697 equates to a difference of only $17,876,073. With the alternate inflation rate of 27.32%, the difference equates to $24,042,405. Both are less than the CFO's amount shown. The CFO also claimed that the County grew by 212 FTE's since FY20. In response to this, in the FY26 budget book on page 35 of 424 pages, the County only grew by 131.85 FTE's for St. Lucie County. The CFO may have made an assumption and included some of the constitutional offices and other agencies, in which the County has no control, regarding FTE counts. Mr. Landry advised that 54 of the 131.85 FTEs were not from the General Fund. They were utility/building employees who came from funds that tax money was not going into. Technically, the County is much less of a growth than that number, with less than 80 FTE's over that period of time and growth. The County FTE is 50.4, less than it was in 2007, which was 982 FTE's serving a population of just over 200,000. The County is at 932 FTE's serving a population of almost 400,000, which is referenced in the budget book. On page 101 of 440 pages of FY20, the adopted 800.53 FTE's can be reviewed, and FY26 page 99 of 424 pages 932.38 FTE's can be viewed. The third claim the CFO referenced at approximately 13:10 minute timestamp during the press conference, is that the additional funds should have been used towards infrastructure and capital. In response, Mr. Landry explained that from FY24 to FY26 of the existing Board, there has been over $49 million invested in infrastructure and capital

due to growth. It breaks down in the FY24 budget of the money collected in the ad valorem; the Board moved $15,817,000 into capital and infrastructure, and it did not go to operational or recurring funds, etc. He advised that a majority of the $15 million went to outside agencies supported by the Board, which are constitutionally required. A small portion of the funding went to internal Board aspects. In FY25, the number grew, in addition to the $15 million from the year before, to $19,350,000 in FY20 alone in capital investments and infrastructure. In FY26, an additional $14,262,000 went into those investments as well.

In conclusion, Mr. Landry advised that the CFO's presented a six-year process at $46,176,241 and $123,140,121 (76.01%) growth, population growth of 72,452 (22.01%), and 212 FTE's added. With the actual six-year spending review being at $17,876,073, and $108,790,735 (70.22%) growth, population growth of 84,675 (27.38%), and 132 FTE added, with 54 not from tax money. He expressed the need for clarity and advised that the CFO's methodology is not being disputed or anything stated. He suggests that the Board consider the long-term impact of adopting a consistent methodology for budgeting.

Discussion

The Board discussed the CFO's statements during the press conference and the accuracy of the information provided, the need for transparency and accountability in budgeting, growth, historical perspective on budget cuts/budget cuts, forensic audits, property taxes, homestead exemptions, and potential savings. The number of unfilled FTE positions was mentioned, as well as motor pool vehicle expenses, and the need for a breakdown of expenses in each department.

Chair Fowler discussed the Board's commitment to transparency and accountability, and the invitation of the CFO for a review. She mentioned the concept of zero-based budgeting, where everything is accounted for from scratch, the importance of accurate FTE counts and budget numbers, discrepancies, and wasteful spending. The goal of the discussion was to clarify numbers without being adversarial, ensuring an accurate representation of financial data.

Commissioner Clasby's proactive approach involved preparing for the CFO's visit by assuming the worst and ensuring all details were covered. He acknowledged that the algorithm used is generic and not a forensic audit, and discussed budget cuts, accountability for current and future actions, and the board's budget process. He mentioned the need for a worksheet to help determine where 3% cuts should come from, avoiding essential services like public works. He advised that departments should be prioritized regarding the cuts and programs that are fee-based or subsidized by the general fund. He suggested removing the subsidy from the general fund and having them operate solely on the fees they generate. He expressed the importance of providing significant input to the administrator to make informed decisions.

Commissioner Leet stated that he spoke with the CFO after the press conference and suggested conducting a forensic audit of the County, to which the CFO responded that it would possibly be by the end of the year. He advised that the Board is attuned to tax concerns and the millage rate, growth, and associated expenses.

Chair Fowler mentioned last year's budget and the claim of $23 million left in the budget. In response, Jenniffer Hill, Office of Management & Budget Director, advised that the discussion was related to the fund balance and the reserves. The original estimated fund balance in last year's budget was $92.1

million, and the actual amount was just under $113 million, making it a $21 million difference in the general fund, including the sub-funds. She advised that $8 million of the 21 million was related to grants and sub-funds, with restrictions tied to it; another $8.9 million was related to capital projects that needed to be carried over to the next year's budget. Almost $17 million of the $21 million was already obligated with restrictions. There was $3.9 million left unrestricted and was allocated in the budget when the fund balance was true-up last year. That difference assisted in the purchase of the Liberty Medical Building as well as replenishing some of the reserves that were depleted after Hurricane Milton.

The Board did not have any further questions or comments.

4. COMMISSIONER COMMENTS

Commissioner Clasby commented, expressing concerns about the meeting attendance policy for County Commissioners and the number of allowable absences. He suggested that, in future meetings, a formal roll call be held to record at the beginning of the minutes which commissioners are present.

George Landry, County Administrator, referenced the Florida Statute Section 125, stating that the policy is at the will of the governor's office, controlled by Tallahassee, and not quantifiable at the County level regarding commissioner attendance.

Commissioner Clasby asked if the Board could vote if public comment was allowed during the Informal meeting. In response, Katherine Barbieri, County Attorney, clarified that the meeting is informal due to the lack of public comment, but it could be formalized with voting rights.

Commissioner Clasby discussed the need for clear rules and decorum for public comment, including prohibitions on props and campaigning. He suggested adopting a practice similar to Fort Pierce, where public commenters are shown a PowerPoint outlining the rules.

Mr. Landry detailed rules from the agenda, emphasizing the need for concise, respectful comments and the Chair's responsibility to enforce decorum.

Commissioner Leet expressed the desire to maintain the County's reputation and avoid actions that could harm its image.

The Board discussed the rules and decorum for public comment at County commission meetings and the importance of all board members participating in enforcing decorum to avoid awkward situations. The enforcement process was explained, including warnings and potential removal from the meeting if rules are breached. Suggestions were made to display the rules on TV screens to make them more visible to the public. The Board agreed to enforce the rules more strictly to maintain order and respect for all participants, while still upholding First Amendment rights.

The Board did not have any further questions or comments.

5. ADJOURNMENT

With no other information to be brought for consideration before the Board, the meeting was adjourned at

11:46 AM.

Please note: Final minutes are recorded in the official minute books filed with the Clerk of the Circuit Court and Comptroller, which are available for inspection upon request. **(Full Audio Available Upon Request)**

AGENDA REQUEST

9.B.1.
2026-565
CONSENT AGENDA - AIRPORT
DATE: **5/5/2026**
*ACTION ITEM - BOARD ACCEPTANCE
QUASI-JUDICIAL ITEM? No

TO: **Board of County Commissioners**

PRESENTED BY: Cameron Howard, Airport Director

SUBMITTED BY: Airport

SUBJECT: Garland Roofing Material & Services Proposal for Airport Main Terminal Roof - $244,235.00

BACKGROUND:

Garland/DBS Inc. supplies the Greenlock Plus Roof Membrane with a 30 year warranty. Garland/DBS Inc. put out a bid to roofing contractors to install the Greenlock Plus Roof Membrane at the AIrport Main Terminal. The 4 roofing companies responded were: Rack'D Roofing & Construction $244,235.00, All System Roofing $268,644.00, Triple M Roofing $350,549, and Crawford Roofing $368,039.00. The lowest bid was Rack'D Roofing and Construction 2605 Orange Ave, Fort Pierce = $244,235.00.

PREVIOUS ACTION:

N/A

FINANCIAL IMPACT:

Total Project Funding of $244,235.00 will be made in account # 316-4210-546200-420000 (Maintenance Improvement Projects).

RECOMMENDATION:

Staff recommends Board acceptance of Garland Roofing Material & Services Proposal for the Airport Main Terminal Roof $244,235.00 and authorization for the Chair to sign documents as approved by the County Attorney. This initiative is in accordance with ECON 2.4.3.

COMMISSION ACTION:

RESULT:	
MOVER:	None
SECONDER:	None
AYES:	None
NAYS:	None

EXCUSED:	None

ROOFING MATERIAL AND SERVICES PROPOSAL

St. Lucie County
Treasure Coast International Airport
3000 Curtis King Blvd.
Fort Pierce, FL 34946

Date Submitted: 4/02/2026
Proposal #: 25-FL-260087
MICPA # PW1925
Florida General Contractor License #: CGC1533467

Purchase orders to be made out to: Garland/DBS, Inc.

Please Note: The following budget/estimate is being provided according to the pricing established under the Master Intergovernmental Cooperative Purchasing Agreement (MICPA) with Racine County, WI and OMNIA Partners, Public Sector (U.S. Communities). The line item pricing breakdown from Attachment C: Bid Form should be viewed as the maximum price an agency will be charged under the agreement. Garland/DBS, Inc. administered an informal competitive process for obtaining quotes for the project with the hopes of providing a lower market-adjusted price whenever possible.

Scope of Work:

1. Remove and discard disconnected solar panels.
2. Contractor shall be responsible to hire proper personnel with experience removing solar panels to avoid any residual electrical current still in the system.
3. Contractor shall cut membrane in an “X” in 10’x10’ sections.
4. Mechanically fasten ½” DensDeck Prime over the existing roof system into the steel deck per approval.
5. Install Flexbase plus 80 base sheet set in GreenLock Plus Membrane zero VOC adhesive
   a. Base sheet will be relaxed prior to installation
   b. Base sheet must not exceed 18’ of continuous run
   c. Base sheet must have 8” end laps
   d. Base sheet must have heavy roller to ensure contact with coverboard
6. Install Stressply Plus FR Mineral set in Greenlock Plus Membrane zero VOC adhesive.
   a. Cap sheet will be relaxed prior to installation
   b. Cap sheet must not exceed 18’ of continuous run
   c. Cap sheet must have 8” end laps
   d. Cap sheet must have heavy roller to ensure contact base sheet.
7. Night time tie in must use GreenLock Membrane Flashing Grade
   a. If plastic cement or any other solvent based product is utilized it must be cut out and removed entirely prior to commencement of work

8. Any curbs that are not compliant with 8” height above the new roof plane must be raised to compliance (exception covered skylight curbs install crickets over existing cap and roof over)
   a. Termination bar must be utilized for termination of membrane at all curbs
   i. GreenLock XL sealant must be used on the top side of all termination bar

9. Install Flexbase plus 80 base sheet up and over all coping edges, terminate on the outside of the wooden nailer.
   a. Install Cant Strip at all 90 degree transitions
   b. Base sheet will extend 6” onto the field of the roof
   c. Base sheet will be installed with GreenLock Plus Flashing Grade
   i. Coverage rate will be 4 gallon per 100 sf
   d. Used weighted hand roller to ensure full contact with substrate
10. Install Stressply Plus FR Mineral up and over all coping edges, terminate to the outside of the wood nailer simultaneously with base sheet.
   a. Install Cant Strip at all 90 degree transitions
   b. Cap sheet will extend 8” onto the field of the roof
   c. Cap sheet will be installed with GreenLock Plus Flashing Grade
   i. Coverage rate will be 4 gallon per 100 sf
   d. Used weighted hand roller to ensure full contact with base sheet.
11. Remove existing coping stone palletize for the purpose of re-utilizing
   a. Any existing or broken during removal of coping stone must be replace with like size, profile, color, and dimension.
12. Install R-Mer Seal high temp underlayment over the parapet wall
   a. R-Mer seal should lap the base and cap sheet a minimum of 4”
13. Install termination bar through the base sheet and cap sheet on the inside of the parapet wall
14. Install all new Rmer Edge Coping, 040 aluminum, Kynar coated.
15. Install all new slip metal using 032 aluminum, Kynar coated.
16. Install all new 24ga stainless steel scupper sleeves, all seams to be soldered.
17. Place all conduit and condensation lines on rubber based stands. Condensation lines to be tapered at 1/8” per foot.
18. Install all new 24ga stainless steel pitch pockets with umbrellas.
   a. All Seams shall be soldered.
   b. Fill the bottom ¾ with Gar_Rock fast curing concrete.
   c. Fill the top ¼ with Seal_Tite pourable sealant.
   d. Install stainless steel umbrella the fully covers the entire pitch pocket.
19. Install all new lead around all drains per detail.
20. Stop the installation of the cover board 3’ from the drain bowl and taper the edge. Mechanically fasten HPR Tribase Premium directly to the wood deck from the tapered edge to the drain bowl.
21. Paint all drain strainers “Fire Engine Red.”
22. Apply one coat of SilverShield at 2gal per square on the field of the roof.
23. Install Garlabrite at 1gal per square on all vertical flashings.
24. Contractor shall issue 5 Year, Labor and Installation Warranty.
25. Garland shall issue 30 Year, Edge to Edge, Watertight Warranty.

Scope of Work: Addemdum #1

1. Contractor shall remove existing, non-utilized conduit for solar panels connections into the building and properly dispose.
2. Contractor shall be responsible to raise any mechanical units to meet code requirements.
3. Leader heads and downspouts are to be re-used.

4. Two Piece Counter Flashing:
   a. Receiver shall remain in place.
   b. New male slip metal to be installed, fabricated from Garland Flat Stock.
5. Walkway Pads:
   a. Mirror existing pattern around mechanical units.
   b. Apply Liquitec Base Coat at 1.5gal per square, properly tape oV for pattern.
   c. Broadcast white granules at 40lbs per square.

Attachment C: Bid Form - Line Item Pricing Breakdown

Item #	Item Description	Unit Price	Quantity	Unit	Extended Price
4.10	Insulation Recovery Board & Insulations Options: RECOVERY BOARD TYPE 1/2" Treated Gypsum Insulation Board with Glass-Mat (e.g. DensDeck / Securock / Equal) Installed Over an Existing Roof Mechanically Fastened to Roof Deck - Wood / Tectum Deck	$ 2.93	6,000	SF	$ 17,577.00

20.01.20	NEW FLASHINGS FOR ROOFING SYSTEMS & RESTORATION OPTIONS: ROOF FLASHINGS FOR MODIFIED & COAL TAR PITCH ROOF SYSTEMS: Minimum 1 Ply of Base Flashing and Mineral Cap Sheet Installed in Hot ASTM D 312 Type III or IV Asphalt PER SQUARE FOOT COSTS - INSTALLING IN COLD PROCESS FLASHING ADHESIVE Substitute Hot Asphalt Application for No VOCs, 100% Solids Cold Process Flashing Adhesive Application	$ 14.70	1,200	SF	$ 17,640.00
	Metal Stretch Out: Rmer Edge Coping .040 Aluminum	$ 50.49	600	LF	$ 30,294.00
	Sub Total Prior to Multipliers				**$ 212,259.00**
22.20	MULTIPLIER - ROOF SIZE IS GREATER THAN 5,000 SF, BUT LESS THAN 10,000 SF Multiplier is applied when Roof Size is greater than 5,000 SF, but less than 10,000 SF. Situation creates the fixed costs: equipment, mobilization, demobilization, disposal, & set-up labor to be allocated across a smaller roof area resulting in fixed costs being a larger portion of the overall job costs	20	212,259.00	%	$ 42,451.80
22.02	MULTIPLIER - SECURE ACCESS IS REQUIRED TO WORK ON ROOF OR WALLS Multiplier is applied when labor production is effected daily by the lost time in getting through security or getting access to the job site. Situations include, but are not limited to clearing each employee and all tools through metal detectors, passing through security gates with vehicles, tradespeople and equipment, stringent background checks or higher clearance levels, etc.	18	212,259.00	%	$ 38,206.62

22.05	MULTIPLIER - NIGHT, WEEKEND OR HOLIDAY WORKING HOURS Multiplier is applied when increased labor burdens are required due to working hours being limited to nights (equivalent of 3rd shift), weekends or holidays.	32	212,259.00	%	$ 67,922.88
	Total After Multipliers				**$ 360,840.30**

Base Bid Total Maximum Price of Line Items under the MICPA:	**$ 360,840**
Proposal Price Based Upon Market Experience:	**$ 244,235**

Garland/DBS Price Based Upon Local Market Competition:

Rack'D Roofing & Construction - 2605 Orange Ave. Fort Pierce, FL 34947	**$**	**244,235**
All Systems Roofing - 855 S Kings Hwy, Fort Pierce, FL 34945	$	268,644
Triple M Roofing - 914 NW 19th ave Miami FL 33126	$	350,549
Crawford Roofing - 4890 Okeechobee Rd., Fort Pierce, FL 34947	$	368,039

Potential issues that could arise during the construction phase of the project will be addressed via unit pricing for additional work beyond the scope of the specifications. This could range anywhere from wet insulation, to the replacement of deteriorated wood nailers.

Please Note – The construction industry is experiencing unprecedented global pricing and availability pressures for many key building components. Specifically, the roofing industry is currently experiencing long lead times and significant price increases with roofing insulation and roofing fasteners. Therefore, this proposal can only be held for 30 days. DBS greatly values your business, and we are working diligently with our long-term suppliers to minimize price increases and project delays which could effect your project. Thank you for your understanding and cooperation.

Clarifications/Exclusions:

1. Sales and use taxes are included.
2. Plumbing, Mechanical, Electrical work is excluded.
3. Masonry work is included to which it obtains to the scope of work.
4. Interior Temporary protection is excluded.
5. Prevailing Wages are excluded.
6. Any work not exclusively described in the above proposal scope of work is excluded.

If you have any questions regarding this proposal, please do not hesitate to call me at my number listed below.

Respectfully Submitted,

Nathan Parker

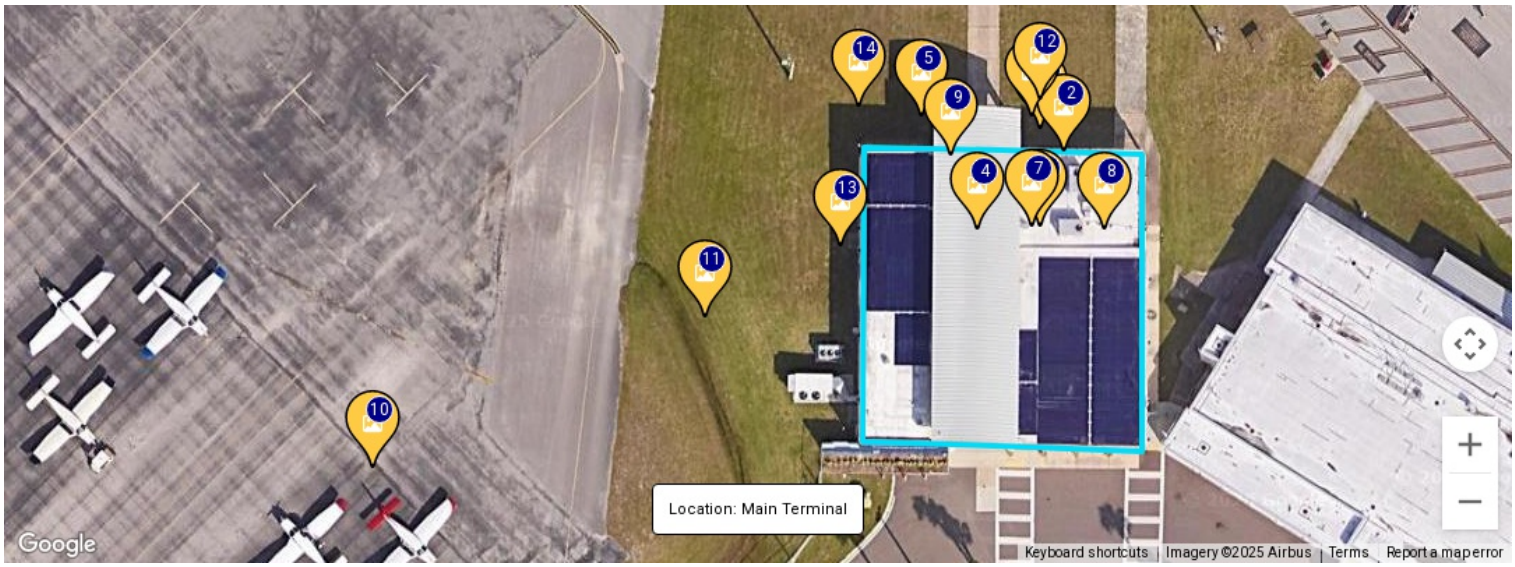
Photo Report

ST. LUCIE COUNTY
2300 VIRGINIA AVE.
FORT PIERCE, FLORIDA 34982

FACILITY: Treasure Coast Airport	**ROOF SECTION:** Main Terminal	**TITLE:** Visual Assessment: Leak Investigation	**DATE:** 09/05/2025

Map



Summary

Two leaks were observed.

Pipe boot failure around the third leg. This should be removed and replaced and properly sealed.

Second leak is coming from the downspout straps. The leader head and downspout to be removed. Tap con voids to be sealed. New straps to be fabricated and installed with sealant applied prior to installation.

Joint sealant to be applied under the coping cap by the downspout leak as well due to driving rain issues.

Estimated cost for leak repairs: NTE $4500

1

Location of leak is below the third leg of the railing system.

2

Leak is directly below this pipe boot.

3

Water observed dripping from the spray foam.

4

Leak is in line with the downspout and leader head.

5

Staining of the tiles indicating water intrusion.

6

Exterior cracking observed on the stucco.

7

This should be crimped back in place, pop rivets installed.

8

Overview of the right side of the rear terminal roof.

9

Missing soffit.

10

Location of leak due to tapcons not being properly sealed when the downspout straps were installed.

11

Water is believed to be running behind and coming in where the downspout straps are fastened into the wall.

12

Active water leak.

13

Extensive gap on the coping cap, this should be sealed to prevent driving rain from entering the building.

14

Water is coming from the third leg of the railing system.

TROXLER – 3216 SCANNER FIELD DATA READINGS

Test Apparatus: Troxler 3216 Nuclear Scanner Meter

A nuclear scanner meter emits neutrons from a radiation source within the meter downward to the roof assembly. The meter registers a relative reading, not percentage of moisture, which is later calibrated to the lab-tested core samples.

Test Date: **12/18/2025**

Tested By: **D. D'aquila & W. Morrobel**

MOISTURE SURVEY

TRCI Job No: **25-686-MS**

Page: **6**

SCOPE OF WORK

- A non-destructive procedure to test for the presence of moisture in roof system assemblies.
- Subsequence destructive core sampling and laboratory testing performed to determine moisture content by weight and calibrate the nuclear readings.
- Moisture contents over 5% in the roofing membrane, and over 8% in the insulation are considered not suitable to roof over, per the Florida Building Code, Section 1521.12.
- This test has been conducted in accordance with TAS-126-95 of the test protocols for the High Velocity Hurricane Zone of the 2023 Florida Building Code.

CONCLUSIONS

ROOF 1

Moisture content in the Single-Ply roof membrane is below 5% and considered acceptable per the 2023 Florida Building Code, Section 1521.12. Moisture content is below 8% in the DensDeck & Polyiso insulation and is considered acceptable per the 2023 Florida Building Code, Section 1521.12. See Gravimetric Analysis sheet (page 5 of this report) for percentages of moisture by weight.

Cal Date: 01-Oct-25
Cal. Due Date: 01-Oct-26
Cal. Interval: 12 MONTHS - DAY-MONTH-YEAR
Received: IN TOLERANCE
Calibration Result: PASS
Environmental Conditions: 78 DEG F / 50 % RH
Performed By: MARIO LOPEZ JACOME
Procedure: SYN141

This is to certify that the above listed instrument meets or exceeds all specifications as stated in the referenced procedure at the points tested (unless otherwise noted). It has been calibrated using measurement standards traceable to the SI units of measurement via NIST, or to NIST accepted intrinsic standards of measurement, or derived by the ratio type of self-calibration techniques. This calibration is in accordance with Kimball Electronic Laboratory, Inc Quality Assurance Manual. KELI's Quality system is A2LA-Accredited to ISO/IEC-17025:2017 and compliant with MIL-STD-45662A and ANSI/NCSL Z540-1-1994. TURS when applicable are greater than or equal to 4:1 except where noted with expanded uncertainty used to calculate the Test Uncertainty Ratio, with a coverage factor of K=2 at a confidence level of approximately 95%, unless otherwise noted.

All measuring equipment used for calibration meets a 4:1 TAR or better, except where noted

Any number of factors may cause the calibration item to drift out of calibration before the recommended interval has expired.

KELI will not take into account measurement uncertainty on conditional statements such as in tolerance, out of tolerance, pass and fail. Keli's conditional statements will only take into account the nominal value at a specific test point +/- the tolerance. Measurement uncertainty will be stated on the certificate and where applicable at each measured test point.

KELI shall allow the customer to assess and conclude if the results meet their specific needs.

TROXLER – 3216 SCANNER FIELD DATA READINGS

Test Apparatus: Troxler 3216 Nuclear Scanner Meter

A nuclear scanner meter emits neutrons from a radiation source within the meter downward to the roof assembly. The meter registers a relative reading, not percentage of moisture, which is later calibrated to the lab-tested core samples.

Test Date: **25-686**

MOISTURE SURVEY

TRCI Job No: **25-686-MS**

Page: **6**

SCOPE OF WORK

- A non-destructive procedure to test for the presence of moisture in roof system assemblies.
- Subsequence destructive core sampling and laboratory testing performed to determine moisture content by weight and calibrate the nuclear readings.
- Moisture contents over 5% in the roofing membrane, and over 8% in the insulation are considered not suitable to roof over, per the Florida Building Code, Section 1521.12.
- This test has been conducted in accordance with TAS-126-95 of the test protocols for the High Velocity Hurricane Zone of the 2023 Florida Building Code.

CONCLUSIONS

ROOF 2

Moisture content in the Single-Ply roof membrane is below 5% and considered acceptable per the 2023 Florida Building Code, Section 1521.12. Moisture content is below 8% in the DensDeck & Polyiso insulation and is considered acceptable per the 2023 Florida Building Code, Section 1521.12. See Gravimetric Analysis sheet (page 5 of this report) for percentages of moisture by weight.

Specifications: +/- 0.02 GRAMS

Cal Date: 01-Oct-25
Cal. Due Date: 01-Oct-26
Cal. Interval: 12 MONTHS - DAY-MONTH-YEAR
Received: IN TOLERANCE
Calibration Result: PASS
Environmental Conditions: 78 DEG F / 50 % RH
Performed By: MARIO LOPEZ JACOME
Procedure: SYN141

This is to certify that the above listed instrument meets or exceeds all specifications as stated in the referenced procedure at the points tested (unless otherwise noted). It has been calibrated using measurement standards traceable to the SI units of measurement via NIST, or to NIST accepted intrinsic standards of measurement, or derived by the ratio type of self-calibration techniques. This calibration is in accordance with Kimball Electronic Laboratory, Inc Quality Assurance Manual. KELI's Quality system is A2LA-Accredited to ISO/IEC-17025:2017 and compliant with MIL-STD-45662A and ANSI/NCSL Z540-1-1994. TURS when applicable are greater than or equal to 4:1 except where noted with expanded uncertainty used to calculate the Test Uncertainty Ratio, with a coverage factor of K=2 at a confidence level of approximately 95%, unless otherwise noted.

All measuring equipment used for calibration meets a 4:1 TAR or better, except where noted

Any number of factors may cause the calibration item to drift out of calibration before the recommended interval has expired.

KELI will not take into account measurement uncertainty on conditional statements such as in tolerance, out of tolerance, pass and fail. Keli's conditional statements will only take into account the nominal value at a specific test point +/- the tolerance. Measurement uncertainty will be stated on the certificate and where applicable at each measured test point.

KELI shall allow the customer to assess and conclude if the results meet their specific needs.

GROUND SUBLEASE
(Tenant-Owned Improvements)

THIS GROUND SUBLEASE ("**Sublease**") is made and entered into as of the 8th day of May, 2026 ("**Effective Date**"), by and between **FORT PIERCE FBO LLC**, a Florida limited liability company ("**Landlord**"), and **JM Aviation and Storage, LLC** ("**Tenant**").

WITNESSETH:

A. Landlord is the lessee under an Amended and Restated Lease Agreement dated October 10, 2000 (as amended and modified, "**Ground Master Lease**") with St. Lucie County, Florida ("**Ground Master Landlord**"), of certain land located at the Treasure Coast International Airport ("**Airport**").

B. Tenant desires to sublease from Landlord, and Landlord has agreed to sublease to Tenant, a part of the demised Ground Master Lease premises located at the Airport ("**Premises**"), subject to Ground Master Landlord's consent to such sublease and upon the terms and conditions set forth in this Sublease.

C. On or after the date hereof, Landlord has conveyed or will convey to Tenant all improvements located on the Premises ("**Improvements**"), which conveyance is subject to all terms and conditions of this Sublease.

NOW, THEREFORE, in consideration of these premises and the mutual provisions set forth in this Sublease, and other good and valuable consideration, the receipt and sufficiency of which hereby are acknowledged, the parties hereby agree as follows:

1. **PREMISES; USE; NON-COMPETE.**

(a) Premises. Tenant leases the Premises shown on Exhibit A and described on the Reference Page from Landlord. The Premises and contiguous or related property which are managed jointly are referred to as the "Property" and are located at the Airport. In addition, Tenant, its agents, employees and invitees shall have access to the full airport facility known as the St. Lucie County International Airport; shall at all reasonable times be permitted access to the runways, taxiways and other public facilities located upon the Property; and shall have non-exclusive rights in common with others to park in parking areas located on the Property.

(b) Use. The Premises shall be used and occupied solely for personal aircraft storage, maintenance, and activities related to the transport of goods and personnel and in conformity with the location, design and structure thereof and the Ground Master Lease. Tenant shall not permit anything to interfere with the rights of other tenants on the Property or injure, annoy or disturb them. Tenant shall not permit any waste or illegal act nor anything that will increase the Property insurance rate. Tenant shall be financially responsible for its failure to observe any covenant or condition of this Section. During the Term of this Sublease, the Premises shall not be used (1) for any purpose in violation of any federal, state or municipal statute or ordinance, or of any order, regulation or directive of a governmental agency, as such statutes, ordinances, orders, regulations or directives may now exist or may hereafter provide concerning the use and safety of the Premises; (2) for any purpose in violation of the Ground Master Lease; or (3) for

any subletting or providing of occupancy to third parties in exchange for rent or other payment or compensation.

(c) Covenant Not to Compete. Tenant shall use the Premises solely for the purposes set forth herein and shall not, during the Term of this Sublease, enter into any commercial activity on the Airport that would in any form or manner compete with any of the activities in which Landlord is engaged on the Airport as of the Commencement Date, or which involve the sale of aircraft fuels, rental of ground vehicles, sale of food or beverage, rental of life gear, or subletting of any of the Premises to third parties. Additionally, Tenant shall not permit any entity to perform any activity on the Premises which in any form or manner competes with any commercial activity in which Landlord is engaged as of the Commencement Date.

2. **TERM; HOLDING OVER; ABANDONMENT.**

(a) Term. The term of this Sublease ("**Term**") shall begin on the Commencement Date and end on the termination date of the Ground Master Lease ("**Termination Date**"). Tenant shall surrender the Premises to the Landlord immediately upon termination of the Term or earlier termination as provided herein. Delivery of possession of the Premises to Tenant shall be made on the date of this Sublease.

(b) Holding Over. If Tenant remains in possession of the Premises after the end of the Term or earlier termination of this Sublease, Tenant shall be bound by the terms and provisions of this Sublease except that no tenancy or interest in the Premises shall result, but such holding over shall be an unlawful detainer and all such parties shall be subject to immediate eviction, and Tenant shall upon demand pay to Landlord, as liquidated damages, a sum equal to one hundred fifty percent of the Base Rent payable during the calendar month immediately preceding the expiration or earlier termination of this Sublease for any period during which Tenant shall hold the Premises after the stipulated Term of this Lease shall expire or may have terminated. In addition, Tenant shall also pay all direct, actual damages sustained by Landlord on account of Tenant holding over.

(c) Abandonment. If Tenant vacates the Premises prior to the scheduled expiration of the Term, other than as permitted pursuant to this Sublease, Tenant shall be in default of this Sublease, and if Tenant has not re-entered the Premises and resumed the operation of its business for a period of thirty consecutive days, Tenant shall be deemed to have abandoned the Premises and the Improvements, and Landlord shall have the right, but not the obligation, to take sole possession of the Premises and the Improvements on or after the tenth day following the expiration of said thirty-day period and Landlord may relet said Premises.

3. **RENT.**

(a) Tenant shall pay the Base Rent, as set forth on the Reference Page, on the entire area being leased, plus all sales tax levied by any federal, state, county, city or any agency authorized to levy and collect rent tax, payable in equal monthly installments, due on the first of each month. The Base Rent shall increase by the percentage increase in ground rent paid by Landlord under the Ground Master Lease with respect to the Premises, effective on the same date that the increase in ground rent takes effect under the Ground Master Lease.

(b) Other sums due hereunder, if any ("**Additional Rent**" and together with the Monthly Base Rent, "**Rent**") shall also be due on the first of each month.

(c) Rent shall be paid to Landlord without offset, deduction or notice.

(d) Each Rent payment not received by the tenth (10th) of the month shall bear a late charge of two percent per month from the due date until the date the Landlord receives payment ("Late Charge"). In addition to the Late Charge, Landlord may charge a one-time bookkeeping charge of five percent of the amount due ("Bookkeeping Charge"). These charges are for the purpose of collection efforts and to defray costs incurred by Landlord in regard to such collection efforts. Partial payments of delinquent amounts shall be applied to pay past due amounts and charges in the following order: Bookkeeping Charges, Late Charges, Rent.

(e) In addition, Landlord shall have all the rights and remedies provided by law. The provisions for installment payment of any sums set forth in this Section are a privilege for the benefit of Tenant. If Tenant fails to make timely payments, the provisions of Section 16 shall apply. Nothing in this Section shall be deemed a waiver by Landlord of any covenant, term or condition of Section 16.

4. **EXPENSES.** Tenant shall pay any and all expenses in connection with the Premises, Improvements and Alterations (defined below), including without limitation its pro rata share of all ad valorem real property taxes attributable to the Premises and the Improvements and all utilities, but excluding ground rent under the Ground Master Lease (which shall be paid by Landlord). Utilities shall be paid in accordance with Section 12. Tenant is responsible for and shall pay directly for all other expenses related to its business, and all other expenses incurred as a direct result of Tenant's failure to abide by any and all regulations or rules as set forth by the county, state, and federal government or any governing authority over the Premises.

5. **ALTERATIONS.** Any construction on the Premises, including any alterations, changes or additions to the Improvements ("**Alterations**"), shall be subject to the terms of the Ground Master Lease and Landlord's prior written approval. Tenant shall design and construct all Alterations in accordance with state and federal accessibility guidelines and provide Landlord with copies of all plans and specifications with respect to such Alterations, prior to commencing such Alterations. Tenant, at its sole expense, shall obtain all required permits from authorities having jurisdiction prior to the commencement of any construction activity. Tenant acknowledges that Landlord must approve any alteration to any approved site plan with respect to the Premises.

6. **CONDITION OF PREMISES.** By taking possession, Tenant fully accepts the Premises in its present "as is" state or condition, which is the condition in which Landlord is obligated to deliver the Premises.

7. **MAINTENANCE.** Tenant shall maintain the Premises and the Improvements thereon in good condition, regularly servicing and promptly making all repairs and replacements, whether ordinary or extraordinary, with high quality materials and workmanship in compliance with all laws and regulations. Tenant shall maintain all portions of the Premises including all mechanical and electrical fixtures and equipment and all landscaping on the Premises.

8. **LIENS.** Tenant shall keep the Premises free from liens. If Tenant does not, within ten days following the filing of a lien against the Premises, cause such lien to be released, Landlord may cause it to be released by such means as it shall deem proper, including payment of the claim. Such sums advanced shall be considered Additional Rent and payable by Tenant upon demand from Landlord.

9. **ASSIGNMENT; SUBLETTING.** Tenant shall not assign or pledge this Sublease or sub-sublet the Premises or any part thereof without the prior written consent of Landlord, which may be withheld in Landlord's sole and absolute discretion. A transfer directly or indirectly of a controlling interest in Tenant (either in one transfer or a series of transfers) shall constitute an assignment hereunder.

10. **INDEMNIFICATION.** To the fullest extent permitted by applicable law, Tenant waives all claims against Landlord for damage to any property or injury to any person connected with Tenant's use of the Premises. Tenant shall hold Landlord and Ground Master Landlord harmless from, and defend Landlord and Ground Master Landlord against, all claims, liability, loss or costs for property damage or personal injury (including that to Tenant's customers, employees, agents or invitees) on the Premises, or in the parking areas, sidewalks and loading areas adjacent to the Premises, occurring or alleged to have occurred during the Term; provided that such liability, loss or costs is not due to the gross negligence or willful act or omission of the Landlord. This Section shall survive the termination of this Sublease.

11. **INSURANCE.** Tenant shall at all times during the Term continuously maintain, to the extent applicable as reasonably determined by Landlord, (i) commercial general liability insurance with limits not less than $1 million per occurrence, written on an occurrence basis, which insures against claims for bodily injury, personal injury, and property damage based upon, involving or arising out of the use, occupancy or maintenance of the Premises, improvements thereon, and the Property; (ii) Worker's Compensation insurance for all personnel in statutory limits, (iii) business automobile liability insurance with limits not less than $1 million each accident covering owned, hired, and non-owned vehicles used by Tenant, (iv) all risk property insurance (including windstorm coverage) on the Premises, the Improvements and any Alterations in the amount of full replacement cost, (v) aircraft insurance, if applicable, inclusive of aircraft liability, airport liability, contractual liability, independent contractor liability and Premises liability, and (vi) environmental liability coverage with limits not less than $1 million per occurrence or such larger coverage amount as Landlord may reasonably require if the nature of the operations in the Improvements may pose a significant risk of environmental liabilities. Tenant agrees to increase auto liability amounts to County-mandated $5 million minimum if operating on Airport operations areas (AOA). In addition, all insurance Tenant shall maintain shall name Landlord and its affiliates, management company, Ground Master Landlord and mortgagee as additional insureds (on a primary and noncontributory basis) and provide thirty days notice of cancellation. A certificate of insurance shall be delivered to Landlord prior to the Commencement Date. Tenant hereby waives any rights of recovery against Landlord for any loss normally covered by fire, extended coverage or all risk insurance, and shall obtain the necessary endorsements from its insurer with respect thereto. Upon the reasonable request of Landlord, Tenant shall be obligated to increase the limits or change or obtain additional insurance. Tenant acknowledges that insurance limits and deductibles may increase due to requirements of Ground Master Landlord and agrees to abide by such requirements.

12. **UTILITIES.** Tenant shall pay promptly and in full for all utilities including but not limited to all electricity, water, sewer, communications, Internet access and trash and garbage removal with respect to the Premises. This includes all deposits, connection fees, tap fees, and demand or reservation fees together with all taxes levied or other charges on such utilities and governmental charges based on utility consumption. Landlord shall not be liable for any interruption or diminution of utility services. In the event of utility "deregulation" Landlord shall choose the service provider.

13. **SUBORDINATION.** This Sublease shall be subordinate to any Property mortgage or ground lease, including without limitation the Ground Master Lease. Tenant agrees to attorn to any transferee, including any mortgagee under such mortgagee or the Ground Master Landlord as if it were the transferee, as its Landlord; and the Tenant agrees to execute such evidences of attornment as the mortgagee or the Ground Master Landlord may from time to time reasonably request. Tenant further agrees that such attornment shall not be terminated by foreclosure; and that the mortgagee or Ground Master Landlord may, at their sole option, accept or reject such attornment. In the event of attornment by Tenant, the mortgagee or Ground Master Landlord shall not be (a) liable for any act or omission of Landlord; or (b) subject to any offsets or defenses Tenant has against Landlord; or (c) bound by prepayment of more than one month's Rent; or (d) be required to account for any security deposit not actually delivered to such ground owner or mortgagee; or (e) bound by any modification of this Sublease not approved by it. Tenant shall execute a subordination, non-disturbance and attornment agreement upon ten days notice, provided that such agreement is mortgagee's standard form. Tenant further agrees to provide any mortgagee of the Property written notice of a Landlord default under this Sublease and a reasonable opportunity to cure such default.

14. **RULES; SIGNS.**

(a) Rules. Tenant and Tenant's agents, employees, visitors, licensees, invitees, clients and customers shall comply with the Environmental Requirements attached as Exhibit "B" and all reasonable rules and regulations promulgated by Landlord from time to time which, in Landlord's opinion, shall be necessary for the reputation, safety, care, efficient operation or appearance of the Premises or the Property, provided such rules and regulations are applied in a non-discriminatory manner. Landlord shall not be liable to Tenant for the violation of any said rules and regulations or the breach of any covenant or condition in any lease or sublease by any other tenant, subtenant or assignee, or by the employees or invitees of any other tenant, subtenant or assignee.

(b) Signs. Tenant shall install signs or lettering and advertising in compliance with governmental regulations, FAA and Airport requirements, and Property standards after obtaining Landlord's written consent, which shall not be unreasonably withheld. Tenant shall hold and keep current all permits and licenses required by any law or regulation.

15. **REENTRY.** Landlord may reenter the Premises at any time to inspect, provide services, or alter or repair the Premises. Tenant waives any claim for reasonable interference to its business.

16. **DEFAULT.**

(a) As to Rent. If Tenant defaults in the payment of Rent and any sums of money required to

be paid by Tenant to Landlord remain unpaid for a period 30 days, then Landlord shall have all the following options and privileges:

(1) Landlord may declare one year's Base Rent as presently due and payable. Such declaration shall not be construed as a splitting of a cause of action, nor shall it alter or affect Tenant's obligations to pay Rent under the terms of this Sublease.

(2) Landlord may, after the statutorily required notice, terminate this Sublease.

(3) In addition, Landlord may exercise any and all other options available to it, in law or in equity, which options may be exercised concurrently with or separately from the exercise of the above options.

(4) If Tenant cures the delinquency after receipt of the termination notice, Landlord shall no longer have the right to terminate the Sublease by reason of such delinquency; provided, however, that the curing of any delinquency in such a manner shall not be construed to limit or restrict the right of Landlord to declare the Sublease terminated and enforce all of its rights and remedies for any other (including any subsequent) delinquency not so cured.

(b) As to Other Provisions of the Sublease. If Tenant defaults (i) in the observance of any ordinance, law or regulation or any term, covenant or condition of this Sublease or other agreement with Landlord and fails to remedy, or commence to remedy (and diligently pursue until completion), such default within twenty days after notice; or (ii) in subletting or assigning this Sublease without consent; then, Landlord may give Tenant the statutorily required notice of Sublease termination, if any, and Tenant shall remain liable for damages and Rent due hereunder. If Tenant defaults two times in any six-month period, Landlord may serve notice of Sublease termination without giving Tenant an opportunity to cure such default.

(c) No Waiver. Landlord's failure to enforce one or more of its rights under this Sublease, in the law, or in equity, shall not be construed as a waiver or limitation of Landlord's ability to subsequently enforce any of its rights.

(d) Tenant Bankruptcy. Upon the appointment of a receiver or an assignment of assets for the benefit of creditors, or action taken by Tenant under any bankruptcy or other debtor relief act, this Sublease shall automatically terminate without notice.

17. **REMEDIES.** If this Sublease shall terminate due to a default by Tenant, then Tenant shall pay all Rent until termination and, as damages, any deficiency between the future Rent herein and the rent collected under any re-letting, net of all expenses. Landlord may elect not to terminate this Sublease but to (i) recover the Rent as the same becomes due or, in advance, the present value of the future Rent and/or (ii) cure the default of Tenant and recover from Tenant the cost of such cure plus interest at the rate of two percent (2%) per month until paid. After termination due to such default, Landlord may reenter the Premises, dispossess Tenant from the Premises thereon and remove all personal property without releasing Tenant from any obligation, including payment of Rent. Tenant and Tenant's creditors waive all rights to file claims for damages resulting from such reentry and expulsion, or to reenter or repossess the Premises, after Tenant shall have been dispossessed by any judgment.

18. **QUIET ENJOYMENT.** Landlord warrants that it has the authority to enter into this Sublease and that Tenant, while paying Rent and performing its other covenants and agreements shall peaceably and quietly have, hold and enjoy the Premises without hindrance from Landlord.

19. **CASUALTY.** If the Premises or access thereto shall, at any time during the Term hereby created or any renewal thereof, be damaged or destroyed, (i) this Sublease shall continue in full force and effect, (ii) Tenant shall be obligated to rebuild on the Premises, with reasonable promptness, the Improvements and Alterations that existed on the Premises prior to the date of said casualty, and (iii) Rent shall continue unabated. The provisions of this Article shall be subject and subordinate to the Ground Master Lease on the Premises or Property.

20. **EMINENT DOMAIN.**

(a) Termination on Material Taking. If possession of any material part of the Premises or Improvements is taken under the power of eminent domain, or conveyance in lieu thereof, either party may terminate this Sublease within thirty days of such taking. Landlord shall be entitled to any condemnation award with respect to its interest in this Sublease and the Ground Master Lease, and Tenant shall be entitled to any condemnation award with respect to the Improvements, its interest in this Sublease and dislocation damages. For purposes of this Section, "material part" shall mean forty percent or more of the square footage of the Premises.

(b) Termination on Non-material Taking. If less than forty percent of the square footage of the Premises is taken under the power of eminent domain, or conveyance in lieu thereof, and if, in Tenant's opinion, the remainder of the Premises is in a location, or in a form, shape or reduced size that makes it impossible for Tenant to effectively and practicably conduct its regular activities on the remaining Premises, then Tenant shall so notify Landlord in writing no later than 30 days after receiving notice of approval of the taking, and this Sublease shall terminate on the date title to the portion of the Premises being taken vests in the condemning authority. If Tenant fails to timely notify Landlord, then Tenant will be deemed to have determined to remain on the Premises, and the Sublease will remain in effect subject to provisions of paragraph (c) below. Landlord shall be entitled to any condemnation award with respect to its interest in this Sublease and the Ground Master Lease, and Tenant shall be entitled to any condemnation award with respect to the Improvements, its interest in this Sublease and dislocation damages.

(c) Continuation with Rent Abatement after Non-material Taking. If less than forty percent of the square footage of the Premises is taken under the power of eminent domain, or conveyance in lieu thereof, and if, in Tenant's opinion, the remainder of the Premises is in a location, or in a form, shape or reduced size that permits Tenant to continue to effectively and practicably conduct its regular activities on the remaining Premises, this Sublease shall terminate as the portion of the Premises taken as of the date title to the portion of the Premises being taken vests in the condemning authority. However, this Sublease shall continue in full force and effect as to the remaining Premises. From and after the date title to the portion of the Premises being taken vests in the condemning authority, the Base Rent required to be paid by Tenant shall be reduced proportionally and shall be calculated in accordance with the Base Rent formula shown on the Reference Page, as such Base Rent may have been increased pursuant to paragraph (a) of Article 3.

21. **SALE BY LANDLORD.** If the Landlord's interest in the Ground Master Lease is sold,

Landlord shall be released from any future liability under this Sublease and Tenant shall look solely to Landlord's successor. Except as set forth in this Section, this Sublease shall not be affected by any such sale.

22. **ESTOPPEL CERTIFICATES.** Within ten days of request, Tenant shall deliver to Landlord or any prospective landlord or mortgagee a statement certifying (a) the Termination Date; (b) that this Sublease is unmodified except as specified; (c) the date to which Rent has been paid; (d) that there are no defaults of Landlord's obligations except as specified; and (e) financial, environmental and other information as reasonably requested.

23. **TITLE TO IMPROVEMENTS UPON TERMINATION.** Upon the termination of this Sublease for any reason whatsoever, Tenant hereby surrenders to Landlord all of Tenant's right, title and interest in the Improvements, and such right, title and interest shall vest in Landlord. Such vesting in Landlord shall be self-operative without the need for any further documents or instruments, but Tenant shall, upon request, execute and deliver to Landlord such documents or instruments as Landlord may reasonably request to confirm the foregoing. No compensation shall be due and payable to Tenant in connection with the transfer of Tenant's right, title and interest in the Improvements.

24. **SURRENDER OF PREMISES.** Upon termination of this Sublease, Tenant shall peaceably and quietly leave, surrender and yield up unto Landlord all of the Premises and Improvements. The provisions of this Article 24 shall survive the termination of this Sublease.

25. **NOTICES.** Notices shall be sent by hand delivery, overnight courier, Certified Mail, or by fax with a confirmation of delivery followed by a copy sent by regular mail, using the addresses set forth on the Reference Page or such replacement address as has been provided by one party to the other in accordance with the terms hereof, and shall be deemed given upon delivery or refusal of delivery.

26. **FORCE MAJEURE.** Landlord and Tenant shall be excused for any delay and shall not be in default with respect to the performance of any of the terms or conditions of this Sublease when prevented from so doing by a cause beyond their control. This Section shall not apply to the timely payment of Rent and/or Additional Rent.

27. **MISCELLANEOUS.**

(a) Headings. The headings herein are for convenience and in no way describe the scope or intent of any Section.

(b) Indemnification or Insurance of Landlord. Any indemnification or insurance for the benefit of Landlord shall include Landlord's lenders, trustees, directors, officers, shareholders, members, agents, affiliates, employees and ground owner.

(c) Construction. The terms person, Tenant and Landlord or any pronoun used in place thereof shall include the masculine or feminine, the singular or plural number, individuals, firms, and corporations according to the context hereof.

(d) Severability. No determination by any court or other governmental authority that any

provision of this Sublease is invalid or unenforceable in any instance shall affect the validity or enforceability of (i) any other provision of this Sublease, or (ii) such provision of this Sublease in any circumstance not controlled by such determination. Each provision of this Sublease shall be valid and enforceable to the fullest extent allowed by, and shall be construed whenever possible as being consistent with, all applicable laws.

(e) Time. TIME IS OF THE ESSENCE for this Sublease and all of its provisions. Any time period which shall end or expire on a Saturday, Sunday or legal holiday shall be deemed extended to the next day which is not a Saturday, Sunday or legal holiday.

(f) Negotiated Document. This Sublease has been freely negotiated between the parties and in any controversy over the interpretation of anything contained herein, there shall be no presumption or conclusion drawn against either party by virtue of that party having drafted that section of the Sublease.

(g) Limitation of Liability. Tenant shall look solely to Landlord's equity in its interest in the Property for satisfaction of any judgments or awards.

(h) Entire Agreement. This Sublease represents the entire agreement between the parties as to the subject matter hereof and supersedes any previous understanding or agreement of the parties.

(i) Amendment. This Sublease may not be modified except in writing, signed by the parties and duly recorded.

(j) Governing Law. This Sublease and the performance thereof shall be governed, interpreted, construed and regulated by the laws of the State of Florida, without regard to its conflicts of laws provisions.

(k) Attorneys' Fees. If any party is required to resort to litigation to enforce its rights under this Sublease, the parties agree that any judgment awarded to the prevailing party shall include all litigation expenses of the prevailing party, including (without limitation) actual attorneys' fees and court costs ("Award"). If the Landlord is the prevailing party, the Award shall be deemed Additional Rent hereunder and shall be due from Tenant on the first day of the month following the month in which the Award was determined. If Tenant is the prevailing party, the Award may be deducted from the next rental payment(s).

(l) Third Party Beneficiary. Ground Master Landlord (and including its successors and assigns), is a third party beneficiary of this Sublease.

(m)Further Assurances. The parties hereto agree that they will execute such other and further documents as may be necessary and/or required to effectuate the terms, provisions, conditions and covenants of this Sublease.

(n) No Partnership. Notwithstanding anything contained herein to the contrary, it is not the intention of the parties hereto to create under any circumstances a partnership or a joint venture. The rights, duties, obligations and liabilities of Landlord and Tenant hereunder are separate and not joint or collective, and nothing herein shall ever be construed to create a partnership or joint

venture under the laws of the State of Florida.

(o) Counterparts. This Sublease may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. Copies (facsimile or original) of signatures to this Sublease shall be deemed to be originals and shall be binding to the same extent as original signatures.

28. **FUEL.** During the Term hereof Tenant shall, and shall cause anyone else who uses the Premises, to purchase from Landlord (and its assigns) all fuel, if available and if fueling is conducted on the Premises. This provision is a material consideration in Landlord's execution of this Sublease.

29. **WAIVER OF JURY TRIAL.** Landlord and Tenant hereby waive trial by jury in any proceeding brought against each other. Any legal proceedings shall be governed by the laws of the State in which the Property is located and tried in the court system in such state.

30. **NONRESPONSIBILITY OF LANDLORD.** There shall be no abatement from or reduction of the Rent due hereunder regardless of the reason or cause. Tenant shall not be entitled to damages, costs, losses or disbursements from Landlord regardless of the cause or reason therefor. Tenant shall have no claim of any nature whatsoever against Landlord, no abatement or reduction of rent, and no recovery by Tenant from Landlord on account of partial or total failure of, or damage caused by (a) lessening of supply of, or stoppage of, heat, air-conditioning, electric light, power, water, plumbing, sewerage, elevators, or any other service, (b) any damage or annoyance occasioned by water, snow, or ice being upon or coming through the roof, skylight, trapdoors, windows, or otherwise, (c) any defect or break in any pipes, tanks, fixtures, or otherwise whereby steam, water, snow, smoke or gas, leak, issue or flow into the Premises, (d) any damage or annoyance occasioned by the condition or arrangements of any electric or other wiring, (e) any damage or annoyance arising from any acts, omissions, or negligence of owners or occupants of adjacent or contiguous property, or (f) the making of major repairs, alterations, repairs, improvements, or structural changes to the Property, or any thing or service therein or thereon or contiguous thereto provided the same shall be made with reasonable expedition.

31. **GROUND MASTER LEASE; APPROVAL OF GROUND MASTER LANDLORD.**

(a) Ground Master Lease. Tenant is cognizant of the terms and conditions of the Ground Master Lease, and hereby covenants and agrees that its use and occupancy of the Premises hereunder and Improvements thereon shall be subject to all the provisions of the Ground Master Lease (as may be amended from time to time) and that it will not do or omit to do or permit to be done or omitted to be done any act or thing over which Tenant has control if such act, thing or omission would constitute a breach of any covenant in the Ground Master Lease on the part of Landlord to be performed and observed. Landlord shall not require the consent of Tenant to amend the Ground Master Lease, and Tenant hereby waives any right it may have to give any such consent or consents, provided that such amendment does not reduce the term, impose any increased material obligation on Tenant or materially diminish any of its rights. Except as otherwise provided, all of the terms and conditions of the Ground Master Lease shall be incorporated herein as if Tenant were the tenant thereunder and Landlord were the landlord thereunder. Tenant hereby indemnifies Landlord against all claims, damages, costs, and

expenses arising out of its nonperformance or nonobservance of any terms of the Ground Master Lease.

(b) Approval of Ground Master Landlord. The Ground Master Landlord has approved this Sublease, and further conditions this Sublease upon the Tenant complying with all the terms, conditions, rules, regulations, and directives issued or adopted with respect to the Property. This Sublease is subordinate to the terms of the Ground Master Lease.

32. **SECURITY**. Tenant, and its employees, invitees, guests, and contractors must abide by those security regulations, policies and procedures (applicable at any time during the Term) ("Security Policies and Procedures") of the Landlord, the Airport, Federal Aviation Administration, the Transportation Security Administration, or any other applicable governmental or regulatory body, promulgated from time to time. Tenant shall indemnify, protect, hold harmless, and shall defend at its own expense, the Landlord and Landlord's mortgagees from time to time against any and all loss, claims and demands made by or arising in connection with Tenant's failure to comply with any applicable Security Policies and Procedures. The provisions of this Section shall survive the expiration or earlier termination of this Sublease.

EXHIBIT A
PREMISES

Total Square Footage= Approx. 3600 sf
3836 St. Lucie Blvd

EXHIBIT B
ENVIRONMENTAL REQUIREMENTS

Tenant shall operate its business on the Property and maintain the Premises (for purposes of this Exhibit Premises includes any improvements thereon) in compliance with all federal, state and local laws, regulations, and requirements relating to the discharge of air pollutants, water pollutants or wastewater or otherwise relating to the environment or "Hazardous Substances" ("Environmental Laws"). The term "Hazardous Substances" means all hazardous or toxic substances, materials or wastes, including but not limited to, those substances identified as "hazardous substances" under the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended from time to time; any oil or petroleum products; asbestos, PCBs; and any substances, materials or wastes that are or become regulated under Environmental Laws. Tenant shall make reasonable efforts not to use propane-fueled forklift trucks but if they are used, shall regularly monitor air quality to insure compliance with all applicable health standards.

Tenant shall give Landlord prompt written notice of any instituted or threatened action, proceeding or claim alleging a violation of Environmental Laws or Hazardous Substances contamination at or affecting the Property. Tenant shall also give Landlord prompt written notice of any condition or occurrence at the Property which constitutes a violation of Environmental Laws or would justify a demand for removal or remediation under Environmental Laws.

Within ten (10) days of request, Tenant shall execute and deliver to Landlord or any prospective landlord or mortgagee a statement certifying: (1) the Hazardous Substances previously used or then in use by Tenant at the Property; (2) that Tenant has obtained and maintained in full force and effect all permits and approvals required under Environmental Laws for the conduct of Tenant's business at the Property and providing copies of those permits and approvals; (3) that Tenant has no notice or knowledge of the presence of Hazardous Substances on the Property that could form the basis for cleanup, remedial, removal or restoration work under Environmental Laws; and (4) such other environmental or related information as reasonably requested.

If Tenant breaches its obligations under this Article, or if the presence of Hazardous Substances on the Property caused or permitted by Tenant results in contamination of the Property or increases Landlord's cost of renovating and/or repairing the Property, or if contamination of the Property by Hazardous Substances otherwise occurs for which Tenant is legally responsible, then Tenant shall indemnify, defend and hold Landlord, its officers, directors, shareholders, employees and trustees or its agents harmless from and against any and all claims, judgments, damages, penalties, fines, costs, liabilities or losses (including, without limitations, diminution in value of Property and sums paid in settlement or defense of claims, attorneys' fees, consultant fees and expert fees) which arise before or after the Sublease termination as a result of such contamination. This indemnification of Landlord by Tenant includes, without limitations, costs incurred in connection with any investigation of site conditions or any cleanup, remedial, removal or restoration work required by an federal, state or local government agency or political subdivision or private party.

Without limiting the foregoing, if the presence of any Hazardous Substances on the Property caused or permitted by Tenant results in any contamination of the Property, Tenant, at its sole expense, shall promptly take all actions necessary to return the Property to the condition existing prior to the introduction of any such Hazardous Substances to the Property.

Landlord shall not cause or intentionally allow the presence of Hazardous Substances in the Premises that would be in violation of Environmental Laws. Landlord agrees to indemnify, defend and hold Tenant, its officers, directors, partners, shareholders, employees and agents harmless from and against any and all claims, judgments, damages, penalties, fines, costs, liabilities or losses which arise from the presence of Hazardous Substances in the Premises if caused by Landlord, its employees, agents or contractors. This indemnification of Tenant by Landlord includes, without limitation, costs in connection with any investigation of site condition on any cleanup, remedial, removal or restoration work required by any federal, state or local government agency or political subdivision or private party.

The foregoing indemnity and obligations shall survive the expiration or earlier termination of this Sublease. Landlord and its agents shall have the right, but not the duty, to inspect the Property at any time to determine whether Tenant is complying with the terms of this Sublease.

CONSENT OF GROUND MASTER LANDLORD

Ground Master Landlord hereby consents to this Sublease and all terms and provisions hereof and represents to Landlord and Tenant that to Ground Master Landlord's actual knowledge (a) the Ground Master Lease is in full force and effect; (b) the party executing this Consent on behalf of Ground Master Landlord has the authority to consent to this Sublease; and (c) the Ground Master Lease has not been assigned, modified, or amended in any manner, except as follows: Assignment and Assumption of Lease dated January 24, 2011, by and between Treasure Coast FBO, LLC, as assignor and Landlord, as assignee. Ground Master Landlord recognizes this Sublease and agrees that neither Tenant's right of possession to the Premises nor Tenant's rights under this Sublease shall be affected or disturbed by Ground Master Landlord so long as the Landlord is in compliance with its Lease and shall be affected or disturbed only the extent of, and for the period of time during which, there exists any breach of the Lease.

IN WITNESS WHEREOF, Ground Master Landlord has executed this Consent as of this _____ day of _____, 201__.

EXHIBIT C

FEDERAL AVIATION ADMINISTRATION REQUIRED PROVISIONS

A. **General Civil Rights Clause.**

1. In all its activities within the scope of its Airport program, Tenant agrees to comply with pertinent statutes, Executive Orders, and such rules as identified in Title VI List of Pertinent Nondiscrimination Acts and Authorities to ensure that no person shall, on the grounds of race, color, national origin, creed, sex, age, or disability be excluded from participating in any activity conducted with or benefiting from Federal assistance.

2. This provision is in addition to that required by Title VI of the Civil Rights Act of 1964.

3. If Tenant transfers its obligation to another, the transferee is obligated in the same manner as Tenant.

4. The above provision obligates Tenant for the period during which the property is owned, used or possessed by Tenant and the Airport remains obligated to the Federal Aviation Administration.

B. **Title VI List of Pertinent Nondiscrimination Acts and Authorities**.

During the performance of this Agreement, Tenant, for itself, its assignees, and successors in interest (hereinafter referred to as the **"Contractor"**) agrees to comply with the following non-discrimination statutes and authorities; including but not limited to:

- Title VI of the Civil Rights Act of 1964 (42 U.S.C § 2000d et seq., 78 stat. 252) (prohibits discrimination on the basis of race, color, national origin);

- 49 CFR part 21 (Non-discrimination in Federally-Assisted programs of the Department of Transportation—Effectuation of Title VI of the Civil Rights Act of 1964) including amendments thereto;

- The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 U.S.C § 4601) (prohibits unfair treatment of Persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects);

- Section 504 of the Rehabilitation Act of 1973 (29 U.S.C § 794 et seq.), as amended (prohibits discrimination on the basis of disability); and 49 CFR part 27 (Nondiscrimination on the Basis of Disability in Programs or Activities Receiving Federal Financial Assistance);

- The Age Discrimination Act of 1975, as amended (42 U.S.C § 6101 et seq.) (prohibits discrimination on the basis of age);

- Airport and Airway Improvement Act of 1982 (49 U.S.C § 47123), as amended (prohibits discrimination based on race, creed, color, national origin, or sex);

- The Civil Rights Restoration Act of 1987 (P.L. 100-259) (broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, the Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal-aid recipients, sub-recipients and contractors, whether such programs or activities are Federally funded or not);

- Titles II and III of the Americans with Disabilities Act of 1990 (42 U.S.C § 12101, et seq) (prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities) as implemented by U.S. Department of Transportation regulations at 49 CFR Parts 37 and 38;

- Title IX of the Education Amendments of 1972, as amended, which prohibits you from discriminating because of sex in education programs or activities (20 U.S.C § 1681, et seq).

C. **Compliance with Nondiscrimination Provisions.**

During the performance of this Agreement, Tenant, for itself, its assignees, and successors in interest (hereinafter referred to as the **"Contractor"**), agrees as follows:

1. **Compliance with Regulations**: The Contractor (hereinafter includes consultants) will comply with the Title VI List of Pertinent Nondiscrimination Acts and Authorities, as they may be amended from time to time, which are herein incorporated by reference and made a part of this contract.

2. **Nondiscrimination**: The Contractor, with regard to the work performed by it during the contract, will not discriminate on the grounds of race, color, national origin, creed, sex, age, or disability in the selection and retention of subcontractors, including procurements of materials and leases of equipment. The Contractor will not participate directly or indirectly in the discrimination prohibited by the Nondiscrimination Acts and Authorities, including employment practices when the contract covers any activity, project, or program set forth in Appendix B of 49 CFR part 21 including amendments thereto.

3. **Solicitations for Subcontracts, including Procurements of Materials and Equipment**: In all solicitations, either by competitive bidding or negotiation made by the Contractor for work to be performed under a subcontract, including procurements of materials, or leases of equipment, each potential subcontractor or supplier will be notified by the Contractor of the contractor's obligations under this contract and the Nondiscrimination Acts and Authorities on the grounds of race, color, or national origin.

4. **Information and Reports**: The Contractor will provide all information and reports required by the Acts, the Regulations, and directives issued pursuant thereto and will permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the Sponsor or the Federal Aviation Administration to be pertinent to ascertain compliance with such Nondiscrimination Acts and Authorities and instructions. Where any information required of a contractor is in the exclusive possession of another who fails or refuses to furnish the information, the Contractor will so certify to the Sponsor or the Federal Aviation Administration, as appropriate, and will set forth what efforts it has made to obtain the information.

5. **Sanctions for Noncompliance**: In the event of a Contractor's noncompliance with the non-discrimination provisions of this contract, the Sponsor will impose such contract sanctions as it or the Federal Aviation Administration may determine to be appropriate, including, but not limited to:

    a. Withholding payments to the Contractor under the contract until the Contractor complies; and/or

    b. Cancelling, terminating, or suspending a contract, in whole or in part.

6. **Incorporation of Provisions**: The Contractor will include the provisions of paragraphs one through six in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Acts, the Regulations, and directives issued pursuant thereto. The Contractor will take action with respect to any subcontract or procurement as the Sponsor or the Federal Aviation Administration may direct as a means of enforcing such provisions including sanctions for noncompliance. Provided, that if the Contractor becomes involved in, or is threatened with litigation by a subcontractor, or supplier because of such direction, the Contractor may request the Sponsor to enter into any litigation to protect the interests of the Sponsor. In addition, the Contractor may request the United States to enter into the litigation to protect the interests of the United States.

D. **Transfer of Real Property Acquired or Improved Under the Airport Improvement Program.**

1. Tenant, for himself/herself, his/her heirs, personal representatives, successors in interest, and assigns, as a part of the consideration hereof, does hereby covenant and agree as a covenant running with the land:

    a. In the event facilities are constructed, maintained, or otherwise operated on the property described in this Agreement for a purpose for which a Federal Aviation Administration activity, facility, or program is extended or for another purpose involving the provision of similar services or benefits, Tenant will maintain and operate such facilities and services in compliance with all requirements imposed by the Nondiscrimination Acts and Regulations listed in the Title VI List of Pertinent Nondiscrimination Acts and Authorities (as may be amended) such that no Person on the grounds of race, color, or national origin, will be

excluded from participation in, denied the benefits of, or be otherwise subjected to discrimination in the use of said facilities.

2. In the event of breach of any of the above Nondiscrimination covenants, the Landlord will have the right to terminate the Agreement and to enter, re-enter, and repossess said lands and facilities thereon, and hold the same as if the Agreement had never been made or issued.

E. **Construction/Use/Access to Real Property Acquired Under the Airport Improvement Program.**

1. Tenant, for himself/herself, his/her heirs, personal representatives, successors in interest, and assigns, as a part of the consideration hereof, does hereby covenant and agree as a covenant running with the land that (1) no Person on the ground of race, color, or national origin, will be excluded from participation in, denied the benefits of, or be otherwise subjected to discrimination in the use of said facilities, (2) that in the construction of any improvements on, over, or under such land, and the furnishing of services thereon, no Person on the ground of race, color, or national origin, will be excluded from participation in, denied the benefits of, or otherwise be subjected to discrimination, (3) that Tenant will use the premises in compliance with all other requirements imposed by or pursuant to the Title VI List of Pertinent Nondiscrimination Acts and Authorities.

2. In the event of breach of any of the above non-discrimination covenants, the Landlord will have the right to terminate the Agreement and to enter or re-enter and repossess said land and the facilities thereon, and hold the same as if said Agreement had never been made or issued.

RESOLUTION NO. 26-067
A RESOLUTION PROCLAIMING MAY 2026 AS
"MENTAL HEALTH AWARENESS MONTH" IN ST. LUCIE COUNTY, FLORIDA

WHEREAS, the Board of County Commissioners of St. Lucie County, Florida, has made the following determinations:

1. Mental health is an integral component of overall well-being, impacting individuals, families, and communities across St. Lucie County.

2. Despite its prevalence, mental health remains shrouded in stigma, preventing many from seeking help.

3. Early interventions and access to quality care are crucial for managing mental health conditions and are vital to creating a more compassionate, healthier, and thriving St. Lucie County.

4. Collaboration among local organizations, healthcare providers, and community leaders is essential to ensuring accessible and effective mental health resources for all residents.

5. May is recognized nationally as Mental Health Awareness Month, providing an opportunity to raise awareness, combat stigma, and promote mental health resources.

6. Mental Health Awareness Month encourages community members to wear green ribbons and participate in educational activities to show support, raise awareness, and promote mental health well-being.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of St. Lucie County, Florida does hereby proclaim the month of May 2026 as "MENTAL HEALTH AWARENESS MONTH" in St. Lucie County, Florida and encourages all citizens to empower individuals to seek help and prioritize self-care, advocate for accessible mental health services, and educate themselves and others about mental health conditions, treatment options, and resources.

PASSED AND DULY ADOPTED this 5th day of May 2026.

PRESENTED BY: Jennifer Hance, Community Services Director

SUBMITTED BY: Community Services

SUBJECT: A Resolution of the Board of County Commissioners of St. Lucie County, Florida, Sunsetting the Veterans Advisory Council Created by Resolution No. 88-66

BACKGROUND:

On March 15, 1988, the Board adopted Resolution No. 88-66 establishing the Veterans Advisory Council to serve in an advisory capacity to the Board and to coordinate activities among local veterans organizations. The Council was also intended to function as an informational clearinghouse and provide recommendations regarding veterans-related activities.

The Veterans Advisory Council has not convened since approximately 2012. Since that time, the County's Veterans Services Division, along with numerous local veterans organizations and community partners, have continued to provide coordination, outreach, and support services to veterans in St. Lucie County.

Given that similar coordination and advisory functions are currently being carried out through existing organizations and partnerships, staff recommends formally sunsetting the Veterans Advisory Council. This action streamlines advisory structures while maintaining the County's ongoing commitment to supporting veterans through its existing programs and partnerships. The continued existence of an inactive advisory body is no longer necessary to fulfill the intended purpose outlined in Resolution No. 88-66.

PREVIOUS ACTION:

On March 15, 1988, the Board of County Commissioners adopted Resolution No. 88-66 creating the Veterans Advisory Council.

FINANCIAL IMPACT:

N/A

RECOMMENDATION:

Staff recommends the Board approve Resolution No. 2026-73, formally sunsetting the Veterans Advisory Council and repealing Resolution No. 88-66; and authorize the Chair to sign documents as approved by the County Attorney.

RESOLUTION NO. 88-66

A RESOLUTION AUTHORIZING THE CREATION OF A VETERANS ADVISORY COUNCIL, APPOINTING MR. SAM BIONDO AS CHAIRMAN OF THE VETERANS ADVISORY COUNCIL, AND PROVIDING FOR DUTIES AND FUNCTIONS

WHEREAS, the Board of County Commissioners of St. Lucie County, Florida, has made the following determinations:

1. This Board should create a Veterans Advisory Council for the purpose of coordinating the timing of the activities of the various veterans organizations and to be an informational clearinghouse.

2. On December 15, 1987, the Board of County Commissioners met for the purpose of discussing the creation of a Veterans Advisory Council, and designation of Mr. Sam Biondo as Chairman of the Veterans Advisory Council, if created.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of St. Lucie County, Florida:

1. This Board does hereby create the Veterans Advisory Council and appoints Mr. Sam Biondo as Chairman of the Veterans Advisory Council.

2. Each Veterans Organization will appoint its representatives as members of the Veterans Advisory Council, and shall set their terms of office.

3. The Council shall establish a time and place for holding meetings as shall be necessary and the Council shall adopt such rules of organization and procedure as may be required. The Council may establish subcommittees for specific subjects or tasks from among its members.

4. The Council shall have the following duties and functions:

(a) Serve in an advisory role to the St. Lucie County Board of County Commissioners.

(b) Make recommendations to the Board of County Commissioners concerning Veterans activities.

5. The St. Lucie County Veteran's Service Officer will provide administrative support for the Council.

RESOLUTION NO. 2026-73

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF ST. LUCIE COUNTY, FLORIDA, SUNSETTING THE VETERAN'S ADVISORY COUNCIL CREATED BY RESOLUTION NO. 88-66; PROVIDING FOR FINDINGS; AND PROVIDING FOR AN EFFECTIVE DATE

WHEREAS, the Board of County Commissioners of St. Lucie County, Florida, adopted Resolution No. 88-66 on March 15, 1988, creating a Veterans Advisory Council to serve in an advisory capacity to the Board and to coordinate activities among local veterans' organizations; and

WHEREAS, the Veterans Advisory Council was established to act as an informational clearinghouse and to provide recommendations to the Board of County Commissioners regarding veteran's activities within the County; and

WHEREAS, the Board has determined that the Veterans Advisory Council has not met or functioned in an active capacity since approximately 2012; and

WHEREAS, the Board recognizes that multiple active veterans' organizations and collaborative efforts currently exist within St. Lucie County that effectively serve in a similar advisory, coordination, and support capacity for veterans; and

WHEREAS, the continued existence of an inactive advisory body is no longer necessary to fulfill the intended purpose outlined in Resolution No. 88-66; and

WHEREAS, the Board finds that it is in the best interest of the public to formally sunset and dissolve the Veterans Advisory Council.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of St. Lucie County, Florida:

1. **Sunset.**
   The Veterans Advisory Council created pursuant to Resolution No. 88-66 is hereby sunset and dissolved.
2. **Repeal of Prior Resolution.**
   Resolution No. 88-66 is hereby repealed in its entirety.
3. **Administrative Support.**
   Any administrative responsibilities previously assigned to the Veterans Service Division in support of the Veterans Advisory Council are hereby discontinued.
4. **Continuation of Services.**
   Nothing in this Resolution shall be construed to limit or affect the County's continued support of veterans through its Veterans Services Division or partnerships with local veterans' organizations.
5. **Effective Date.**
   This Resolution shall take effect immediately upon adoption.

SUBJECT: Fairgrounds Restoration/Recoating of Roofing for Buildings A, B & C - $209,326.00

BACKGROUND:

Buildings A, B and C all have their original metal roofs. All three of them have leaks, sheet metal panels that have rust, fasteners that need to be replaced and inside insulation that needs repair. The proposal consists of a Restoration/Recoating, not replacement. The warranty is for ten years. The overall total amount is $209,326.00, buildings A & B $137,387.00 and building C $71,939.00.

PREVIOUS ACTION:

N/A

FINANCIAL IMPACT:

Funding will be available in account 001001-1930-546200-72108, pending line to line 2026-0296.

RECOMMENDATION:

Staff recommends Board approval to proceed with restoration/recreation of Buildings A, B and C as outlined in Garland Proposal #25-FL-260360 via US Communities MICPA # PW1925, in the amount of $209,326.00 to provide a safe and dry environment for patrons at the fairgrounds, as well as preservation and continued use of the existing three buildings and authorize the Chair to sign the contract as approved by the County Attorney in accordance with Strategic Plan Policy QI.3.1.1.

ROOFING MATERIAL AND SERVICES PROPOSAL

St Lucie County
St Lucie Fairgrounds
15601 Midway Road
Fort Pierce, FL 34945

Date Submitted: 04/14/2026
Proposal #: 25-FL-260360
MICPA # PW1925
FL General Contractor License #:CGC1533467

Purchase orders to be made out to: Garland/DBS, Inc.

Please Note: The following budget/estimate is being provided according to the pricing established under the Master Intergovernmental Cooperative Purchasing Agreement (MICPA) with Racine County, WI and OMNIA Partners, Public Sector (U.S. Communities). The line item pricing breakdown from Attachment C: Bid Form should be viewed as the maximum price an agency will be charged under the agreement. Garland/DBS, Inc. administered an informal competitive process for obtaining quotes for the project with the hopes of providing a lower market-adjusted price whenever possible.

Scope of Work:

1. Replace any missing or loose fasteners. Use one size larger with neoprene washer.
2. Wire brush any visible rust off roof surface.
3. Prime all areas where rust was removed with Rust-Go Primer at .25gal per square.
4. Replace or repair any rusted through panels with like kind.
5. Pressure wash entire roof surface using 10% mix of Simple Green with water to remove any loose dirt.
6. Any previously repaired areas that have an asphalt or oil based repair, sand blasting the area may be required.
7. Contractor shall replace all rubber boots with new. Contractor shall fill existing holes with Seam Sealer TG and then install new boot, one size large. Contractor shall install a bead of Tuff Stuff MS under the new boot ring prior to installing fasteners for a water tight seal.
8. On all cracks and seams more than 1/64” wide and less than 1/8” wide must be filled and sealed with CPR Seam Sealer BG. Openings and joints wider than 1/8” should be covered with Grip Polyester Soft and CPR Seam Sealer TG. Allow the CPR Seam Sealers to dry 24-48 hours before application of the CPR Base Coat.
9. Seam Sealer BG must be applied at a rate of .67gal/sq.

10. Seam Sealer TG must be applied at a rate of 1gal/14ln.ft at 8” wide pass at ¼” thick. If seams or joints are larger than 1/8” wide , Grip Polyester Soft must be applied or Uni-Bond.
11. All horizontal seams must be covered with Seam Sealer TG and Grip Polyester Soft or Uni-Bond.
12. Allow Seam Sealer to dry 24-48 hrs before applying base coat.
13. Install CPR Base coat at a rate of 1.5gal/sq.
14. Allow CPR Base coat to dry for 24 hrs.
15. Apply CPR White Coating at a rate of 1.5gal/sq.
16. Contractor to provide 3yr warranty.
17. Garland to provide 10 Year Warranty.

Fairgrounds-Building A: Addendum #1

1. Contractor shall apply seam tape to roughly 8 areas on the inside of the building on the batten insulation to pull it back up/repair where draping down.
2. Remove existing coping cap, fabricate new coping cap that correctly extends over top of the wall panels using 22ga Kynar Coated Steel. 6” Face and 4” back, fully extend over sil trim on the back.
3. Install pop rivets on panel laps where they are elevated, prior to apply Unibond and Seam Sealer TG or three coursing with Grip Polyester and Seam Sealer TG.
4. Remove with a wire brush/grinder areas where Silicone is present prior to start of the job.
5. Apply Seam Sealer TG around all gutter brackets on three sides.

Fairgrounds-Building A,B,& C: Addendum

1. Include 50 LNFT of taping seams for each building (B & C)

Attachment C: Bid Form - Line Item Pricing Breakdown

Item #	Item Description	Unit Price	Quantity	Unit	Extended Price

15.06	RESTORATIONS - RECOATING OF EXISTING ROOF SYSTEMS : RESTORATION OF METAL ROOF SYSTEM WITH SYNTHETIC RUBBER COLD-APPLIED COATING Prepare Metal Roof Surface by Scraping, Sanding, Wire Brush or Blasting (USE SEPRATE LINE ITEM FOR BLASTING OR WIRE BRUSHING); Clean with TSP or Simple Green; Use Portable Blowers to Clear Roof of Moisture; Apply seam sealer to seams (1 Gallon per 14 left) Base Coat / Top Coat with Synthetic Rubberized Restorative Coating (1.5 Gallons per Sq.) According to Manufacturer's Specifications	$ 8.63	9,400	SF	$ 81,122.00
	Sub Total Prior to Multipliers				**$ 91,838.00**
22.03	MULTIPLIER - MULTIPLE MATERIAL STAGINGS Multiplier is applied when labor production is effected by the time it takes to stage a roof multiple times. Situations include, but are not limited to staging materials to perform work on multiple roof levels, planned shutdowns and restarts, portion of the job is over sensitive work areas requiring staging from more than one point, etc.	30	91,838.00	%	$ 27,551.40
22.20	MULTIPLIER - ROOF SIZE IS GREATER THAN 5,000 SF, BUT LESS THAN 10,000 SF Multiplier is applied when Roof Size is greater than 5,000 SF, but less than 10,000 SF. Situation creates the fixed costs: equipment, mobilization, demobilization, disposal, & set-up labor to be allocated across a smaller roof area resulting in fixed costs being a larger portion of the overall job costs	25	91,838.00	%	$ 22,959.50
	Total After Multipliers				**$ 142,348.90**

Base Bid Total Maximum Price of Line Items under the MICPA:	**$ 142,349**
Proposal Price Based Upon Market Experience:	**$ 137,387**

Garland/DBS Price: Base Bid Building A & B

1 All Systems Roofing - 885 S Kings Hwy Fort Pierce, FL 34945 United States	**$**	**137,387**
2 Rack'd Roofing & Construction - 2605 Orange Ave. Fort Pierce, FL 34947 United States	$	168,593
3 Crawford Roofing - 4890 Okeechobee Rd., Fort Pierce, FL 34947	$	233,296

Garland/DBS Price: Add-Alternate Building C

1 All Systems Roofing	**$**	**71,939**

Potential issues that could arise during the construction phase of the project will be addressed via unit pricing for additional work beyond the scope of the specifications. This could range anywhere from wet insulation, to the replacement of deteriorated wood nailers.

Please Note – The construction industry is experiencing unprecedented global pricing and availability pressures for many key building components. Specifically, the roofing industry is currently experiencing long lead times and significant price increases with roofing insulation and roofing fasteners. Therefore, this proposal can only be held for 30 days. DBS greatly values your business, and we are working diligently with our long-term suppliers to minimize price increases and project delays which could effect your project. Thank you for your understanding and cooperation.

Clarifications/Exclusions:

1. Plumbing, Mechanical, Electrical work is excluded.
2. Masonry work is included to which it obtains to the scope of work.
3. Interior Temporary protection is excluded.
4. Any work not exclusively described in the above proposal scope of work is excluded.

If you have any questions regarding this proposal, please do not hesitate to call me at my number listed below.

Respectfully Submitted,

John Petersen

SUBJECT: 2026 Summer of Success - Grant Agreement

BACKGROUND:

St. Lucie County has partnered with Careersource Research Coast to offer the Summer of Success Youth Program again in 2026. With Board approval, this will be the eighth year that the program has been funded since the kickoff in the summer of 2016. This program has been successful in providing young people in our community with needed employability skills and workplace experience. The summer internships will serve up to 40 young people, ages 16-21, residing in St. Lucie County. In past years, this program has been funded by St. Lucie County and the Common Good Initiative Grant provided by Alleghany Franciscan Ministries (AFM) with the intent of phasing out AFM's contribution. However, Covid reduced participant numbers, which created excess grant funds that have been carried over each year since. The Allegany Franciscan Ministries carry over balance has now been expended and the program is now fully funded by the Board.

PREVIOUS ACTION:

Approval of Grant Agreements with CareerSource Research Coast for 2016, 2019, 2021, 2022, 2023, 2024, 2025 & 2026.

Year 1 - 80% Common Good Initiative $240,000, 20% St. Lucie Board of County Commissioners $60,000
Year 2 - 60% Common Good Initiative $180,000, 40% St. Lucie Board of County Commissioners $120,000
Year 3 - 50% Common Good Initiative $150,000, 50% St. Lucie Board of County Commissioners $150,000
Year 4 - 40% Common Good Initiative $120,000, 60% St. Lucie Board of County Commissioners $180,000
Year 5 - 67% Common Good Initiative $100,000, 33% St. Lucie Board of County Commissioners $50,000
Year 6 - 27% Common Good Initiative $44,000, 73% St. Lucie Board of County Commissioners $121,000
Year 7 - 54% Common Good Initiative $88,877, 46% St. Lucie Board of County Commissioners $76,123
Year 8 - 0% Common Good Initiative, 100% St. Lucie Board of County Commissioners $150,000

FINANCIAL IMPACT:

The FY25-26 budget was approved for the Summer of Success program. The total cost of the program is $150,000.00. Funding in the amount of $150,000.00 is available in 001-6900-583000-690000.

RECOMMENDATION:

Staff recommends Board approval of the grant agreement for the Summer of Success program, and authorization for the Chair to sign documents as approved by the County Attorney in accordance with Strategic Plan Policy AO 2.2.1.

GRANT AGREEMENT

THIS AGREEMENT, made this 7th day of April, 2026 between **ST. LUCIE COUNTY**, a political subdivision of the State of Florida, hereinafter called the "County," and **THE WORKFORCE DEVELOPMENT BOARD OF THE TREASURE COAST/ DBA CAREERSOURCE RESEARCH COAST, LWDB20**, or its successors, executors, administrators, and assigns hereinafter called "Recipient":

IN CONSIDERATION of the mutual benefits received by each part, the parties mutually agree as follows:

1. The County shall disburse to the Recipient a grant in a total amount not to exceed one hundred fifty thousand and 00/100 dollars ($150,000) payable in two installments of seventy five thousand and 00/100 dollars each. The first installment shall be due on or before June 30, 2026. The second installment shall be due on or before July 30, 2026. The Recipient shall use the grant funds for the Summer of Success St. Lucie County 2026 Youth Program, hereinafter referred to as the "Program."

2. The Program shall provide up to forty (40) St. Lucie County youth, between the ages of sixteen (16) and twenty-one (21) with meaningful summer work experiences to prepare them for future careers and further education and training, as set forth in the Tentative Budget and Summer Work Experience Supervisor Manual, attached hereto and incorporated herein as Exhibits "A" and "B", respectively.

3. The Recipient shall provide the County Human Resources Department with an initial written report and supporting documents regarding the use of the grant funds and program progress report by July 1, 2026. A final report and supporting documents shall be provided on or before October 1, 2026, and should include a program outcome report. The report should also provide a list of the youth, their ages and grade level, as well as indicators of successful completion of the training and employment segments and/or reason for failure to complete.

4. The Recipient shall have internal controls adequate to safeguard the grant.

5. If the grant cannot be used or a subsequent audit reveals the grant was not used according to this Agreement, any money not so used shall be reimbursed to the County.

6. The Recipient shall provide an audit, by a certified or duly licensed public accountant, of the expenditure of monies disbursed pursuant to this Agreement. The Recipient shall submit all documents required under this paragraph within one hundred and eighty days (180) days after the end of its last fiscal year during which funds are expended under this Agreement.

7. The Recipient gives the County the right, until the expiration of three (3) years after expenditure of funds under this Agreement, to audit the use of the grant monies. Upon demand, the County shall have access to and the right to examine any directly pertinent books, documents, papers, and records of Recipient involving transactions related to these grant monies. All required

records shall be maintained until an audit is completed and all questions arising there from are resolved, or until the expiration of three (3) years after the expenditure of the funds.

8. The Recipient is and shall be an independent contractor, responsible to all parties for all of its acts or omissions and the County shall in no way be responsible for such acts or omissions. Recipient shall and will indemnify and hold harmless the County from and against any and all liability, claims, damages, expenses, fees, fines, penalties, suits, proceedings, and actions and cost of actions, including reasonable attorney's fees of any kind and nature arising or growing out or in any way connected with the use, occupations, administration or control of the above described services by Recipient or its agents, employees, customers, patrons or invitee, or resulting from injury to person or property, or a loss of life or property of any kind or nature whatsoever sustained during the term of this Agreement. Recipient hereby acknowledges that the payments made under this Agreement include specific consideration for the indemnification provided herein.

9. SCRUTINIZED COMPANIES TERMINATION: The County may immediately terminate the Contract without cause at any time upon ascertaining that pursuant to § 287.135, Florida Statutes, a company is ineligible to, and may not, bid on, submit a proposal for, or enter into or renew a contract with an agency or local government entity for goods or services if at the time of bidding or submitting a proposal for a new contract or renewal of an existing contract, or at any time thereafter, the company: (1) is on the Scrutinized Companies that Boycott Israel List, created pursuant to § 215.4725, Florida Statutes, or is engaged in a boycott of Israel; (2) is on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to § 215.473, Florida Statutes; or (3) is engaged in business operations in Cuba or Syria. Furthermore, the County may immediately terminate the Contract if it is determined that the company submitted a false certification stating that it was not (1) on the Scrutinized Companies that Boycott Israel List or engaged in a boycott of Israel; (2) was not on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List; (3) or was not engaged in business operations in Cuba or Syria when in fact the company was engaged in such activities at the time of the bid or proposal, or at the time of entering into or renewing the Contract.

10. PUBLIC RECORDS: The Recipient shall allow public access to all documents, papers, letters, or other material subject to the provisions of Chapter 119, Florida Statutes, and made or received by the Recipient in conjunction with this Agreement. Specifically, the Recipient shall:

(a) Keep and maintain public records that ordinarily and necessarily would be required by the County in order to perform the service.

(b) Provide the public with access to public records on the same terms and conditions that the County would provide the records and at a cost that does not exceed the cost provided in state law or as otherwise provided by law.

(c)Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law.

(d) Upon completion of the Contract, transfer, at no cost, to the County all public records in possession of the Recipient or keep and maintain public records required by the County to perform the service. If the Recipient transfers all public records to the County upon completion of the Contract, the Recipient shall destroy any duplicate public records that are exempt or confidential and exempt from public

record disclosure requirements. If the Recipient keeps and maintains public records upon completion of the Contract, the Recipient shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's custodian of public records, in a format that is compatible with the information technology system of the County.

IF THE RECIPIENT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE RECIPIENT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT (772)462-1441, SLCAttorneyPRR@stlucieco.gov, COUNTY ATTORNEY'S OFFICE 2300 VIRIGNIA AVENUE, FORT PIERCE, FL 34982

11 All publications, media productions and exhibit graphics shall include the following statement: Sponsored in part by the Board of County Commissioners, St. Lucie County, Florida.

12. Any notice shall be in writing and sent registered or certified mail, postage, and charges prepaid, and addressed to the parties at the following address:

TO THE COUNTY:
St. Lucie County Administrator
2300 Virginia Avenue
Fort Pierce, Florida 34982

WITH COPIES TO:
St. Lucie County Attorney
2300 Virginia Avenue
Fort Pierce, Florida 34982

TO THE RECIPIENT:
The Workforce Development Board of The Treasure Coast/
Dba Careersource Research Coast, Lwdb20
4100 Okeechobee Road
Fort Pierce, Florida 34947

13. No amendment, modification or waiver of this Agreement shall be valid or effective unless in writing and signed by both parties and no waiver of any breach or condition of this Agreement shall be deemed to be a waiver of any other conditions or subsequent breach whether of like or different nature. If the County currently provides or subsequently provides any forms for agreement modification, the Recipient agrees to use said forms.

14. The Recipient represents that it presently has no interest and shall acquire no interest, either direct or indirect, which would conflict in any manner with the performance of services required hereunder, as provided for in Section 112.311, Florida Statutes, as may be amended from time to time. Recipient further represents that no person having any interest shall be employed for said performance.

The Recipient shall promptly notify the County in writing by certified mail of all potential conflicts of interest prohibited by existing state law for any prospective business association, interest or other circumstance that may influence or appear to influence Recipient's judgment or quality of services being provided hereunder. Such written notification shall identify the prospective business association, interest or circumstance, the nature of work that the Recipient may undertake and request an opinion of the County as to whether the association, interest or circumstance would, in the opinion of the

County, constitute a conflict of interest if entered into by the Recipient. The County agrees to notify the Recipient of its opinion by certified mail within thirty (30) days of receipt of notification by the Recipient. If, in the opinion of the County, the prospective business association, interest or circumstance would not constitute a conflict of interest by the Recipient, the County shall so state in the notification and shall, at his/her option, enter into said association, interest or circumstance and it shall be deemed not in conflict of interest with respect to services provided to the County by the Recipient under the terms of this Agreement.

15. Except as otherwise provided, this Agreement shall be binding upon and shall insure to the benefit of the parties.

16. E-VERIFY/ VERIFICATION OF EMPLOYMENT STATUS: Effective January 1, 2021, as required by Section 448.095(2)(a), Florida Statutes, the Recipient and any subcontractors shall register with and use the E-Verify System to verify the work authorization status of all newly hired employees. The County, the Recipient, and any subcontractors may not enter into a contract unless each party uses the E-Verify System. The Recipient shall provide documentation of its compliance with this requirement upon request by the County.

If the Recipient enters into a contract with a subcontractor, the subcontractor must provide the Recipient with an affidavit stating the subcontractor does not employee, contract with or subcontract with an unauthorized alien. The Recipient shall maintain a copy of the affidavit during the terms of this Agreement.

The County will not intentionally award contracts to any contractor who knowingly employs unauthorized alien workers, constituting a violation of the employment provisions of the Immigration and Nationality Act ("INA"). The County shall consider the employment by the Recipient of unauthorized aliens a violation of 8 Section U.S.C. 1324(a)(3) [Section 274(e) of the INA]. The Recipient agrees that violation by Recipient shall be grounds for unilateral termination of this Agreement by the County.

17. In the event of a dispute between the parties in connection with this Agreement, the parties agree to submit the disputed issue or issues to a mediator for non-binding mediation prior to filing a lawsuit. The parties shall agree on a mediator chosen from a list of certified mediators available from the Clerk of Court for St. Lucie County. The parties shall share the fee of the mediator equally. To the extent allowed by law, the mediation process shall be confidential and the results of the mediation or any testimony or argument introduced at the mediation shall not be admissible as evidence in any subsequent proceeding concerning the disputed issue.

18. In the event it is necessary for either party to initiate legal action regarding this Agreement, venue shall be in the Nineteenth Judicial Circuit for St. Lucie County, Florida for claims under state law and the Southern District of Florida for any claims that are justiciable in federal court.

19. SOVEREIGN IMMUNITY: The County is a state agency or subdivision as defined in Section 768.28, F.S. The County is responsible for its own acts of negligence which result in claims or suits arising out of the Agreement, and agrees to be liable to the limits set forth in Section 768.28, F.S. Nothing herein shall be construed as a waiver of sovereign immunity or consent by a state agency to be sued by third parties in any matter arising out of the Agreement.

20. This Agreement embodies the whole understanding of the parties. There are no promises, terms, conditions, or obligations other than those contained herein, and this Agreement shall supersede all previous communications, representations, or agreements, either verbal or written, between the parties hereto.

IN WITNESS WHEREOF, the parties have caused the execution by their duly authorized officials as of the day and year first written above.

CONSENT AGENDA - PURCHASING DIVISION
DATE: **5/5/2026**
*ACTION ITEM - REQUEST FOR PROPOSAL
QUASI-JUDICIAL ITEM? No

AGENDA REQUEST

TO: **Board of County Commissioners**

PRESENTED BY: Desiree Cimino, Purchasing Manager

SUBMITTED BY: Purchasing Division

SUBJECT: Request for Proposal (RFP) No. 26-014 - Disaster Debris Monitoring Management and Consultant Services - **ADD ON**

BACKGROUND:

On February 18, 2026, responses to RFP No. 26-014, Disaster Debris Monitoring Management and Consultant Services, were opened. Four proposals were received; 469 companies were notified, and 37 RFP documents were distributed.

The purpose of this RFP is for a firm to assist in debris collection during disaster recovery. St. Lucie County seeks to establish contractual arrangements, with at least one (1) primary and up to three (3) additional qualified firms, to provide management services and technical assistance in regard to the monitoring of disaster debris collection on an as-needed basis.

Hurricanes, tornadoes, and other natural and man-made events frequently produce substantial volumes of debris, creating hazardous conditions that impact public health, welfare and safety by obstructing roads, by creating obstacles to safe passage of emergency and essential pedestrian and vehicular traffic, and by notably increasing potential exposure to fire and hazardous materials. To mitigate the hazardous conditions, it is mandatory that there be an early, safe and rapid response to restoring safe and economically viable conditions by the removal of the debris in a prompt and environmentally protective manner.

St. Lucie County Solid Waste will assign a Debris Manager to the debris collection/management project and will establish and staff a Debris Management Center at the St. Lucie County Baling and Recycling Facility. The Debris Management Center will provide a site for overall coordination of the project with the proposer(s) and local, state, and federal agencies. Authorized local, state, and federal agencies will also provide staff to the Debris Management Center to assure a proper level of coordination. The Debris Management Center will be the primary point of contact for the proposer(s).

The response of the selected monitoring proposer(s) to the disaster recovery process must be immediate, rapid and efficient with acceptable cost controls, accountability procedures, written reports and submittals to

assure that the County shall have the means to be reimbursed for all eligible disaster recovery costs from appropriate federal, state, and private agencies. Response will typically be activated only in the event of an emergency and in accordance with an awarded contract.

On March 26, 2026, the selection committee evaluated and ranked the proposals that were received. The committee members' scores and ranking for each firm are provided in Attachment A.

The short-listed firms in order of ranking are as follows:

1. Thompson Consulting Services
2. Debris Tech
3. True North Emergency Management, LLC
4. Tetra Tech, Inc.

PREVIOUS ACTION:

N/A

FINANCIAL IMPACT:

In the event of an emergency, debris removal expenditures will be funded from a variety of sources including FEMA, Florida Department of Emergency Management, and County reserves.

RECOMMENDATION:

Staff recommends Board approval of the short-listed firms for RFP No. 26-014 and permission to:

- Conduct contract negotiations with the highest-ranked proposer, Thompson Consulting Services, as the primary consultant and Debris Tech, as the secondary consultant.
- If negotiations are successful, award contracts to both proposers and authorize the Chair to sign the documents as prepared by the County Attorney in accordance with Strategic Plan Policy HS 4.4.
- If negotiations are unsuccessful with either firm, negotiations will be terminated with that firm and staff will start negotiations with the next ranked firm(s).

SUBJECT: Request for Qualifications (RFQ) No. 26-016 - Professional Engineering Services – Bridge and Structure Evaluation and Design Services - Continuing Contracts

BACKGROUND:

On February 25, 2026, responses to RFQ No. 26-016, Professional Engineering Services – Bridge and Structure Evaluation and Design Services - Continuing Contracts, were opened. Six proposals were received; 845 companies were notified and 51 RFQ documents were distributed.

The purpose of this RFQ is to establish multiple continuing contracts with engineering firms with bridge evaluation and design expertise to perform professional engineering services for the St. Lucie County Public Works Department.

On April 8, 2026, the selection committee evaluated and ranked the proposals that were received. The committee members' scores and ranking for each firm are provided in Attachment A.

The short-listed firms in order of ranking are as follows:

1. Kimley-Horn & Associates
2. Kisinger, Campo & Associates
3. BCC Engineering LLC
4. WGI, Inc.

PREVIOUS ACTION:

N/A

FINANCIAL IMPACT:

Sufficient funding is available from various departmental professional service budgets as-needed.

RECOMMENDATION:

Staff recommends Board approval of the short-listed firms for RFQ No. 26-016 and permission to:

- Conduct contract negotiations with successful short-listed firms;
- If negotiations are successful, award contracts to the successful short-listed firms and authorize the Chair to sign the documents as prepared by the County Attorney.

CONSENT AGENDA - PARKS & RECREATION
DATE: **5/5/2026**
*ACTION ITEM - WAIVER OF FEES
QUASI-JUDICIAL ITEM? No

AGENDA REQUEST

TO: **Board of County Commissioners**

PRESENTED BY: Decreta Meely, Venue Coordinator

SUBMITTED BY: Parks & Recreation

SUBJECT: SLC Children's Services Council - More Than A Game Graduation - Fee Waiver $562.50

BACKGROUND:

The St. Lucie County Children's Services Council is planning the graduation ceremony and resource fair for the More Than a Game Program on May 27, 2026, at the Havert L. Fenn Center. This program is an engagement initiative by the SLC Children's Services Council aimed at reaching fathers in the community. The program is in partnership with Roundtable of St. Lucie County, Inc., which provides the curriculum, along with other organizations and businesses supporting various aspects of the project.

Certain rental fees may be waived by the BOCC, pursuant to B.8.b. in Exhibit A of Resolution 14-053. Any additional costs for County staff and equipment will be covered by the renter.

PREVIOUS ACTION:

Previous fee waiver approvals 2023, 2024, 2025.

FINANCIAL IMPACT:

If the fee waiver is approved, the County will forgo $562.50 in rental fee revenue under accounting string 001-7215-347220-7510 User Fees.

RECOMMENDATION:

Staff recommends Board approval to waive the facility use fee of $562.50 as outlined in this agenda memorandum and authorization for the Chair to sign documents as approved by the County Attorney in accordance with Strategic Plan Policy TC 5.2.1.

Re: Request to use the Havert L. Fenn Center for More Than A Game Season VI Graduation

To Whom It May Concern,

I am writing to request the use of the Havert L. Fenn Center on Wednesday, May 27, 2026. We plan to host our graduation ceremony and resource fair for our More Than a Game program, as we have successfully done for the past three years—on June 25, 2023, May 22, 2024, and May 28, 2025. Each year, we receive positive feedback from attendees, and we would be grateful to continue holding our graduation at the Havert L. Fenn Center.

More Than a Game is an engagement initiative developed by the Children's Services Council to support fathers and father figures in our community. We partner with the Roundtable of St. Lucie County and the Inner Truth Project for the curriculum component, which explores themes related to fatherhood. Additionally, we collaborate with organizations and businesses to provide valuable resources for participants. More Than a Game offers fathers and father figures the opportunity to learn about community resources and engage in meaningful discussions about fatherhood with their peers.

We hope you will grant us permission to use the facility for this event. Thank you in advance for your consideration.

Best regards,

PRESENTED BY: Benjamin Balcer, Planning & Development Services Director

SUBMITTED BY: Planning & Development Services

SUBJECT: Revocation of Economic Incentive Resolution No. 23-006 and Job Growth Investment Grant 23-001 granted to Meyer Utility Structures, LLC, AKA Arcosa

BACKGROUND:

On January 24, 2023, the Board of County Commissioners approved Resolution No. 2023-006, committing to provide economic incentives for a new manufacturing facility owned by Meyer Utility Structures, LLC, also known as Arcosa. Subsequently, on March 7, 2023, the Board approved Job Growth Investment Grant Agreement No. 23-001 for the creation of 101 new jobs and deferred the fee in lieu of sidewalk construction for a period of up to 12 months.

On February 6, 2024, the Board approved the first amendment to JGIG Agreement No. 23-001, extending the Year One job creation deadline to December 31, 2024, and providing a 12-month extension for the fee in lieu of sidewalk construction. On January 21, 2025, the Board approved a second amendment to the agreement, extending the Year One job creation deadline to December 31, 2025, and granting an additional 12-month extension for the fee in lieu of sidewalk construction.

On February 27, 2026, Arcosa requested a third extension of the JGIG agreement, citing its inability to meet the job creation requirements within the specified timeframe. At the March 10, 2026, Board of County Commissioners Informal Meeting, staff presented the request, and the Board directed staff to terminate the existing agreement and renegotiate a new agreement that would account for any changes to the County's economic incentive program criteria.

On April 2, 2026, Arcosa submitted a letter supporting termination of the existing JGIG agreement and requested the deferment of the fee in lieu of sidewalk construction remain in place pending negotiation of a new agreement. In response to this request, staff suggests deferring the payment of the sidewalk fee in lieu for a period of 180-days to allow the County and Arcosa to negotiate a new economic incentive agreement.

Revocation of the resolution and termination of JGIG Agreement No. 23-001 will not affect Meyer Utility Structures, LLC, also known as Arcosa's ability to request economic incentives from the Board of County Commissioners in the future.

PREVIOUS ACTION:

On January 24, 2023, the Board of County Commissioners (Board) approved Resolution 2023-006, committing to incentivize a new manufacturing facility owned by Meyer Utility Structures, LLC, AKA Arcosa.

On March 7, 2023, the Board approved a Job Growth Investment Grant agreement (JGIG agreement 23-001) for the creation of 101 new jobs and deferred the payment in lieu of sidewalk construction for a period of up to 12-months.

On February 6, 2024, JGIG agreement 23-001 was amended to extend the Year One job creation date to December 31, 2024, and provide a 12-month extension on the fee in lieu of sidewalk construction.

On January 21, 2025, JGIG agreement 23-001 was amended to extend the Year One job creation date to December 31, 2025, and provide an additional 12-month extension for the sidewalk fee in lieu of payment.

RESOLUTION 2026-XX

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF ST. LUCIE COUNTY, FL REVOKING RESOLUTION 2023-006 AND JOB GROWTH INVESTMENT GRANT (JGIG) 23-001 WHICH APPROVED CERTAIN ECONOMIC INCENTIVES ON BEHALF OF MEYER UTILITY STRUCTURES, LLC, AKA ARCOSA.

WHEREAS, the Board of County Commissioners of St. Lucie County, Florida, has made the following determinations

1. On January 24, 2023, the Board of County Commissioners (Board) approved Resolution 2023-006, committing to incentivize a new manufacturing facility owned by Meyer Utility Structures, LLC, AKA Arcosa, consisting of approximately 89,000 square feet.

2. Resolution 2023-006 authorized County staff to prepare a Job Growth Investment Grant (JGIG) Agreement for the creation of one hundred and one (101) new jobs associated with the company's new manufacturing facility.

3. On March 7, 2023, the Board of County Commissioners approved Job Growth Investment Grant (JGIG) Agreement 23-001, for Meyer Utility Structures, LLC, AKA Arcosa, incentivizing the creation of one hundred and one (101) new jobs over a three-year period and deferring the payment of $35,280.00 in lieu of sidewalk construction for a period of up to 12 months.

4. On February 6, 2024, JGIG Agreement 23-001 was amended to extend the Year One job creation date to December 31, 2024, and provide a 12-month extension on the fee in lieu of sidewalk construction.

5. On January 21, 2025, JGIG Agreement 23-001 was amended to extend the Year One job creation date to December 31, 2025, and provide an additional 12-month extension for the sidewalk fee in lieu of payment.

6. Meyer Utility Structures, LLC, AKA Arcosa has not met the job creation requirements established under JGIG Agreement 23-001, as amended.

7. On April 2, 2026, Meyer Utility Structures, LLC, AKA Arcosa, submitted correspondence to the County, agreeing to terminate the existing agreement with the understanding that the company will have the opportunity to renegotiate a future economic incentive agreement with the County.

8. The Board of County Commissioners intends to provide Meyer Utility Structures, LLC, AKA Arcosa, with one hundred eighty (180) days from the effective date of this Resolution to negotiate and obtain approval of a new economic incentive agreement with the County. In the event a new agreement is not approved within such time, the company shall be responsible for payment of $35,280.00, representing the deferred fee in lieu of sidewalk construction in accordance with applicable County requirements.

9. The revocation of Resolution 2023-006 and JGIG Agreement 23-001 shall not prevent Meyer Utility Structures, LLC, AKA Arcosa from requesting economic incentives from the Board of County Commissioners in the future.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of St. Lucie County, Florida:

A. Resolution 2023-006 for Meyer Utility Structures, LLC, AKA Arcosa, authorized by the Board of County Commissioners on January 24, 2023, is hereby revoked.

B. Job Growth Investment Grant (JGIG) Agreement 23-001 for Meyer Utility Structures, LLC, AKA Arcosa, approved on March 7, 2023, as amended, is hereby revoked in its entirety.

C. The revocation of Resolution 2023-006 and JGIG Agreement 23-001 shall not create any obligation on the part of the County to approve or provide future economic incentives.

D. This Resolution shall take effect on the date of the adoption.

After motion and second, the vote on this Resolution was as follows:

Commissioner, Jamie Fowler, Chair	XX
Commissioner Larry Leet, Vice Chair	XX
Commissioner James Clasby	XX
Commissioner Erin Lowry	XX
Commissioner Cathy Townsend	XX

April 2, 2026

Mr. George Landry, County Administrator
St. Lucie County
2300 Virginia Avenue
Fort Pierce, Florida 34982

Re: JGIG Agreement 23-001 with Meyer Utility Structures, LLC

Dear Mr. Landry,

On behalf of Meyer Utility Structures, LLC, I would like to thank you and other members of the County Staff for meeting with me last week to discuss the continuing viability of Meyer's Job Growth Investment Grant Agreement 23-001 (the "JGIG Agreement"). As we discussed, we believe that it would be in the mutual interests of Meyer and the County to terminate the existing JGIG Agreement and work toward a new agreement with recalibrated goals and incentives. Accordingly, Meyer is requesting formal termination of the Agreement, with the understanding that Meyer and the County will promptly enter into negotiation of a replacement JGIG agreement

As we also discussed, Meyer entered into an Agreement to Pay Fee in Lieu of Constructing Concrete Sidewalks (the "Sidewalk Fee Agreement") with the County in connection with Meyer's development of the project for which the JGIG Agreement applies. Per the terms of the Sidewalk Fee Agreement and the JGIG Agreement, the applicable sidewalk fees were to be paid to the County through the grant funds to be disbursed under the JGIG Agreement. In light of the termination of the existing JGIG Agreement and the expectation of entering into a new agreement, Meyer is requesting that the payment of the fees otherwise due under the Sidewalk Fee Agreement be deferred by the County pending the negotiation of, and incorporation into, the new JGIG agreement.

We appreciate the patience that the County has shown as Meyer continues to try to expand its presence in St. Lucie County, and we look forward to working with you to quickly negotiate a new JGIG agreement. In the meantime, if you or any member of the County staff may reach out to me by email at hal.fonville@arcosa.com of by phone at (901)359-2767 with any questions or concerns about the Meyer project.

Sincerely,

Hal Fonville
Vice President
Meyer Utility Structures, LLC

RESOLUTION 2023-006

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF ST. LUCIE COUNTY APPROVING CERTAIN INCENTIVES ON BEHALF OF MEYER UTILITY STRUCTURES, LLC., ("ARCOSA").

WHEREAS, the Board of County Commissioners of St. Lucie County, Florida, has made the following determinations:

1. Meyer Utility Structures, LLC., ("ARCOSA") is an industry leader in the engineering design and fabrication of concrete, lattice, and tubular steel structures for transmission, distribution, and substation applications manufacturer, which is a targeted industry in St. Lucie County.

2. In addition to a generous benefits package, ARCOSA earnings per worker is above the average earnings for St. Lucie County.

3. ARCOSA has identified vacant land and has begun construction of a manufacturing facility in Fort Pierce.

4. The project will include approximately 89,000 square feet of new manufacturing facility and the creation of 101 new jobs. The employment schedule consists of 50 new jobs in Year 1, 42 new jobs in Year 2, and 9 new jobs in Year 3.

5. St. Lucie County is offering an incentive package to ARCOSA for the benefit of the residents of St. Lucie County.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of St. Lucie County, Florida, that in consideration of the benefits gained by the residents of St. Lucie County through the development of ARCOSA's new facility, the following incentives are offered:

A. *St. Lucie County Job Growth Incentive Grant (JGIG)* - The Board authorizes County staff to prepare a JGIG agreement with ARCOSA for the creation of 101 new jobs pursuant to the Job Growth Investment Grant guidelines.

B. After motion and second, the vote on this Resolution was as follows:

After motion and second, the vote on this resolution was as follows:

ST. LUCIE COUNTY JOB GROWTH INVESTMENT GRANT AGREEMENT

THIS AGREEMENT is made as of the 7th day of March, 2023 by and between St. Lucie County, a political subdivision of the State of Florida, by and through its Board of County Commissioners, hereinafter referred to as the COUNTY and Meyer Utility Structures, LLC, a limited liability company authorized to do business in the State of Florida, hereinafter referred to as the COMPANY whose Federal I.D. number is **47-1177304**.

W I T N E S S E T H:

WHEREAS, it is the policy of the COUNTY to stimulate economic growth in St. Lucie County, by either attracting new businesses to St. Lucie County or by encouraging the expansion of existing businesses within St. Lucie County; and

WHEREAS, the creation of new employment opportunities for residents of St. Lucie County and the increased tax revenues resulting from such business expansion or relocation within St. Lucie County is beneficial to the local economy; and

WHEREAS, the Board of County Commissioners has determined that offering a Job Growth Investment Grant encourages either businesses to expand or new businesses to enter St. Lucie County and thereby create new employment opportunities for the residents of St. Lucie County; and

WHEREAS, St. Lucie County, through its Board of County Commissioners, has created a Job Growth Investment Grant; and

WHEREAS, the COMPANY will either relocate to St. Lucie County or expand its existing business in St. Lucie County and thereby create certain new employment opportunities having a specific wage level or higher in St. Lucie County in accordance with the Job Growth Investment Grant criteria if the COUNTY provides to the COMPANY a Job Growth Investment Grant; and

WHEREAS, the COMPANY has been determined to be eligible to receive a Job Growth Investment Grant by the COUNTY'S Job Growth Investment Grant Review Committee; and

WHEREAS, the COMPANY acknowledges that this Agreement shall be based upon the COMPANY'S obtainment of the performance requirements as outlined in this Agreement; and,

WHEREAS, on January 24, 2023, the COUNTY approved to defer the payment in lieu of sidewalk construction for a period of up to twelve (12) months from the date of this Agreement and provide the option for the COMPANY to utilize future Job Growth Investment Grant (JGIG) funds to satisfy this requirement; and,

WHEREAS, the COUNTY finds and declares that it is in the public interest to award a Job Growth Investment Grant to COMPANY pursuant to the terms of this Agreement.

NOW, THEREFORE, in consideration of the premises and mutual covenants hereinafter contained, the parties do agree as follows:

1. Definitions. As used in this Agreement, the following terms shall mean:

   a. "Annual Average Hourly Wage" - includes the hourly cost of wages, bonuses, and commissions but does not include benefits. The Top two Executive salaries as defined in this Agreement shall not be included in the average wage calculations.

   b. "Base Period for Hourly Wage level and Job Creation" - As set forth in the State of Florida Employer's Quarterly Report (RT-6A) for the quarter preceding the Grant application.

   c. "Default" - failure to comply with the terms of the Agreement.

   d. "Effective Date" – The date of execution of this Agreement by the COUNTY.

   e. "Employer's Quarterly Report Form RT-6" - COMPANY's State of Florida Employer's Quarterly Report Form RT-6A provided to the COUNTY in conjunction with the execution of this Agreement, and thereafter as required pursuant to this Agreement.

   f. "Expansion of an existing business" - A business establishing 10 or more jobs to employ 10 or more new full-time employees in the County. These jobs must represent a net increase in employment at the site/facility and be not less than a 10 percent increase.

   g. "Full-time Equivalent Job" - shall be calculated by total payroll hours per year divided by 52 weeks and then, divided by 35 hours.

   h. "JGIG" - shall mean Job Growth Investment Grant.

   i. "New Business" - a business establishing 10 or more jobs to employ 10 or more full-time employees in the County within the term of the Grant provided that such business first begins operations on a site in the County clearly separate from any other operation owned by the same business.

j. Research Firm – A company that employs 50% or more of their workforce in the development of new products, refinement of existing products, testing of products, development of new scientific information and others to be defined.

k. "St. Lucie County Average Hourly Wage" – At least 107% of the average annual hourly wage per job in St. Lucie County, as determined by State of Florida Department of Labor, Workforce Development Board or Enterprise Florida, Inc.

2. Wage Level Commitment.

As a condition precedent to and as consideration for obtaining JGIG funds from the COUNTY, the COMPANY agrees to pay an average hourly wage of not less than **$22.38** per hour annually for those new jobs which are eligible for Grant hereunder. This per hour wage will be adjusted on the third and sixth anniversaries of the Effective Date of this Agreement for wage rate inflation based upon the percentage change in the Consumer Price Index ("CPI Index") between the Effective Date of this Agreement and the third and sixth anniversary of the Effective Date of this Agreement.

The target wage rate will then be increased by the percentage change in the CPI Index in order to determine the new target wage rate on the third anniversary and sixth anniversary of this Agreement. The COMPANY shall provide written verification satisfactory to the COUNTY that the average hourly wage of the new jobs meets the average rate of **$22.38** per hour in the first three years of the Agreement and adjusted as defined above in year three and year six.

The first report provided by the COMPANY will be the State of Florida Employer's Quarterly Report (Form RT-6) including hours worked per month, total number of employees, gross wages paid in the quarter and a total of hours and wages for the Top Executive wages for the quarter before the JGIG Application Date. These Top Executives are defined as the wages for the two (2) highest paid employees on a wage basis. The COMPANY will provide the hours and wage dollars for these Top Two (2) Executives for each reporting period. Each quarter after the approval of the JGIG the COMPANY must provide this information to the COUNTY when filing the Employer's Quarterly Report (Form RT-6). The first report after the Effective Date may include only a partial quarter due to the approval timing. The base period or the adjusted base period at three (3) years or six (6) years will be subtracted from the current twelve (12) month report to equal net growth of hours and wages. The net wages will be divided by the net hours for the average hourly wage rate to compare to the adjusted targeted minimum hourly wage level.

The COMPANY'S failure to maintain its hourly wage level commitment for any year will result in the forfeiture of the Grant amount for that year. Such forfeiture will not preclude the COMPANY'S receipt of scheduled Grant amounts for subsequent years in which it is able to maintain its hourly wage level commitment.

3. Job Creation Commitment.

As a condition precedent to, and as consideration for obtaining JGIG funds from the COUNTY, the COMPANY agrees to create a minimum of **101** new Full-Time Equivalent Jobs in St. Lucie County over the term of this Agreement as more specifically set forth on **Exhibit "A"**, which is attached hereto and made a part hereof. These new jobs will be phased in on the following schedule;

Year One a minimum of **50 jobs**
Year Two a minimum of **42 jobs**
Year Three a minimum of **9 jobs**

To obtain the Grant amount for jobs created, the annual calculation of jobs created must meet or exceed the minimum job levels and meet the hourly wage requirements.

The annual calculation of the incremental jobs will be determined by taking the Base Period quarterly reported hours and dividing by 455 (35 hours x 52 weeks x .25 of year) to arrive at a full-time employee count. The same calculation for the current year shall be made by taking the reported annual hours divided by 1820 (35 hours x 52 weeks) to arrive at a full-time employee count. The Base Period employee count shall be subtracted from the current employee count then comparing to the minimum jobs committed by the COMPANY to create.

If the COMPANY does not achieve the job creation goal stated within the Job Growth Investment Grant but has achieved a minimum of 85% of the job creation commitment for the period, the JGIG amount will be recalculated for the scheduled year. The County will recalculate the Grant amount based on the actual job levels obtained, and pay the annual amount as calculated reduced by 50%. The COMPANY'S failure to achieve a minimum job creation of 85% of the job creation commitment for any one year will result in the forfeiture of the entire Grant amount it was scheduled to receive for that year and such funds shall not be available in a subsequent year of the Grant. The COMPANY'S failure to receive funds in any year it fails to meet or maintain its job creation commitment shall not be grounds for an extension of the established payment schedule.

4. Term; Termination.

This Agreement shall be effective upon the date of execution of this contract by both parties hereto and shall automatically terminate 5 years after the last scheduled JGIG payment (May 15, 2034) unless terminated earlier by the COUNTY because of a default by the COMPANY provided however, provisions of this contract shall survive the termination of the contract.

5. Grant Eligibility; Payment Schedule.

a. Eligibility Determination; Payment. The initial eligibility determination for payment of the JGIG shall be made on the first anniversary of the Effective Date of this Agreement. Subsequent eligibility determinations shall be made at each subsequent anniversary of the Effective Date of this Agreement.

Payment of JGIG Funds shall be made as follows: All Grants with an Effective Date between October 1st and March 31st will be paid by May 15th after the successful completion and submission of the required documentation each year. All Grants with an Effective Date between April 1st and September 30th will be paid by November 15th after the successful completion and submission of the required documentation each year.

Notwithstanding the foregoing, should the date for filing the last annual Employer's Quarterly Report (Form RT6), not coincide with the date that an eligibility determination is made; the COMPANY shall have the right to file a report, in a form substantially similar to an Employer's Quarterly Report in a form acceptable to the

COUNTY for payment.

b. Subject to continued compliance with the requirements of Paragraphs 2 and 3 of this Agreement, the COMPANY will be eligible for a Job Growth Investment Grant (hereinafter a "Grant") of an amount up to **$212,100.00** which Grant shall be payable as follows:

Year 1 - $42,420
Year 2 - $42,420
Year 3 - $42,420
Year 4 - $42,420
Year 5 - $42,420

Year 1 of the 5-year payout schedule will begin on **January 1, 2024**, and will continue on January 1st of each year thereafter through the 5-year payment payout based on the payout schedule noted above. The COUNTY shall pay **$2,100** per Full-Time Equivalent Job.

6. Relocation Commitment.

The parties acknowledge and agree that the JGIG incentive agreement was an inducement to have the COMPANY expand or relocate to St. Lucie County. This means that the COMPANY made the decision to expand or relocate after considering the JGIG package. As a condition precedent to, and as consideration for obtaining JGIG funds from COUNTY, the COMPANY agrees to locate or expand its business operations to/within St. Lucie County for a period of at least **5** years after the last scheduled JGIG payment. Should the Company relocate before the agreed number of years, all grant dollars paid to the Company shall be paid back to the County within a 120 day period.

7. Annual Job Status.

The COMPANY must provide the COUNTY with the Employer's Quarterly Report (Form RT-6) of its business operations within St. Lucie County on the State form RT-6 as amended. The COMPANY shall provide the reports at the same time it provides the State of Florida with the reports. With prior approval of the COUNTY, the COMPANY may submit a form substantially similar to the annual Employer's Quarterly Report (Form RT-6 provided that information necessary to meet the requirements of this grant award is provided in a form acceptable to the COUNTY the alternative form must be notarized and signed on Company letterhead.

8. Grant Restriction.

The JGIG funds available under this Agreement as referenced in paragraph 5 will be provided only for reimbursement of expenses associated with the physical move, relocation and/or expansion of the COMPANY to St. Lucie County including but not limited to corporate or COMPANY relocation expenses, infrastructure costs, leasehold improvements, COMPANY sponsored child day care facilities, rent for COMPANY facilities, lease buyouts, training expenses and other expenses approved by the Job Growth Investment Grant Committee.

As approved by the COUNTY on January 24, 2023, JGIG funds available under this Agreement may be utilized for the COMPANY'S payment in lieu of sidewalk construction.

9. Default; Termination.

In the event the COMPANY defaults in the performance of its guarantees and commitments as provided for in this Agreement, the COUNTY may, at its option, terminate this Agreement.

10. Indemnification.

For the sum of ten ($10.00) dollars consideration, receipt of which is hereby acknowledged, the COMPANY shall indemnify and save harmless and defend the COUNTY, its servants, and employees from and against any and all claims, liabilities, losses, and/or cause of action which may arise from any negligent act or omission of the COMPANY, its agents, servants, or employees in the performance of services under this Agreement.

11. Forum; Venue.

This Agreement shall be governed by the laws of the State of Florida. Any and all legal action necessary to enforce the Agreement will be held in St. Lucie County or the Federal District Court for the Southern District of Florida. No remedy herein conferred upon any party is intended to be exclusive of any other remedy, and each and every such remedy shall be cumulative and shall be in addition to every other remedy given hereunder or now or hereafter existing by law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder shall preclude any other or further exercise thereof.

12. Lobbyist Certification.

The COMPANY warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the COMPANY to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual, or firm, other than a bona fide employee working solely for the COMPANY, any fee, commission, percentage, gift, or any other consideration contingent upon or resulting from the award or making of this Agreement.

13. No Discrimination Certification.

The COMPANY warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, disability, sex, age, national origin, ancestry, marital status, or sexual orientation.

14. Attorneys' Fees.

If any legal action or other proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default or misrepresentation in connection with any provisions of this Agreement, the successful or prevailing party or parties shall be entitled to recover reasonable attorney's fees, court costs and all expenses (including taxes) even if not taxable as court costs (including, without limitation, all such fees, costs and expenses incident to appeals), incurred in that action or proceeding, in addition to any other relief to which such party or parties may be entitled.

15. Enforceability.

If any term or provision of this Agreement, or the application thereof to any person or

circumstances shall, to any extent, be held invalid or unenforceable, the remainder of this Agreement, or the application of such terms or provision, to persons or circumstances other than those to which it is held invalid or unenforceable, shall not be affected, and every other term and provision of this Agreement shall be deemed valid and enforceable to the extent permitted by law. The COMPANY'S failure to maintain its job creation commitment or salary level commitment for any one year will result in the forfeiture of the Grant amount it was scheduled to receive for that year; however, such forfeiture will not preclude the COMPANY'S receipt of scheduled Grant amounts for those subsequent years in which it is able to maintain its job creation and salary level commitment.

16. Assignment.

The COMPANY shall not assign this Agreement to any other persons or firm without first obtaining COUNTY'S written approval.

17. Conflict of Interest.

The COMPANY represents that it presently has no interest and shall acquire no interest, either direct or indirect, which would conflict in any manner with the performance of services required herein, as provided for in Section 112.311, Florida Statutes. The COMPANY further represents that no person having any interest shall be employed for said performance.

18. Notices.

All notices required in this Agreement shall be sent by certified mail, return receipt requested and if sent to the COUNTY shall be mailed to:

St. Lucie County Administrator
2300 Virginia Avenue
Fort Pierce, FL 34982

With copy to:

St. Lucie County Attorney
2300 Virginia Avenue
Fort Pierce, FL 34982

19. Entire Agreement.

The COUNTY and the COMPANY agree that this Agreement sets forth the entire Agreement between the parties, and that there are no promises or understandings other than those stated herein. None of the provisions, terms and conditions contained in this Agreement may be added to, modified, superseded or otherwise altered, except by written instrument executed by the parties hereto.

IN WITNESS WHEREOF, the Board of County Commissioners of St. Lucie County, Florida, has made and executed this Agreement on behalf of the COUNTY and COMPANY has hereunto sets its hand the day and year above written.

FIRST AMENDMENT TO JGIG-23-001

ST. LUCIE COUNTY JOB GROWTH INVESTMENT GRANT AGREEMENT

C23-03-161

THIS FIRST AMENDMENT TO THE JGIG AGREEMENT 23-001 is made as of the 6 day of February, 2024 by and between St. Lucie County, a political subdivision of the State of Florida, by and through its Board of County Commissioners, hereinafter referred to as the COUNTY and Meyer Utility Structures, LLC, a limited liability company authorized to do business in the State of Florida, hereinafter referred to as the COMPANY whose Federal I.D. number is **47-1177304.**

WITNESSETH:

WHEREAS, it is the policy of the COUNTY to stimulate economic growth in St. Lucie County, by either attracting new businesses to St. Lucie County or by encouraging the expansion of existing businesses within St. Lucie County; and

WHEREAS, the creation of new employment opportunities for residents of St. Lucie County and the increased tax revenues resulting from such business expansion or relocation within St. Lucie County is beneficial to the local economy; and

WHEREAS, the Board of County Commissioners has determined that offering a Job Growth Investment Grant encourages either businesses to expand or new businesses to enter St. Lucie County and thereby create new employment opportunities for the residents of St. Lucie County; and

WHEREAS, St. Lucie County, through its Board of County Commissioners, has created a Job Growth Investment Grant; and

WHEREAS, the COMPANY will either relocate to St. Lucie County or expand its existing business in St. Lucie County and thereby create certain new employment opportunities having a specific wage level or higher in St. Lucie County in accordance with the Job Growth Investment Grant criteria if the COUNTY provides to the COMPANY a Job Growth Investment Grant; and

WHEREAS, the COMPANY has been determined to be eligible to receive a Job Growth Investment Grant by the COUNTY'S Job Growth Investment Grant Review Committee; and

WHEREAS, the COMPANY acknowledges that this Agreement shall be based upon the COMPANY'S obtainment of the performance requirements as outlined in this Agreement; and,

WHEREAS, on January 24, 2023, the COUNTY approved to defer the payment in lieu of sidewalk construction for a period of up to twelve (12) months from the date of this Agreement and provide the option for the COMPANY to utilize future Job Growth Investment Grant (JGIG) funds to satisfy this requirement; and,

WHEREAS, the COUNTY agrees to extend the deferment of the payment in lieu of sidewalk construction for a period of up to twelve (12) months from the date of this amended Agreement and provide for the COMPANY to utilize future Job Growth Investment Grant (JGIG) funds to satisfy this requirement; and,

WHEREAS, the COUNTY finds and declares that it is in the public interest to award a Job Growth Investment Grant to COMPANY pursuant to the terms of this Agreement.

NOW, THEREFORE, in consideration of the premises and mutual covenants hereinafter contained, the parties do agree as follows:

1. Definitions. As used in this Agreement, the following terms shall mean:

   a. "Annual Average Hourly Wage" - includes the hourly cost of wages, bonuses, and commissions but does not include benefits. The Top two Executive salaries as defined in this Agreement shall not be included in the average wage calculations.

   b. "Base Period for Hourly Wage level and Job Creation" - As set forth in the State of Florida Employer's Quarterly Report (RT-6A) for the quarter preceding the Grant application.

   c. "Default" - failure to comply with the terms of the Agreement.

   d. "Effective Date" – The date of execution of this Agreement by the COUNTY.

   e. "Employer's Quarterly Report Form RT-6" - COMPANY's State of Florida Employer's Quarterly Report Form RT-6A provided to the COUNTY in conjunction with the execution of this Agreement, and thereafter as required pursuant to this Agreement.

   f. "Expansion of an existing business" - A business establishing 10 or more jobs to employ 10 or more new full-time employees in the County. These jobs must represent a net increase in employment at the site/facility and be not less than a 10 percent increase.

   g. "Full-time Equivalent Job" - shall be calculated by total payroll hours per year divided by 52 weeks and then, divided by 35 hours.

h. "JGIG" - shall mean Job Growth Investment Grant.

i. "New Business" - a business establishing 10 or more jobs to employ 10 or more full-time employees in the County within the term of the Grant provided that such business first begins operations on a site in the County clearly separate from any other operation owned by the same business.

j. Research Firm – A company that employs 50% or more of their workforce in the development of new products, refinement of existing products, testing of products, development of new scientific information and others to be defined.

k. "St. Lucie County Average Hourly Wage" – At least 107% of the average annual hourly wage per job in St. Lucie County, as determined by State of Florida Department of Labor, Workforce Development Board or Enterprise Florida, Inc.

2. Wage Level Commitment.

As a condition precedent to and as consideration for obtaining JGIG funds from the COUNTY, the COMPANY agrees to pay an average hourly wage of not less than **$22.38** per hour annually for those new jobs which are eligible for Grant hereunder. This per hour wage will be adjusted on the third and sixth anniversaries of the Effective Date of this Agreement for wage rate inflation based upon the percentage change in the Consumer Price Index ("CPI Index") between the Effective Date of this Agreement and the third and sixth anniversary of the Effective Date of this Agreement.

The target wage rate will then be increased by the percentage change in the CPI Index in order to determine the new target wage rate on the third anniversary and sixth anniversary of this Agreement. The COMPANY shall provide written verification satisfactory to the COUNTY that the average hourly wage of the new jobs meets the average rate of **$22.38** per hour in the first three years of the Agreement and adjusted as defined above in year three and year six.

The first report provided by the COMPANY will be the State of Florida Employer's Quarterly Report (Form RT-6) including hours worked per month, total number of employees, gross wages paid in the quarter and a total of hours and wages for the Top Executive wages for the quarter before the JGIG Application Date. These Top Executives are defined as the wages for the two (2) highest paid employees on a wage basis. The COMPANY will provide the hours and wage dollars for these Top Two (2) Executives for each reporting period. Each quarter after the approval of the JGIG the COMPANY must provide this information to the COUNTY when filing the Employer's Quarterly Report (Form RT-6). The first report after the Effective Date may include only a partial quarter due to the approval timing. The base period or the adjusted base period at three (3) years or six (6) years will be subtracted from the current twelve (12) month report to equal net growth of hours and wages. The net wages will be divided by the net hours for the average hourly wage rate to compare to the adjusted targeted minimum hourly wage level.

The COMPANY'S failure to maintain its hourly wage level commitment for any year will result in the forfeiture of the Grant amount for that year. Such forfeiture will not preclude the COMPANY'S receipt of scheduled Grant amounts for subsequent years in which it is able to maintain its hourly wage level commitment.

3. Job Creation Commitment.

As a condition precedent to, and as consideration for obtaining JGIG funds from the COUNTY, the COMPANY agrees to create a minimum of **101** new Full-Time Equivalent Jobs in St. Lucie County over the term of this Agreement as more specifically set forth on **Exhibit "A"**, which is attached hereto and made a part hereof. These new jobs will be phased in on the following schedule;

Year One, ending December 31, 2024 - a minimum of **50 jobs**
Year Two, ending December 31, 2025 - a minimum of **42 jobs**
Year Three, ending December 31, 2026 - a minimum of **9 jobs**

To obtain the Grant amount for jobs created, the annual calculation of jobs created must meet or exceed the minimum job levels and meet the hourly wage requirements.

The annual calculation of the incremental jobs will be determined by taking the Base Period quarterly reported hours and dividing by 455 (35 hours x 52 weeks x .25 of year) to arrive at a full-time employee count. The same calculation for the current year shall be made by taking the reported annual hours divided by 1820 (35 hours x 52 weeks) to arrive at a full-time employee count. The Base Period employee count shall be subtracted from the current employee count then comparing to the minimum jobs committed by the COMPANY to create.

If the COMPANY does not achieve the job creation goal stated within the Job Growth Investment Grant but has achieved a minimum of 85% of the job creation commitment for the period, the JGIG amount will be recalculated for the scheduled year. The County will recalculate the Grant amount based on the actual job levels obtained, and pay the annual amount as calculated reduced by 50%. The COMPANY'S failure to achieve a minimum job creation of 85% of the job creation commitment for any one year will result in the forfeiture of the entire Grant amount it was scheduled to receive for that year and such funds shall not be available in a subsequent year of the Grant. The COMPANY'S failure to receive funds in any year it fails to meet or maintain its job creation commitment shall not be grounds for an extension of the established payment schedule.

4. Term; Termination.

This Agreement shall be effective upon the date of execution of this contract by both parties hereto and shall automatically terminate 5 years after the last scheduled JGIG payment (May 15, 2034) unless terminated earlier by the COUNTY because of a default by the COMPANY provided however, provisions of this contract shall survive the termination of the contract.

5. Grant Eligibility; Payment Schedule.

a. Eligibility Determination; Payment. The initial eligibility determination for payment of the JGIG shall be made by the first anniversary of the Effective Date of this Agreement. Subsequent eligibility determinations shall be made by each subsequent anniversary of the Effective Date of this Agreement.

Payment of JGIG Funds shall be made as follows: All Grants with an Effective Date between October 1st and March 31st will be paid by May 15th after the successful completion and submission of the required documentation each year. All Grants

with an Effective Date between April 1st and September 30th will be paid by November 15th after the successful completion and submission of the required documentation each year.

Notwithstanding the foregoing, should the date for filing the last annual Employer's Quarterly Report (Form RT6), not coincide with the date that an eligibility determination is made; the COMPANY shall have the right to file a report, in a form substantially similar to an Employer's Quarterly Report in a form acceptable to the COUNTY for payment.

b. Subject to continued compliance with the requirements of Paragraphs 2 and 3 of this Agreement, the COMPANY will be eligible for a Job Growth Investment Grant (hereinafter a "Grant") of an amount up to **$212,100.00** which Grant shall be payable as follows:

Year 1 - $42,420
Year 2 - $42,420
Year 3 - $42,420
Year 4 - $42,420
Year 5 - $42,420

Year 1 of the 5-year payout schedule will begin on **January 1, 2025**, and will continue on January 1st of each year thereafter through the 5-year payment payout based on the payout schedule noted above. The COUNTY shall pay **$2,100** per Full-Time Equivalent Job.

6. Relocation Commitment.

The parties acknowledge and agree that the JGIG incentive agreement was an inducement to have the COMPANY expand or relocate to St. Lucie County. This means that the COMPANY made the decision to expand or relocate after considering the JGIG package. As a condition precedent to, and as consideration for obtaining JGIG funds from COUNTY, the COMPANY agrees to maintain its business operations to/within St. Lucie County for a period of at least **5** years after the last scheduled JGIG payment. Should the Company relocate before the agreed number of years, all grant dollars paid to the Company shall be paid back to the County within a 120 day period.

7. Annual Job Status.

The COMPANY must provide the COUNTY with the Employer's Quarterly Report (Form RT-6) of its business operations within St. Lucie County on the State form RT-6 as amended. The COMPANY shall provide the reports at the same time it provides the State of Florida with the reports. With prior approval of the COUNTY, the COMPANY may submit a form substantially similar to the annual Employer's Quarterly Report (Form RT-6 provided that information necessary to meet the requirements of this grant award is provided in a form acceptable to the COUNTY the alternative form must be notarized and signed on Company letterhead.

8. Grant Restriction.

The JGIG funds available under this Agreement as referenced in paragraph 5 will be provided only for reimbursement of expenses associated with the physical move, relocation and/or expansion of the COMPANY to St. Lucie County including but not limited

to corporate or COMPANY relocation expenses, infrastructure costs, leasehold improvements, COMPANY sponsored child day care facilities, rent for COMPANY facilities, lease buyouts, training expenses and other expenses approved by the Job Growth Investment Grant Committee.

As approved by the COUNTY on January 24, 2023, and extended in accordance with this Agreement, JGIG funds available under this Agreement may be utilized for the COMPANY'S payment in lieu of sidewalk construction.

9. Default; Termination.

In the event the COMPANY defaults in the performance of its guarantees and commitments as provided for in this Agreement, the COUNTY may, at its option, terminate this Agreement.

10. Indemnification.

For the sum of ten ($10.00) dollars consideration, receipt of which is hereby acknowledged, the COMPANY shall indemnify and save harmless and defend the COUNTY, its servants, and employees from and against any and all claims, liabilities, losses, and/or cause of action which may arise from any negligent act or omission of the COMPANY, its agents, servants, or employees in the performance of services under this Agreement.

11. Forum; Venue.

This Agreement shall be governed by the laws of the State of Florida. Any and all legal action necessary to enforce the Agreement will be held in St. Lucie County or the Federal District Court for the Southern District of Florida. No remedy herein conferred upon any party is intended to be exclusive of any other remedy, and each and every such remedy shall be cumulative and shall be in addition to every other remedy given hereunder or now or hereafter existing by law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder shall preclude any other or further exercise thereof.

12. Lobbyist Certification.

The COMPANY warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the COMPANY to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual, or firm, other than a bona fide employee working solely for the COMPANY, any fee, commission, percentage, gift, or any other consideration contingent upon or resulting from the award or making of this Agreement.

13. No Discrimination Certification.

The COMPANY warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, disability, sex, age, national origin, ancestry, marital status, or sexual orientation.

14. Attorneys' Fees.

If any legal action or other proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default or misrepresentation in connection with

any provisions of this Agreement, the successful or prevailing party or parties shall be entitled to recover reasonable attorney's fees, court costs and all expenses (including taxes) even if not taxable as court costs (including, without limitation, all such fees, costs and expenses incident to appeals), incurred in that action or proceeding, in addition to any other relief to which such party or parties may be entitled.

15. Enforceability.

If any term or provision of this Agreement, or the application thereof to any person or circumstances shall, to any extent, be held invalid or unenforceable, the remainder of this Agreement, or the application of such terms or provision, to persons or circumstances other than those to which it is held invalid or unenforceable, shall not be affected, and every other term and provision of this Agreement shall be deemed valid and enforceable to the extent permitted by law. The COMPANY'S failure to maintain its job creation commitment or salary level commitment for any one year will result in the forfeiture of the Grant amount it was scheduled to receive for that year; however, such forfeiture will not preclude the COMPANY'S receipt of scheduled Grant amounts for those subsequent years in which it is able to maintain its job creation and salary level commitment.

16. Assignment.

The COMPANY shall not assign this Agreement to any other persons or firm without first obtaining COUNTY'S written approval.

17. Conflict of Interest.

The COMPANY represents that it presently has no interest and shall acquire no interest, either direct or indirect, which would conflict in any manner with the performance of services required herein, as provided for in Section 112.311, Florida Statutes. The COMPANY further represents that no person having any interest shall be employed for said performance.

18. Notices.

All notices required in this Agreement shall be sent by certified mail, return receipt requested and if sent to the COUNTY shall be mailed to:

	With copy to:
St. Lucie County Administrator 2300 Virginia Avenue Fort Pierce, FL 34982	St. Lucie County Attorney 2300 Virginia Avenue Fort Pierce, FL 34982

19. Entire Agreement.

The COUNTY and the COMPANY agree that this Agreement sets forth the entire Agreement between the parties, and that there are no promises or understandings other than those stated herein. None of the provisions, terms and conditions contained in this Agreement may be added to, modified, superseded or otherwise altered, except by written instrument executed by the parties hereto.

IN WITNESS WHEREOF, the Board of County Commissioners of St. Lucie County, Florida, has made and executed this Agreement on behalf of the COUNTY and COMPANY has hereunto sets its hand the day and year above written.

SECOND AMENDMENT TO JGIG-23-001

ST. LUCIE COUNTY JOB GROWTH INVESTMENT GRANT AGREEMENT

THIS SECOND AMENDMENT TO THE JGIG AGREEMENT 23-001 is made as of the 21st day of January, 2025 by and between St. Lucie County, a political subdivision of the State of Florida, by and through its Board of County Commissioners, hereinafter referred to as the COUNTY and Meyer Utility Structures, LLC, a limited liability company authorized to do business in the State of Florida, hereinafter referred to as the COMPANY whose Federal I.D. number is **47-1177304**.

W I T N E S S E T H:

WHEREAS, it is the policy of the COUNTY to stimulate economic growth in St. Lucie County, by either attracting new businesses to St. Lucie County or by encouraging the expansion of existing businesses within St. Lucie County; and

WHEREAS, the creation of new employment opportunities for residents of St. Lucie County and the increased tax revenues resulting from such business expansion or relocation within St. Lucie County is beneficial to the local economy; and

WHEREAS, the Board of County Commissioners has determined that offering a Job Growth Investment Grant encourages either businesses to expand or new businesses to enter St. Lucie County and thereby create new employment opportunities for the residents of St. Lucie County; and

WHEREAS, St. Lucie County, through its Board of County Commissioners, has created a Job Growth Investment Grant; and

WHEREAS, the COMPANY will either relocate to St. Lucie County or expand its existing business in St. Lucie County and thereby create certain new employment opportunities having a specific wage level or higher in St. Lucie County in accordance with the Job Growth Investment Grant criteria if the COUNTY provides to the COMPANY a Job Growth Investment Grant; and

WHEREAS, the COMPANY has been determined to be eligible to receive a Job Growth Investment Grant by the COUNTY'S Job Growth Investment Grant Review Committee; and

WHEREAS, the COMPANY acknowledges that this Agreement shall be based upon the COMPANY'S obtainment of the performance requirements as outlined in this Agreement; and,

WHEREAS, on January 24, 2023, the COUNTY approved to defer the payment in lieu of sidewalk construction for a period of up to twelve (12) months from the date of this Agreement and provide the option for the COMPANY to utilize future Job Growth Investment Grant (JGIG) funds to satisfy this requirement; and,

WHEREAS, the COUNTY agrees to extend the deferment of the payment in lieu of sidewalk construction for a period of up to twelve (12) months from the date of this amended Agreement and provide for the COMPANY to utilize future Job Growth Investment Grant (JGIG) funds to satisfy this requirement; and,

WHEREAS, the COUNTY finds and declares that it is in the public interest to award a Job Growth Investment Grant to COMPANY pursuant to the terms of this Agreement.

NOW, THEREFORE, in consideration of the premises and mutual covenants hereinafter contained, the parties do agree as follows:

1. Definitions. As used in this Agreement, the following terms shall mean:

   a. "Annual Average Hourly Wage" - includes the hourly cost of wages, bonuses, and commissions but does not include benefits. The Top two Executive salaries as defined in this Agreement shall not be included in the average wage calculations.

   b. "Base Period for Hourly Wage level and Job Creation" - As set forth in the State of Florida Employer's Quarterly Report (RT-6A) for the quarter preceding the Grant application.

   c. "Default" - failure to comply with the terms of the Agreement.

   d. "Effective Date" – The date of execution of this Agreement by the COUNTY.

   e. "Employer's Quarterly Report Form RT-6" - COMPANY's State of Florida Employer's Quarterly Report Form RT-6A provided to the COUNTY in conjunction with the execution of this Agreement, and thereafter as required pursuant to this Agreement.

   f. "Expansion of an existing business" - A business establishing 10 or more jobs to employ 10 or more new full-time employees in the County. These jobs must represent a net increase in employment at the site/facility and be not less than a 10 percent increase.

   g. "Full-time Equivalent Job" - shall be calculated by total payroll hours per year divided by 52 weeks and then, divided by 35 hours.

h. "JGIG" - shall mean Job Growth Investment Grant.

i. "New Business" - a business establishing 10 or more jobs to employ 10 or more full-time employees in the County within the term of the Grant provided that such business first begins operations on a site in the County clearly separate from any other operation owned by the same business.

j. Research Firm – A company that employs 50% or more of their workforce in the development of new products, refinement of existing products, testing of products, development of new scientific information and others to be defined.

k. "St. Lucie County Average Hourly Wage" – At least 107% of the average annual hourly wage per job in St. Lucie County, as determined by State of Florida Department of Labor, Workforce Development Board or Enterprise Florida, Inc.

2. Wage Level Commitment.

As a condition precedent to and as consideration for obtaining JGIG funds from the COUNTY, the COMPANY agrees to pay an average hourly wage of not less than **$22.38** per hour annually for those new jobs which are eligible for Grant hereunder. This per hour wage will be adjusted on the third and sixth anniversaries of the Effective Date of this Agreement for wage rate inflation based upon the percentage change in the Consumer Price Index ("CPI Index") between the Effective Date of this Agreement and the third and sixth anniversary of the Effective Date of this Agreement.

The target wage rate will then be increased by the percentage change in the CPI Index in order to determine the new target wage rate on the third anniversary and sixth anniversary of this Agreement. The COMPANY shall provide written verification satisfactory to the COUNTY that the average hourly wage of the new jobs meets the average rate of **$22.38** per hour in the first three years of the Agreement and adjusted as defined above in year three and year six.

The first report provided by the COMPANY will be the State of Florida Employer's Quarterly Report (Form RT-6) including hours worked per month, total number of employees, gross wages paid in the quarter and a total of hours and wages for the Top Executive wages for the quarter before the JGIG Application Date. These Top Executives are defined as the wages for the two (2) highest paid employees on a wage basis. The COMPANY will provide the hours and wage dollars for these Top Two (2) Executives for each reporting period. Each quarter after the approval of the JGIG the COMPANY must provide this information to the COUNTY when filing the Employer's Quarterly Report (Form RT-6). The first report after the Effective Date may include only a partial quarter due to the approval timing. The base period or the adjusted base period at three (3) years or six (6) years will be subtracted from the current twelve (12) month report to equal net growth of hours and wages. The net wages will be divided by the net hours for the average hourly wage rate to compare to the adjusted targeted minimum hourly wage level.

The COMPANY'S failure to maintain its hourly wage level commitment for any year will result in the forfeiture of the Grant amount for that year. Such forfeiture will not preclude the COMPANY'S receipt of scheduled Grant amounts for subsequent years in which it is able to maintain its hourly wage level commitment.

3. Job Creation Commitment.

As a condition precedent to, and as consideration for obtaining JGIG funds from the COUNTY, the COMPANY agrees to create a minimum of **101** new Full-Time Equivalent Jobs in St. Lucie County over the term of this Agreement as more specifically set forth on **Exhibit "A"**, which is attached hereto and made a part hereof. These new jobs will be phased in on the following schedule;

Year One, ending December 31, 2025 - a minimum of **50 jobs**
Year Two, ending December 31, 2026 - a minimum of **42 jobs**
Year Three, ending December 31, 2027 - a minimum of **9 jobs**

To obtain the Grant amount for jobs created, the annual calculation of jobs created must meet or exceed the minimum job levels and meet the hourly wage requirements.

The annual calculation of the incremental jobs will be determined by taking the Base Period quarterly reported hours and dividing by 455 (35 hours x 52 weeks x .25 of year) to arrive at a full-time employee count. The same calculation for the current year shall be made by taking the reported annual hours divided by 1820 (35 hours x 52 weeks) to arrive at a full-time employee count. The Base Period employee count shall be subtracted from the current employee count then comparing to the minimum jobs committed by the COMPANY to create.

If the COMPANY does not achieve the job creation goal stated within the Job Growth Investment Grant but has achieved a minimum of 85% of the job creation commitment for the period, the JGIG amount will be recalculated for the scheduled year. The County will recalculate the Grant amount based on the actual job levels obtained, and pay the annual amount as calculated reduced by 50%. The COMPANY'S failure to achieve a minimum job creation of 85% of the job creation commitment for any one year will result in the forfeiture of the entire Grant amount it was scheduled to receive for that year and such funds shall not be available in a subsequent year of the Grant. The COMPANY'S failure to receive funds in any year it fails to meet or maintain its job creation commitment shall not be grounds for an extension of the established payment schedule.

4. Term; Termination.

This Agreement shall be effective upon the date of execution of this contract by both parties hereto and shall automatically terminate 5 years after the last scheduled JGIG payment (May 15, 2035) unless terminated earlier by the COUNTY because of a default by the COMPANY provided however, provisions of this contract shall survive the termination of the contract.

5. Grant Eligibility; Payment Schedule.

a. Eligibility Determination; Payment. The initial eligibility determination for payment of the JGIG shall be made by the first anniversary of the Effective Date of this Agreement. Subsequent eligibility determinations shall be made by each subsequent anniversary of the Effective Date of this Agreement.

Payment of JGIG Funds shall be made as follows: All Grants with an Effective Date between October 1st and March 31st will be paid by May 15th after the successful completion and submission of the required documentation each year. All Grants with an Effective Date between April 1st and September 30th will be paid by

November 15th after the successful completion and submission of the required documentation each year.

Notwithstanding the foregoing, should the date for filing the last annual Employer's Quarterly Report (Form RT6), not coincide with the date that an eligibility determination is made; the COMPANY shall have the right to file a report, in a form substantially similar to an Employer's Quarterly Report in a form acceptable to the COUNTY for payment.

b. Subject to continued compliance with the requirements of Paragraphs 2 and 3 of this Agreement, the COMPANY will be eligible for a Job Growth Investment Grant (hereinafter a "Grant") of an amount up to **$212,100.00** which Grant shall be payable as follows:

Year 1 - $42,420
Year 2 - $42,420
Year 3 - $42,420
Year 4 - $42,420
Year 5 - $42,420

Year 1 of the 5-year payout schedule will begin on **January 1, 2026**, and will continue on January 1st of each year thereafter through the 5-year payment payout based on the payout schedule noted above. The COUNTY shall pay **$2,100** per Full-Time Equivalent Job.

6. Relocation Commitment.

The parties acknowledge and agree that the JGIG incentive agreement was an inducement to have the COMPANY expand or relocate to St. Lucie County. This means that the COMPANY made the decision to expand or relocate after considering the JGIG package. As a condition precedent to, and as consideration for obtaining JGIG funds from COUNTY, the COMPANY agrees to maintain its business operations to/within St. Lucie County for a period of at least **5** years after the last scheduled JGIG payment. Should the Company relocate before the agreed number of years, all grant dollars paid to the Company shall be paid back to the County within a 120 day period.

7. Annual Job Status.

The COMPANY must provide the COUNTY with the Employer's Quarterly Report (Form RT-6) of its business operations within St. Lucie County on the State form RT-6 as amended. The COMPANY shall provide the reports at the same time it provides the State of Florida with the reports. With prior approval of the COUNTY, the COMPANY may submit a form substantially similar to the annual Employer's Quarterly Report (Form RT-6 provided that information necessary to meet the requirements of this grant award is provided in a form acceptable to the COUNTY the alternative form must be notarized and signed on Company letterhead.

8. Grant Restriction.

The JGIG funds available under this Agreement as referenced in paragraph 5 will be provided only for reimbursement of expenses associated with the physical move, relocation and/or expansion of the COMPANY to St. Lucie County including but not limited to corporate or COMPANY relocation expenses, infrastructure costs, leasehold

improvements, COMPANY sponsored child day care facilities, rent for COMPANY facilities, lease buyouts, training expenses and other expenses approved by the Job Growth Investment Grant Committee.

As approved by the COUNTY on January 24, 2023, and extended in accordance with this Agreement, JGIG funds available under this Agreement may be utilized for the COMPANY'S payment in lieu of sidewalk construction.

9. Default; Termination.

In the event the COMPANY defaults in the performance of its guarantees and commitments as provided for in this Agreement, the COUNTY may, at its option, terminate this Agreement.

10. Indemnification.

For the sum of ten ($10.00) dollars consideration, receipt of which is hereby acknowledged, the COMPANY shall indemnify and save harmless and defend the COUNTY, its servants, and employees from and against any and all claims, liabilities, losses, and/or cause of action which may arise from any negligent act or omission of the COMPANY, its agents, servants, or employees in the performance of services under this Agreement.

11. Forum; Venue.

This Agreement shall be governed by the laws of the State of Florida. Any and all legal action necessary to enforce the Agreement will be held in St. Lucie County or the Federal District Court for the Southern District of Florida. No remedy herein conferred upon any party is intended to be exclusive of any other remedy, and each and every such remedy shall be cumulative and shall be in addition to every other remedy given hereunder or now or hereafter existing by law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder shall preclude any other or further exercise thereof.

12. Lobbyist Certification.

The COMPANY warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the COMPANY to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual, or firm, other than a bona fide employee working solely for the COMPANY, any fee, commission, percentage, gift, or any other consideration contingent upon or resulting from the award or making of this Agreement.

13. No Discrimination Certification.

The COMPANY warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, disability, sex, age, national origin, ancestry, marital status, or sexual orientation.

14. Attorneys' Fees.

If any legal action or other proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default or misrepresentation in connection with any provisions of this Agreement, the successful or prevailing party or parties shall be

entitled to recover reasonable attorney's fees, court costs and all expenses (including taxes) even if not taxable as court costs (including, without limitation, all such fees, costs and expenses incident to appeals), incurred in that action or proceeding, in addition to any other relief to which such party or parties may be entitled.

15. Enforceability.

If any term or provision of this Agreement, or the application thereof to any person or circumstances shall, to any extent, be held invalid or unenforceable, the remainder of this Agreement, or the application of such terms or provision, to persons or circumstances other than those to which it is held invalid or unenforceable, shall not be affected, and every other term and provision of this Agreement shall be deemed valid and enforceable to the extent permitted by law. The COMPANY'S failure to maintain its job creation commitment or salary level commitment for any one year will result in the forfeiture of the Grant amount it was scheduled to receive for that year; however, such forfeiture will not preclude the COMPANY'S receipt of scheduled Grant amounts for those subsequent years in which it is able to maintain its job creation and salary level commitment.

16. Assignment.

The COMPANY shall not assign this Agreement to any other persons or firm without first obtaining COUNTY'S written approval.

17. Conflict of Interest.

The COMPANY represents that it presently has no interest and shall acquire no interest, either direct or indirect, which would conflict in any manner with the performance of services required herein, as provided for in Section 112.311, Florida Statutes. The COMPANY further represents that no person having any interest shall be employed for said performance.

18. Notices.

All notices required in this Agreement shall be sent by certified mail, return receipt requested and if sent to the COUNTY shall be mailed to:

St. Lucie County Administrator
2300 Virginia Avenue
Fort Pierce, FL 34982

With copy to:

St. Lucie County Attorney
2300 Virginia Avenue
Fort Pierce, FL 34982

19. Entire Agreement.

The COUNTY and the COMPANY agree that this Agreement sets forth the entire Agreement between the parties, and that there are no promises or understandings other than those stated herein. None of the provisions, terms and conditions contained in this Agreement may be added to, modified, superseded or otherwise altered, except by written instrument executed by the parties hereto.

IN WITNESS WHEREOF, the Board of County Commissioners of St. Lucie County, Florida, has made and executed this Agreement on behalf of the COUNTY and COMPANY has hereunto sets its hand the day and year above written.

AGREEMENT TO PAY FEE IN LIEU
OF CONSTRUCTING CONCRETE SIDEWALKS C23-03-556

THIS AGREEMENT is made and entered into this 7 day of March, 2023, by and between **ST. LUCIE COUNTY, FLORIDA,** a political subdivision of the State of Florida ("County") and **MEYER UTILITY STRUCTURES.** ("Developer").

W I T N E S S E T H:

WHEREAS, Developer intends to construct a project to be known as Arcosa (the "Development"); and

WHEREAS, the Developer cannot construct concrete sidewalks at the project location due to site conditions.

WHEREAS, the Developer agrees to pay to the County thirty-five thousand two hundred eighty dollars ($35,280.00) as payment in lieu of constructing the required concrete sidewalks at the project location.

WHEREAS, on January 24, 2023, the County approved to defer the payment in lieu of sidewalk construction a period of up to twelve (12) months from the date of this Agreement and provide the option for the Developer to utilize future Job Growth Investment Grant (JGIG) funds to satisfy this requirement.

NOW, THEREFORE, in consideration of the mutual promises contained herein, the parties covenant and agree as follows:

Within twelve (12) months from the date of this Agreement, the Developer shall deliver to the County funds in the amount of $35,280.00 (the "Funds") or utilize Year 1 grant funds provided to the Developer through the Job Growth Investment Grant (JGIG 23-001) to satisfy the amount of $35,280.00. The Funds shall be used for design and construction of sidewalks at locations as determined by the County. The Funds are nonrefundable.

In the event the Developer defaults in the performance of its guarantees and commitments provided for in the Job Growth Investment Grant (JGIG 23-001) and the subject JGIG funds were utilized to satisfy this payment in lieu of sidewalk construction, the Developer shall deliver to the County funds in the amount of $35,280.00 within 60 days.

IN WITNESS WHEREOF, the parties have caused this Agreement to be made and entered into the day and year first above written.

PRESENTED BY: Benjamin Balcer, Planning & Development Services Director

SUBMITTED BY: Planning & Development Services

SUBJECT: Revocation of Economic Incentive Resolution No. 23-007 and Job Growth Investment Grant 23-002 for PB Holdco, LLC. (d/b/a/ Pursuit Boats) for their Tooling Building Expansion

BACKGROUND:

On January 24, 2023, the Board of County Commissioners approved Resolution No. 2023-007, committing to provide economic incentives for a new 100,000 SF manufacturing facility owned by PB Holdco, LLC, also known as Pursuit Boats.

Subsequently, on February 27, 2023, the Board approved Job Growth Investment Grant Agreement No. 23-002 for the creation of 100 new jobs.

On January 27, 2025, the Board approved the first amendment to JGIG Agreement No. 23-002, extending the Year One job creation deadline to December 31, 2025, and amending the job creation schedule.

On February 20, 2026, Pursuit Boats requested a second extension of the JGIG agreement, citing its inability to meet the job creation requirements within the specified timeframe. At the March 10, 2026, Board of County Commissioners Informal Meeting, staff presented the request, and the Board directed staff to terminate the existing agreement and renegotiate a new agreement that would account for any changes to the County's economic incentive program criteria.

On March 30, 2026, Pursuit Boats submitted a letter supporting termination of the existing JGIG agreement.

Revocation of the resolution and termination of JGIG Agreement No. 23-002 will not affect Pursuit Boats ability to request economic incentives from the Board of County Commissioners in the future.

PREVIOUS ACTION:

On January 24, 2023, the Board of County Commissioners approved Resolution No. 2023-007, committing to provide economic incentives for a new manufacturing facility owned by PB Holdco, LLC, also known as Pursuit Boats.

On February 27, 2023, the Board approved Job Growth Investment Grant Agreement No. 23-002 for the creation of 100 new jobs over two years (50 in year one and 50 in year 2).

On January 27, 2025, the Board approved the first amendment to JGIG Agreement No. 23-002, extending the Year One job creation deadline to December 31, 2025, and amending the job creation schedule.

RESOLUTION 2026-79

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF ST. LUCIE COUNTY, FL REVOKING RESOLUTION 2023-007 AND JOB GROWTH INVESTMENT GRANT (JGIG) 23-002 WHICH APPROVED CERTAIN ECONOMIC INCENTIVES ON BEHALF OF PB HOLDCO, LLC., AKA PURSUIT BOATS.

WHEREAS, the Board of County Commissioners of St. Lucie County, Florida, has made the following determinations

1. On January 24, 2023, the Board of County Commissioners (Board) approved Resolution 2023-007, committing to incentivize a new manufacturing facility owned by PB HOLDCO LLC, AKA Pursuit Boats, consisting of approximately 100,000 square feet.

2. Resolution 2023-007 authorized County staff to prepare a Job Growth Investment Grant (JGIG) Agreement for the creation of one hundred (100) new jobs associated with the company's new manufacturing facility.

3. On February 27, 2023, the Board of County Commissioners approved Job Growth Investment Grant (JGIG) Agreement 23-002, for PB HOLDCO LLC, AKA Pursuit Boats, incentivizing the creation of one hundred (100) new jobs over a two-year period.

4. On January 27, 2025, JGIG Agreement 23-002 was amended to extend the Year One job creation date to December 31, 2025.

5. PB HOLDCO LLC, AKA Pursuit Boats, has not met the job creation requirements established under JGIG Agreement 23-002, as amended.

6. On March 30, 2026, PB HOLDCO LLC, AKA Pursuit Boats, submitted correspondence to the County, agreeing to terminate the existing agreement with the understanding that the company will have the opportunity to renegotiate a future economic incentive agreement with the County.

7. The revocation of Resolution 2023-007 and JGIG Agreement 23-002 shall not prevent PB HOLDCO LLC, AKA Pursuit Boats, from requesting economic incentives from the Board of County Commissioners in the future.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of St. Lucie County, Florida:

A. Resolution 2023-007 for PB HOLDCO LLC., AKA Pursuit Boats, authorized by the Board of County Commissioners on January 24, 2023, is hereby revoked.

B. Job Growth Investment Grant (JGIG) Agreement 23-002 for PB HOLDCO LLC, AKA Pursuit Boats, approved on February 27, 2023, as amended, is hereby revoked in its entirety.

C. The revocation of Resolution 2023-007 and JGIG Agreement 23-002 shall not create any

obligation on the part of the County to approve or provide future economic incentives.

D. This Resolution shall take effect on the date of the adoption.

After motion and second, the vote on this Resolution was as follows:

Commissioner, Jamie Fowler, Chair	XX
Commissioner Larry Leet, Vice Chair	XX
Commissioner James Clasby	XX
Commissioner Erin Lowry	XX
Commissioner Cathy Townsend	XX

MALIBU BOATS, INC.™

March 30th, 2026

Mr. George Landry
County Administrator
St. Lucie County
2300 Virginia Avenue
Fort Pierce, Florida 34982

Re: Request for new JGIG with Malibu Boats, Inc. ("MBI") and related St. Lucy County affiliates.

Dear Mr. Landry,

Thank you for your time last week. With appreciation for the County's efforts in recent years in connection with the expansion of PB Holdco's (Pursuit Boats) facilities in St. Lucie County, and related incentives in support of those efforts, please accept this letter as a request for action by the County Commission to enter a new JGIG Agreement with Pursuit, and its parent company, Malibu Boats, Inc. ("MBI"). This may include initiatives, as agreed to with the County, for MBI affiliates located in St. Lucy County (including PB Holdco, LLC and Maverick Boat Group, Inc.)

Our previous JGIG Agreement granted PB Holdco a JGIG award in consideration of PB Holdco's agreement to construct a new 100,000 square foot Tooling & Service facility in the County. The TDC facility is fully operational.

The company remains committed to the overall business growth and job creation in St. Lucie County. There are numerous projects the company is contemplating. MBI respectfully requests:

A.) *A* new JGIG agreement with the county. We understand that entering into this agreement, PB Holdco, LLCs *First Amendment to JGIG Agreement 23-002* will be terminated with the county.
B.) The new measurement period will be determined from a baseline set from headcount as of 12/31/2025.
C.) The Job Creation Commitment for the new JGIG will be 100 headcount increase, with a minimum of 30 jobs in Year One, ending December 31, 2026, and 70 new jobs in year in Year Two, ending December 31, 2027.
D.) Our understanding is the current target hourly rate in St. Lucie County is 24.61 per hour. We will commit to 115% of the current company target average hourly wage in St. Lucie County.

Thank you for your continued support and consideration in this matter. If you should have any questions, please feel to contact me. We look forward to our continued partnership.

Regards,

Rick Lynch

Director of Finance

RESOLUTION 2023-007

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF ST. LUCIE COUNTY APPROVING CERTAIN INCENTIVES ON BEHALF OF PB HOLDCO, LLC., ("PURSUIT BOATS").

WHEREAS, the Board of County Commissioners of St. Lucie County, Florida, has made the following determinations:

1. PB Holdco, LLC., ("PURSUIT BOATS"), which is a targeted industry, is an economic driver and leader in the boat manufacturing industry in St. Lucie County for over 10 years and employs 602 production, skilled trade, professional and management executives.

2. PURSUIT BOATS average earnings per worker is above the average earnings for St. Lucie County plus employees receive a generous benefits package.

3. PURSUIT BOATS possesses a strong corporate culture of continual in-house skill building, cross-training and advanced career opportunities and has become a desired employer in the region, and one of the most respected companies in the boat manufacturing industry.

4. PURSUIT BOATS is expanding its current operations with the construction of a new 109,000 square foot tooling and service facility in close proximity to its existing facility and employee base.

5. PURSUIT BOATS proposed expansion will allow for the creation of 100 new jobs. The employment schedule consists of 50 new jobs in Year 1 and 50 new jobs in Year 2.

6. In recognition of PURSUIT BOATS desire to expand locally, St. Lucie County is offering an incentive package to PURSUIT BOATS for the benefit of the residents of St. Lucie County.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of St. Lucie County, Florida, that in consideration of the benefits gained by the residents of St. Lucie County through the development of PURSUIT BOATS's expanded facility, the following incentives are offered:

A. *St. Lucie County Job Growth Incentive Grant (JGIG)* - The Board authorizes County staff to prepare a JGIG agreement with PURSUIT BOATS for the creation of 100 new jobs pursuant to the Job Growth Investment Grant guidelines.

B. After motion and second, the vote on this Resolution was as follows:

After motion and second, the vote on this resolution was as follows:

Chair Cathy Townsend	AYE
Vice Chair Linda Bartz	AYE
Commissioner Jamie Fowler	AYE
Commissioner Chris Dzadovsky	AYE

ST. LUCIE COUNTY JOB GROWTH INVESTMENT GRANT AGREEMENT

THIS AGREEMENT is made as of the 27th day of February, 2023 by and between St. Lucie County, a political subdivision of the State of Florida, by and through its Board of County Commissioners, hereinafter referred to as the COUNTY and PB Holdco, LLC., (d/b/a/ Pursuit Boats), a corporation authorized to do business in the State of Florida, hereinafter referred to as the COMPANY whose Federal I.D. number is **83-1608357**.

WITNESSETH:

WHEREAS, it is the policy of the COUNTY to stimulate economic growth in St. Lucie County, by either attracting new businesses to St. Lucie County or by encouraging the expansion of existing businesses within St. Lucie County; and

WHEREAS, the creation of new employment opportunities for residents of St. Lucie County and the increased tax revenues resulting from such business expansion or relocation within St. Lucie County is beneficial to the local economy; and

WHEREAS, the Board of County Commissioners has determined that offering a Job Growth Investment Grant encourages either businesses to expand or new businesses to enter St. Lucie County and thereby create new employment opportunities for the residents of St. Lucie County; and

WHEREAS, St. Lucie County, through its Board of County Commissioners, has created a Job Growth Investment Grant; and

WHEREAS, the COMPANY will expand its existing business in St. Lucie County and thereby create certain new employment opportunities having a specific wage level or higher in St. Lucie County in accordance with the Job Growth Investment Grant criteria if the COUNTY provides to the COMPANY a Job Growth Investment Grant; and

WHEREAS, the COMPANY has been determined to be eligible to receive a Job Growth Investment Grant by the COUNTY'S Job Growth Investment Grant Review Committee; and

WHEREAS, the COMPANY acknowledges that this Agreement shall be based upon the COMPANY'S obtainment of the performance requirements as outlined in this Agreement; and,

WHEREAS, the COUNTY finds and declares that it is in the public interest to award a Job Growth Investment Grant to COMPANY pursuant to the terms of this Agreement.

NOW, THEREFORE, in consideration of the premises and mutual covenants hereinafter contained, the parties do agree as follows:

1. Definitions. As used in this Agreement, the following terms shall mean:

   a. "Annual Average Hourly Wage" - includes the hourly cost of wages, bonuses, and commissions but does not include benefits. The Top two Executive salaries as defined in this Agreement shall not be included in the average wage calculations.

   b. "Base Period for Hourly Wage level and Job Creation" - As set forth in the State of Florida Employer's Quarterly Report (RT-6A) for the quarter preceding the Grant application.

   c. "Default" - failure to comply with the terms of the Agreement.

   d. "Effective Date" – The date of execution of this Agreement by the COUNTY.

   e. "Employer's Quarterly Report Form RT-6" - COMPANY's State of Florida Employer's Quarterly Report Form RT-6A provided to the COUNTY in conjunction with the execution of this Agreement, and thereafter as required pursuant to this Agreement.

   f. "Expansion of an existing business" - A business establishing 10 or more jobs to employ 10 or more new full-time employees in the County. These jobs must represent a net increase in employment at the site/facility and be not less than a 10 percent increase.

   g. "Full-time Equivalent Job" - shall be calculated by total payroll hours per year divided by 52 weeks and then, divided by 35 hours.

   h. "JGIG" - shall mean Job Growth Investment Grant.

   i. "New Business" - a business establishing 10 or more jobs to employ 10 or more full-time employees in the County within the term of the Grant provided that such business first begins operations on a site in the County clearly separate from any other operation owned by the same business.

   j. Research Firm – A company that employs 50% or more of their workforce in the development of new products, refinement of existing products, testing of products, development of new scientific information and others to be defined.

   k. "St. Lucie County Average Hourly Wage" – At least 107% of the average annual hourly wage per job in St. Lucie County, as determined by State of Florida

2. Wage Level Commitment.

As a condition precedent to and as consideration for obtaining JGIG funds from the COUNTY, the COMPANY agrees to pay an average hourly wage of not less than **$24.00** per hour annually for those new jobs which are eligible for Grant hereunder. This per hour wage will be adjusted on the third and sixth anniversaries of the Effective Date of this Agreement for wage rate inflation based upon the percentage change in the Consumer Price Index ("CPI Index") between the Effective Date of this Agreement and the third and sixth anniversary from the Effective Date of the Agreement.

The target wage rate will then be increased by the percentage change in the CPI Index in order to determine the new target wage rate on the third anniversary and sixth anniversary of this Agreement. The COMPANY shall provide written verification satisfactory to the COUNTY that the average hourly wage of the new jobs meets the average rate of **$24.00** per hour in the first three years of the Agreement and adjusted as defined above in year three and year six.

The first report provided by the COMPANY will be the State of Florida Employer's Quarterly Report (Form RT-6) including hours worked per month, total number of employees, gross wages paid in the quarter and a total of hours and wages for the Top Executive wages for the quarter before the JGIG Application Date. These Top Executives are defined as the wages for the two (2) highest paid employees on a wage basis. The COMPANY will provide the hours and wage dollars for these Top Two (2) Executives for each reporting period. Each quarter after the approval of the JGIG the COMPANY must provide this information to the COUNTY when filing the Employer's Quarterly Report (Form RT-6). The first report after the Effective Date may include only a partial quarter due to the approval timing. The base period or the adjusted base period at three (3) years or six (6) years will be subtracted from the current twelve (12) month report to equal net growth of hours and wages. The net wages will be divided by the net hours for the average hourly wage rate to compare to the adjusted targeted minimum hourly wage level.

The COMPANY'S failure to maintain its hourly wage level commitment for any year will result in the forfeiture of the Grant amount for that year. Such forfeiture will not preclude the COMPANY'S receipt of scheduled Grant amounts for subsequent years in which it is able to maintain its hourly wage level commitment.

3. Job Creation Commitment.

As a condition precedent to, and as consideration for obtaining JGIG funds from the COUNTY, the COMPANY agrees to create a minimum of **100** new Full-Time Equivalent Jobs in St. Lucie County over the term of this Agreement as more specifically set forth on **Exhibit "A"**, which is attached hereto and made a part hereof. These new jobs will be phased in on the following schedule;

Year One a minimum of **50 jobs**
Year Two a minimum of **50 jobs**

To obtain the Grant amount for jobs created, the annual calculation of jobs created must meet or exceed the minimum job levels and meet the hourly wage requirements.

The annual calculation of the incremental jobs will be determined by taking the Base Period quarterly reported hours and dividing by 455 (35 hours x 52 weeks x .25 of year)

to arrive at a full-time employee count. The same calculation for the current year shall be made by taking the reported annual hours divided by 1820 (35 hours x 52 weeks) to arrive at a full-time employee count. The Base Period employee count shall be subtracted from the current employee count then comparing to the minimum jobs committed by the COMPANY to create.

If the COMPANY does not achieve the job creation goal stated within the Job Growth Investment Grant but has achieved a minimum of 85% of the job creation commitment for the period, the JGIG amount will be recalculated for the scheduled year. The County will recalculate the Grant amount based on the actual job levels obtained, and pay the annual amount as calculated reduced by 50%. The COMPANY'S failure to achieve a minimum job creation of 85% of the job creation commitment for any one year will result in the forfeiture of the entire Grant amount it was scheduled to receive for that year and such funds shall not be available in a subsequent year of the Grant. The COMPANY'S failure to receive funds in any year it fails to meet or maintain its job creation commitment shall not be grounds for an extension of the established payment schedule.

4. Term; Termination.

This Agreement shall be effective upon the date of execution of this contract by both parties hereto and shall automatically terminate 5 years after the last scheduled JGIG payment (May 15, 2034) unless terminated earlier by the COUNTY because of a default by the COMPANY provided however, provisions of this contract shall survive the termination of the contract.

5. Grant Eligibility; Payment Schedule.

a. Eligibility Determination; Payment. The initial eligibility determination for payment of the JGIG shall be made on the first anniversary of the Effective Date of this Agreement. Subsequent eligibility determinations shall be made at each subsequent anniversary of the Effective Date of this Agreement.

Payment of JGIG Funds shall be made as follows: All Grants with an Effective Date between October 1st and March 31st will be paid by May 15th after the successful completion and submission of the required documentation each year. All Grants with an Effective Date between April 1st and September 30th will be paid by November 15th after the successful completion and submission of the required documentation each year.

Notwithstanding the foregoing, should the date for filing the last annual Employer's Quarterly Report (Form RT6) as described in Exhibit "A", not coincide with the date that an eligibility determination is made; the COMPANY shall have the right to file a report, in a form substantially similar to an Employer's Quarterly Report in a form acceptable to the COUNTY for payment.

b. Subject to continued compliance with the requirements of Paragraphs 2 and 3 of this Agreement, the COMPANY will be eligible for a Job Growth Investment Grant (hereinafter a "Grant") of an amount up to **$210,000** which Grant shall be payable as follows:

Year 1 - $42,000
Year 2 - $42,000
Year 3 - $42,000
Year 4 - $42,000

Year 5 - $42,000

Year 1 of the 5-year payout period will begin on **January 1, 2024**, and will continue on January 1st of each year thereafter through the 5-year payment payout based on the payout schedule in paragraph 5 section a. The COUNTY shall pay **$2,100** per Full-Time Equivalent Job.

6. Relocation Commitment.

The parties acknowledge and agree that the JGIG incentive agreement was an inducement to have the COMPANY expand or relocate to St. Lucie County. This means that the COMPANY made the decision to expand or relocate after considering the JGIG package. As a condition precedent to, and as consideration for obtaining JGIG funds from COUNTY, the COMPANY agrees to locate or expand its business operations to/within St. Lucie County for a period of at least **5** years after the last scheduled JGIG payment. Should the Company relocate before the agreed number of years, all grant dollars paid to the Company shall be paid back to the County within a 120 day period.

7. Annual Job Status.

The COMPANY must provide the COUNTY with the Employer's Quarterly Report (Form RT-6) of its business operations within St. Lucie County on the State form RT-6 as amended. The COMPANY shall provide the reports at the same time it provides the State of Florida with the reports. With prior approval of the COUNTY, the COMPANY may submit a form substantially similar to the annual Employer's Quarterly Report (Form RT-6 provided that information necessary to meet the requirements of this grant award is provided in a form acceptable to the COUNTY the alternative form must be notarized and signed on Company letterhead.

8. Grant Restriction.

The JGIG funds available under this Agreement as referenced in paragraph 5 will be provided only for reimbursement of expenses associated with the physical move, relocation and/or expansion of the COMPANY to St. Lucie County including but not limited to corporate or COMPANY relocation expenses, infrastructure costs, leasehold improvements, COMPANY sponsored child day care facilities, rent for COMPANY facilities, lease buyouts, training expenses and other expenses approved by the Job Growth Investment Grant Committee.

9. Default; Termination.

In the event the COMPANY defaults in the performance of its guarantees and commitments as provided for in this Agreement, the COUNTY may, at its option, terminate this Agreement.

10. Indemnification.

For the sum of ten ($10.00) dollars consideration, receipt of which is hereby acknowledged, the COMPANY shall indemnify and save harmless and defend the COUNTY, its servants, and employees from and against any and all claims, liabilities, losses, and/or cause of action which may arise from any negligent act or omission of the COMPANY, its agents, servants, or employees in the performance of services under this Agreement.

11. Forum; Venue.

This Agreement shall be governed by the laws of the State of Florida. Any and all legal action necessary to enforce the Agreement will be held in St. Lucie County or the Federal District Court for the Southern District of Florida. No remedy herein conferred upon any party is intended to be exclusive of any other remedy, and each and every such remedy shall be cumulative and shall be in addition to every other remedy given hereunder or now or hereafter existing by law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder shall preclude any other or further exercise thereof.

12. Lobbyist Certification.

The COMPANY warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the COMPANY to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual, or firm, other than a bona fide employee working solely for the COMPANY, any fee, commission, percentage, gift, or any other consideration contingent upon or resulting from the award or making of this Agreement.

13. No Discrimination Certification.

The COMPANY warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, disability, sex, age, national origin, ancestry, marital status, or sexual orientation.

14. Attorneys' Fees.

If any legal action or other proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default or misrepresentation in connection with any provisions of this Agreement, the successful or prevailing party or parties shall be entitled to recover reasonable attorney's fees, court costs and all expenses (including taxes) even if not taxable as court costs (including, without limitation, all such fees, costs and expenses incident to appeals), incurred in that action or proceeding, in addition to any other relief to which such party or parties may be entitled.

15. Enforceability.

If any term or provision of this Agreement, or the application thereof to any person or circumstances shall, to any extent, be held invalid or unenforceable, the remainder of this Agreement, or the application of such terms or provision, to persons or circumstances other than those to which it is held invalid or unenforceable, shall not be affected, and every other term and provision of this Agreement shall be deemed valid and enforceable to the extent permitted by law. The COMPANY'S failure to maintain its job creation commitment or salary level commitment for any one year will result in the forfeiture of the Grant amount it was scheduled to receive for that year; however, such forfeiture will not preclude the COMPANY'S receipt of scheduled Grant amounts for those subsequent years in which it is able to maintain its job creation and salary level commitment.

16. Assignment.

The COMPANY shall not assign this Agreement to any other persons or firm without first obtaining COUNTY'S written approval.

17. Conflict of Interest.

The COMPANY represents that it presently has no interest and shall acquire no interest, either direct or indirect, which would conflict in any manner with the performance of services required herein, as provided for in Section 112.311, Florida Statutes. The COMPANY further represents that no person having any interest shall be employed for said performance.

18. Notices.

All notices required in this Agreement shall be sent by certified mail, return receipt requested and if sent to the COUNTY shall be mailed to:

St. Lucie County Administrator
2300 Virginia Avenue
Fort Pierce, FL 34982

With copy to:

St. Lucie County Attorney
2300 Virginia Avenue
Fort Pierce, FL 34982

19. Entire Agreement.

The COUNTY and the COMPANY agree that this Agreement sets forth the entire Agreement between the parties, and that there are no promises or understandings other than those stated herein. None of the provisions, terms and conditions contained in this Agreement may be added to, modified, superseded or otherwise altered, except by written instrument executed by the parties hereto.

IN WITNESS WHEREOF, the Board of County Commissioners of St. Lucie County, Florida, has made and executed this Agreement on behalf of the COUNTY and COMPANY has hereunto sets its hand the day and year above written.

FIRST AMENDMENT TO JGIG-23-002

ST. LUCIE COUNTY JOB GROWTH INVESTMENT GRANT AGREEMENT

THIS FIRST AMENDMENT TO THE JGIG AGREEMENT 23-002 is made as of the 27th day of January, 2025 by and between **St. Lucie County**, a political subdivision of the State of Florida, by and through its Board of County Commissioners, hereinafter referred to as the COUNTY and PB Holdco, LLC., (d/b/a/ Pursuit Boats), a corporation authorized to do business in the State of Florida, hereinafter referred to as the COMPANY whose Federal I.D. number is **83-1608357**.

WITNESSETH:

WHEREAS, it is the policy of the COUNTY to stimulate economic growth in St. Lucie County, by either attracting new businesses to St. Lucie County or by encouraging the expansion of existing businesses within St. Lucie County; and

WHEREAS, the creation of new employment opportunities for residents of St. Lucie County and the increased tax revenues resulting from such business expansion or relocation within St. Lucie County is beneficial to the local economy; and

WHEREAS, the Board of County Commissioners has determined that offering a Job Growth Investment Grant encourages either businesses to expand or new businesses to enter St. Lucie County and thereby create new employment opportunities for the residents of St. Lucie County; and

WHEREAS, St. Lucie County, through its Board of County Commissioners, has created a Job Growth Investment Grant; and

WHEREAS, the COMPANY will expand its existing business in St. Lucie County and thereby create certain new employment opportunities having a specific wage level or higher in St. Lucie County in accordance with the Job Growth Investment Grant criteria if the COUNTY provides to the COMPANY a Job Growth Investment Grant; and

WHEREAS, the COMPANY has been determined to be eligible to receive a Job Growth Investment Grant by the COUNTY'S Job Growth Investment Grant Review Committee; and

WHEREAS, the COMPANY acknowledges that this Agreement shall be based upon the COMPANY'S obtainment of the performance requirements as outlined in this Agreement; and,

WHEREAS, the COUNTY finds and declares that it is in the public interest to award a Job Growth Investment Grant to COMPANY pursuant to the terms of this Agreement.

NOW, THEREFORE, in consideration of the premises and mutual covenants hereinafter contained, the parties do agree as follows:

1. Definitions. As used in this Agreement, the following terms shall mean:

   a. "Annual Average Hourly Wage" - includes the hourly cost of wages, bonuses, and commissions but does not include benefits. The Top two Executive salaries as defined in this Agreement shall not be included in the average wage calculations.

   b. "Base Period for Hourly Wage level and Job Creation" - As set forth in the State of Florida Employer's Quarterly Report (RT-6A) for the quarter preceding the Grant application.

   c. "Default" - failure to comply with the terms of the Agreement.

   d. "Effective Date" – The date of execution of this Agreement by the COUNTY.

   e. "Employer's Quarterly Report Form RT-6" - COMPANY's State of Florida Employer's Quarterly Report Form RT-6A provided to the COUNTY in conjunction with the execution of this Agreement, and thereafter as required pursuant to this Agreement.

   f. "Expansion of an existing business" - A business establishing 10 or more jobs to employ 10 or more new full-time employees in the County. These jobs must represent a net increase in employment at the site/facility and be not less than a 10 percent increase.

   g. "Full-time Equivalent Job" - shall be calculated by total payroll hours per year divided by 52 weeks and then, divided by 35 hours.

   h. "JGIG" - shall mean Job Growth Investment Grant.

   i. "New Business" - a business establishing 10 or more jobs to employ 10 or more full-time employees in the County within the term of the Grant provided that such business first begins operations on a site in the County clearly separate from any other operation owned by the same business.

   j. Research Firm – A company that employs 50% or more of their workforce in the development of new products, refinement of existing products, testing of products, development of new scientific information and others to be defined.

   k. "St. Lucie County Average Hourly Wage" – At least 107% of the average annual hourly wage per job in St. Lucie County, as determined by State of Florida Department of Labor, Workforce Development Board or Enterprise Florida, Inc.

2. Wage Level Commitment.

As a condition precedent to and as consideration for obtaining JGIG funds from the COUNTY, the COMPANY agrees to pay an average hourly wage of not less than **$24.00** per hour annually for those new jobs which are eligible for Grant hereunder. This per hour wage will be adjusted on the third and sixth anniversaries of the Effective Date of this Agreement for wage rate inflation based upon the percentage change in the Consumer Price Index ("CPI Index") between the Effective Date of this Agreement and the third and sixth anniversary from the Effective Date of the Agreement.

The target wage rate will then be increased by the percentage change in the CPI Index in order to determine the new target wage rate on the third anniversary and sixth anniversary of this Agreement. The COMPANY shall provide written verification satisfactory to the COUNTY that the average hourly wage of the new jobs meets the average rate of **$24.00** per hour in the first three years of the Agreement and adjusted as defined above in year three and year six.

The first report provided by the COMPANY will be the State of Florida Employer's Quarterly Report (Form RT-6) including hours worked per month, total number of employees, gross wages paid in the quarter and a total of hours and wages for the Top Executive wages for the quarter before the JGIG Application Date. These Top Executives are defined as the wages for the two (2) highest paid employees on a wage basis. The COMPANY will provide the hours and wage dollars for these Top Two (2) Executives for each reporting period. Each quarter after the approval of the JGIG the COMPANY must provide this information to the COUNTY when filing the Employer's Quarterly Report (Form RT-6). The first report after the Effective Date may include only a partial quarter due to the approval timing. The base period or the adjusted base period at three (3) years or six (6) years will be subtracted from the current twelve (12) month report to equal net growth of hours and wages. The net wages will be divided by the net hours for the average hourly wage rate to compare to the adjusted targeted minimum hourly wage level.

The COMPANY'S failure to maintain its hourly wage level commitment for any year will result in the forfeiture of the Grant amount for that year. Such forfeiture will not preclude the COMPANY'S receipt of scheduled Grant amounts for subsequent years in which it is able to maintain its hourly wage level commitment.

3. Job Creation Commitment.

As a condition precedent to, and as consideration for obtaining JGIG funds from the COUNTY, the COMPANY agrees to create a minimum of **100** new Full-Time Equivalent Jobs in St. Lucie County over the term of this Agreement as more specifically set forth on **Exhibit "A"**, which is attached hereto and made a part hereof. These new jobs will be phased in on the following schedule;

Year One, ending December 31, 2025 - a minimum of **20 jobs**
Year Two, ending December 31, 2026 - a minimum of **80 jobs**

To obtain the Grant amount for jobs created, the annual calculation of jobs created must meet or exceed the minimum job levels and meet the hourly wage requirements.

The annual calculation of the incremental jobs will be determined by taking the Base Period quarterly reported hours and dividing by 455 (35 hours x 52 weeks x .25 of year) to arrive at a full-time employee count. The same calculation for the current year shall be

made by taking the reported annual hours divided by 1820 (35 hours x 52 weeks) to arrive at a full-time employee count. The Base Period employee count shall be subtracted from the current employee count then comparing to the minimum jobs committed by the COMPANY to create.

If the COMPANY does not achieve the job creation goal stated within the Job Growth Investment Grant but has achieved a minimum of 85% of the job creation commitment for the period, the JGIG amount will be recalculated for the scheduled year. The County will recalculate the Grant amount based on the actual job levels obtained, and pay the annual amount as calculated reduced by 50%. The COMPANY'S failure to achieve a minimum job creation of 85% of the job creation commitment for any one year will result in the forfeiture of the entire Grant amount it was scheduled to receive for that year and such funds shall not be available in a subsequent year of the Grant. The COMPANY'S failure to receive funds in any year it fails to meet or maintain its job creation commitment shall not be grounds for an extension of the established payment schedule.

4. Term; Termination.

This Agreement shall be effective upon the date of execution of this contract by both parties hereto and shall automatically terminate 5 years after the last scheduled JGIG payment (May 15, 2035) unless terminated earlier by the COUNTY because of a default by the COMPANY provided however, provisions of this contract shall survive the termination of the contract.

5. Grant Eligibility; Payment Schedule.

a. Eligibility Determination; Payment. The initial eligibility determination for payment of the JGIG shall be made on the first anniversary of the Effective Date of this Agreement. Subsequent eligibility determinations shall be made at each subsequent anniversary of the Effective Date of this Agreement.

Payment of JGIG Funds shall be made as follows: All Grants with an Effective Date between October 1st and March 31st will be paid by May 15th after the successful completion and submission of the required documentation each year. All Grants with an Effective Date between April 1st and September 30th will be paid by November 15th after the successful completion and submission of the required documentation each year.

Notwithstanding the foregoing, should the date for filing the last annual Employer's Quarterly Report (Form RT6) as described in Exhibit "A", not coincide with the date that an eligibility determination is made; the COMPANY shall have the right to file a report, in a form substantially similar to an Employer's Quarterly Report in a form acceptable to the COUNTY for payment.

b. Subject to continued compliance with the requirements of Paragraphs 2 and 3 of this Agreement, the COMPANY will be eligible for a Job Growth Investment Grant (hereinafter a "Grant") of an amount up to **$210,000** which Grant shall be payable as follows:

Year 1 - $42,000
Year 2 - $42,000
Year 3 - $42,000
Year 4 - $42,000
Year 5 - $42,000

Year 1 of the 5-year payout period will begin on **January 1, 2026**, and will continue on January 1st of each year thereafter through the 5-year payment payout based on the payout schedule in paragraph 5 section a. The COUNTY shall pay **$2,100** per Full-Time Equivalent Job.

6. Relocation Commitment.

The parties acknowledge and agree that the JGIG incentive agreement was an inducement to have the COMPANY expand or relocate to St. Lucie County. This means that the COMPANY made the decision to expand or relocate after considering the JGIG package. As a condition precedent to, and as consideration for obtaining JGIG funds from COUNTY, the COMPANY agrees to locate or expand its business operations to/within St. Lucie County for a period of at least **5** years after the last scheduled JGIG payment. Should the Company relocate before the agreed number of years, all grant dollars paid to the Company shall be paid back to the County within a 120 day period.

7. Annual Job Status.

The COMPANY must provide the COUNTY with the Employer's Quarterly Report (Form RT-6) of its business operations within St. Lucie County on the State form RT-6 as amended. The COMPANY shall provide the reports at the same time it provides the State of Florida with the reports. With prior approval of the COUNTY, the COMPANY may submit a form substantially similar to the annual Employer's Quarterly Report (Form RT-6 provided that information necessary to meet the requirements of this grant award is provided in a form acceptable to the COUNTY the alternative form must be notarized and signed on Company letterhead.

8. Grant Restriction.

The JGIG funds available under this Agreement as referenced in paragraph 5 will be provided only for reimbursement of expenses associated with the physical move, relocation and/or expansion of the COMPANY to St. Lucie County including but not limited to corporate or COMPANY relocation expenses, infrastructure costs, leasehold improvements, COMPANY sponsored child day care facilities, rent for COMPANY facilities, lease buyouts, training expenses and other expenses approved by the Job Growth Investment Grant Committee.

9. Default; Termination.

In the event the COMPANY defaults in the performance of its guarantees and commitments as provided for in this Agreement, the COUNTY may, at its option, terminate this Agreement.

10. Indemnification.

For the sum of ten ($10.00) dollars consideration, receipt of which is hereby acknowledged, the COMPANY shall indemnify and save harmless and defend the COUNTY, its servants, and employees from and against any and all claims, liabilities, losses, and/or cause of action which may arise from any negligent act or omission of the COMPANY, its agents, servants, or employees in the performance of services under this Agreement.

11. Forum; Venue.

This Agreement shall be governed by the laws of the State of Florida. Any and all legal action necessary to enforce the Agreement will be held in St. Lucie County or the Federal District Court for the Southern District of Florida. No remedy herein conferred upon any party is intended to be exclusive of any other remedy, and each and every such remedy shall be cumulative and shall be in addition to every other remedy given hereunder or now or hereafter existing by law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder shall preclude any other or further exercise thereof.

12. Lobbyist Certification.

The COMPANY warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the COMPANY to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual, or firm, other than a bona fide employee working solely for the COMPANY, any fee, commission, percentage, gift, or any other consideration contingent upon or resulting from the award or making of this Agreement.

13. No Discrimination Certification.

The COMPANY warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, disability, sex, age, national origin, ancestry, marital status, or sexual orientation.

14. Attorneys' Fees.

If any legal action or other proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default or misrepresentation in connection with any provisions of this Agreement, the successful or prevailing party or parties shall be entitled to recover reasonable attorney's fees, court costs and all expenses (including taxes) even if not taxable as court costs (including, without limitation, all such fees, costs and expenses incident to appeals), incurred in that action or proceeding, in addition to any other relief to which such party or parties may be entitled.

15. Enforceability.

If any term or provision of this Agreement, or the application thereof to any person or circumstances shall, to any extent, be held invalid or unenforceable, the remainder of this Agreement, or the application of such terms or provision, to persons or circumstances other than those to which it is held invalid or unenforceable, shall not be affected, and every other term and provision of this Agreement shall be deemed valid and enforceable to the extent permitted by law. The COMPANY'S failure to maintain its job creation commitment or salary level commitment for any one year will result in the forfeiture of the Grant amount it was scheduled to receive for that year; however, such forfeiture will not preclude the COMPANY'S receipt of scheduled Grant amounts for those subsequent years in which it is able to maintain its job creation and salary level commitment.

16. Assignment.

The COMPANY shall not assign this Agreement to any other persons or firm without first obtaining COUNTY'S written approval.

17. Conflict of Interest.

The COMPANY represents that it presently has no interest and shall acquire no interest, either direct or indirect, which would conflict in any manner with the performance of services required herein, as provided for in Section 112.311, Florida Statutes. The COMPANY further represents that no person having any interest shall be employed for said performance.

18. Notices.

All notices required in this Agreement shall be sent by certified mail, return receipt requested and if sent to the COUNTY shall be mailed to:

	With copy to:
St. Lucie County Administrator 2300 Virginia Avenue Fort Pierce, FL 34982	St. Lucie County Attorney 2300 Virginia Avenue Fort Pierce, FL 34982

19. Entire Agreement.

The COUNTY and the COMPANY agree that this Agreement sets forth the entire Agreement between the parties, and that there are no promises or understandings other than those stated herein. None of the provisions, terms and conditions contained in this Agreement may be added to, modified, superseded or otherwise altered, except by written instrument executed by the parties hereto.

IN WITNESS WHEREOF, the Board of County Commissioners of St. Lucie County, Florida, has made and executed this Agreement on behalf of the COUNTY and COMPANY has hereunto sets its hand the day and year above written.

The undersigned, in consideration of the payment of $1.00 and other good and valuable consideration, the adequacy and receipt of which is hereby acknowledged, grant and give to Florida Power & Light Company, its affiliates, licensees, agents, successors, and assigns ("FPL"), a non-exclusive easement forever for the construction, operation and maintenance of overhead and underground electric utility facilities (including wires, poles, guys, cables, conduits and appurtenant equipment) to be installed from time to time; with the right to reconstruct, improve, add to, enlarge, change the voltage as well as the size of, and remove such facilities or any of them within an easement described as follows:

See Exhibit "A" ("Easement Area")

Together with the right to permit any other person, firm, or corporation to attach wires to any facilities hereunder and lay cable and conduit within the Easement Area and to operate the same for communications purposes; the right of ingress and egress to the Easement Area at all times; the right to clear the land and keep it cleared of all trees, undergrowth and other obstructions within the Easement Area; the right to trim and cut and keep trimmed and cut all dead, weak, leaning or dangerous trees or limbs outside of the Easement Area, which might interfere with or fall upon the lines or systems of communications or power transmission or distribution; and further grants, to the fullest extent the undersigned has the power to grant, if at all, the rights hereinabove granted on the Easement Area heretofore described, over, along, under and across the roads, streets or highways adjoining or through said Easement Area.

AGENDA REQUEST

9.J.3.
RES-2026-75
CONSENT AGENDA - PROPERTY ACQUISITIONS
DATE: **5/5/2026**
*RESOLUTION ITEM - BOARD APPROVAL
QUASI-JUDICIAL ITEM? NO

TO: **Board of County Commissioners**

PRESENTED BY: JoAnn Riley, Property Acquisition Director
Patrick Dayan, Public Works Director

SUBMITTED BY: Property Acquisitions

SUBJECT: Florida Department of Transportation Jurisdictional Transfer - Parcel 104 County Deed - Item/Segment Number FDIP: 438379-2-52-01 - Parcel ID 1336-232-0001-000-5

BACKGROUND:

On July 11, 2023, the Board of County Commissioners approved Resolution No. 2023-117, accepting the Florida Department of Transportation ("FDOT") Right of Way Acquisition Memorandum of Agreement for reconstruction of SR-713 / Kings Highway from North of Commercial Circle to North of St. Lucie Boulevard (Item/Segment Number FDIP: 438379-2-52-01). Pursuant to Resolution No. 2023-117, FDOT has requested the transfer of Parcel 104 from the County.

Attached for your review and acceptance is a County Deed and Resolution.

PREVIOUS ACTION:

November 23, 2004 - The Board of County Commissioners accepted a right-of-way donation from Atlantic Truss Company, as a condition of approval of Resolution No. 2004-04.

July 11, 2023 - The Board of County Commissioners approved Resolution No. 2023-117, accepting the Florida Department of Transportation ("FDOT") right of way acquisition memorandum of agreement for reconstruction of SR-713 / Kings Highway from North of Commercial Circle to North of St. Lucie Boulevard (Item/Segment Number FDIP: 438379-2-52-01).

FINANCIAL IMPACT:

N/A

RECOMMENDATION:

Staff recommends the Board authorize the Chair to sign the County Deed and Resolution and direct staff to send the executed County Deed and Resolution to FDOT for recordation in the public records of St. Lucie County, Florida.

RESOLUTION NO. 2023-117

A RESOLUTION ACCEPTING THE FLORIDA DEPARTMENT OF TRANSPORTATION RIGHT OF WAY ACQUISITION MEMORANDUM OF AGREEMENT FOR RECONSTRUCTION OF SR-713/KINGS HIGHWAY FROM NORTH OF COMMERCIAL CIRCLE TO NORTH OF ST. LUCIE BOULEVARD (ITEM/SEGMENT NUMBER FDIP: 438379-2-52-01) AND AUTHORIZING THE CHAIR TO EXECUTE THE AGREEMENT AND FURTHER AUTHORIZING THE COUNTY ATTORNEY TO EXECUTE THE AGREEMENT BY APPROVING IT AS TO FORM AND CORRECTNESS

WHEREAS, the Board of County Commissioners of St. Lucie County, Florida, has made the following determinations:

1. The Florida Department of Transportation is constructing a transportation project for the reconstruction of SR-713/Kings Highway from north of Commercial Circle to north of St. Lucie Boulevard ("Project").

2. St. Lucie County is the owner of St. Lucie Boulevard and pursuant to Sections 339.07, 339.08 and 339.12, Florida Statutes, and the federal funding provisions, the Florida Department of Transportation is authorized to undertake projects within St. Lucie County's geographical limits and the Project will involve the acquisition of various property along the Project corridor.

3. Acceptance of the Right of Way Acquisition Memorandum of Agreement with the State of Florida Department of Transportation for the right of way acquisition and related activities, including eminent domain proceedings, in accordance with Florida Department of Transportation's right of way procedures and applicable federal acquisition requirements more fully described in the Memorandum of Agreement and associated exhibits as the parties agree it in is the best interest of the public to promote a cooperative effort for the successful completion of the Project.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of St. Lucie County, Florida:

1. The Board hereby accepts and approves the Right of Way Acquisition Memorandum of Agreement with the State of Florida Department of Transportation right of way acquisition and related activities.

2. The Board hereby authorizes and Chair to execute the above-referenced agreement and further authorizes the County Attorney to execute the agreement

by approving it as to form and correctness.

After motion and second, the vote on this resolution was as follows:

Commissioner Cathy Townsend, Chair	YEA
Commissioner Linda Bartz, Vice Chair	YEA
Commissioner Chris Dzadovsky	YEA
Commissioner Larry Leet	YEA
Commissioner Jamie Fowler	YEA

COUNTY ATTORNEY

RIGHT OF WAY ACQUISITION
MEMORANDUM OF AGREEMENT

This is a Memorandum of Agreement ("MOA") made and entered into this ____day of _____, 20_____, by and between the STATE OF FLORIDA DEPARTMENT OF TRANSPORTATION, an agency of the State of Florida ("DEPARTMENT") and Saint Lucie County, a Florida county ("AGENCY").

WITNESSETH:

WHEREAS, the DEPARTMENT is constructing a transportation project for the reconstruction of SR-713 / Kings Highway from north of Commercial Circle to north of St. Lucie Boulevard ("Project"), as depicted in the attached Exhibit "A" and associated with Item / Segment Number FPID: 438379-2-52-01; and

WHEREAS, the AGENCY is the owner of St. Lucie Boulevard; and

WHEREAS, pursuant to Sections 339.07, 339.08 and 339.12, Florida Statutes, and federal funding provisions, the DEPARTMENT is authorized to undertake projects within the AGENCY's geographical limits; and

WHEREAS, the Project will involve the acquisition of various property interests along the Project corridor; and

WHEREAS, the DEPARTMENT plans to construct the Project and conduct right of way acquisition and related activities, including eminent domain proceedings, on the Project for and on behalf of the AGENCY to prepare the Project for construction; and

WHEREAS, the DEPARTMENT will conduct its right of way acquisition activities in accordance with its right of way procedures and applicable federal acquisition requirements; and

WHEREAS, the parties agree that it is in the best interest of the public to promote a cooperative effort between the DEPARTMENT and the AGENCY for the successful completion of the Project.

NOW THEREFORE for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by the parties, this MOA sets forth and outlines the following agreements between the DEPARTMENT and the AGENCY concerning the performance of acquisition and maintenance activities by the AGENCY and the DEPARTMENT:

1. The above recitals are true and correct and are incorporated herein by reference.

2. Upon completion of its acquisition and construction activities for the Project, the DEPARTMENT will transfer and the AGENCY will accept acquired property rights along the AGENCY facilities, including excess property acquired by the DEPARTMENT on behalf of the AGENCY. If for some reason the DEPARTMENT does not construct the Project, any acquired property shall be conveyed to the AGENCY in accordance with all federal and state regulations, and the AGENCY shall accept the property and comply with all regulations, including making any and all reimbursements to the DEPARTMENT or the Federal Highway Administration ("FHWA") that may be required by said regulations due to the Project not being constructed.

3. Said conveyance shall include, and the AGENCY fully accepts, a transfer and assignment of all rights and obligations pursuant to any maintenance agreement, utility agreement,

subordination, and/or other agreements or matters of record relating to the property to be conveyed and the AGENCY shall assume all responsibilities and liabilities arising from any obligations thereunder which responsibilities, liabilities and obligations as set forth in the conveyance documents shall run with the land. This provision shall survive the termination of this MOA.

4. Notwithstanding any other provision herein to the contrary, the DEPARTMENT shall not be responsible for any costs or attorney fees arising out of any liabilities or obligations incurred regarding the right of way after the transfer of property.

5. The AGENCY shall cooperate with the DEPARTMENT regarding the partial conveyance of right- of- way owned by the AGENCY, which shall be donated to the DEPARTMENT within six (6) months of an official written request by the DEPARTMENT. The AGENCY shall cooperate with the DEPARTMENT should the right-of-way requirements change due to unforeseen circumstances. See Exhibit "B.".

6. To the extent provided by law, the AGENCY shall indemnify, defend and hold harmless the DEPARTMENT and all of its officers, agents and employees from any claim, loss, damage, cost, charge, or expense arising out of any act, error, omission, or negligent act by the AGENCY, its agents or employees during acquisition and other related activities on the Project except that neither the AGENCY, its officers, agents or employees will be liable for any claim, loss, damage, cost, charge, or expense arising out of any act, error, omission, or negligent act by the DEPARTMENT or any of its officers, agents or employees during the performance of acquisition and other related activities on the Project.

7. Any and all notices given or required under this MOA shall be in writing and either hand-delivered with receipt acknowledged or sent by certified mail, return receipt requested. All notices delivered shall be directed as follows:

REGULAR [ ]

PUBLIC HEARING
Leg. [ ] Quasi-JD [ ]

CONSENT [X]

TO: BOARD OF COUNTY COMMISSIONERS

PRESENTED BY:

SUBMITTED BY (DEPT.): County Attorney

Daniel S. McIntyre
County Attorney

SUBJECT: RIGHT-OF-WAY DONATION
Future Right-of-Way of Kings Highway
Resolution 04-274

BACKGROUND: Attached for your review, consideration and approval is a copy of the recorded Warranty Deed for the donation of right-of-way in compliance with Resolution 04-004 (See Attached). Atlantic Truss mistakenly recorded the Warranty Deed for the road right-of-way on Kings Highway before the donation was accepted by the Board of County Commissioners. The County has also requested an owners' title policy on the donated right-of-way.

FUNDS AVAILABLE: N/A

PREVIOUS ACTION: Resolution 04-004 granted Major site Plan approval for Atlantic Truss Company subject to the developer conveying to St. Lucie County road right-of-way along Kings Highway for future widening.

RECOMMENDATION: Staff recommends that the Board accept the Warranty Deed, authorize the Chairman to execute Resolution 04-27 4 and direct staff to re-record the Warranty Deed and Record Resolution 04-274 in the Public Records of St. Lucie County, Florida.

AGENDA REQUEST

TO: **Board of County Commissioners**

PRESENTED BY: JoAnn Riley, Property Acquisition Director
Patrick Dayan, Public Works Director

SUBMITTED BY: Property Acquisitions

SUBJECT: Florida Department of Transportation Jurisdictional Transfer - Parcel 702 Temporary Easement - Item/Segment Number FDIP: 438379-2-52-01 - Parcel ID 1336-232-0001-000-5

BACKGROUND:

On July 11, 2023, the Board of County Commissioners approved Resolution No. 2023-117, accepting the Florida Department of Transportation ("FDOT") Right of Way Acquisition Memorandum of Agreement for reconstruction of SR-713 / Kings Highway from North of Commercial Circle to North of St. Lucie Boulevard (Item/Segment Number FDIP: 438379-2-52-01). Pursuant to Resolution No. 2023-117, FDOT has requested the County grant a Temporary Easement over Parcel 702.

This Temporary Easement is being granted for the limited purpose of construction of site improvements within this Easement area in conjunction with the above referenced project and to provide a mechanism for directing storm water runoff from properties adjacent to the Florida Department of Transportation right of way to flow in a way that is consistent with historic drainage patterns which is separated from the Florida Department of Transportation roadway drainage system and to harmonize with the existing improvements and proposed construction within this Easement area.

Attached for your review and acceptance is a Temporary Easement and Resolution.

PREVIOUS ACTION:

November 23, 2004 - The Board of County Commissioners accepted a right-of-way donation from Atlantic Truss Company, as a condition of approval of Resolution No. 2004-04.

July 11, 2023 - The Board of County Commissioners approved Resolution No. 2023-117, accepting the Florida Department of Transportation ("FDOT") Right of Way Acquisition Memorandum of Agreement for reconstruction of SR-713 / Kings Highway from North of Commercial Circle to North of St. Lucie Boulevard (Item/Segment Number FDIP: 438379-2-52-01).

FINANCIAL IMPACT:

N/A

RECOMMENDATION:

Staff recommends the Board authorize the Chair to sign the Temporary Easement and Resolution and direct staff to send the executed Temporary Easement and Resolution to FDOT for recordation in the public records of St. Lucie County, Florida.

TEMPORARY EASEMENT

THIS EASEMENT Made this _____ day of _____, 20_____, by **ST. LUCIE COUNTY, a political subdivision of the State of Florida**, whose address is: 2300 Virginia Avenue, Fort Pierce, Florida 34982, Grantor, and the **STATE OF FLORIDA DEPARTMENT OF TRANSPORTATION**, its successors and assigns, Grantee.

WITNESSETH that for and in consideration of the sum of One Dollar and other valuable considerations, receipt and sufficiency of which is hereby acknowledged, the Grantor hereby gives, grants, bargains and releases to the Grantee, a temporary easement for the **purposes specified below** through the following described land in **St. Lucie County**, Florida, described as follows, viz:

Parcel No. 702 Item/Segment No. 4383792

A portion of land lying in the Southwest One-Quarter (SW 1/4) of the Northwest One-Quarter (NW 1/4) of Section 36, Township 34 South, Range 39 East, St. Lucie County, Florida; said portion lying Easterly of and adjacent to Parcel 104, extending Easterly no more than 43.00 feet between Baseline of Survey Stations 252+32.29 and 252+57.76; extending Easterly no more than 50.00 feet between Baseline of Survey Stations 252+57.74 and 255+75.35; and said portion lying Easterly of and adjacent to Parcel 801, extending Easterly no more than 22.44 feet between Baseline of Survey Stations 255+75.24 and 256+23.97, as shown on Sheet 4 of the Florida Department of Transportation Right of Way Map of State Road 713 (Kings Highway), Item/Segment No. 4383792, Section 94003-2513.

Containing 18,058 square feet, more or less.

A temporary easement for the limited purpose of construction of site improvements within this easement area in conjunction with the above referenced project and to provide a mechanism for directing storm water runoff from properties adjacent to the Florida Department of Transportation right of way to flow in a way that is consistent with historic drainage patterns which is separated from the Florida Department of Transportation roadway drainage system and to harmonize with the existing improvements and proposed construction within this easement area. Construction activities may include General Construction Operations such as construction of swales and ditches, Clearing and Grubbing, Earthwork and related Operations, installation of Drainage Structures and Sod as defined in the Florida Department of Transportation Standard Specifications for Road and Bridge Construction, and the maintenance thereof in, over, under, upon and through the above described property together with the right of access, ingress and

egress, along with any other incidences necessary or convenient in connection with the construction to be undertaken by the Department, on State Road 713 (Kings Highway) adjacent thereto.

This Easement is granted upon the condition that the sloping and/or grading upon the above land shall not extend beyond the limits outlined above, and that all grading or sloping shall conform to all existing structural improvements within the limits designated, and all work will be performed in such manner that the existing structural improvements will not be damaged.

This Easement shall expire upon the completion of this transportation project but no later than the last day of **December 2038**.

IN WITNESS WHEREOF, the said Grantor has caused these presents to be executed in its name by its Board of County Commissioners acting by the Chair or Vice-Chair of said Board, the day and year aforesaid.

ON MOTION of County Commissioner _____, seconded by County Commissioner _____, the following Resolution was adopted:

WHEREAS, the State of Florida Department of Transportation proposes to construct or improve State Road No. **713**, Item/Segment No. **4383792**, Section **94003-2513**, in **St. Lucie** County, Florida: and

WHEREAS, it is necessary that certain lands now owned by **ST. LUCIE COUNTY, a political subdivision of the State of Florida**, be used temporarily by the **STATE OF FLORIDA DEPARTMENT OF TRANSPORTATION**: and

WHEREAS, said use is in the best interest of the County: and

WHEREAS, the State of Florida Department of Transportation has made application to said County to execute and deliver to the State of Florida Department of Transportation a temporary easement, or easements, in favor of the State of Florida Department of Transportation, for the **purposes specified below** and said request having been duly considered.

Parcel No. 702 Item/Segment No. 4383792

A portion of land lying in the Southwest One-Quarter (SW 1/4) of the Northwest One-Quarter (NW 1/4) of Section 36, Township 34 South, Range 39 East, St. Lucie County, Florida; said portion lying Easterly of and adjacent to Parcel 104, extending Easterly no more than 43.00 feet between Baseline of Survey Stations 252+32.29 and 252+57.76; extending Easterly no more than 50.00 feet between Baseline of Survey Stations 252+57.74 and 255+75.35; and said portion lying Easterly of and adjacent to Parcel 801, extending Easterly no more than 22.44 feet between Baseline of Survey Stations 255+75.24 and 256+23.97, as shown on Sheet 4 of the Florida Department of Transportation Right of Way Map of State Road 713 (Kings Highway), Item/Segment No. 4383792, Section 94003-2513.

Containing 18,058 square feet, more or less.

A temporary easement for the limited purpose of construction of site improvements within this easement area in conjunction with the above referenced project and to provide a mechanism for directing storm water runoff from properties adjacent to the Florida Department of Transportation right of way to flow in a way that is consistent with historic drainage patterns which is separated from the Florida Department of Transportation roadway drainage system and to harmonize with the existing improvements and proposed construction within this easement area. Construction activities may include General Construction Operations such as construction of swales and ditches, Clearing and Grubbing, Earthwork and related Operations, installation of Drainage Structures and Sod as defined in the Florida Department of Transportation Standard Specifications for Road and Bridge Construction, and the maintenance thereof in, over, under, upon and through the above described property together with the right of access, ingress and egress, along with any other incidences necessary or convenient in connection with the construction to be undertaken by the Department, on State Road 713 (Kings Highway) adjacent thereto.

This Easement is granted upon the condition that the sloping and/or grading upon the above land shall not extend beyond the limits outlined above, and that all grading or sloping shall conform to all existing structural improvements within the limits designated, and all work will be performed in such manner that the existing structural improvements will not be damaged.

This Easement shall expire upon the completion of this transportation project but no later than the last day of **December 2038**.

NOW THEREFORE, BE IT RESOLVED by the Board of County Commissioners of **ST. LUCIE COUNTY, a political subdivision of the State of Florida**, that the application of the State of Florida Department of Transportation for a temporary easement, or easements, is for transportation purposes which are in the public or community interest and for public welfare; that a temporary easement, or easements, in favor of the State of Florida Department of Transportation, in **St. Lucie** County, Florida, should be drawn and executed by this Board of County Commissioners. Consideration shall be $1.

BE IT FURTHER RESOLVED that a certified copy of this Resolution be forwarded forthwith to the State of Florida Department of Transportation at 3400 W. Commercial Boulevard, Fort Lauderdale, Florida 33309.

RESOLUTION NO. 2023-117

A RESOLUTION ACCEPTING THE FLORIDA DEPARTMENT OF TRANSPORTATION RIGHT OF WAY ACQUISITION MEMORANDUM OF AGREEMENT FOR RECONSTRUCTION OF SR-713/KINGS HIGHWAY FROM NORTH OF COMMERCIAL CIRCLE TO NORTH OF ST. LUCIE BOULEVARD (ITEM/SEGMENT NUMBER FDIP: 438379-2-52-01) AND AUTHORIZING THE CHAIR TO EXECUTE THE AGREEMENT AND FURTHER AUTHORIZING THE COUNTY ATTORNEY TO EXECUTE THE AGREEMENT BY APPROVING IT AS TO FORM AND CORRECTNESS

WHEREAS, the Board of County Commissioners of St. Lucie County, Florida, has made the following determinations:

1. The Florida Department of Transportation is constructing a transportation project for the reconstruction of SR-713/Kings Highway from north of Commercial Circle to north of St. Lucie Boulevard ("Project").

2. St. Lucie County is the owner of St. Lucie Boulevard and pursuant to Sections 339.07, 339.08 and 339.12, Florida Statutes, and the federal funding provisions, the Florida Department of Transportation is authorized to undertake projects within St. Lucie County's geographical limits and the Project will involve the acquisition of various property along the Project corridor.

3. Acceptance of the Right of Way Acquisition Memorandum of Agreement with the State of Florida Department of Transportation for the right of way acquisition and related activities, including eminent domain proceedings, in accordance with Florida Department of Transportation's right of way procedures and applicable federal acquisition requirements more fully described in the Memorandum of Agreement and associated exhibits as the parties agree it in is the best interest of the public to promote a cooperative effort for the successful completion of the Project.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of St. Lucie County, Florida:

1. The Board hereby accepts and approves the Right of Way Acquisition Memorandum of Agreement with the State of Florida Department of Transportation right of way acquisition and related activities.

2. The Board hereby authorizes and Chair to execute the above-referenced agreement and further authorizes the County Attorney to execute the agreement

by approving it as to form and correctness.

After motion and second, the vote on this resolution was as follows:

Commissioner Cathy Townsend, Chair	YEA
Commissioner Linda Bartz, Vice Chair	YEA
Commissioner Chris Dzadovsky	YEA
Commissioner Larry Leet	YEA
Commissioner Jamie Fowler	YEA

PASSED AND DULY ADOPTED this 11 day of July 2023.

COUNTY ATTORNEY

RIGHT OF WAY ACQUISITION
MEMORANDUM OF AGREEMENT

This is a Memorandum of Agreement ("MOA") made and entered into this ____day of _____, 20_____, by and between the STATE OF FLORIDA DEPARTMENT OF TRANSPORTATION, an agency of the State of Florida ("DEPARTMENT") and Saint Lucie County, a Florida county ("AGENCY").

WITNESSETH:

WHEREAS, the DEPARTMENT is constructing a transportation project for the reconstruction of SR-713 / Kings Highway from north of Commercial Circle to north of St. Lucie Boulevard ("Project"), as depicted in the attached Exhibit "A" and associated with Item / Segment Number FPID: 438379-2-52-01; and

WHEREAS, the AGENCY is the owner of St. Lucie Boulevard; and

WHEREAS, pursuant to Sections 339.07, 339.08 and 339.12, Florida Statutes, and federal funding provisions, the DEPARTMENT is authorized to undertake projects within the AGENCY's geographical limits; and

WHEREAS, the Project will involve the acquisition of various property interests along the Project corridor; and

WHEREAS, the DEPARTMENT plans to construct the Project and conduct right of way acquisition and related activities, including eminent domain proceedings, on the Project for and on behalf of the AGENCY to prepare the Project for construction; and

WHEREAS, the DEPARTMENT will conduct its right of way acquisition activities in accordance with its right of way procedures and applicable federal acquisition requirements; and

WHEREAS, the parties agree that it is in the best interest of the public to promote a cooperative effort between the DEPARTMENT and the AGENCY for the successful completion of the Project.

NOW THEREFORE for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by the parties, this MOA sets forth and outlines the following agreements between the DEPARTMENT and the AGENCY concerning the performance of acquisition and maintenance activities by the AGENCY and the DEPARTMENT:

1. The above recitals are true and correct and are incorporated herein by reference.

2. Upon completion of its acquisition and construction activities for the Project, the DEPARTMENT will transfer and the AGENCY will accept acquired property rights along the AGENCY facilities, including excess property acquired by the DEPARTMENT on behalf of the AGENCY. If for some reason the DEPARTMENT does not construct the Project, any acquired property shall be conveyed to the AGENCY in accordance with all federal and state regulations, and the AGENCY shall accept the property and comply with all regulations, including making any and all reimbursements to the DEPARTMENT or the Federal Highway Administration ("FHWA") that may be required by said regulations due to the Project not being constructed.

3. Said conveyance shall include, and the AGENCY fully accepts, a transfer and assignment of all rights and obligations pursuant to any maintenance agreement, utility agreement,

subordination, and/or other agreements or matters of record relating to the property to be conveyed and the AGENCY shall assume all responsibilities and liabilities arising from any obligations thereunder which responsibilities, liabilities and obligations as set forth in the conveyance documents shall run with the land. This provision shall survive the termination of this MOA.

4. Notwithstanding any other provision herein to the contrary, the DEPARTMENT shall not be responsible for any costs or attorney fees arising out of any liabilities or obligations incurred regarding the right of way after the transfer of property.

5. The AGENCY shall cooperate with the DEPARTMENT regarding the partial conveyance of right- of- way owned by the AGENCY, which shall be donated to the DEPARTMENT within six (6) months of an official written request by the DEPARTMENT. The AGENCY shall cooperate with the DEPARTMENT should the right-of-way requirements change due to unforeseen circumstances. See Exhibit "B.".

6. To the extent provided by law, the AGENCY shall indemnify, defend and hold harmless the DEPARTMENT and all of its officers, agents and employees from any claim, loss, damage, cost, charge, or expense arising out of any act, error, omission, or negligent act by the AGENCY, its agents or employees during acquisition and other related activities on the Project except that neither the AGENCY, its officers, agents or employees will be liable for any claim, loss, damage, cost, charge, or expense arising out of any act, error, omission, or negligent act by the DEPARTMENT or any of its officers, agents or employees during the performance of acquisition and other related activities on the Project.

7. Any and all notices given or required under this MOA shall be in writing and either hand-delivered with receipt acknowledged or sent by certified mail, return receipt requested. All notices delivered shall be directed as follows:

AGENDA REQUEST

ITEM NO.C2a
DATE: November 23, 2004

REGULAR [ ]

PUBLIC HEARING
Leg. [ ] Quasi-JD [ ]

CONSENT [X]

TO: BOARD OF COUNTY COMMISSIONERS

PRESENTED BY:

SUBMITTED BY (DEPT.): County Attorney

Daniel S. McIntyre
County Attorney

SUBJECT: RIGHT-OF-WAY DONATION
Future Right-of-Way of Kings Highway
Resolution 04-274

BACKGROUND: Attached for your review, consideration and approval is a copy of the recorded Warranty Deed for the donation of right-of-way in compliance with Resolution 04-004 (See Attached). Atlantic Truss mistakenly recorded the Warranty Deed for the road right-of-way on Kings Highway before the donation was accepted by the Board of County Commissioners. The County has also requested an owners' title policy on the donated right-of-way.

FUNDS AVAILABLE: N/A

PREVIOUS ACTION: Resolution 04-004 granted Major site Plan approval for Atlantic Truss Company subject to the developer conveying to St. Lucie County road right-of-way along Kings Highway for future widening.

RECOMMENDATION: Staff recommends that the Board accept the Warranty Deed, authorize the Chairman to execute Resolution 04-27 4 and direct staff to re-record the Warranty Deed and Record Resolution 04-274 in the Public Records of St. Lucie County, Florida.

QUASI-JUDICIAL ITEM? NO

AGENDA REQUEST

TO: **Board of County Commissioners**

PRESENTED BY: JoAnn Riley, Property Acquisition Director
Patrick Dayan, Public Works Director

SUBMITTED BY: Property Acquisitions

SUBJECT: Florida Department of Transportation Jurisdictional Transfer - Parcel 801 Permanent Easement - Item/Segment Number FDIP: 438379-2-52-01 - Parcel ID 1336-232-0001-000-5

BACKGROUND:

On July 11, 2023, the Board of County Commissioners approved Resolution No. 2023-117, accepting the Florida Department of Transportation ("FDOT") Right of Way Acquisition Memorandum of Agreement for reconstruction of SR-713 / Kings Highway from North of Commercial Circle to North of St. Lucie Boulevard (Item/Segment Number FDIP: 438379-2-52-01). Pursuant to Resolution No. 2023-117, FDOT has requested the County grant a Permanent Easement over Parcel 801.

This Easement is granted for the purpose of constructing and maintaining a drainage structure, pipes, ditch, or swale beneath the property.

Attached for your review and acceptance is a Permanent Easement and Resolution.

PREVIOUS ACTION:

November 23, 2004 - The Board of County Commissioners accepted a right-of-way donation from Atlantic Truss Company, as a condition of approval of Resolution No. 2004-04.

July 11, 2023 - The Board of County Commissioners approved Resolution No. 2023-117, accepting the Florida Department of Transportation ("FDOT") Right of Way Acquisition Memorandum of Agreement for reconstruction of SR-713 / Kings Highway from North of Commercial Circle to North of St. Lucie Boulevard (Item/Segment Number FDIP: 438379-2-52-01).

FINANCIAL IMPACT:

N/A

RECOMMENDATION:

Staff recommends the Board authorize the Chair to sign the Permanent Easement and Resolution and direct staff to send the executed Permanent Easement and Resolution to FDOT for recordation in the public records of St. Lucie County, Florida.

RESOLUTION NO. 2023-117

A RESOLUTION ACCEPTING THE FLORIDA DEPARTMENT OF TRANSPORTATION RIGHT OF WAY ACQUISITION MEMORANDUM OF AGREEMENT FOR RECONSTRUCTION OF SR-713/KINGS HIGHWAY FROM NORTH OF COMMERCIAL CIRCLE TO NORTH OF ST. LUCIE BOULEVARD (ITEM/SEGMENT NUMBER FDIP: 438379-2-52-01) AND AUTHORIZING THE CHAIR TO EXECUTE THE AGREEMENT AND FURTHER AUTHORIZING THE COUNTY ATTORNEY TO EXECUTE THE AGREEMENT BY APPROVING IT AS TO FORM AND CORRECTNESS

WHEREAS, the Board of County Commissioners of St. Lucie County, Florida, has made the following determinations:

1. The Florida Department of Transportation is constructing a transportation project for the reconstruction of SR-713/Kings Highway from north of Commercial Circle to north of St. Lucie Boulevard ("Project").

2. St. Lucie County is the owner of St. Lucie Boulevard and pursuant to Sections 339.07, 339.08 and 339.12, Florida Statutes, and the federal funding provisions, the Florida Department of Transportation is authorized to undertake projects within St. Lucie County's geographical limits and the Project will involve the acquisition of various property along the Project corridor.

3. Acceptance of the Right of Way Acquisition Memorandum of Agreement with the State of Florida Department of Transportation for the right of way acquisition and related activities, including eminent domain proceedings, in accordance with Florida Department of Transportation's right of way procedures and applicable federal acquisition requirements more fully described in the Memorandum of Agreement and associated exhibits as the parties agree it in is the best interest of the public to promote a cooperative effort for the successful completion of the Project.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of St. Lucie County, Florida:

1. The Board hereby accepts and approves the Right of Way Acquisition Memorandum of Agreement with the State of Florida Department of Transportation right of way acquisition and related activities.

2. The Board hereby authorizes and Chair to execute the above-referenced agreement and further authorizes the County Attorney to execute the agreement

by approving it as to form and correctness.

After motion and second, the vote on this resolution was as follows:

Commissioner Cathy Townsend, Chair	YEA
Commissioner Linda Bartz, Vice Chair	YEA
Commissioner Chris Dzadovsky	YEA
Commissioner Larry Leet	YEA
Commissioner Jamie Fowler	YEA

PASSED AND DULY ADOPTED this 11 day of July 2023.

RIGHT OF WAY ACQUISITION
MEMORANDUM OF AGREEMENT

This is a Memorandum of Agreement ("MOA") made and entered into this ____day of _____, 20_____, by and between the STATE OF FLORIDA DEPARTMENT OF TRANSPORTATION, an agency of the State of Florida ("DEPARTMENT") and Saint Lucie County, a Florida county ("AGENCY").

WITNESSETH:

WHEREAS, the DEPARTMENT is constructing a transportation project for the reconstruction of SR-713 / Kings Highway from north of Commercial Circle to north of St. Lucie Boulevard ("Project"), as depicted in the attached Exhibit "A" and associated with Item / Segment Number FPID: 438379-2-52-01; and

WHEREAS, the AGENCY is the owner of St. Lucie Boulevard; and

WHEREAS, pursuant to Sections 339.07, 339.08 and 339.12, Florida Statutes, and federal funding provisions, the DEPARTMENT is authorized to undertake projects within the AGENCY's geographical limits; and

WHEREAS, the Project will involve the acquisition of various property interests along the Project corridor; and

WHEREAS, the DEPARTMENT plans to construct the Project and conduct right of way acquisition and related activities, including eminent domain proceedings, on the Project for and on behalf of the AGENCY to prepare the Project for construction; and

WHEREAS, the DEPARTMENT will conduct its right of way acquisition activities in accordance with its right of way procedures and applicable federal acquisition requirements; and

WHEREAS, the parties agree that it is in the best interest of the public to promote a cooperative effort between the DEPARTMENT and the AGENCY for the successful completion of the Project.

NOW THEREFORE for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by the parties, this MOA sets forth and outlines the following agreements between the DEPARTMENT and the AGENCY concerning the performance of acquisition and maintenance activities by the AGENCY and the DEPARTMENT:

1. The above recitals are true and correct and are incorporated herein by reference.

2. Upon completion of its acquisition and construction activities for the Project, the DEPARTMENT will transfer and the AGENCY will accept acquired property rights along the AGENCY facilities, including excess property acquired by the DEPARTMENT on behalf of the AGENCY. If for some reason the DEPARTMENT does not construct the Project, any acquired property shall be conveyed to the AGENCY in accordance with all federal and state regulations, and the AGENCY shall accept the property and comply with all regulations, including making any and all reimbursements to the DEPARTMENT or the Federal Highway Administration ("FHWA") that may be required by said regulations due to the Project not being constructed.

3. Said conveyance shall include, and the AGENCY fully accepts, a transfer and assignment of all rights and obligations pursuant to any maintenance agreement, utility agreement,

subordination, and/or other agreements or matters of record relating to the property to be conveyed and the AGENCY shall assume all responsibilities and liabilities arising from any obligations thereunder which responsibilities, liabilities and obligations as set forth in the conveyance documents shall run with the land. This provision shall survive the termination of this MOA.

4. Notwithstanding any other provision herein to the contrary, the DEPARTMENT shall not be responsible for any costs or attorney fees arising out of any liabilities or obligations incurred regarding the right of way after the transfer of property.

5. The AGENCY shall cooperate with the DEPARTMENT regarding the partial conveyance of right- of- way owned by the AGENCY, which shall be donated to the DEPARTMENT within six (6) months of an official written request by the DEPARTMENT. The AGENCY shall cooperate with the DEPARTMENT should the right-of-way requirements change due to unforeseen circumstances. See Exhibit "B.".

6. To the extent provided by law, the AGENCY shall indemnify, defend and hold harmless the DEPARTMENT and all of its officers, agents and employees from any claim, loss, damage, cost, charge, or expense arising out of any act, error, omission, or negligent act by the AGENCY, its agents or employees during acquisition and other related activities on the Project except that neither the AGENCY, its officers, agents or employees will be liable for any claim, loss, damage, cost, charge, or expense arising out of any act, error, omission, or negligent act by the DEPARTMENT or any of its officers, agents or employees during the performance of acquisition and other related activities on the Project.

7. Any and all notices given or required under this MOA shall be in writing and either hand-delivered with receipt acknowledged or sent by certified mail, return receipt requested. All notices delivered shall be directed as follows:

AGENDA REQUEST

ITEM NO.C2a
DATE: November 23, 2004

REGULAR [ ]

PUBLIC HEARING
Leg. [ ] Quasi-JD [ ]

CONSENT [X]

TO: BOARD OF COUNTY COMMISSIONERS

PRESENTED BY:

SUBMITTED BY (DEPT.): County Attorney

Daniel S. McIntyre
County Attorney

SUBJECT: RIGHT-OF-WAY DONATION
Future Right-of-Way of Kings Highway
Resolution 04-274

BACKGROUND: Attached for your review, consideration and approval is a copy of the recorded Warranty Deed for the donation of right-of-way in compliance with Resolution 04-004 (See Attached). Atlantic Truss mistakenly recorded the Warranty Deed for the road right-of-way on Kings Highway before the donation was accepted by the Board of County Commissioners. The County has also requested an owners' title policy on the donated right-of-way.

FUNDS AVAILABLE: N/A

PREVIOUS ACTION: Resolution 04-004 granted Major site Plan approval for Atlantic Truss Company subject to the developer conveying to St. Lucie County road right-of-way along Kings Highway for future widening.

RECOMMENDATION: Staff recommends that the Board accept the Warranty Deed, authorize the Chairman to execute Resolution 04-27 4 and direct staff to re-record the Warranty Deed and Record Resolution 04-274 in the Public Records of St. Lucie County, Florida.

AGENDA REQUEST

TO: **Board of County Commissioners**

PRESENTED BY: Christopher Lestrange, Assistant Public Works Director

SUBMITTED BY: Public Works

SUBJECT: Ratification of Administrative Approval of the Lighting Maintenance Commitment to Maintain Forty-six New Streetlights on SR 713/Kings Highway (Project # 438379-4-52-01) and Fifty-seven New Streetlights on SR 713/Kings Highway (Project # 438379-5-52-01) under the Terms of St. Lucie County's State Highway Lighting, Maintenance and Compensation Agreement with the Florida Department of Transportation

BACKGROUND:

The Florida Department of Transportation (FDOT) has divided the widening of SR 713/Kings Highway from north of the I-95 overpass to north of Commercial Circle into two projects. Project #438379-4-52-01 includes the segment north of the I-95 overpass to Angle Road. Project #438379-5-52-01 includes the segment from Angle Road to north of Commercial Circle. The Projects include the addition of forty-six and fifty-seven new streetlights estimated for construction completion during 2028 and 2032, respectively.

The attached Commitment letters affirm the County's intent to maintain the streetlights under the terms of the State Highway Lighting, Maintenance and Compensation Agreement with the Florida Department of Transportation (Contract C25-05-573). Once the projects receive final acceptance, FDOT will reimburse the County approximately $16,500.00 and $20,500.00, respectively, for the maintenance of the streetlights each year. The reimbursement amount is adjusted annually per the terms of the Agreement.

PREVIOUS ACTION:

N/A

FINANCIAL IMPACT:

Funds will be available in account 101-4110-553110-410000 (Signal Maintenance and Installation).

RECOMMENDATION:

Staff recommends Board approval of the Lighting Maintenance Commitments to maintain forty-six new streetlights on SR 713/Kings Highway (Project # 438379-4-52-01) and fifty-seven new streetlights on SR 713/Kings Highway (Project # 438379-5-52-01) under the terms of St. Lucie County's State Highway Lighting,

Maintenance and Compensation Agreement with the Florida Department of Transportation, and authorizes the Chair to sign documents as approved by the County Attorney in accordance with Strategic Policy QI 3-1.1.

Municipality Lighting Maintenance Commitment

To Christopher Lestrange, P.E.:

RE: Construction Contract Number: T4782
Construction Financial Project Number: 438379-4-52-01
State Road Name/Number: Kings Hwy/ SR 713
County: St Lucie County
Construction Start Date: Spring 2027
Estimated Construction End Date: 2028

The Department has previously made you aware that there is an upcoming project in your jurisdiction which will install additional lighting. The design of this project is nearing completion, and more accurate information is now available regarding the scope of the improvements. Below is a summary of the proposed lighting improvements within St. Lucie County.

Please acknowledge receipt and acceptance of this letter by responding to the FDOT Project Manager, whose contact information is given below, in writing through letter or email.

Should we not receive a response from your agency within 30 days, we will proceed with the assumption that your agency has acknowledged and has no concerns regarding this matter.

This project includes:

FDOT Lighting:

- 46 proposed aluminum poles to be installed.
- 0 existing light poles that will be retrofitted with new luminaires at the specified location.
- 3 existing light poles that will be removed from the specified location.

FPL Lighting:

- 0 proposed FPL shared-use luminaires to be installed.
- 0 existing FPL lighting that will be retrofitted with new luminaires at the specified location.
- 0 existing FPL luminaires will be removed from the specified location.

To ensure the continued functionality and safety of the roadway, St. Lucie County will assume maintenance responsibilities for the 46 new poles and luminaires. The new lighting will be included in the existing Roadway Lighting System Maintenance Agreement and the Maintenance Lighting Agreement for the next fiscal year between FDOT and St. Lucie County. once the project has received final acceptance. The reimbursement amount given to St. Lucie County will be adjusted accordingly as per the agreement.

We greatly appreciate your continued dedication to maintaining these lighting systems, which play a vital role in ensuring the safety and aesthetics of our roadways. Please feel free to contact me with any questions or concerns.

STATE OF FLORIDA DEPARTMENT OF TRANSPORTATION

STATE HIGHWAY LIGHTING, MAINTENANCE, AND COMPENSATION AGREEMENT

C25-05-573

CONTRACT NO. ASM72
FINANCIAL PROJECT NO. 405122-2-78-07
F.E.I.D. NO. F596000835079
06/05/2025 | 2:53 PM EDT

THIS AGREEMENT, entered into this _____ day of _____, year of _____, by and between the **STATE OF FLORIDA DEPARTMENT OF TRANSPORTATION**, hereinafter referred to as **"FDOT"**, and St. Lucie County, hereinafter referred to as the **"MAINTAINING AGENCY"**;

WITNESSETH:

WHEREAS, FDOT is authorized under Sections 334.044 and 335.055, Florida Statutes, to enter into this Agreement, and the **MAINTAINING AGENCY** has the authority to enter into this Agreement and to undertake the maintenance and operation of lighting on the State Highway System; and

WHEREAS, the **MAINTAINING AGENCY** has authorized its undersigned officers to enter into and execute this Agreement;

WHEREAS, FDOT has identified sites where lighting and/or lighting systems, hereinafter referred to as "Facilities", are located on the State Highway System within the jurisdictional boundaries of the **MAINTAINING AGENCY.** A list of the Facilities is included as Exhibit A, attached hereto and incorporated herein.

WHEREAS, the **MAINTAINING AGENCY** agrees to maintain the Facilities as further set forth herein.

NOW, THEREFORE, in consideration of the premises and the mutual covenants contained herein, **FDOT** and the **MAINTAINING AGENCY** hereby agree as follows:

1. Maintenance of Facilities

a. The **MAINTAINING AGENCY** shall maintain the Facilities listed in Exhibit A. The Facilities may include lighting for roadways, as well as park and ride, pedestrian overpasses, and recreational areas owned by or located on the property of **FDOT.** The Facilities shall not include lighting located in weigh stations, rest areas, or on Interstate highways.

The location and type of lighting to be maintained pursuant to this Agreement is set forth in Exhibit A. Any changes or modifications to Exhibit A must be in writing and signed by both **FDOT** and the **MAINTAINING AGENCY**. Any Facilities added to Exhibit A during the **FDOT**'s fiscal year shall be maintained and operated by the **MAINTAINING AGENCY** upon the **FDOT**'s final acceptance of installation of any new lighting and/or lighting systems. Prior to the start of each new fiscal year, the **MAINTAINING AGENCY** and **FDOT** shall amend Exhibit A to reflect any changes to the Facilities, including addition, removal, or change in lighting type maintained pursuant to this Agreement.

The **MAINTAINING AGENCY** will be compensated for Facilities added to Exhibit A by amendment of this Agreement in the **FDOT**'s fiscal year occurring after the lighting and/or lighting systems are installed and final acceptance of such installation is given by **FDOT**. In the event that no change is made to the previous year's Exhibit A, a certification from the **MAINTAINING AGENCY** shall be provided to **FDOT** certifying that no change has been made to Exhibit A during **FDOT**'s previous fiscal year. Unless stated otherwise, all references to fiscal years within this agreement refer to **FDOT's** fiscal year, beginning July 1st and ending June 30th.

b. In maintaining the Facilities, the **MAINTAINING AGENCY** shall perform all activities necessary to keep the Facilities fully operating, properly functioning, with a minimum of 90% of the lights burning for any lighting type (e.g., high mast, standard, underdeck, and sign) or roadway system at all times in accordance with the original design thereof, whether necessitated by normal wear and tear, accidental or intentional damage, or acts of nature. Required maintenance includes, but is not limited to, providing electrical power and paying all charges associated therewith, routine inspection and testing, preventative maintenance, emergency maintenance, replacement of any component parts of the Facilities (including the poles and any and all other component parts installed as part of the Facilities), and locating (both vertically and horizontally) the Facilities. All repairs or replacement will be in kind unless a variance is approved in writing by **FDOT**.

Docusign Envelope ID: 697006EA-2F02-4292-B61E-D824763088C4

c. All maintenance must be in accordance with the provisions of the following:

(1) Manual of Uniform Traffic Control Devices; and

(2) All other applicable local, state, or federal laws, rules, resolutions, or ordinances, and **FDOT** procedures.

d. For lighting installed as part of a **FDOT** project, the **MAINTAINING AGENCY's** obligation to maintain the Facility commences upon the **MAINTAINING AGENCY's** receipt of notification from **FDOT** that **FDOT** has formally accepted the project, except for the obligation to provide for electrical power, which obligation to provide for electrical power commences at such time as the lighting system is ready to be energized; provided, however, that the **MAINTAINING AGENCY** is not required to perform any activities which are the responsibilities of **FDOT's** contractor.

Prior to acceptance by **FDOT**, the **MAINTAINING AGENCY** shall have the opportunity to inspect and request modifications/corrections to the installation(s). **FDOT** agrees to make modifications/corrections prior to acceptance so long as the modifications/corrections comply with the installation contract documents and specifications.

e. The term for this Agreement is seven (7) years. Either party may terminate this Agreement by a notice of termination. The notice of termination must be in writing. Should the **MAINTAINING AGENCY** choose to terminate the Agreement, the **MAINTAINING AGENCY** shall provide a minimum notice period of two (2) fiscal years prior to the effective date of termination and the notice shall be endorsed by the elected body (County Commission, City Council, or local agency governing body) under which the Agency operates. The effective date of the termination will coincide with the end of the FDOT's fiscal year of June 30th following the two-year notice.

The termination of this Agreement will not terminate maintenance responsibilities for lighting owned by the **MAINTAINING AGENCY**. Maintenance obligations for lights owned by the **MAINTAINING AGENCY** will remain the responsibility of the **MAINTAINING AGENCY**. Nor does termination of this Agreement operate to relieve the **MAINTAINING AGENCY** of any maintenance obligations contained in other agreements. Maintenance of lights governed by a separate maintenance agreement will continue per the terms of that separate maintenance agreement.

2. Compensation and Payment

FDOT shall pay to the **MAINTAINING AGENCY** a sum of $ 249,053.44 for the fiscal year in which this Agreement is signed. Payments will be calculated and made in accordance with Exhibit A.

Prior to the beginning of each fiscal year, the **MAINTAINING AGENCY** shall submit an amended Exhibit A or a certification of no change to Exhibit A and **FDOT** and the **MAINTAINING AGENCY** shall agree on the amount and percentage of lighting to be paid for the coming fiscal year. **FDOT** will issue a work order confirming the amount and authorizing the performance of maintenance for each new fiscal year. The work order must be an **FDOT**-signed letter of authorization to the **MAINTAINING AGENCY** with a subject line containing the terms "State Highway Lighting, Maintenance, and Compensation Agreement work order". The work order must reflect the contract number, financial project number, FEID No. of the **MAINTAINING AGENCY**, the fiscal year, the percentage of lighting funded and the lump sum amount to be paid for the fiscal year indicated. The work order must be signed by the **MAINTAINING AGENCY** and returned to **FDOT**. Failure by the **MAINTAINING AGENCY** to take any of the actions required by this paragraph may result in nonpayment by **FDOT**.

FDOT expressly assigns its rights, interests and privileges pertaining to damage to Facilities caused by third parties to the **MAINTAINING AGENCY**, so they may pursue all claims and causes of actions against the third parties responsible for the damage. **FDOT** will assist the **MAINTAINING AGENCY** and will confirm the **MAINTAINING AGENCY**'s authorization to pursue recovery. The **MAINTAINING AGENCY** will be responsible for all attorneys' fees and litigation costs incurred in its recovery activities.

Docusign Envelope ID: 697006EA-2F02-4292-B61E-D824763088C4

3. Record Keeping

The **MAINTAINING AGENCY** shall keep records of all activities and report all maintenance performed and replacement components and parts installed pursuant to this Agreement. The records shall be kept in an electronic format approved by **FDOT**.

Records shall be maintained and made available upon request to **FDOT** during the period of this Agreement and for three (3) years after final payment for the work pursuant to this Agreement is made. Copies of these documents and records will be furnished to **FDOT** upon request.

4. Invoicing

The **MAINTAINING AGENCY** shall invoice **FDOT** annually in a format acceptable to the FDOT. Invoices must be submitted no earlier than May 1 and no later than June 15 of the fiscal year in which the services were provided in order to be processed for payment by June 30.

Upon receipt, **FDOT** has five (5) working days to inspect and approve the goods and services. **FDOT** has twenty (20) days to deliver a request for payment (voucher) to the Department of Financial Services. The twenty (20) days are measured from the latter of the date the invoice is received or the goods or services are received, inspected, and approved.

If a payment is not available within forty (40) days, a separate interest penalty at a rate as established pursuant to Section 215.422, Florida Statutes, will be due and payable, in addition to the invoice amount, to the **MAINTAINING AGENCY**. Interest penalties of less than one (1) dollar will not be enforced unless the **MAINTAINING AGENCY** requests payment. Invoices returned to a **MAINTAINING AGENCY** because of **MAINTAINING AGENCY** preparation errors will result in a delay in the payment. The invoice payment requirements do not start until a properly completed invoice is provided to **FDOT**.

A Vendor Ombudsman has been established within the Department of Financial Services. The duties of this individual include acting as an advocate for contractors/vendors who may be experiencing problems in obtaining timely payment(s) from a state agency. The Vendor Ombudsman may be contacted at (850) 410-9724 or by calling the Chief Financial Officer's Hotline, 1-800-848-3792.

The State of Florida's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Legislature. In the event this Agreement is in excess of $25,000 and has a term for a period of more than one (1) year, the provisions of Section 339.135(6)(a), Florida Statutes, are hereby incorporated:

FDOT, during any fiscal year, shall not expend money, incur any liability, or enter into any contract which, by its terms, involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Any contract, verbal or written, made in violation of this subsection shall be null and void, and no money may be paid on such contract. **FDOT** shall require a statement from the Comptroller of **FDOT** that funds are available prior to entering into any such contract or other binding commitment of funds. Nothing herein contained shall prevent the making of contracts for periods exceeding 1 year, but any contract so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years; and this paragraph shall be incorporated verbatim in all contracts of **FDOT** which are for an amount in excess of $25,000 and which have a term for a period of more than 1 year.

5. Default

In the event that the **MAINTAINING AGENCY** breaches any provision of this Agreement, then in addition to any other remedies which are otherwise provided for in this Agreement, **FDOT** may exercise one or more of the following options, provided that at no time may **FDOT** be entitled to receive double recovery of damages:

a. Pursue a claim for damages suffered by **FDOT** or the public.

b. Pursue any other remedies legally available.

c. As to any work not performed by the **MAINTAINING AGENCY**, perform such work with its own forces or through contractors and seek reimbursement for the cost thereof from the **MAINTAINING AGENCY** if the **MAINTAINING AGENCY** fails to cure the non-performance within fourteen (14) days after written notice from **FDOT** of the non-performance; provided, however, that advance notice and cure will not be preconditions in the event of an emergency.

Docusign Envelope ID: 697006EA-2F02-4292-B61E-D824763088C4

6. Force Majeure

Neither the **MAINTAINING AGENCY** nor **FDOT** will be liable to the other for any failure to perform under this Agreement to the extent such performance is prevented by an act of God, war, riots, natural catastrophe, or other event beyond the control of the non-performing party and which could not have been avoided or overcome by the exercise of due diligence; provided that the party claiming the excuse from performance has (a) promptly notified the other party of the occurrence and its estimated duration, (b) promptly remedied or mitigated the effect of the occurrence to the extent possible, and (c) resumed performance as soon as possible.

7. Miscellaneous

a. **FDOT** shall consider the employment by any contractor of unauthorized aliens a violation of Section 274A(e) of the Immigration and Nationality Act. If the contractor knowingly employs unauthorized aliens, such violation will be cause for unilateral cancellation of this Agreement.

b. The **MAINTAINING AGENCY** shall allow public access to all documents, papers, letters, or other material subject to the provisions of Chapter 119, Florida Statutes, and made or received by the **MAINTAINING AGENCY** in conjunction with this Agreement. Failure by the **MAINTAINING AGENCY** to grant such public access will be grounds for immediate unilateral cancellation of this Agreement by **FDOT**.

c. This Agreement constitutes the complete and final expression of the parties with respect to the subject matter hereof and supersedes all prior agreements, understandings, or negotiations with respect thereto. Without limiting the generality of the foregoing, this Agreement shall replace and supersede all prior agreements between **FDOT** and the **MAINTAINING AGENCY** with respect to maintenance of the lighting and/or lighting systems for the Facilities identified in Exhibit A.

d. This Agreement is governed by the laws of the State of Florida. Any provision hereof found to be unlawful or unenforceable are severable and will not affect the validity of the remaining provisions hereof.

e. All notices required pursuant to the terms hereof may be sent by first class United States Mail, facsimile transmission, hand delivery, electronic mail, or express mail and will be deemed to have been received by the end of five (5) business days from the proper sending thereof unless proof of prior actual receipt is provided. The **MAINTAINING AGENCY** must notify the local District of **FDOT** of the appropriate persons for notices to be sent pursuant to this Agreement. Unless otherwise notified in writing, notices must be sent to the following addresses:

MAINTAINING AGENCY:

St. Lucie County
2300 Virginia Avenua
Fort Pierce, FL 34982

FDOT:

Florida Department of Transportation, District 4
District Maintenance Office
3400 West Commercial Boulevard
Fort Lauderdale, FL 33309

f. **PUBLIC ENTITY CRIME INFORMATION STATEMENT**: A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, Florida Statutes, for **CATEGORY TWO** for a period of thirty six (36) months from the date of being placed on the convicted vendor list.

g. An entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity.

Docusign Envelope ID: 697006EA-2F02-4292-B61E-D824763088C4

h. By signing this agreement the Maintaining Agency certifies that it is not: (1) listed on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, F.S., (2) engaged in a boycott of Israel, (3) or listed on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes. For contracts involving $1,000,000 or more, if the Department determines the Maintaining Agency submitted a false certification under Section 287.135(5) of the Florida Statutes regarding the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes, or for contracts involving any amount, if the Maintaining Agency has been placed on the Scrutinized Companies that Boycott Israel List, or is engaged in a boycott of Israel, the Department shall either terminate the Contract after it has given the Maintaining Agency notice and an opportunity to demonstrate the Department's determination of false certification was in error pursuant to Section 287.135(5)(a) of the Florida Statutes, or maintain the Contract if the conditions of Section 287.135(4) of the Florida Statutes are met.

i. Nothing herein shall be construed as a waiver of either party's sovereign immunity.

j. **MAINTAINING AGENCY**:

1. shall utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the **MAINTAINING AGENCY** during the term of the contract; and

2. shall expressly require any subcontractors performing work or providing services pursuant to the state contract to likewise utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the subcontractor during the contract term.

3. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the Agreement term and following completion of the Agreement if the **Maintaining Agency** does not transfer the records to **FDOT**

4. Upon completion of the Agreement, transfer, at no cost, to **FDOT**, all public records in possession of the Consultant or keep and maintain public records required by **FDOT** to perform the service. If the Consultant transfers all public records to **FDOT** upon completion of the Agreement, the Consultant shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of the Agreement, the Consultant shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to **FDOT**, upon request from **FDOT's** custodian of public records, in a format that is compatible with the information technology systems of **FDOT**

5. Failure by the **Maintaining Agency** to comply with Chapter 119, Florida Statutes, shall be grounds for immediate unilateral cancellation of this Agreement by **FDOT**

Docusign Envelope ID: 697006EA-2F02-4292-B61E-D824763088C4

8. Certification

This document is a printout of an **FDOT** form maintained in an electronic format and all revisions thereto by the **MAINTAINING AGENCY** in the form of additions, deletions, or substitutions are reflected only in an Appendix entitled "Changes to Form Document" and no change is made in the text of the document itself. Hand notations on affected portions of this document may refer to changes reflected in the above-named Appendix but are for reference purposes only and do not change the terms of the document. By signing this document, the **MAINTAINING AGENCY** hereby represents that no change has been made to the text of this document except through the terms of the Appendix entitled "Changes to Form Document."

You MUST signify by selecting one of the applicable options:

☒ No changes have been made to this Forms Document and no Appendix entitled "Changes to Form Document" is attached.

☐ No changes have been made to this Form Document, but changes are included on the attached Appendix entitled "Changes to Form Document."

IN WITNESS WHEREOF, the parties hereto have executed this Agreement effective the day and year first written.

Exhibit A
STATE HIGHWAY LIGHTING, MAINTENANCE, AND COMPENSATION AGREEMENT
For Fiscal Year 2026-2027

1.0 PURPOSE

This exhibit defines the method and limits of compensation to be made to the **MAINTAINING AGENCY** for the services described in this Agreement and method by which payments will be made.

2.0 FACILITIES

The lighting or lighting systems listed below, or in an attached spreadsheet, or other electronic form are included with this Agreement and represent the Facilities to be maintained by the **MAINTAINING AGENCY**:

1. See below spreadsheet.
2. _____
3. _____
4. _____
5. _____
6. _____

3.0 COMPENSATION

For the satisfactory completion of all services detailed in this Agreement, **FDOT** will pay the **MAINTAINING AGENCY** the Total Sum as provided in Section 2 of the Agreement. The **MAINTAINING AGENCY** will receive one single payment at the end of each fiscal year for satisfactory completion of service.

The per-light unit rate shall increase by 3% each fiscal year. E.g., the per-light unit rate of $347.84 in fiscal year 2026 shall increase to $358.28 in fiscal year 2027.

Total Payment Amount for each fiscal year is calculated by inputting the actual number of qualifying types of lights into the table below and multiplying by the unit rate and ___%. Example: 330 (lights) x $_____ (unit rate) x 0.90 (90% requirement) = $ 0.00

Type of Light	# of lights	LED or HPS	Unit rate	0.00%	Total
High Mast		HPS	0.00	**0.00**	0.00
Standard		HPS	0.00	**0.00**	0.00
Underdeck		HPS	0.00	**0.00**	0.00
Sign		HPS	0.00	**0.00**	0.00
High Mast		LED	0.00	**0.00**	0.00
Standard		LED	0.00	**0.00**	0.00
Underdeck		LED	0.00	**0.00**	0.00
Sign		LED	0.00	**0.00**	0.00

RESOLUTION NO. 2025-102

A RESOLUTION AUTHORIZING AND APPROVING EXECUTION OF THE STATE OF FLORIDA DEPARTMENT OF TRANSPORTATION AND ST. LUCIE COUNTY STATE HIGHWAY LIGHTING, MAINTENANCE AND COMPENSATION AGREEMENT TO UNDERTAKE THE MAINTENANCE AND OPERATION OF LIGHTING ON THE STATE HIGHWAY SYSTEM BY THE ST. LUCIE COUNTY BOARD OFCOUNTY COMMISSIONERS; AND AUTHORIZING THE CHAIR OF THE ST. LUCIE COUNTY BOARD OF COUNTY COMMISSIONERS TO EXECUTE THE AGREEMENT; FURTHER AUTHORIZING THE COUNTY ATTORNEY TO EXECUTE THE AGREEMENT BY APPROVING IT AS TO FORM AND CORRECTNESS.

WHEREAS, the Board of County Commissioners of St. Lucie County, Florida, has made the following determinations:

1. The Department, FDOT, and the County, the Maintaining Agency, are desirous of having the County maintain all the lighting now or hereafter located on the State Highway System within the jurisdictional boundaries of the Maintaining Agency, hereinafter referred to as the "Facilities," throughout its expected useful life.

2. This Board should authorize and approve execution of the State Highway Lighting, Maintenance and Compensation Agreement with the State of Florida Department of Transportation to pay to the County a lump sum in the amount of $249,053.44 for maintaining all the lighting now or hereafter located on the State Highway System within the jurisdictional boundaries of the Maintaining Agency.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of St. Lucie County Florida:

1. This Board does hereby authorize and approve execution of the State Highway Lighting, Maintenance and Compensation Agreement with the State of Florida for maintaining all of the lighting now or hereafter located on the State Highway System.

2. The Chair of the Board of County Commissioners and the Clerk are hereby authorized to execute the State Highway Lighting, Maintenance and Compensation Agreement approved by this resolution; and further, the County Attorney is hereby authorized to execute the agreement by approving it as to form and correctness.

Docusign Envelope ID: 697006EA-2F02-4292-B61E-D824763088C4

After motion and second, the vote on this resolution was as follows:

Commissioner Jamie Fowler, Chair	AYE
Commissioner Larry Leet, Vice-Chair	AYE
Commissioner James Clasby	AYE
Commissioner Erin Lowry	AYE
Commissioner Cathy Townsend	AYE

PASSED AND DULY ADOPTED this 6th day of May 2025.

Smart Streetlighting Request

Dear Ms. Wang:

Please accept this letter as a formal request from St. Lucie County (County) to include streetlighting in the above-referenced FDOT project. The County requests the design meet the latest smart streetlighting technology.

The County agrees to maintain the smart streetlighting and understands a new Memorandum of Agreement for this maintenance may be required or an existing agreement will need to be amended.

If you have any questions or require additional information, please do not hesitate to contact me at (772) 462-1707 or by email at grahamk@stlucieco.org.

CONSENT AGENDA - PUBLIC WORKS
DATE: **5/5/2026**
*ACTION ITEM - BOARD ACCEPTANCE
QUASI-JUDICIAL ITEM? No

AGENDA REQUEST

TO: **Board of County Commissioners**

PRESENTED BY: Daniel Zrallack, County Engineer

SUBMITTED BY: Public Works

SUBJECT: Creekside Parcel B Subdivision Improvements Acceptance - Release of Security

BACKGROUND:

On June 4, 2019, the applicant received a Planning and Development Services Director approval for PDS Order 2020-080, granting a minor adjustment to the planned unit development known as Parcel B. The project was conditioned, requiring bonding of all required improvements prior to the final plat.

The applicant then requested a reduction in the bond after the onsite work was completed. The bond reduction was accepted in March 2021, and the amount was reduced to reflect only the offsite sidewalk within FDOT right-of-way. The sidewalk has since been completed.

The applicant has requested that the Board of County Commissioners provide final acceptance of the required improvements and release the SIA and bond in accordance with 11.04.01 of the County's Land Development Code and SIA conditions.

A field inspection was performed on the constructed improvements within the development. Staff concurs that the constructed improvements have been built in general compliance with the approved engineering plans.

PREVIOUS ACTION:

September 17, 2019, a Subdivision Agreement and Plat parcel B was approved and Filed as No. C19-09-755 for a total of $7,143,427.00.
September 17, 2020, Planning and Development Service Director approved a minor adjustment granting Creekside parcel B to replat.
On March 8, 2021, a Subdivision Agreement Reduction Bond No. 30079432 was requested for $6,887,714.50 leaving a retainage of $225,712.50.

FINANCIAL IMPACT:

N/A

RECOMMENDATION:

Staff recommends Board approval of the final site improvements and release of Bond number 30079432 in the amount of $225,712.50 in accordance with Strategic Plan Policy QI 3.1.1.

Project Description

Private residential subdivision, installation of sidewalks and landscape.

Background

On June 4, 2019, the applicant received a Planning and Development Services Director approval for PDS order 2020-080 granting a minor adjustment to the planned unit development known as Parcel B. The project was conditioned requiring bonding of all required improvements prior to the final plat.

The applicant then requested a reduction in the bond after the onsite work was completed. The bond reduction was accepted in March of 2021, and the amount was reduced to reflect only the offsite sidewalk with FDOT right-of-way. The sidewalk has since been completed.

Background (con't)

The applicant has requested that the Board of County Commissioners provide final acceptance of required improvements and release the SIA and bond in accordance with 11.04.01 of the County's Land Development Code and SIA conditions.

Notice Requirements

N/A

Staff Recommendation

Staff recommends Board approval of the final site improvements and release of Bond number 30079432 in the amount of $225,712.50 and authorization for the Chair to sign documents as approved by the County Attorney.

Re: **Creekside Parcel B**
Recommendation for Bond Release
Bond Number: 30079432

Dear Mr. Chambers,

Please accept this letter as a request for a bond release submitted as part of the Creekside Parcel B submittal under bond number 30079432. The recorded plat was recorded in plat book 56, PG 24-28 on February 21, 2007. Creekside Parcel B has been completed in substantial accordance with the approved Construction Drawings, Details and Specifications. Please refer to the attached cost estimate for work completed.

As this work has been completed, certification has been completed, and final acceptance from city departments have been issued, we are requesting the bond release of **Bond No. 30079432** to the following amount:

Original Bond Amount:	$7,143,427.00
Bond Reduction Amount (Work Completed):	$7,143,427.00
Proposed Bond Amount (Work Remaining):	**$0.00**

If you have any questions regarding this request, please do not hesitate to contact me at 772-794-4129 or Jonathan.Gomez@kimley-horn.com.

Sincerely,

KIMLEY-HORN AND ASSOCIATES, INC.

SUBDIVISION IMPROVEMENT AGREEMENT

THIS SUBDIVISION IMPROVEMENT AGREEMENT ("Agreement"), is entered into this 17 day of Sept., 2019, by and between **D.R. HORTON, INC**. (the "Developer"), a corporation organized and existing under the laws of the State of Delaware and domiciled in Brevard County, Florida, with a principal address located at 1430 Culver Drive, NE, Palm Bay, Florida 32937, and **ST. LUCIE COUNTY**, a political subdivision of the State of Florida (the "County"), with a principal address located at 2300 Virginia Avenue, Fort Pierce, Florida 34982.

WITNESETH:

WHEREAS, the Developer is commencing proceedings to subdivide land in the County and record that certain plat to be known as Creekside-Parcel B (the "Subdivision") as more fully set forth on Exhibit "A" attached hereto and made a part hereof;

WHEREAS, subdivision and platting ordinances of the County establish procedures and standards for the development and subdivision of real estate and for the surveying and platting thereof, requiring the installation of required improvements and providing penalties for violations;

WHEREAS, a final plat for the Subdivision, as located within the unincorporated area of the County, was approved by the Board of County Commissioner's on June 4, 2019, but the plat shall not be recorded until the Developer has installed required improvements (defined hereinbelow) or has guaranteed said improvements will be installed to the satisfaction of the County;

WHEREAS, the required improvements to and for the Subdivision are to be installed after recording of the plat and secured by financial guarantees posted by the Developer with the approval of the County; and

NOW THEREFORE, in consideration of the intent and desire of the Developer as set forth herein, and to induce the County to record said plat for the Subdivision, the Developer and County agree herein as follows:

(1) RECITALS

The recitals are true and correct and are incorporated herein by this reference.

(2) COMPLETION OF REQUIRED IMPROVEMENTS/OWNERSHIP.

The Developer agrees to complete the required improvements as delineated in this Agreement and the Engineer's Opinion of Cost (the "EOC"), attached hereto and made a part hereof as Exhibit "B", and as more particularly set forth on those certain plans prepared by the Developer's engineer of record, Culpepper & Terpening, Inc., dated 8/2, 2019, last revised 7/30, and entitled Site Improvement Plans for Creekside Parcel B, on file with the County, as may be further amended (the combined EOC and Site Improvement Plans hereinafter referred to, collectively, as the "Required Improvements"). The Developer agrees to complete the Required Improvements for the Subdivision within twelve (12) months from and after the recording of this Agreement, except that: (a) sidewalks in front of the individual homes sites (lots) may be completed with the construction of the individual home on that site or within thirty-six (36) months of the recording of this Agreement.

Upon completion of all Required Improvements, associated with the water and wastewater distribution/collection system for the Subdivision, ownership (and subsequent responsibility for maintenance) of the Required Improvements shall be conveyed to the Creekside Community Development District, a recognized unit of a local government, pursuant to South Florida Water Management District Permit No. 56-02198-P; except that the lift station and all utility improvements and appurtenant facilities beyond the lift station shall be conveyed to the County for the County's sole ownership and maintenance.

Upon completion of the Required Improvements associated with the roadway and associated drainage facilities for the Subdivision, lying within the street rights-of-way, ownership (and subsequent responsibility for maintenance) of the roadway and associated drainage facilities shall be conveyed to the Creekside Homeowners Association, Inc., which is not a recognized unit of local government in the State of Florida, in accordance with Section 11.04.01.F. (2), St. Lucie County Land Development Code ("LDC").

(3) SECURITY - REQUIRED IMPROVEMENTS.

The Developer, in accordance with the requirements established by the St. Lucie County LDC, agrees to supply the County with security in a form acceptable to the County Attorney, in the amount of Seven Million, One Hundred And Forty-Three Thousand, Four Hundred and Twenty Seven Dollars and (zero) Cents ($7,143,427.00) representing the estimated cost of the Required Improvements as submitted by the Developer's engineer of record in accordance with the County Codes as described in the EOC attached hereto as Exhibit "B" and approved by the County.

(4) REDUCTION OF AMOUNT OF SECURITY.

In accordance with the LDC, the amount of the security may be reduced once during the term of this Agreement upon the completion of a portion of the Required Improvements by the Developer and upon timely inspection and acceptance by the County. In no event, however, shall the amount of the security be less than one hundred percent (100%) of the cost of completing the remaining Required Improvements.

(5) SUPERVISION OF CONSTRUCTION OF THE REQUIRED IMPROVEMENTS.

The Required Improvements shall be constructed under the supervision of the Developer's engineer of record in full compliance with the applicable specifications and requirements of the County, and, when complete, the Developer's engineer of record shall furnish the County with a certificate of satisfactory completion for the County's review and approval.

(6) FAILURE TO COMPLETE REQUIRED IMPROVEMENTS.

It is further understood and agreed by and between the Developer and the County that, in the event that the Required Improvements are not constructed within the time periods set forth in Paragraph 2 hereinabove, and further subject to Paragraph 9 hereinbelow, the County shall have, and is hereby granted, the right to cause the Required Improvements to be constructed and to use the security provided herewith for payment of all costs and expenses incurred in the construction of the Required Improvements, including, but not limited to, engineering, surveying and construction costs and reasonable legal and other fees. Furthermore, it is agreed to by the Developer and the County that the County shall be reimbursed from the security provided for direct damages the County may sustain as a result of the failure of Developer to fulfill its obligations hereunder. In the event of Developer's inability to construct and install the Required Improvements in accordance with the terms

of this Agreement, the County shall have the option to do so with County employees and equipment or pursuant to public advertisement and procurement; provided, however, the County shall provide advance written notice to the Developer of its intent to construct the Requirement Improvements, and, further, that the County shall provide the Developer with reasonable time, triggered upon receipt of written notice from the County, to cure any deficiencies. In the event that the total costs incurred in construction and full completion of the Required Improvements shall exceed the amount of security provided by the Developer and the Developer has elected not to cure, such additional costs shall be paid by the Developer within ninety (90) days of its receipt of written demand by the County which demand shall include copies of all bids, estimates, receipts and invoices.

(7) RELEASE OF SECURITY.

Upon completion of construction of the Required Improvements, the Developer's engineer of record shall certify that the Required Improvements have been constructed in accordance with the regulations set forth in the LDC. When the Required Improvements have been certified by the Developer's engineer of record, the County shall inspect the Required Improvements and review the construction and supporting test/control data furnished by the Developer's engineer of record. If all Required Improvements are completed to the satisfaction of the County, the County shall confirm this in writing to the St. Lucie County Board of County Commissioners. The Developer's security shall then be promptly released in accordance with Section 11.04.01, LDC.

(8) RECORDATION OF PLAT.

Following execution of this Agreement by the Developer and the County and approval of the form of security by the County Attorney, the County agrees to record the Subdivision plat.

(9) FORCE MAJEURE

If the performance by the Developer of any of its obligations hereunder is delayed or prevented in whole or in part by any Acts of God, floods, storms, shortages of materials, fuel, power, or by any other cause not within the control of the Developer, as the case may be, to remedy, the Developer shall not be deemed to be in violation of this Agreement.

(10) NOTICE

All notices, demands and correspondence required or provided for under this Agreement shall be in writing and delivered in person or dispatched by certified mail, postage prepaid, return receipt requested. Notice required to be given shall be addressed as follows:

If to Developer: D.R. Horton, Inc.
Attn: Keith Williams, Division President
1430 Culver Drive, NE
Palm Bay, FL 32907
Telephone: 321-733-7972
Email: kvwilliams@drhorton.com

With a copy to: D.R. Horton, Inc.
Attn: Charbel J. Barakat, Esq., Regional Counsel
12602 Telecom Drive
Tampa, FL 33637
Telephone: 407-850-5200
Email: cbarakat@drhorton.com

If to County: County of St. Lucie
Attn: Daniel McIntyre, Esq., County Attorney
2300 Virginia Avenue, Fort Pierce, Florida 34982
Telephone: 772-462-1441
Email: mcintyred@stlucieco.org

(11) INTERPRETATION; VENUE.

This Agreement constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all prior verbal or written agreements between the parties with respect thereto. This Agreement may only be amended by written document, properly authorized, executed and delivered by both parties hereto. This Agreement shall be interpreted as a whole unit and section headings are for convenience only. All interpretations shall be governed by the laws of the State of Florida. In the event it is necessary for either party to initiate legal action regarding this Agreement, venue shall be in the Nineteenth Judicial circuit for St. Lucie County, Florida, for claims under state law and the Southern District of Florida for any claims which are justiciable in federal court.

[THE REMAINDER OF THIS PAGE INTENTIONALLY LEFT BLANK]

IN WITNESS WHEREOF, the parties hereto have executed these presents on the dates indicated below. The date of this Agreement shall be the date on which this Agreement is approved by administrative action by the County.

SUBJECT: Seagrove Plat 2 Phase 3 Subdivision Improvements Conditional Acceptance - Partial Release of Security

BACKGROUND:

On September 27, 2024, the applicant received a Planning and Development Services Director approval (PDS Order 2024-062), granting a Minor Adjustment to the final PUD on resolution 2022-041. The project was conditioned on the bonding of all required improvements prior to the final plat. The surety was received, and the applicant entered into a subdivision improvement agreement with the County.

LENNAR HOMES, LLC, at this time, has provided certification of the utility systems within the development. The developer has requested that the Board of County Commissioners grant partial acceptance of the required improvements and authorize the release of a portion of the bond in accordance with Section 11.04.01 of the County's Land Development Code and the conditions of the SIA. The remaining bond amount would be retained to ensure completion of the outstanding improvements, including but not limited to paving, drainage, striping, and landscaping.

SIA Security: $8,803,148.52 Bond No. 24284040 Dated April 23, 2025
To be released: $3,898,348.61
New Security: $4,904,799.91

A field inspection was performed of the constructed improvements within the development. Staff concurs that the constructed improvements have been built in general compliance with the approved engineering plans.

PREVIOUS ACTION:

July 12, 2005 - BOCC approved Resolution 05-144, granting a change in zoning from RM-5 (Residential, Multi-family -5du/ac), RS-2 (Residential, Estate-2dy/ac, and R/C (Recreational/Conservation-1du/ac) Zoning Districts to the PUD (Planned Unit Development) Zoning District.
March 1, 2022 - BOCC held a duly noticed public hearing and approved Resolution 2022-041 granting a Major

Adjustment to the previously approved Coconut Cove (Seagrove) PUD Final Site.
February 5, 2024 - County Planning & Development Services Director through PDS Order 2024-007 granted Minor Adjustment approval to the Final Site Plan for the
Seagrove PUD, Overall Site Plan, and Seagrove (FKA Coconut Cove) PUD Phase 1 Site Plan.
July 30, 2024 - County Planning & Development Services Director through PDS Order 2024-003 granted a statutory extension of the development order and
associated authorizations.
March 4, 2025 - A Subdivision Improvement Agreement (SIA) and Plast was approved and filed as No. C25-03-541
September 9, 2025 - County Planning & Development Services Director granted Certificate of Capacity No. 2179.

FINANCIAL IMPACT:

N/A

RECOMMENDATION:

Staff recommends Board approval of the partial site improvements and authorize the partial release of Bond No. 24284040 in the amount of $3,898,348.61 in accordance with Strategic Plan Policy QI 3.1.1.

ST. LUCIE COUNTY FLORIDA

April 21, 2026

Lennar Homes, LLC
3931 RCA Blvd, Ste 3105
Palm Beach Gardens, FL 33410

Attention: Mr Gregory Pittibon

Subject: Subdivision Improvement Agreement Reduction
Seagrove Plat 2 Phase 3

The County received your request, dated April 1, 2026 to process the allowable one-time reduction as outlined in the Subdivision Improvement Agreement (SIA), Part 3. On March 4, 2025, Lennar Homes, LLC, entered into a SIA, C#25-03-541, with the County to guarantee construction of required improvements and allow for platting of Seagrove Plat 2 Phase 3. A bond in the amount of $8,803,148.52 was received for the SIA security.

Some improvements as conditioned within Part 1 of the SIA remain outstanding. The revised estimate of $4,904,799.91, attached, outlines the cost to construct at 100% of those remaining required improvements. In accordance with the Land Development Codes, 11.04.01 and Part 3 of the SIA, the County allows for the one-time reduction in the amount of $3,898,348.61 and retains the amount of $4,904,799.91. No further reductions are allowed.

SIA Security: $8,803,148.52 Bond No. 24284040 Dated April 23, 2025

New Security: $4,904,799.91

To be release: $3,898,348.61

Sincerely,

Dan J. Zrallack, P.E.
County Engineer

SUBJECT: Seagrove Plat 3 Phase 4 Subdivision Improvements Conditional Acceptance - Partial Release of Security

BACKGROUND:

On September 27, 2024, the applicant received a Planning and Development Services Director approval for the PDS Order 2024-062, granting a Minor Adjustment to the final PUD on resolution 2022-041. The project was conditioned on the bonding of all required improvements prior to the final plat. The bonding was received, and the applicant entered into a subdivision improvement agreement with the County.

LENNAR HOMES, LLC, at this time, has provided certification of the utility systems within the development. The developer has requested that the Board of County Commissioners grant partial acceptance of the required improvements and authorize the release of a portion of the bond in accordance with Section 11.04.01 of the County's Land Development Code and the conditions of the SIA. The remaining bond amount would be retained to ensure completion of the outstanding improvements, including but not limited to paving, drainage, striping, and landscaping.

SIA Security: $3,457,527.18 Bond No. 24284042 Dated April 23, 2025
To be released: $1,561,490.70
New Security: $1,896,036.48

A field inspection was performed of the constructed improvements within the development. Staff concurs that the constructed improvements have been built in compliance with the approved

PREVIOUS ACTION:

July 12, 2005 - BOCC approved Resolution 05-144, granting a change in zoning from RM-5 (Residential, Multi-family -5du/ac), RS-2 (Residential, Estate-2dy/ac, and R/C (Recreational/Conservation-1du/ac) Zoning Districts to the PUD (Planned Unit Development) Zoning District.
March 1, 2022 - BOCC held a duly noticed public hearing and approved Resolution 2022-041 granting a Major Adjustment to the previously approved Coconut Cove (Seagrove) PUD Final Site.

February 5, 2024 - County Planning & Development Services Director through PDS Order 2024-007 granted Minor Adjustment approval to the Final Site Plan for the Seagrove PUD, Overall Site Plan, and Seagrove (FKA Coconut Cove) PUD Phase 1 Site Plan.
July 30, 2024 - County Planning & Development Services Director through PDS Order 2024-003 granted a statutory extension of the development order and associated authorizations.
March 4, 2025 - A Subdivision Improvement Agreement (SIA) and Plat was approved and filed as No. C25-03-542
September 9, 2025 - County Planning & Development Services Director granted Certificate of Capacity No. 2179.

FINANCIAL IMPACT:

N/A

RECOMMENDATION:

Staff recommends Board approval of the partial site improvements and partial release of Bond No.24284042 in the amount of $1,561,490.70 in accordance with Strategic Plan Policy QI 3.1.1.

ST. LUCIE COUNTY FLORIDA

April 21, 2026

Lennar Homes, LLC
3931 RCA Blvd, Ste 3105
Palm Beach Gardens, FL 33410

Attention: Mr Gregory Pittibon

Subject: Subdivision Improvement Agreement Reduction
Seagrove Plat 3 Phase 4

The County received your request, dated April 1, 2026 to process the allowable one-time reduction as outlined in the Subdivision Improvement Agreement (SIA), Part 3. On March 4, 2025, Lennar Homes, LLC, entered into a SIA, C#25-03-542, with the County to guarantee construction of required improvements and allow for platting of Seagrove Plat 3 Phase 4. A bond in the amount of $3,457,527.18 was received for the SIA security.

Some improvements as conditioned within Part 1 of the SIA remain outstanding. The revised estimate of $1,896,036.48, attached, outlines the cost to construct at 100% of those remaining required improvements. In accordance with the Land Development Codes, 11.04.01 and Part 3 of the SIA, the County allows for the one-time reduction in the amount of $1,561,490.70 and retains the amount of $1,896,036.48. No further reductions are allowed.

SIA Security: $3,457,527.18 Bond No. 24284042 Dated April 23, 2025

New Security: $1,896,036.48

To be release: $1,561,490.70

Sincerely,

Dan J. Zrallack, P.E.

QUASI-JUDICIAL ITEM? NO

AGENDA REQUEST

TO: **Board of County Commissioners**

PRESENTED BY: Kori Benton, Planning & Zoning Manager

SUBMITTED BY: Planning & Development Services

SUBJECT: Project Orchid - Future Land Use Map Amendment (Small-Scale) for +/-20.85 acres within the Lucie Rock MXD - **ADD ON**

BACKGROUND:

HJA Design Studio submitted a petition for a Future Land Use Map Amendment (FLUMA) on behalf of property owner MC320, LLC.

The Applicant is requesting to amend the existing MXD FLUMA for +/-20.85 acres on the west and central portion of the Project Orchid Site, which altogether totals +/-73 acres, from MXD (Mixed Use District) which was initially established as an extension of the Mixed Use Orange Avenue/I-95 Activity Area. This Small-Scale Future Land Use Map Amendment proposes to create a +/- 20.85-acre subarea of the Lucie Rock Mixed Use Activity Area. This would allow for an 80-foot building height limit within established Medium and High Intensity Development Areas.

A companion amendment would rezone another portion of the western area from IL (Industrial, Light) to IH (Industrial, Heavy), and an additional request includes a Conditional Use Permit for a metal foundry which would be part of the overall window manufacturing complex.

The +/- 1,283,744 square foot windows manufacturing building will include a metal foundry, aluminum plant, sorting press, line production, sorting, window plant, shipping, and sorting & glass plant. A two-story 27,300 square foot office building is located in front (east) of the manufacturing building.

PREVIOUS ACTION:

On October 18, 2004, the St. Lucie County Board of County Commissioners approved Oridnance 04-031, granting a Future Land Use Map Amendment from the RS (Residential, Suburban) Category to MXD - Orange Avenue (Mixed Use Development - Orange Avenue/I-95) Activity Area, including Medium and High Intensity Areas. This MXD Activity Area is known today as the Lucie Rock MXD, encompassing the petition site.

On September 3, 2013, the St. Lucie County Board of County Commissioners granted approval, through Resolution No. 2013-167, the petition of Lucie Rock, LLC, for a Major Site Plan known as St. Lucie Commerce Center.

On September 17, 2013, the St. Lucie County Board of County Commissioners approved the St. Lucie Commerce Center 10-Year Agreement extending Resolution No. 2013-167 to September 17, 2023.

On October 9, 2020, PDS Order 2020-058 was approved by the St. Lucie County Planning & Development Services Director granting a statutory extension under Florida Statute Section 252.363 extending the expiration date for the Major Site Plan known as St. Lucie Commerce Center to November 24, 2025.

On October 10, 2023, PDS Order 2023-064 was approved by the St. Lucie County Planning & Development Services Director granting a statutory extension under Florida Statute Section 252.363 extending the expiration date for the Major Site Plan known as St. Lucie Commerce Center to November 24, 2029, and extended the Development Agreement term through September 17, 2027.

On April 16, 2026, the Planning & Zoning Commission held a public hearing on the proposal and unanimously voted to forward a recommendation of approval to the Board of County Commissioners.

FINANCIAL IMPACT:

Potential Increase in Ad-Valorem Tax Revenue.

RECOMMENDATION:

Staff recommends the Board evaluate and approve the proposed Future Land Use Map Amendment (FLUMA) via Ordinance 2026-14, authorizing the Chair to sign documents as approved by the County Attorney.

SUBJECT: Project Orchid FLUMA-2603-000040 & RZ-2603-000050
Future Land Use Map (Small-Scale) and Official Zoning Atlas Amendments

GENERAL INFORMATION

Property Owner/Applicant: MC320, LLC
5701 SW Sunshine Farms Way
Palm City, FL 34990-5608

Agent: HJA Design Studio, Patti Tobin
3500 SW Corporate Pkwy Suite 203,
Palm City, FL 34990

Location: West of N. Rock Rd., south of N. Rock Rd. Ext. (Access Rd.), and north of NSLRWCD Canal #44 (Relief Canal).

Parcel ID Numbers: 2302-342-0001-000-1 (CUP & Partial FLUMA), 2302-341-0001-000-8 & 2302-331-0001-000-7 (Partial Rezoning & FLUMA).

Petition Area(s): +/-20.85 acres (new MXD subarea), +/-20.25 acres (rezoning to IH),
73.27 acres (total project site)

Future Land Use: MXD, Mixed Use District - Lucie Rock Mixed Use Activity Area (initially established as an extension of the Mixed Use Orange Avenue/I-95 Activity Area)

Proposed Land Use: MXD, Mixed Use District - Lucie Rock Mixed Use Activity Area – Amendment to create a +/- 20.85-acre subarea that would set an 80-foot building height limit within established Medium and High Intensity Development Areas

Existing Zoning: IH, Industrial Heavy (+/- 36.06 acres) & IL, Industrial Light (+/- 37.21 acres)

Proposed Zoning: IH, Industrial Heavy (+/- 20.25 acres) currently zoned IL would be rezoned to IH, resulting in +/- 56.31 acres in IH and +/- 16.96 acres in IL

Existing Use(s): Undeveloped

Utilities: FPUA service area, water & sewer lines are present on the west side of Rock Rd .

BACKGROUND ANALYSIS

The Agent, Patti Tobin of HJA Design Studio, on behalf of the owner MC320, LLC, is requesting

1) A Comprehensive Plan Future Land Use Map Amendment (FLUMA) that would create a +/- 20.85-acre subarea of the Lucie Rock Mixed Use Activity Area (initially established as an extension of the Mixed Use Orange Avenue/I-95 Activity Area), an area in which an 80-foot building height limit is set, within the established Medium and High Intensity Development Areas; and
2) An amendment to the Official Zoning Atlas assigning the IH (Industrial, Heavy) zoning to +/-20.25 acres land that is currently zoned IL (Industrial, Light). The rezoning would allow construction and operation of a metals foundry as part of a windows manufacturing facility.

The Applicant also filed three companion petitions:

3) A Conditional Use Permit to allow for an approximately 76,200 square foot metals foundry within the manufacturing facility (on the north central portion of the building);
4) A Major Site Plan for the overall Project Orchid Development Plan; and
5) An Amendment to the St. Lucie Commerce Center (Lucie Rock) Development Agreement.

The proposed MXD subarea and the area requested for rezoning are internal to a site that includes three properties located west of North Rock Rd, south of North Rock Rd. Extension (Access Rd.), and north of the Relief Canal, just north of the County Correctional Facility. The site was historically used for agricultural purposes. In 2007 the BoCC rezoned the parcels from AG-1 to IL. In 2013 the BoCC approved Major Site Plan MJSP-05028 through Resolution No. 2013-167, for St. Lucie Commerce Center (aka Lucie Rock) for an industrial park with a maximum of 1,232,835 sq. ft. across four parcels. The Major Site Plan has remained active through a Board Resolution and series of PDS Orders linked to a 10-Year Development Agreement (and an Executive Order due to the threat of several hurricanes to the State of Florida). PDS Order 2023-064 granted a 48-month Major Site Plan extension until November 24, 2029, and the Development Agreement is scheduled to expire September 27, 2027.

The property is located within the Urban Service Boundary (USB).

****

FUTURE LAND USE MAP AMENDMENT STANDARDS OF REVIEW SET FORTH IN THE ST. LUCIE COUNTY COMPREHENSIVE PLAN

Proposed Amendment Consistency with Comprehensive Plan

Current Future Land Use:

The Future Land Use designation of the subject property is MXD, Mixed Use District. Comprehensive Plan Policy 1.1.1.2.H. describes the MXD future land use category as follows:

Mixed Use Development (MXD) The intent of the Mixed Use Development (MXD) designation is to identify those areas where innovative land use concepts are encouraged. Application of this district should be with prudence, and should be only to those areas where traditional land use classifications do not afford the desired flexibility and community input in land use planning necessary to address local concerns. Candidates for this district include all I-95 interchange areas, the Treasure Coast International Airport, Community Development Districts created pursuant to Chapter 190, Florida Statutes and areas of special or unique environmental consideration that may not be appropriate for traditional land use designations. Uses within the areas classified as Mixed Use should be segregated as to intensity and indicated in the form of a concept master plan which is to be included as a part of the land use designation process. The following criteria, in addition to those as cited in Objective 1.1.7 (PUD, PNRD & PMUD), are to be used in the development of Mixed Use areas:

- *Unless otherwise compliant with the identified intensity classification, any change in zoning shall be to the Planned Unit Development (PUD), Planned Nonresidential Development (PNRD) or Planned Mixed Use Development (PMUD), as described in the St. Lucie County Land Development Code. Those properties with compatible existing zoning designations are encouraged to develop under the PUD, PNRD or PMUD regulations.*
- *Residential development shall be regulated by the intensity district in which it is to take place. In no case should gross residential density exceed 15 du/ac.*
- *All uses shall be compatible with adjacent land uses.*

The adopted Lucie Rock Mixed Use Activity Area (MUAA) (Figure 4) was initially established as an extension of the Mixed-Use Orange Avenue/I-95 Activity Area (Figure 5). The Lucie Rock MUAA limits height to 60 feet, and the proposed FLU amendment would allow an 80-foot height limit within the hatched subarea shown in Figure 2, above.

Figure 4: Adopted Lucie Rock MUAA

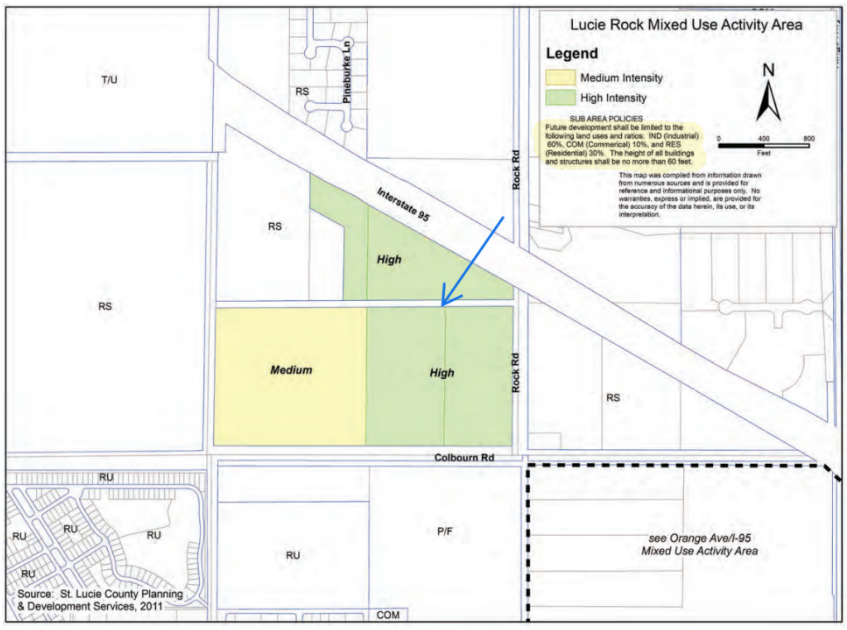

Figure 5: Orange Ave./I-95 MUAA

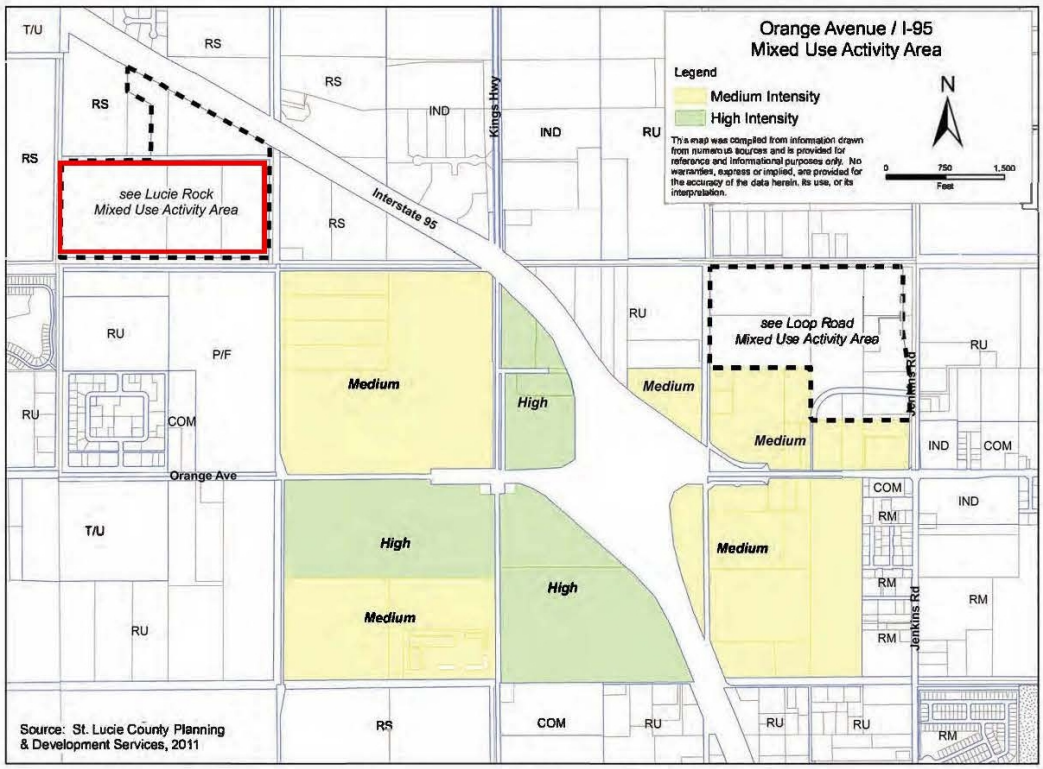

The proposed Future Land Use Map MUAA subarea, shown in the diagonal pattern in Figure 2 would allow an 80-foot building height limit; the remainder of the MUAA would retain the current adopted 60-foot height limit.

In reviewing petitions for amendments to the Future Land Use Map (FLUM), the Planning and Zoning Commission, acting as the Local Planning Agency, and Board of County Commissioners shall consider whether the proposed amendment is consistent with all elements of the St. Lucie County Comprehensive Plan and Florida Statutes. The following analysis presents Comprehensive Plan policies pertinent to this amendment.

(Comprehensive Plan) Future Land Use Element (FLUE) Policy 1.1.2.1.
The adopted Future Land Use Map Series and any amendments shall promote responsible growth management practices. When considering any amendment to the Future Land Use Maps of the County's Comprehensive Plan, the County Commission shall make the following findings, supported by the other elements of this Plan, prior to taking any approval actions granting an individual amendment to the Future Land Use Maps:

1. *That the property under land use amendment application is adjunct to, or within no more than one-quarter mile of the same or greater type of land use classification.*
2. *That the property under land use amendment consideration lies within the Five-Year Capital Improvement Program of the Water and Wastewater Master Plan for St. Lucie County (or can be reasonably accommodated with an amendment to the Master Plan) or otherwise meets the requirements of Policy 1.1.5.4 [formerly Policy 1.1.5.3].*

Regarding # 1. above, the FLUMA would not change the land use category, but would provide for a taller height limit for a subsection in the Lucie Rock MUAA which is eligible for MXD categories. The site also meets the intent of # 2. above as it is within the Urban Service Boundary and is served by paved roads along with central water and sewer services.

FLUE Policy 1.1.2.2.
In accordance with Florida Statutes, proposed future land use map amendments to the County's Comprehensive Plan, shall be based upon the following analyses:

1. An analysis of anticipated growth;

2. An analysis of the availability of facilities and services;
3. An analysis of the suitability of the plan amendment for its proposed use considering the character of the undeveloped land, soils, topography, natural resources, and historic resources on site;
4. An analysis of compatibility of adjacent land uses; and
5. An analysis of the need for job creation, capital improvement, and economic development that will strengthen and diversify the community's economy; and
6. A consultation with the Florida Department of Transportation when it is determined that a proposed amendment has the potential to affect facilities on the Strategic Intermodal System.

The subject site and the requested amendment are evaluated pursuant to the factors in Policy 1.1.2.2. below.

1. An analysis of anticipated growth.
Table 1 shows population growth in the County from 2010 to last year.

Table 1: St. Lucie County & Municipal Census Data – 2010 to 2020 Changes

Jurisdiction	April 1, 2010	April 1, 2020	April 1, 2025	Numerical Growth 2020-2025	Percentage Growth 2020-2025
St. Lucie Co. Total	**277,789**	**329,226**	**394,074**	**64,848**	**19.7%**
Fort Pierce	41,590	47,297	51,352	4,055	8.6%
Port St. Lucie	164,603	204,851	260,194	55,343	27.0%
St. Lucie Village	590	613	623	10	1.6%
UNINCORPORATED	71,006	76,465	81,905	5,440	7.1%

Sources: 2010 Population from US Census and 2025 Population Estimates from University of Florida Bureau of Economic & Business Research

The University of Florida Bureau of Economic and Business Research (BEBR) Projections of Florida Population by County for 2025–2050, projects a total population between 406,000 to 655,400 by 2050. BEBR believes the medium series is the most likely to provide accurate forecasts in most circumstances, which would place the St. Lucie County population at 530,700 by 2050. This is a total change of 201,474 or a percent change of 61.2% from the 2020 Census count. The population within the unincorporated County continues to increase, with increased demand to develop property along the western edge of growth centers and the interstate network. Encouraging and allowing industrial employment centers will provide jobs for local residents who might otherwise have to drive longer distances for work.

Pursuant to Section 163.3177, Florida Statutes, the comprehensive plan is intended to provide the principles, guidelines, standards, and strategies for the orderly and balanced future economic, social, physical, environmental, and fiscal development of the area that reflects community commitments to implement the plan and its elements; and requires that the comprehensive plan be based upon permanent and seasonal population estimates and projections, on at least the minimum amount of land required to accommodate the medium projections as published by the Office of Economic and Demographic Research (EDR) for at least a 10-year planning period. The EDR population projections for St. Lucie County are below.

Table 2: EDR Population Projections for St. Lucie County, 10 year period

ST. LUCIE	368,628						
Low		362,300	381,600	394,000	400,600	404,500	406,000
Medium		385,400	423,900	456,800	484,200	508,800	530,700
High		408,600	466,300	519,600	567,700	613,100	655,400
Bureau of Economic and Business Research, Florida Population Studies, Bulletin 198							7

2. An analysis of the availability of facilities and services.

Utilities. Water, sewer, and natural gas are available through Fort Pierce Utility Authority (FPUA), with existing

water and sewer lines adjacent to the site on N. Rock Rd. right-of-way. Florida Power and Light (FP&L) is the electric provider for the area.

Transportation

The Applicant's Transportation Impact Report (TIR), using the Institute of Transportation Engineers Trip Generation Handbook, estimated the manufacturing use would generate 6,166 weekday daily trips, including 736 AM peak hour trips and 910 PM peak hour trips. The proposed FLUMA is not proposing an increase to the allowable Floor Area Ratio (FAR) or building floor area, but rather height for operational flexibility and maneuvering.

Table 3: Project Trip Generation

Source	Land Use	ITE Code	Intensity	Daily Trips	AM Peak Hour			PM Peak Hour		
					Total	In	Out	Total	In	Out
Proposed Scenario										
ITE	Manufacturing	140	1,444.000 ksf	6,166	736	552	184	910	264	646
Driveway Volumes				6,166	736	552	184	910	264	646
Net New External Trips				6,166	736	552	184	910	264	646
Proposed - Existing Net New Traffic				6,166	736	552	184	910	264	646
Radius of Development Influence:				3 miles						

Source	Land Use	Daily	AM Peak Hour	PM Peak Hour	Avg. Pass By
ITE	Manufacturing	4.27 trips/ksf	0.51 trips/ksf (75% in, 25% out)	0.63 trips/ksf (29% in, 71% out)	0.0%

The TIR determined the following significant impacted (by the project) roadway links, with significance thresholds being project traffic exceeding 5% of roadway links not directly accessed by the project and 1% of roadways directly accessed by the project.

- **Orange Avenue** – From Rock Road to Kings Highway
- **Orange Avenue** – From Kings Highway to I-95
- **Orange Avenue** – From I-95 to Jenkins Road
- **Kings Highway** – From Picos Road to Orange Avenue
- **Kings Highway** – From Orange Avenue to Angle Road
- **Kings Highway** – From Angle Road to St. Lucie Boulevard
- **Kings Highway** – From St. Lucie Boulevard to Indrio Road
- **Graham Road** – From Kings Highway to Jenkins Road
- **Rock Road** – From Orange Avenue to Project Driveway

Orange Avenue from Rock Rd. to Kings Hwy. will exceed roadway capacity with project traffic, therefore the Applicant would be responsible for proportionate share payments toward the widening of this link of Orange Ave. The project's share would be at least 39% of project costs for the eastbound direction and 27% of the cost for the westbound direction.

The TIR recommends the following improvements for the Rock Rd./Orange Ave. intersection:

- Construction of an eastbound left-turn lane
- Construction of a southbound left-turn lane
- Restriping second southbound lane as a shared left/through/right turn lane
- Construction of an additional eastbound receiving lane on Orange Avenue
- Installation of a traffic signal

These improvements will result in acceptable LOS for this intersection ranging between B and D.

Access to the site is proposed via two driveways on Rock Road. The proposed driveway connections were subject to turn lane analysis using information in the FDOT Multimodal Access Management Guidebook as a reference. The analysis indicated that the southerly Driveway 1 is anticipated to require a northbound left-turn lane on Rock Rd.

3. An analysis of the suitability of the plan amendment for its proposed use considering the character of the undeveloped land, soils, topography, natural resources, and historic resources on-site.

The County's Environmental Resources Department provided the following statement: *ERD has no objection to the*

(land use amendment and) *rezoning of the subject parcel. Further review of the development plans will be conducted as part of the site plan approval or building permit process.*

A Major Site Plan application is being reviewed for the new location of Project Orchid headquarters. ERD has reviewed the application and provided a report with a partial list of conditions of approval. ERD will conduct further review of the site plan or building permit review process, including but not limited to, tree mitigation requirements, updating listed species surveys as necessary per individual species requirements, a vegetation removal permit or exemption, issued by the department. Clearing and earthwork will be conducted outside of the Scrub-jay nesting season and prior to Certificate of occupancy invasive plant species shall be removed from the site.

4. An analysis of the compatibility of adjacent land uses.

Manufacturing facilities are intensive uses that often generate truck traffic, loading/unloading, noise, and particle emissions. The companion Conditional Use Permit can provide conditions of approval to minimize incompatibility. The Applicant in their community meeting booklet pledged to employ the following elements to diminish potential noise, odor, and other impacts.

- All activities occur within enclosed buildings to reduce machinery & industrial processes noise.
- Fully enclosed air systems.
- Capture & filtering of emissions before their release using adsorption, absorption, and mechanical separation with the use of chemical scrubbers, sorbent-based filters, and baghouses to trap pollutants.

5. An analysis of the need for job creation, capital improvement, and economic development that will strengthen and diversify the community's economy.

The Applicant maintains that construction of the facility is expected to generate over $200 million in economic activity, supporting construction jobs and local contractors during the building phase. Anticipated employment includes more than 1,000 jobs over five years, with the median starting hourly wage at $28.50 and an estimated $53 million annual payroll. At this time, the largest manufacturing facility in the County is TAMCO in Port St. Lucie, which manufactures and distributes lighting and electrical products in a 441,000 square feet building, but the 1.3 million square foot Project Orchid would become the largest manufacturing facility in the County. Based on Property Appraiser estimates for similar manufacturing facilities, Project Orchid would generate somewhere between $2.8 and $3.0 million in annual tax revenue.

6. A consultation with the Florida Department of Transportation when it is determined that a proposed amendment has the potential to affect facilities on the Strategic Intermodal System.

St. Lucie County Engineering and Planning staff regularly consult with the Florida Department of Transportation (FDOT) regarding development projects that directly or indirectly impact the Strategic Intermodal System (SIS) and other state-owned roadways (Orange Ave. is a state highway but is not in the SIS). The Applicant must schedule a pre-application conference with FDOT. In accordance with Policy 1.1.2.2 and Objectives 1.2.1 and 2.1.1, Staff continues to involve FDOT in ongoing review of these applications.

Figure 6: Rock Rd., a substandard County road, is the eastern project boundary

Figure 7: Alcrete, a concrete precast manufacturing facility nearby on N. Rock Rd.

Proposed Amendment Consistency with Land Development Code

Current Zoning:
The overall project site is now split zoned between IL (Industrial, Light) and IH (Industrial, High, with 20.25 IL acres proposed for a rezone to IH. The St. Lucie County Land Development Code (LDC), Section 3.01.03.V. describes the purpose of the IL zoning district:

The purpose of this district is to provide and protect an environment suitable for light manufacturing, wholesale, and warehousing activities that do not impose undesirable noise, vibration, odor, dust, or other offensive effects on the surrounding are, together with such other uses as may be necessary to and compatible with light industrial surroundings.

IL permitted uses include a wide variety of office, manufacturing, motor freight transportation & warehousing, repair services, retail trade, vocational schools, and wholesale trade. Mobile vendors, landscape services, and personal services are also permitted uses. Single-family detached dwelling units provided that the single-family dwelling unit is located on an existing lot or parcel or record, as further defined in this Code, that existed on or before August 1, 1990. Conditional uses include manufacturing, boat building and repair, wholesale: petroleum bulk station and terminals, scrap and waste materials and kennels. Accessory uses include one detached single-family dwelling or mobile home, for on-site security purposes per property.

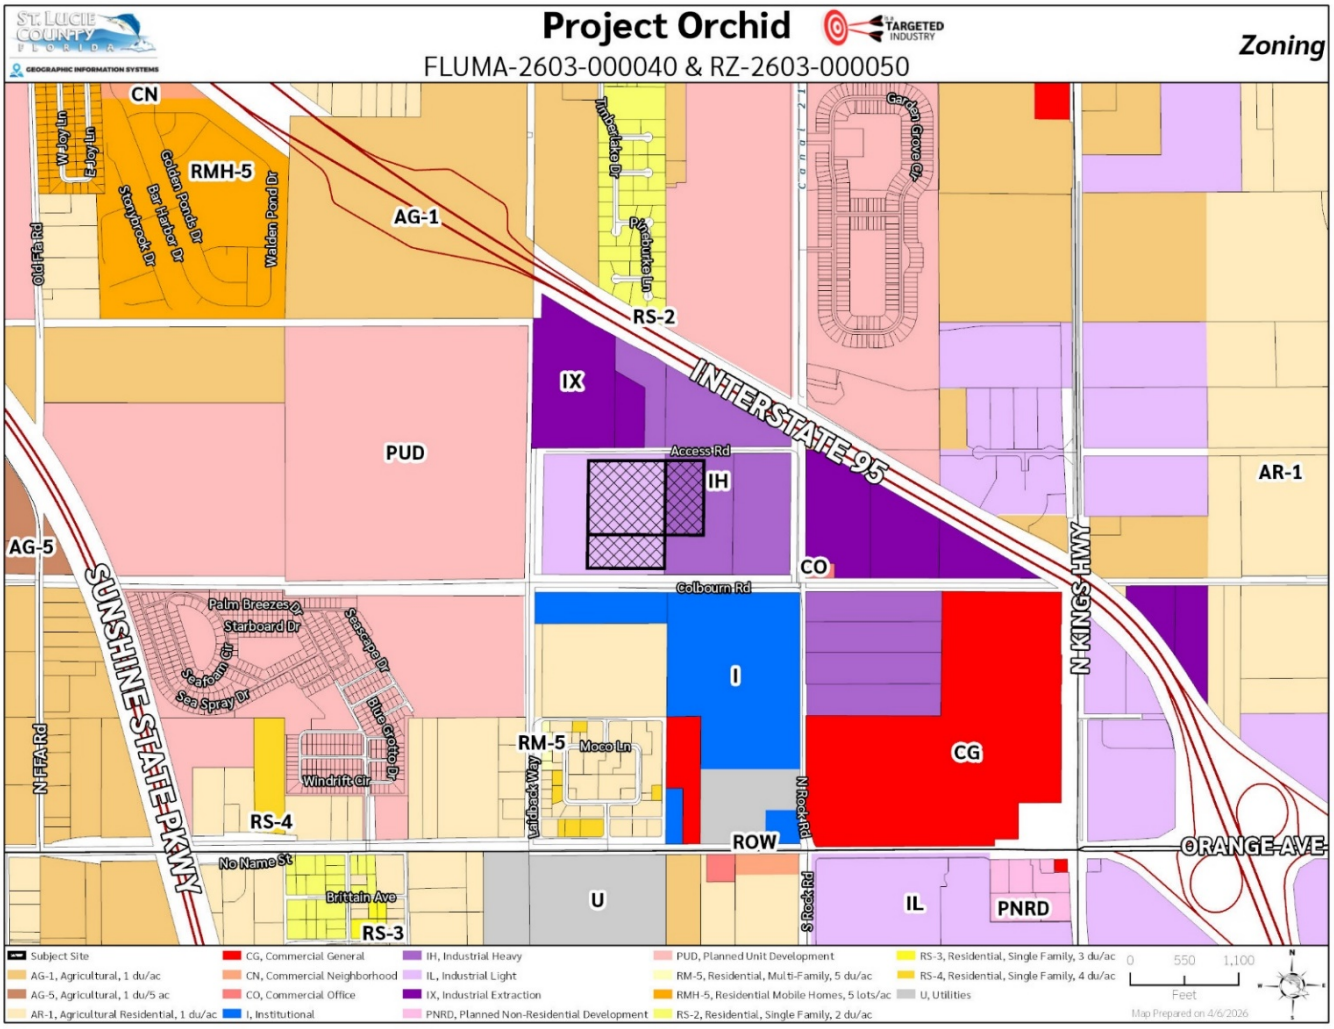

Figure 8: Current Zoning

Proposed Zoning:
The Applicant proposes to rezone +/- 20.25 acres of the subject property from IL (Industrial, Light) to IH (Industrial, Heavy), as highlighted in Exhibit 3, above, and with a broader Atlas Snapshot in Figure 9 below.

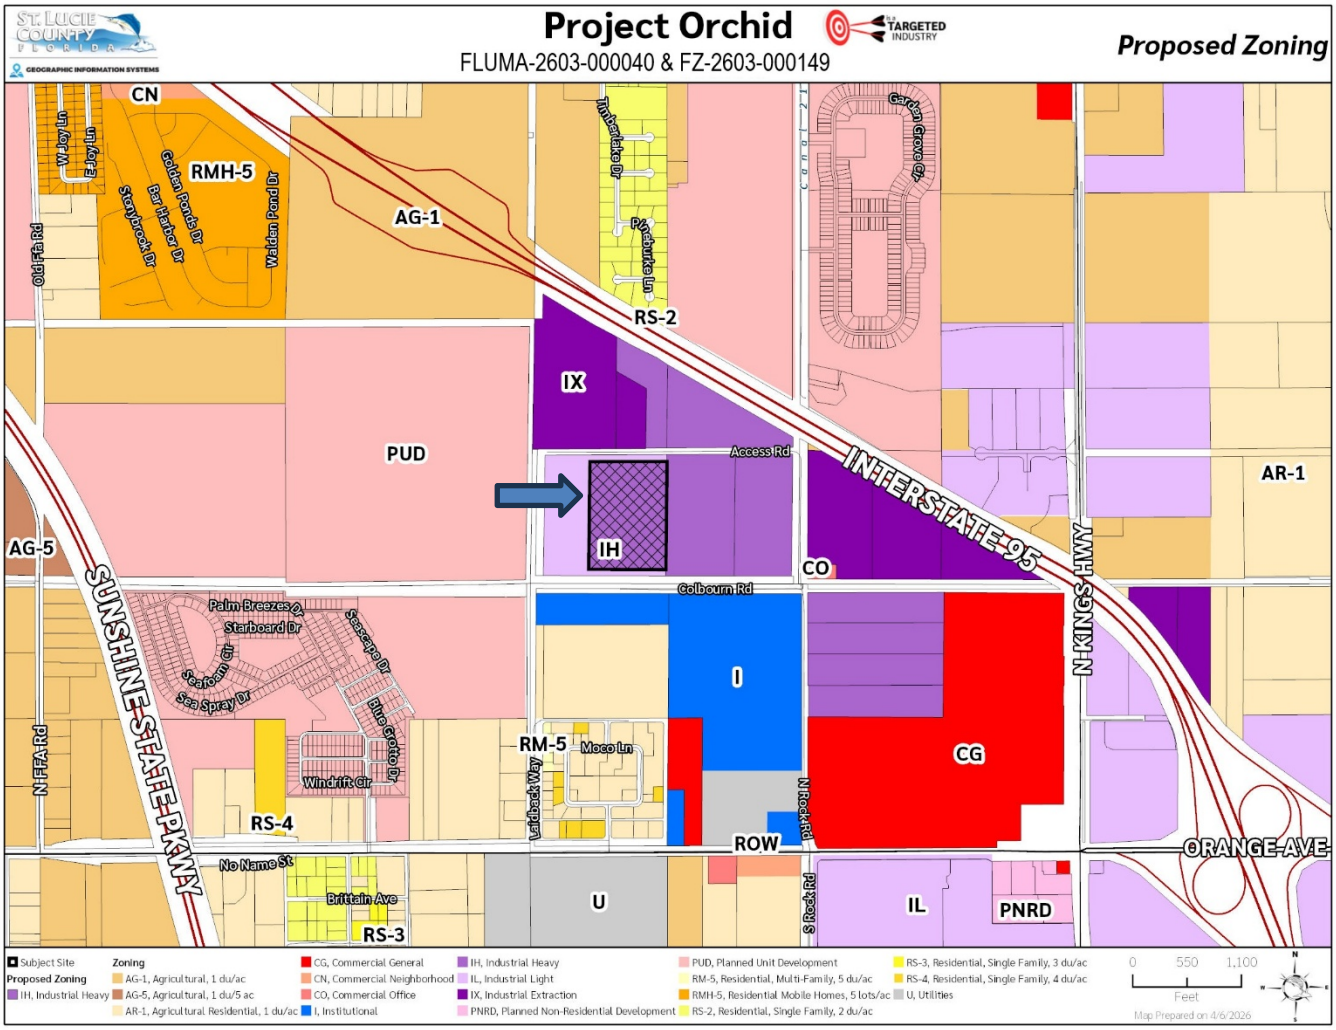

Figure 9: Proposed Zoning

LDC Section 3.01.03.U. sets forth the purpose of the IH zoning district.

The purpose of the IH zoning district is *"to provide an environment suitable for heavy manufacturing and other activities that may impose undesirable noise, vibration, odor, dust, or other offensive effects on the surrounding area together with such other non-residential uses as may be necessary to and compatible with heavy industrial surroundings"*

Industrial, Heavy (IH) permitted uses include agricultural services, construction services, engineering services, and a broad range of manufacturing, wholesale, and retail trade activities. Conditional uses include various types of manufacturing, warehousing and storage services, scrap, waste, and recycling operations, as well as wholesale trade of non-durable goods, including petroleum and petroleum products. Accessory uses allow for one detached single-family dwelling or mobile home per property for onsite security purposes. Figure 9, on the next page, shows Industrial, Heavy-zoned areas. This zoning district is relatively scarce, with a total of 1,261.44 acres in the Unincorporated County, compared to 3,655.25 acres of Industrial, Light-zoned areas.

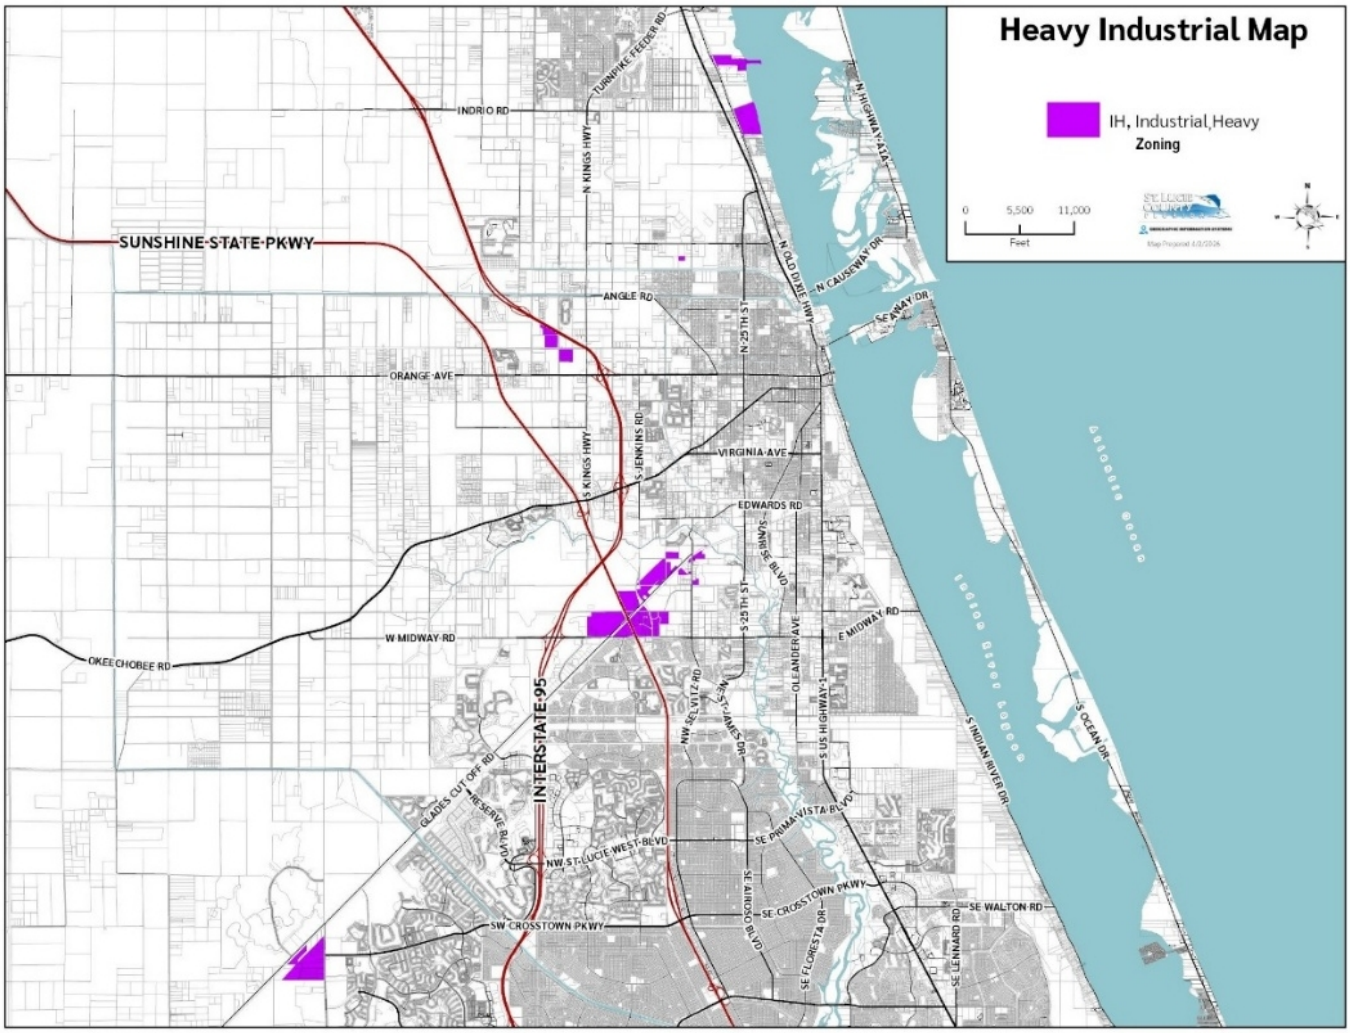

Figure 10: IH Zoning Countywide

****

STANDARDS OF REVIEW FOR REZONING
AS SET FORTH IN THE LAND DEVELOPMENT CODE SECTION 11.06.03

In reviewing this application for an amendment to the Official Zoning Atlas, the Board of County Commissioners shall consider standards of review set forth in LDC Sec. 11.06.03, as follows.

A. Whether the proposed rezoning is in conflict with any applicable portions of the St. Lucie County Land Development Code;

The proposed IH zoning designation is consistent with the MXD FLUM designation. The proposed rezoning to the IH zoning district is consistent with the St. Lucie County Land Development Code (LDC) and meets the Standards of Review set forth in LDC Section 11.06.03, as displayed in Sections A thru J of this report. The rezoning is consistent with LDC Section 11.09.02(A), Table 11-1 - *Zoning District/ Land Use Category Compatibility Chart* and the site meets the dimensional requirements set forth in Section 7.04.00 and Table 7-10 – *Lot Size and Dimensional Requirements* for the IL & IH Zoning Districts.

The proposed IH zoning district is consistent with surrounding parcels, providing the use scope in LDC Sections 3.01.03(T)(U) and District purposes. Certain Conditional Uses outlined under the Heavy Industrial Zoning District may not be appropriate for this particular property, due to proximity to single-family dwellings now under development (Pineapple Grove PUD, +/- 1,300 feet to the north, and proposed single-family dwellings (Sunnyland PUD, +/- 175 feet to the west). Examples of potentially impactful Conditional Uses in the IH district include textile mills and the manufacturing of paper products, lumber and wood products, chemicals, and perfumes. All future uses must be reviewed by the St. Lucie County Development Review Committee for compliance with design standards, and Conditional Uses evaluated with greater examination for compatibility with the subject site and surrounding uses.

B. Whether the proposed amendment is consistent with all elements of the St. Lucie County Comprehensive Plan;

The IH zoning district is consistent with the IND Future Land Use designation as provided within Comprehensive Plan Policy 1.1.1.3 - *Land Use Designation / Zoning Compatibility Chart*.

ZONING DISTRICT	FUTURE LAND USE CATEGORIES																
	AG-5	AG-2.5	RE	RS	RU	RM	RH	R/C	Cpub	COM	IND	P/F	MXD	SD	H	T/U	TVC
IH, Industrial Heavy											X		**X**				**X**

The proposed amendment is consistent with the following Comprehensive Plan Future Land Use Element's (FLUE) Goals, Objectives, and Policies:

The proposed rezoning conforms to the MXD FLU Category, particularly the concurrent amendment, and is consistent with most Urban Sprawl policies associated with FLUE Objective 1.1.5; is within the Urban Service Boundary as set forth in FLUE Objective 1.1.10.6 and its policies.

Future Land Use Element Policy 1.1.13.2 sets forth the following specific criteria to be utilized for determining the suitability of new property for IH zoning, applicable to the +/-20.25-acre portion proposed for rezoning: and strengthens the industrial base, tax base, and job market as called for in Economic Development Element Policy 10.1.1.1.

1. Heavy Industrial property should have available to it central water services necessary for both domestic and fire protection purposes.
Water and sewer lines run along the west side of Rock Rd. adjacent to the property.

2. New Heavy Industrial property should not be located within 1000 feet of any Aquatic Preserve or other specially designated aquatic habitat, or a Category I Wetlands as described in the Conservation Element of this Plan.
The subject property is not within 1000 feet of such areas (known).

3. New Heavy Industrial property should not be located within the 100-year floodplain.
The property is located outside of the Special Flood Hazard Area, in Zone X.

4. Heavy Industrial property should have immediate access to the regional transportation network without the need to travel through residential areas.
The property has immediate access to the regional transportation network, with direct access to Orange Ave., a state road, without having to go through residential areas. I-95 is approximately 1.4 miles away via Rock Rd. and then east on Orange Avenue.

5. New Heavy Industrial property should not be located within any cone of influence, as identified under the County's wellfield protection program.
The property is located outside any Wellfield Protection zone.

Also, FLUE Objective 1.1.5 policies discourage urban sprawl. The property is an infill project and not in a sprawl

location, located close to Orange Ave., I-95, and the Turnpike. A water main line and sewer force main runs along eastern boundary of the site, and the property is not far from employment centers and emerging commercial areas.

C. Whether and the extent to which the proposed zoning is inconsistent with the existing and proposed land uses;
As shown in Table 3, the proposed industrial zoning is in keeping with similar existing industrial uses along Rock Rd. to the south, which include a portable buildings manufacturer and an auto broker. The County Jail is to the south. The requested rezoning is not expected to harm other properties or improvements in the area and will not create a conflict with the surrounding zoning districts.

Table 3: Land Use Table

Location		Future Land Use	Zoning	Existing Land Use
Subject Property		MXD (Mixed Use District)	IH (Industrial, Heavy, eastern half)/ IL (Industrial, Light, western half)	Undeveloped
Adjacent Parcels	***North***	MXD (Mixed Use Development), RS (Residential Suburban)	IH (Industrial, Heavy, eastern half)/ IX (Industrial, Extraction, western half)	Undeveloped, retention pond/abandoned extraction area
	South	P/F (Public Facilities)	I (Institutional)	County Correctional Facility
	East	RS (Residential Suburban)	IX (Industrial Extraction) / CO (Commercial, Office)	Office/Undeveloped
	West	RS (Residential Suburban)	PUD (Sunnyland Farms Planned Unit Development – Lapsed / Newly Proposed)	Undeveloped

D. Whether there have been changed conditions that require an amendment.
Changed conditions include ongoing improvements to Interstate 95 (now an eight-lane freeway several hundred feet east of the site), Florida's Turnpike, Kings Highway and Orange Avenue which have improved the accessibility of properties in this area for trucking/freight distribution, warehousing, and manufacturing, and have increased the demand for industrial zoned property. Additionally, development continues in and around the Treasure Coast International Airport, a 14-minute drive away.

E. Whether and the extent to which the proposed amendment would result in demands on public facilities, and whether or to the extent to which the proposed amendment would exceed the capacity of such public facilities, including but not limited to transportation facilities, sewage facilities, water supply, parks, drainage, schools, solid waste, mass transit, and emergency medical facilities.
The property is located within the Urban Service Boundary and is adjacent to a water and sewer line. The proposed change in zoning should not adversely affect the acceptable level of service capacity of sewage facilities, water supply, parks, drainage, schools, solid waste, mass transit, or emergency medical facilities. The Transportation Impact Report (TIR) indicated that Applicant proportionate share payments would help fund intersection improvements to the intersection of Rock Rd. & Orange Ave. Prior to the issuance of any Final Development Order, the developer must demonstrate that all public facilities are available to serve the parcel and obtain a Certificate of Capacity. On March 6, 2026, the applicant signed the required Concurrency Deferral Affidavit recognizing this requirement for future project phases.

Transportation:
Some intersections and vicinity roadway links will be significantly or adversely impacted by project traffic. However, even without the project, Orange Ave. would fail, and therefore the Applicant is not responsible for improvements. The Rock Rd./Orange Ave. is adversely impacted by the project, and the Applicant would be responsible for funding roughly one-third of improvement costs of signalization and new turn lanes. See more detailed analysis on Pages 6-7.

Water and Sewer:
Water and sewer lines run within the adjacent right-of-way of Rock Rd.

Parks:
N/A (nonresidential).

Drainage:
Development of the property is subject to County, South Florida Water Management District, US Army Corps of Engineers, and Florida Department of Environmental Protection standards.

Schools:
N/A (nonresidential)

Solid Waste:
This area is served by WastePro.

Mass Transit:
The Area Regional Transit (ART) has no fixed service routes in this area, but potential job creation in this area and along Kings Highway may warrant future expansion, whether via a fixed route or micro transit services.

Emergency Medical Facilities:
The nearest Fire Station, Fire Station #1 (Central), is currently located at 2400 Rhode Island Avenue, approximately 5.45 miles southeast of the site. Fire Station #19, located on Research Center Road, broke ground in January 2025 and is projected to be completed in mid-2026. The station will be next to the Sunshine Kitchen, approximately 2.6 miles from the site.

F. Whether and the extent to which the proposed amendment would result in significant adverse impacts on the natural environment;
The County's Environmental Resources Department provided the following statement: *ERD has no objection to the rezoning of the subject parcel. Further review of the development plans will be conducted as part of the site plan approval or building permit process.*

A concurrent Major Site Plan application has been reviewed for the new location of Project Orchid headquarters. ERD has reviewed the application and provided a report with a partial list of conditions of approval. ERD's review of the site plan and building permit include but are not limited to, tree mitigation requirements, updating listed species surveys as necessary per individual species requirements, a vegetation removal permit or exemption, issued by the department. Clearing and earthwork will be conducted outside of the Scrub-jay nesting season and prior to Certificate of occupancy invasive plant species shall be removed from the site.

***G.* Whether and the extent to which the proposed amendment would adversely affect the property values in the area**;
Given the prevalence of like uses in the vicinity, it is not likely that the proposed change in zoning will adversely affect the property values in the area. The proposed zoning is consistent with the existing Future IND land use designation.

H. Whether and the extent to which the proposed amendment would result in an orderly and logical development pattern specifically identifying any negative effects of such patterns;
The proposed change in zoning will result in an orderly and logical development pattern. The subject property is in the Urban Service Boundary and is served by improved roadways with central water and sewer lines along those roadways. Staff would also note that IL-zoned land will remain on the western parcel, providing for a transition of zoning from the more intensive IH to the residentially-zoned areas to the west.

I. Whether the proposed amendment would be in conflict with the public interest, and is in harmony with the purpose and intent of this Code;
The proposed rezoning to IH zoning is not in conflict with the public interest and is in harmony with the purpose and intent of the LDC.

J. Any other matters that may be deemed appropriate by the Planning and Zoning Commission or the Board of County Commissioners, in review and consideration of the proposed amendment.
The Board of County Commissioners may raise other matters regarding the proposed amendment.

CONCLUSION:
Staff has reviewed this petition and determined that it conforms to the Standards of Review as set forth in Section 11.06.03 of the St. Lucie County Land Development Code and is consistent with the St. Lucie County Comprehensive Plan Goals, Objectives, and Policies. A leading justification for the rezoning is the existing Lucie Rock Mixed Use Activity Area future land use, which allows industrial uses, along with the presence of similar adjacent and nearby industrial uses.

COMMUNITY PARTICIPATION MEETING:
A community meeting was held at the Sunshine Kitchen on March 25, 2026, where the Applicant set up display boards showing future development and answered the questions of attendees.

PLANNING & ZONING COMMISSION:
On April 16, 2026, the Planning & Zoning Commission held a public hearing on the proposal and unanimously voted to forward a recommendation of approval to the Board of County Commissioners. The Commission briefly discussed the development scale and traffic impacts, particularly during construction of the facility – prior to improvements to Orange Avenue and Rock Road associated with the project.

PUBLIC NOTICE:
Notice requirements were met by Planning Staff and the Applicant. The Board's Hearings for these two (2) petitions were noticed by a publication in the St. Lucie News Tribune on April 23, 2026; a sign was placed on the property; and written notice was mailed to owners of property within 500 feet of the subject property.

STAFF RECOMMENDATION:
Staff recommends the Board of County Commissioners evaluate the proposed amendments and approve the requested small scale amendment of the adopted Comprehensive Plan's Future Land Use Element – Future Land Use Map to create a +/- 20.85-acre subarea of the Lucie Rock Mixed Use Activity Area (initially established as an extension of the Mixed Use Orange Avenue/I-95 Activity Area) that would allow an 80-foot building height limit within a Medium Intensity subarea within established Medium and High Intensity Development Areas; and rezoning of +/- 20.25 acres from the IL (Industrial, Light) Zoning District to the IH (Industrial, Heavy) Zoning District.

ORDINANCE No. 2026-14

FILE NO.: FLUMA-2603-000040

AN ORDINANCE OF THE BOARD OF COUNTY COMMISSIONERS OF ST. LUCIE COUNTY, FLORIDA, TO APPROVE A SMALL SCALE AMENDMENT OF THE ADOPTED COMPREHENSIVE PLAN FUTURE LAND USE MAP — TO CREATE A +/- 20.85-ACRE SUBAREA OF THE LUCIE ROCK MIXED USE ACTIVITY AREA (INITIALLY ESTABLISHED AS AN EXTENSION OF THE MIXED USE ORANGE AVENUE/I-95 ACTIVITY AREA) THAT WOULD ALLOW AN 80-FOOT BUILDING HEIGHT LIMIT WITHIN A PORTION OF ESTABLISHED MEDIUM AND HIGH INTENSITY DEVELOPMENT AREAS, LOCATED BETWEEN NORTH ROCK ROAD, NSLRWCD CANAL NO. 41 AND THE RELIEF CANAL AND PROVIDING FOR FINDINGS, CONFLICTING PROVISIONS, SEVERABILITY, APPLICABILITY, FILING WITH THE FLORIDA DEPARTMENT OF STATE, FILING WITH THE FLORIDA DEPARTMENT OF COMMERCE, AN EFFECTIVE DATE, CODIFICATION AND ADOPTION.

WHEREAS, the Board of County Commissioners of St. Lucie County, Florida, based on the testimony and evidence, including but not limited to the staff report, has made the following determinations:

1. On January 9, 1990, the Board of County Commissioners of St. Lucie County adopted the St. Lucie County Comprehensive Plan.

2. The Board of County Commissioners as the governing body of St. Lucie County having jurisdiction over this application pursuant to Chapter 163, Florida Statutes, is authorized and empowered to consider amendment to the adopted Comprehensive Plan of St. Lucie County.

3. A petition was filed by Patti Tobin of HJA Design Studio, on behalf of MC320, LLC, owner of the land subject to the amendment, requesting a Comprehensive Plan Future Land Use Map Amendment (FLUMA) that would create a +/- 20.85-acre subarea of the Lucie Rock Mixed Use Activity Area (initially established as an extension of the Mixed Use Orange Avenue/I-95 Activity Area), an area in which an 80-foot building height limit is set, within the established Medium and High Intensity Development Areas.

4. On April 16, 2026, the St. Lucie County Planning and Zoning Commission acting as the Local Planning Agency held a public hearing, of which due notice was published in the St. Lucie News Tribune, and recommended approval of the proposed amendment to the Board of County Commissioners.

5. On May 5, 2026, the Board of County Commissioners held the required public hearing, of which due notice was placed in the St. Lucie News Tribune, mailed to owners of property within 500ft. and a notice sign posted on the premises, and deemed the adoption of the amendment to the Comprehensive

Plan to be **in/not in** the best interests of the citizens and residents of the County.

NOW, THEREFORE, BE IT ORDAINED by the Board of County Commissioners of St. Lucie County, Florida:

A. ADOPTION OF THE AMENDMENT

The Board of County Commissioners **does/does not** hereby adopt the amendment to the St. Lucie County Comprehensive Plan, attached herein as Exhibit A.

B. FINDING OF CONSISTENCY

The Board of County Commissioners specifically determines that the approval of this amendment to the adopted Comprehensive Plan Future Land Use Element is internally consistent with the goals, objectives and policies contained in the St. Lucie County Comprehensive Plan and provides for the recognition that impacts of this approval on the public facilities of St. Lucie County will not occur until such time as a Final Development Order for development on this property is issued.

C. CHANGES TO THE COMPREHENSIVE PLAN AND FUTURE LAND USE MAP

The St. Lucie County Planning and Development Services Director is hereby authorized and directed to cause these changes to be made in the Future Land Use Element of the St. Lucie County Comprehensive Plan and to make notation of reference to the date of adoption of this Ordinance, upon the effective date.

D. CONFLICTING PROVISIONS

Special acts of the Florida Legislature applicable only to unincorporated areas of St. Lucie County, County Ordinances and County Resolutions, or parts thereof, in conflict with the Ordinance are hereby superseded by this Ordinance to the extent of such conflict.

E. SEVERABILITY

If any portion of this Ordinance is for any reason held or declared to be unconstitutional, inoperative or void, such holding shall not affect the remaining portions of this Ordinance. If this Ordinance or any provisions thereof shall be held to be inapplicable for any person, property, or circumstances, such holding shall not affect its applicability to any other person, property or circumstances.

F. APPLICABILITY OF ORDINANCE

This Ordinance shall be applicable as stated in Paragraph A, B, and C.

G. FILING WITH THE DEPARTMENT OF STATE

The Clerk is hereby directed forthwith to send a certified copy of the Ordinance to the Bureau of Laws, Department of State, The Capitol, Tallahassee, Florida, 32304.

H. FILING WITH THE STATE LAND PLANNING AGENCY

The Planning and Development Services Director shall send a certified copy of the Ordinance to the Department of Commerce, Community Planning and Development Programs, 107 East Madison Street, Caldwell Building, Tallahassee, Florida 32399-4120.

I. EFFECTIVE DATE

This Ordinance shall take effect thirty-one (31) days after the adoption. If the Ordinance is challenged within thirty (30) days after adoption, the Ordinance shall not be effective until the State Land Planning Agency or Administration Commission respectively issues a final order finding the adopted small-scale amendment to be incompliance in accordance with Section 163.3184(10), Florida Statutes.

J. CODIFICATION

This Ordinance, upon its effective date, shall be codified by incorporating any contained changes into the St. Lucie County Comprehensive Plan.

K. ADOPTION.

After motion and second, the vote on this ordinance was as follows:

Jamie Fowler, Chair	XXX
Larry Leet, Vice-Chair	XXX
James Clasby, Commissioner	XXX
Erin Lowry, Commissioner	XXX
Cathy Townsend, Commissioner	XXX

PASSED AND DULY ENACTED this 5th day of May, 2026.

Attest:

_____
Deputy Clerk

Board of County Commissioners
St. Lucie County, Florida

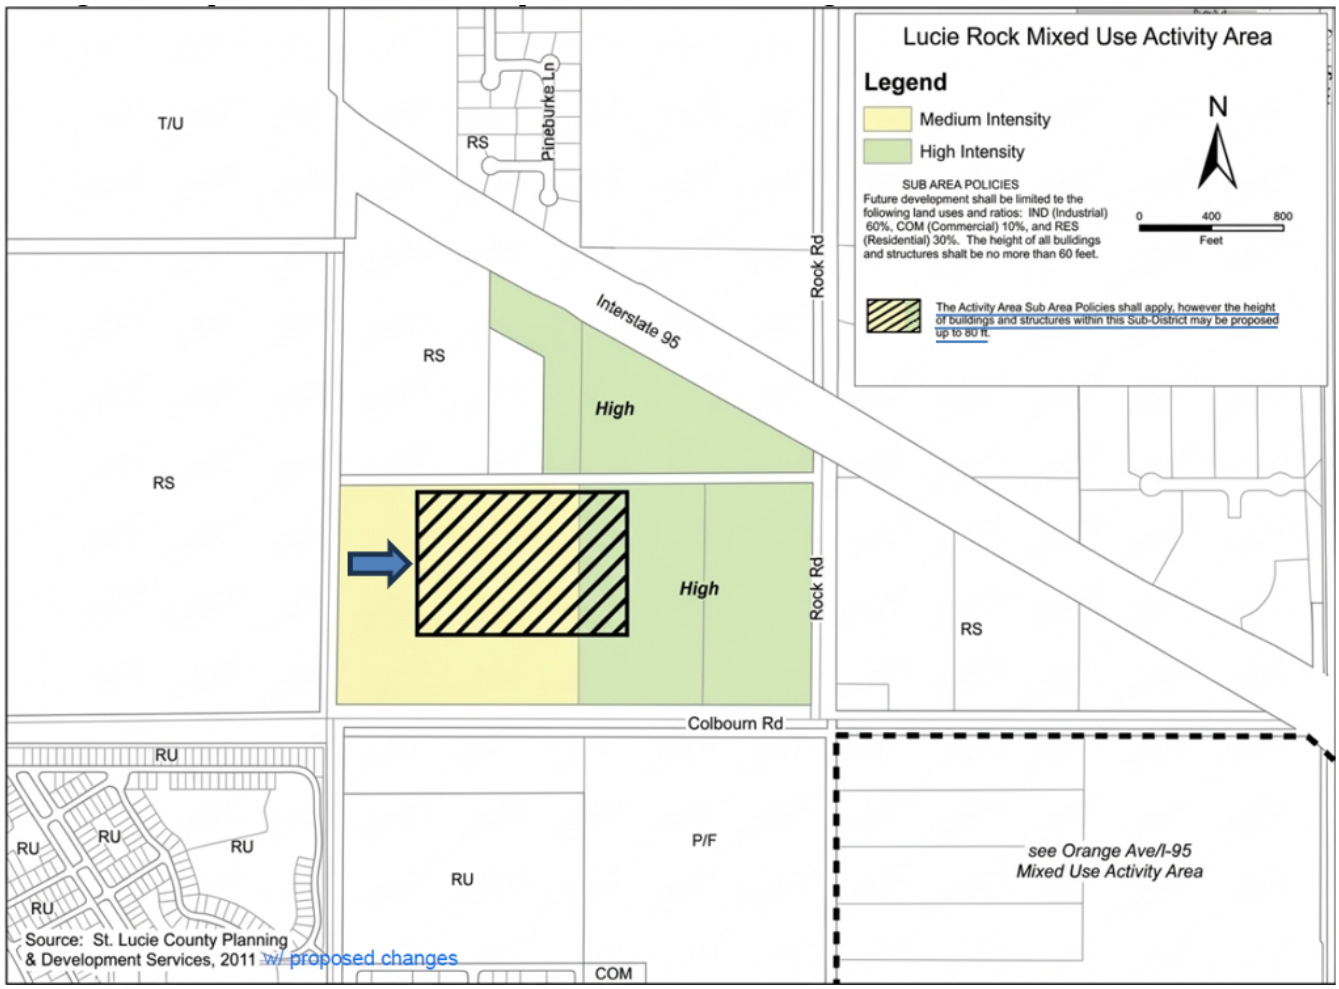
By: _____
Chair

Approved As To Form and Correctness:

By: _____
County Attorney

Exhibit A: Lucie Rock Mixed Use Activity Area Amendment

The Lucie Rock Mixed Use Activity Area is hereby amended, where affecting +/-20.85 acres denoted below, and incorporated into the Comprehensive Plan with the following Area Map and Regulating Standard.



New Text in Legend (Size Increased for Legibility), affecting +/-20.85 acres: **"The Activity Area Sub Area Policies shall apply, however the height of buildings and structures within this Sub-District may be proposed up to 80 ft."**

No other changes proposed.

Exhibit B: Legal Description of Affected Area

DESCRIPTION:

A PORTION OF SOUTH ONE HALF OF THE SOUTHWEST ONE QUARTER OF SECTION 2, TOWNSHIP 35 SOUTH, RANGE 39 EAST, ST. LUCIE COUNTY, FLORIDA, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

COMMENCING AT THE SOUTHWEST CORNER OF SAID SECTION 2; THENCE N00°13'36"E ALONG THE WEST LINE OF THE SOUTHWEST ONE OF SAID SECTION 2, A DISTANCE OF 1,316.05 FEET TO A POINT OF INTERSECTION WITH A LINE LYING 5.00 FEET SOUTH OF AND PARALLEL WITH SAID SOUTH ONE HALF OF THE SOUTHWEST ONE QUARTER OF SECTION 2; THENCE N89°50'57"E ALONG SAID PARALLEL LINE AND THE SOUTH RIGHT-OF-WAY LINE OF SUNNYLAND DRIVE, AS RECORDED IN OFFICIAL RECORD BOOK 3664, PAGE 1430 OF THE PUBLIC RECORDS OF ST. LUCIE COUNTY, FLORIDA, A DISTANCE OF 580.99 FEET; THENCE S00°03'07"E, A DISTANCE OF 69.15 FEET TO THE POINT OF BEGINNING; THENCE N89°56'53"E, A DISTANCE OF 1191.00 FEET; THENCE S00°03'07"E, A DISTANCE OF 762.20 FEET; THENCE S89°53'58"W, A DISTANCE OF 1191.00 FEET; THENCE N00°03'07"W, A DISTANCE OF 763.21 FEET TO THE POINT OF BEGINNING.

CONTAINING 908,379 SQUARE FEET OR 20.854 ACRES, MORE OR LESS.

FUTURE LAND USE ELEMENT
GOALS, OBJECTIVES AND POLICIES

Goal 1.1: Ensure the highest quality living environment possible, through a mixture of land uses reflecting the needs and desires of the local residents and how they want their community to develop. The goal shall be implemented by strictly enforced building, zoning and development codes based on objectives and policies that will enhance St. Lucie County's natural and man-made resources while minimizing any damage or threat of degradation to the health, safety and welfare of the county's citizens, native wildlife and environment, through incompatible land uses.

Objective 1.1.1: *Land Use*. Maintain the Future Land Use Map land with the following use designations to portray the future development patterns of St. Lucie County.

Policy 1.1.1.1 - The following land use designations/intensities, as indicated on the Future Land Use Maps are provided as the pattern for the future development of the area within unincorporated St. Lucie County.

Future Land Use Designation		Residential Density	Max Height[4] (For Buildings)	Max Lot Coverage (For Buildings)
AG-5	Agriculture-5	1 du/5 acres (0.2 du/1 acre)	-	-
AG-2.5	Agriculture-2.5	1 du/2.5 acres (0.4 du/1 acre)	-	-
RE	Residential Estate	1 du/a acre	-	-
RS	Residential Suburban	2 du/1 acre	-	-
RU	Residential Urban	5 du/1 acre	-	-
RM	Residential Medium	9 du/ 1 acre	-	-
RH	Residential High	15 du/ 1 acre	-	-
R/C	Residential/Conservation	1 du/5 acres (0.2 du/1 acre)	-	-
Cpub	Conservation-Public	0 du[1]	20 ft	5-10%
COM	Commercial	0 du[1,5]	60 ft[3]	40—50%
IND	Industrial	0 du[1]	80 ft	40—50%
P/F	Public Facilities	0 du[1]	80 ft	40—50%
T/U	Transportation/Utilities	0 du[1]	40 ft[6]	40—50%
MXD	Mixed Use Development	0.2-15 du/acre[2,5]	80 ft	40—50%
H	Historic	0 du[1]	40 ft	40—50%
SD	Special District	0.2-15 du/acre	80 ft	40—50%
TVC	Towns, Villages, & Countryside	Variable pursuant to special areas plan. See TVC Element Goals, Objectives, and Policies. 1-9 du/acre	-	-

Notes:	
1	Residential uses permitted under specific conditions only. Refer to Zoning/Land Development Code for special restrictions in individual zoning districts.
2	Maximum Densities subject to compliance with intensity with intensity plans for each mixed use area, as set forth in Policy 1.1.8.4
3	For motel or hotel uses, the building spacing formula as identified in the Land Development Code shall be used to establish maximum building height, unless otherwise stipulated in the Hutchinson Island Building Height Overlay Zone section of the Land Development Code, or unless otherwise restricted by Code or Ordinance of the County.
4	Unless otherwise stipulated in the Hutchinson Island Height Overlay Zone section in the Land Development Code
5	Motels/hotels shall be allowed up to 36 units/acre.
6	The height of the Treasure Coast Airport shall be regulated by the Airport Zone Height Limitations established in Section 4.00.03, of the Land Development Code, as reviewed and approved by the Federal Aviation Administration (FAA).

and restrictions as set forth in the Land Development Code.

Medium density residential land uses can act as a transition between the lower intensity RU areas and the more intense land use designations. Zoning applications within the RM land use area include single-family, multifamily, or PD zoning.

G. Residential High (RH)
Areas designated Residential High (RH) are intended to accommodate high density development, not to exceed 15 dwelling units per gross acre. In order to develop at this intensity, it must be possible to connect into a central water and wastewater service facility, and the subject property must be located in an area of the County which has available all urban services and facilities including fire protection, police, recreation, roadways, and schools.

Limited nonresidential uses may be appropriate, in accordance with applicable standards and restrictions as set forth in the Land Development Code.

H. Mixed Use Development (MXD)
The intent of the Mixed Use Development (MXD) designation is to identify those areas where innovative land use concepts are encouraged. Application of this district should be with prudence, and should be only to those areas where traditional land use classifications do not afford the desired flexibility and community input in land use planning necessary to address local concerns. Candidates for this district include all I-95 interchange areas, the Treasure Coast International Airport, Community Development Districts created pursuant to Chapter 190, Florida Statutes and areas of special or unique environmental consideration that may not be appropriate for traditional land use designations.

Uses within the areas classified as Mixed Use should be segregated as to intensity and indicated in the form of a concept master plan which is to be included as a part of the land use designation process. The following criteria, in addition to those as cited in Objective 1.1.7 (PUD, PNRD & PMUD), are to be used in the development of Mixed Use areas:

- Unless otherwise compliant with the identified intensity classification, any change in zoning shall be to the Planned Unit Development (PUD), Planned Non-Residential Development (PNRD) or Planned Mixed Use Development (PMUD), as described in the St. Lucie County Land Development Code. Those properties with compatible existing zoning designations are encouraged to develop under the PUD, PNRD or PMUD regulations.
- Residential development shall be regulated by the intensity district in which it is to take place. In no case should gross residential density exceed 15 du/ac.
- All uses shall be compatible with adjacent land uses.

I. Special District (SD)
The intent of the Special District (SD) designation is to identify those areas where specific uses or combinations of uses are anticipated. SD designated areas include previously approved Community Development Districts, areas for which a site specific development plan or concept has been granted, or areas which by their location have specific issues and concerns for their development.

Residential densities within an area designated as a Special District are limited to what the current land use designation authorizes. Any increase over the present designation may be considered only through the Plan Amendment process.

Policy 1.1.8.4 - The following use density and intensity standards shall be used for the purpose of this plan for the Mixed Use activity areas:

1. *High* Intensity development areas may include the following types of land uses:	
Residential	5 to 15 du/acres
Institutional	1.5 FAR *
Professional Service/Office	1.5 FAR *
General Commercial	1.0 FAR *
Public Service/Utility	0.5 FAR *
Industrial	0.75 FAR *
* FAR = Floor Area Ratio	
2. *Medium* Intensity development areas may include the following types of land uses:	
Residential	5 to 9 du/acres
Institutional	1.0 FAR *
Professional Service/Office	1.0 FAR *
General Commercial	0.75 FAR *
Public Service/Utility	0.25 FAR *
Industrial	0.5 FAR *
* FAR = Floor Area Ratio	
3. *Low* Intensity development areas may include the following types of uses:	
Residential	not to exceed 5 du/acres
Institutional	0.5 FAR *
Professional Service/Office	0.5 FAR *
General Commercial	0.5 FAR *
Public Service/Utility	0.25 FAR *
Industrial	0.5 FAR
* FAR = Floor Area Ratio	
4. Specific Use Areas: Areas with special or unique local character may be included within the Mixed Use Designation. These areas, because of conditions unique or peculiar to them alone, have been limited to specific activities and zoning options as set forth in the activity area plans described in Policy 1.1.8.3. Any zoning application not consistent with this policy must be accompanied by a corresponding Comprehensive Plan Amendment indicating the change in intensity classification.	
Application of the Specific Use Area designation is to be made to those areas recognized by the County as suitable for alternative land use as the full spectrum of community services become available. This designation would serve to prevent the unplanned or premature development of such areas until all services were provided for and are consistent with the Future Land Use development philosophy of St. Lucie County.	
The terminology used in the Specific Use designation identifies the type of permitted activity, maximum zoning density or maximum zoning intensity. Each Mixed Use Activity area will identify the type of Special Use areas in the legends of each area.	
Industrial and Professional Service/Office uses may receive an intensity bonus of up to 100% of the FAR, within specific use areas served by Strategic Intermodal System (SIS) facilities operating at or above the adopted level of service (LOS) and with available water service and wastewater service.

		Description of Specific Use if "Other":			
Proposed Future Land Use:	Amending the Lucie Rock Mixed Use Activity Area to	Are any other applications being submitted?	Yes	Please indicate the type submitted:	Rezoning Conditional Use Site Plan - Major Development Agreement
Existing Improvements	vacant, former citrus grove	Proposed use of amendment lands:	Window manufacturer	Reason for making this request:	To allow for a small area of the building to exceed the 60-foot height limitation in the

	Lucie Rock Mixed Use Activity Area.	Conforms to the SLC Comprehensive Plan	The proposed amendment conforms to the SLC Comprehensive Plan and its goals, objectives and policies.	Amendment Lands	The +/-20 acres is part of a 92-acre planned industrial development known as Lucie Rock Mixed Use Activity Area.
Land Use Policy	a. Properties on the north have IH and IX future land use and the properties to the southeast a IH future land use designation. b. No, but all utilities except electric (FPL) are to be provided by Fort Pierce Utilities Authority.	Amendment Lands2	This property was changed from RS (Residential Suburban) to MXD - Orange Avenue (Mixed Use Development-Orange Avenue/I-95 Activity Area) in 2004. This is changing +/-20 acres of the 92 acre MXD from IL to IH.	Orderly and Logical	The change to IH for the 8.527 acres is needed to allow for small segments of the proposed building to exceed the 60-foot maximum height limitations of the IL zoning district.
Industrial Land Use	No native vegetation or wetlands exists on the property.	Traffic Report	Traffic Impact Analysis has previously been provided to the County for review by a 3rd party.	Drainage Characteristics	The proposed project will construct a stormwater management area that will consist of a series of interconnected dry retention and wet retention areas with associated underground piping and storm structures. The new system will maintain the general existing drainage patterns of the site. The new system will provide treatment and attenuation of stormwater runoff in accordance with St. Lucie County and South Florida Water Management District prior to discharging to the North St. Lucie water Control District Canal 44 located on the southern boundary of the site. This will include a net improvement for the average annual loads of nitrogen and phosphorus. The post-development peak discharge rate shall be no greater than the pre-development conditions. No off-site flows are taken into account onsite at this time.
Environmental Impacts	No protected species or wetlands were identified in the environmental review.	Capacity Analysis	The applicant is working with FPUA on the impacts to their supply. Their correspondence is an attachment to this file.	Solid Waste	This change in land use will not change the volumes of solid waste.
Recreational Facilities	N/A	Historic Resources	No known archeological or historic resources occur on or near the lands being amended.	Planned Urban Service Area	Yes
Contiguous Properties	N/A	Agricultural Category Change	N/A	Unique Area	N/A

INTRODUCTION

Kimley-Horn and Associates, Inc. has been retained to conduct a traffic impact analysis for the Project Orchid site. The site is located on the west side of Rock Road, north of Orange Avenue, in St. Lucie County, Florida. The proposed project would develop the vacant site into a 1,444,000 square-foot manufacturing facility, with a mix of foundry, warehouse, and office uses to support the production of goods. **Figure 1** illustrates the site location and project trip assignment, which is reflective of a Treasure Coast Regional Planning Model (TCRPM) run to determine the site's distribution. The project site plan is included in Appendix A.

This document presents the methodology used and the findings of the traffic impact analysis. The analysis was conducted in accordance with the requirements published by the St. Lucie County TPO in the document, *Standardized Traffic Impact Studies (TIS) Methodology and Procedures.* A buildout year of 2031 was analyzed for the proposed development.

PROJECT TRAFFIC

Project traffic used in this analysis is defined as the vehicle trips expected to be generated by the project, and the distribution and assignment of that traffic over the study roadway network.

Existing and Proposed Land Uses

The site is currently vacant and is proposed to be developed with 1,444,000 square feet of manufacturing use.

Trip Generation

The trip generation potential for the proposed development program was calculated using trip generation rates and equations published by the Institute of Transportation Engineers' (ITE) *Trip Generation Report, 12th Edition*. As indicated in Table 1, the proposed development is projected to generate 6,166 net new external daily trips, 736 net new external AM peak hour trips (+552 inbound, +184 outbound), and an additional 910 net new external PM peak hour trips (+264 inbound, +646 outbound).

Table 1: Trip Generation Calculations

Source	Land Use	ITE Code	Intensity	Daily Trips	AM Peak Hour			PM Peak Hour		
					Total	In	Out	Total	In	Out
Proposed Scenario										
ITE	Manufacturing	140	1,444.000 ksf	6,166	736	552	184	910	264	646
Driveway Volumes				**6,166**	**736**	**552**	**184**	**910**	**264**	**646**
Net New External Trips				**6,166**	**736**	**552**	**184**	**910**	**264**	**646**
Proposed - Existing Net New Traffic				**6,166**	**736**	**552**	**184**	**910**	**264**	**646**
Radius of Development Influence:				**3 miles**						

Source	Land Use	Daily	AM Peak Hour	PM Peak Hour	Avg. Pass By
ITE	Manufacturing	4.27 trips/ksf	0.51 trips/ksf (75% in, 25% out)	0.63 trips/ksf (29% in, 71% out)	0.0%

Traffic Distribution and Assignment

Based on the St. Lucie County Standardized Traffic Impact Studies (TIS) Methodology and Procedures, the radius of development influence is 3 miles. Traffic distribution is the pairing of trip ends from the subject site with other land uses in the area. A projected traffic distribution was developed using Treasure Coast Regional Planning Model, Version 5 (TCRPM5) modeled distributions.

Figure 1 illustrates the proposed roadway link assignment. Using these percentages, project traffic was then assigned to the surrounding roadway network projected to be in place by 2031.

SIGNIFICANCE CALCULATIONS AND LINK ANALYSIS

The study roadway links were defined as the roadways upon which the project traffic has an impact of 5% or higher of the level of service capacity of the roadway links which are not directly accessed by the project and 1% or higher of the level of service capacity of the directly accessed roadway links. Significance was determined on a peak hour, peak direction (PHPD) basis using the project's PM peak hour outbound trips because this represents the highest trip generation on a PHPD basis. Existing traffic volumes were obtained from the *St. Lucie County Traffic Counts and Level of Service Report* for 2025 and FDOT count stations. For links on which capacity was not published in the *St. Lucie County Traffic Counts and Level of Service Report*, facility capacity was obtained from FDOT 2023 Quality Level of Service Handbook. **Table 2** summarizes the project percent impact as a percentage of the service volume capacity for the PM peak hour. As shown in **Table 2**, the following roadway links were determined to be significantly impacted by project traffic:

- Orange Avenue – From Rock Road to Kings Highway
- Orange Avenue – From Kings Highway to I-95
- Orange Avenue – From I-95 to Jenkins Road
- Kings Highway – From Picos Road to Orange Avenue
- Kings Highway – From Orange Avenue to Angle Road
- Kings Highway – From Angle Road to St. Lucie Boulevard
- Kings Highway – From St. Lucie Boulevard to Indrio Road
- Graham Road – From Kings Highway to Jenkins Road
- Rock Road – From Orange Avenue to Project Driveway

Therefore, further capacity analysis is required on these roadway links.

Capacity Analysis

The future traffic volumes on each significantly impacted roadway identified in **Table 2** were evaluated based on capacities established in Table 2. Existing traffic volumes were obtained from the *St. Lucie County LOS Report* for 2025 and FDOT count stations. In order to grow existing volumes for future background conditions, the greater of two volumes was added:

- A two and one half percent (2.5%) growth rate compounded annually.
- A one percent nominal growth rate compounded annually, in addition to traffic from committed projects in the surrounding area.

Table 3 summarizes the capacity analysis on these significantly impacted links on a peak hour, peak directional basis. Because the project's PM peak hour outbound trips represent the peak hour, peak direction of the proposed development, these trips were utilized in the roadway link analysis.

*Count data at the intersection of Rock Road & Orange Avenue used.

As shown in **Table 3**, Orange Avenue from Rock Road to Kings Highway is projected to be over capacity with the addition of project traffic. This facility will require the following improvements to meet the adopted LOS D standards:

- Widening of Orange Avenue from Rock Road to Kings Highway from 2L to 4L.

Therefore, the proposed development is responsible for the proportionate share of these improvements. To determine the percentage the proposed development is responsible for, the following methodology was followed:

- Project Traffic along Orange Avenue from Rock Road to Kings Highway:
  - Eastbound: 627 vehicles
  - Westbound: 256 vehicles
- Current Capacity of the Roadway Segment
  - Directional: 1,070 vehicles
  - Two-way: 1,950 vehicles
- Capacity of 4L Undivided Segment
  - Directional: 2,765 vehicles
  - Two-way: 5,026 vehicles
- **Proportionate Share Calculation 1**: (627+256) / (5,026-1,950) = **29%**
- **Proportionate Share Calculation 2**:
  - Eastbound: Full cost
  - Westbound (AM Peak Hour): (1255-1070) / (2,765 – 1,070) = 11%
  - Total proportionate share of improvement: **56%**

Two calculations were performed to determine the proportionate share of the improvements attributable to the proposed development. The first calculation evaluated project-generated trips during the PM peak hour in the eastbound and westbound directions and divided them by the increase in two-way roadway service capacity, resulting in a proportionate share of 29% for the roadway widening.

The second calculation considered the full cost of improvements in the eastbound direction while determining the share for the westbound approach. AM peak hour westbound project trips were added to projected future volumes in the westbound direction and compared to the existing directional roadway service capacity; this difference was then divided by the increase in service capacity needed to determine the proportionate share. This resulted in 11% for the westbound approach, which, when combined with the full cost of the eastbound direction, yields a total proportionate share of 56% for the conversion from a two-lane roadway to four lanes.

Therefore, the proportionate share of improvements attributable to the proposed development is 56% of the road widening of Orange Avenue from Rock Road to Kings Highway from a 2-lane roadway to a 4-lane roadway.

INTERSECTION ANALYSIS

Operation conditions at the following intersections were analyzed using *Synchro 12* software and the *HCM 2000* Edition methodology [(1)]:

- Kings Highway & Orange Avenue
- I-95 Northbound Ramps & Orange Avenue
- I-95 Southbound Ramps & Orange Avenue
- Jenkins Road & Orange Avenue
- Kings Highway & Okeechobee Boulevard
- Rock Road & Orange Avenue
- Kings Highway & Angel Road
- Kings Highway & St Lucie Boulevard
- Kings Highway & Graham Road

(1) ***HCM 2000 Edition was used for this analysis since there were several intersections that had nonstandard phasing which cannot be analyzed by HCM 7th Edition methodology.***

Data Collection

Baseline traffic counts were collected during the AM peak period (7:00 AM – 9:00 AM) and the PM peak hour (4:00 PM – 6:00 PM) at the studied intersections. The turning movement counts were collected on February 3, 2026, March 27, 2025, September 3, 2025, January 14, 2026, March 11, 2026, and March 24, 2026. Turning movement counts for the following intersections were taken from the Hope Commercial traffic study:

- I-95 Northbound Ramps & Orange Avenue
- I-95 Southbound Ramps & Orange Avenue

Existing Conditions:

This analysis scenario provides a baseline evaluation of current conditions, based upon traffic volume data collected at the study intersections. Existing counts collected outside of peak season have been adjusted for peak season using Peak Season Correction Factors (PSCF) published by FDOT. The existing volumes used in the analysis are shown in **Figure 2**.

Future Background Conditions (2031)

This analysis scenario includes the baseline traffic volumes adjusted to future year conditions without the project by applying the greater of two options:

- An annually compounding background growth rate of 2.5% ***or***
- A one percent (1%) nominal growth rate compounded annually, in addition to committed traffic in the surrounding area.

The future background condition volumes are shown in **Figure 3**.

Future Total Conditions (2031)

This analysis scenario uses the Future Background Conditions (2031) volumes as a baseline and adds new project traffic generated by the proposed development. The Future Total Conditions (2031) volumes assume an estimated fully built out condition in the year 2031. The net change in trip generation potential that was calculated for the site was distributed across the transportation network using the trip distribution illustrated in **Figure 4**. The resulting project traffic volumes are shown in **Figure 5**. **Figure 6** illustrates the resulting Future Total volumes.

Synchro summaries for Existing Conditions, Future Background Conditions (2031), and Future Total Conditions (2031) are shown in **Table 4, Table 5**, and **Table 6,** respectively.

As shown in the tables, the following intersections operate at LOS E and F during the peak hours under future total conditions:

- Kings Highway & Orange Avenue (LOS F - AM and PM peak hours)
- Kings Highway & Okeechobee Boulevard (LOS E – AM and PM peak hours)
- Rock Road & Orange Avenue (LOS F – AM and PM peak hours)
- Kings Highway & Angle Road (LOS F – AM and PM peak hours)
- Kings Highway & Graham Road (LOS F – AM and PM peak hours)

Signalization at the intersection of Rock Road & Orange Avenue is recommended based on the anticipated delays associated with the southbound movements.

The deficiencies at the intersections of Kings Highway & Orange Avenue, Kings Highway & Okeechobee Boulevard, Kings Highway & Angle Road, and Kings Highway & Graham Road are projected to occur under background conditions without the addition of project traffic.

According to Florida State Statute 163.3180, because the facility identified on the page exceeds its respective threshold under background conditions, and because the improvements required to address future background conditions will also provide sufficient capacity for the proposed project traffic, the project is not responsible for the proportionate share of these improvements.

Signal optimization can be performed at the intersection of Kings Highway & Orange Avenue, Kings Highway & Okeechobee Boulevard, and Kings Highway & Angle Road to reduce delays. **Table 7** shows the results of the signal optimization at these intersections.

Signalization at Rock Road and Orange Avenue

As previously mentioned, signalization of the intersection of Rock Road & Orange Avenue is recommended based on the anticipated delays under two-way stop control conditions. A signal warrant analysis was conducted at this intersection and is summarized later in this report. Operational conditions at the intersection of Rock Road & Orange Avenue were analyzed under signalized conditions utilizing *Synchro 12* software and the *HCM 2000* Methodology.

It should be noted that, in order for the intersection to operate acceptably, the following improvements will be needed:

- Construction of an eastbound left-turn lane
- Construction of a southbound left-turn lane
- Restriping second southbound lane as a shared left/through/right turn lane
- Construction of an additional eastbound receiving lane on Orange Avenue
- Installation of a traffic signal

Table 8 summarizes the Synchro summary for the Rock Road & Orange Avenue intersection under signalized conditions. As shown in the table below, the intersection of Rock Road & Orange Avenue is anticipated to operate at LOS B and C during the AM and PM peak hour, respectively.

Table 8: Signalization at Rock Road & Orange Avenue Synchro Summary

#	Intersection	Control Type	Movement	AM Peak Hour		PM Peak Hour	
				Delay (s)	LOS	Delay (s)	LOS
6	Rock Road & Orange Avenue	Signalized	EB	24.4	C	32.7	C
			WB	9.9	A	20.5	C
			NB	37.3	D	40.9	D
			SB	32.3	C	34.1	C
			Overall	**17.5**	**B**	**28.7**	**C**

95th Percentile Queues

As requested, a 95th percentile queue analysis was conducted to evaluate the required storage lengths for the eastbound left turn lane and the westbound right turn lane at the intersection of Rock Road & Orange Avenue. *Synchro 12* software and the *HCM 2000* methodology were used to determine the results of the analysis. **Table 9** summarizes the future total queue lengths at Rock Road & Orange Avenue. As shown in the following table, the 95th percentile eastbound left-turn queue is anticipated to be 18 feet, and the 95th percentile westbound right-turn lane queue is anticipated to be 25 feet.

Table 9: Turn Lane Length Evaluation at Orange Avenue & Rock Road

#	Intersection	Movement	Storage	Future - Build	
				95th Percentile Queue (AM) (feet)	95th Percentile Queue (PM) (feet)
6	Rock Road & Orange Avenue	EBL	-	17	13
		WBL	-	38	20
		WBR	110	22	25
		SBL	-	154	538

Turn Lane Length Evaluation

A review of the turn lane lengths at the intersection of Rock Road & Orange Avenue was conducted to determine the recommended turn bay lengths for the eastbound left-turn lane and the westbound right-turn lane. As previously mentioned, the 95th percentile queue anticipated for the westbound right-turn lane is 25 feet, and the 95th percentile eastbound left-turn lane queue is 17 feet.

Guidance on deceleration lane length is provided in Chapter 212 of the FDOT Design Manual. The posted speed limit along Orange Avenue is 45 miles per hour. As outlined in Exhibit 212-1 of the FDOT Design Manual, the total deceleration length for a design speed of 45 miles per hour is 185 feet, plus the queue length. To account for heavy vehicle traffic, it is recommended that a queue length of 60 feet be added to the deceleration length, although the 95th percentile queues were lower.

Therefore, it is recommended that the eastbound left-turn lane and the westbound right-turn lane have a total length of 245 feet, consisting of 195 feet of storage and 50 feet of transition each.

SITE CIRCULATION AND TURN LANE REQUIREMENTS

Future total driveway volumes were determined by applying the distribution referenced in **Figure 1** to the proposed future trip generation potential of the site. The resulting driveway trip assignment is shown in **Figure 7** while driveway volumes are illustrated in **Figure 8.** Access to the site is proposed via two driveway connections along Rock Road.

Driveway	Location	Description
Driveway 1	Rock Road	Full-Access
Driveway 2	Rock Road	Full-Access

Turn Lane Analysis

The proposed driveway connections were subject to turn lane analysis using information in the FDOT *Multimodal Access Management Guidebook* as a reference.

Driveway 1: Left-Turn Lane Evaluation

The FDOT *Multimodal Access Management Guidebook* provides guidance related to left turn lanes at unsignalized intersections and driveways. These standards are based on the National Cooperative Highway Research Program (NCHRP) Report 457. Future Total Conditions (2031) volumes were compared to Figure 2-5a of the NCHRP Report 457. The results of the analysis are shown below:

Driveway 1 Northbound Left Turn Lane (AM Peak Hour)

Following are the parameters for analysis for this turn lane:

- Opposing Volume: 83 vehicles/hour
- Advancing Volume: 552 vehicles/hour
- Left Turn Percentage of Advancing Volume: 55%
- Speed Limit of Major Road: 25 miles per hour

Comparing the results with Figure 2-5a of the NCRHP Report 457, the plotted point for the left-turn volume is above the reference curve, therefore, a northbound left turn lane is warranted at this driveway.

Driveway 2: Left-Turn Lane Evaluation

The FDOT *Multimodal Access Management Guidebook* provides guidance related to left turn lanes at unsignalized intersections and driveways. These standards are based on the National Cooperative Highway Research Program (NCHRP) Report 457. Future Total Conditions (2031) volumes were compared to Figure 2-5a of the NCHRP Report 457. The results of the analysis are shown below:

Driveway 2 Northbound Left Turn Lane (AM Peak Hour)

Following are the parameters for analysis for this turn lane:

- Opposing Volume: 0 vehicle/hour
- Advancing Volume: 248 vehicle/hour
- Left Turn Percentage of Advancing Volume: 100%
- Speed Limit of Major Road: 25 miles per hour

Comparing the results with Figure 2-5a of the NCRHP Report 457, the plotted point for the left-turn volume is below the reference curve, therefore, a left turn lane is not warranted at this driveway.

SIGNAL WARRANT ANALYSIS

An analysis of signal warrant criteria at the intersection of Rock Road & Orange Avenue was performed to evaluate future traffic projections on the approaches of Rock Road & Orange Avenue with respect to applicable signal warrant criteria.

Existing Conditions

The intersection of Rock Road & Orange Avenue currently operates as a four-legged unsignalized intersection. The major street, Orange Avenue, is a 2-lane undivided east/west roadway with a posted speed limit of 45 miles per hour. The minor street, Rock Road, is a 2-lane undivided north/south roadway with a posted speed limit of 25 miles per hour.

Data Collection

12-hour continuous roadway count data were collected at the intersection of Rock Road & Orange Avenue on Wednesday, January 14, 2026, on all approach legs of the intersection.

Future Total Conditions (2031) Volume Development

Roadway count data at the intersection of Orange Avenue & Rock Road were not taken during the peak season and therefore a peak season correction factor of 1.10 was applied. These volumes were then grown to reflect year 2031 background conditions using a nominal 2.5% growth rate compounded annually.

Signal Warrant Analysis

To perform the analyses, the volume warrant criteria contained in Chapter 4C of the 2009 *Manual on Uniform Traffic Control Devices*, *11th Edition* (MUTCD) were considered.

A two-lane approach was assumed for the major street (Orange Avenue) approach and the minor street (Rock Road) for the purposes of comparison to the warrants contained in the *MUTCD*. For this analysis, right turn volumes were adjusted by a 50% reduction. Warrants applicable for use at this location were identified.

The analysis indicates that the criteria for warrant 1B and 2 are satisfied and therefore signalization of the intersection of Rock Road & Orange Avenue is warranted. Signal warrant summary forms are included in Appendix I for reference.

CONCLUSION

Kimley-Horn and Associates, Inc. has been retained to conduct a traffic impact analysis for the Project Orchid site. The site is located on the west side of Rock Road, north of Orange Avenue, in St. Lucie County, Florida. The proposed project would develop the vacant site into 1,444,000 square feet of Manufacturing facility, with a mix of foundry, warehouse, and office uses to support the production of goods. The proposed buildout date is the end of 2031.

Based on the results of the traffic impact analysis, the roadway segment of Orange Avenue from Rock Road to Kings Highway is anticipated to be overcapacity due to the addition of project traffic. The roadway segment will require widening from a 2L facility to a 4L undivided facility. A calculation was performed to determine the development's proportionate share of the widening. The calculation indicated that the proposed development would be responsible for 56% of the costs to widen the roadway from 2L facility to 4L undivided facility.

Operational conditions at the study intersections indicated that the study intersections will operate acceptably with addition of project traffic with the exception of Kings Highway & Orange Avenue, Kings Highway & Okeechobee Boulevard, Rock Road & Orange Avenue, Kings Highway & Angle Road, and Kings Highway & Graham Road. The deficiency at the intersections of Kings Highway & Orange Avenue, Kings Highway & Okeechobee Boulevard, Kings Highway & Angle Road, and Kings Highway & Graham Road are projected to occur under background conditions without the addition of project traffic and therefore are not due to the addition of traffic from the development.

The intersection of Rock Road & Orange Avenue will operate acceptably with the following recommended improvements:

- Construction of an eastbound left-turn lane (245 feet)
- Extension of the existing westbound right-turn lane to 245 feet
- Construction of a southbound left-turn lane (650 feet)
- Restriping second southbound lane as a shared left/through/right turn lane
- Construction of an additional eastbound receiving lane on Orange Avenue
- Installation of a traffic signal

An analysis of signal warrant criteria at the intersection of Rock Road & Orange Avenue was performed to evaluate future traffic projections on the approaches of Rock Road & Orange Avenue with respect to applicable signal warrant criteria. The analysis indicates that the criteria for warrant 1B, and 2 are satisfied upon buildout of the project and therefore signalization of the intersection of Rock Road & Orange Avenue is warranted.

Access to the site is proped via two driveways on Rock Road. The proposed driveway connections were subject to turn lane analysis using information in the FDOT Multimodal Access Management Guidebook as a reference. The analysiis indicated that Driveway 1 is anticipated to require a northbound left-turn lane.

* **NOTE:** A six digit number in the "STATION ID" column identifies segment counted by FDOT.
Peak hour data is not available for locations on State roads due to differences in data availability, LOS Methodologies, and service level thresholds.
Please refer to FDOT sources for detailed data on FDOT traffic counts.

* Volumes shown were adjusted using FDOT Seasonal Factors
* AADT = Annual Average Daily Traffic (volumes for both directions where applicable)

* **NOTE:** If the Last Count Year is older than the year of the report, the AADT is projected from historical traffic count data.

* **NOTE:** A six digit number in the "STATION ID" column identifies segment counted by FDOT.
Peak hour data is not available for locations on State roads due to differences in data availability, LOS Methodologies, and service level thresholds.
Please refer to FDOT sources for detailed data on FDOT traffic counts.

* Volumes shown were adjusted using FDOT Seasonal Factors
* AADT = Annual Average Daily Traffic (volumes for both directions where applicable)

* **NOTE:** If the Last Count Year is older than the year of the report, the AADT is projected from historical traffic count data.

TRAFFIC IMPACT ANALYSIS

PREPARED FOR:
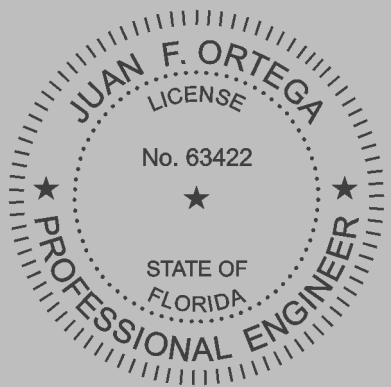
DREAM FINDERS HOMES, LLC

Prepared by:

JFO GROUP INC
COA Number 32276
6671 W Indiantown Road
Suite 50-324
Jupiter, FL 33458



June 14, 2024

This item has been electronically signed and sealed by Dr. Juan F. Ortega, PE on June 14, 2024, using a Digital Signature. Printed copies of this document are not considered signed and sealed and the signature must be verified on any electronic copies.

2. TRIP GENERATION

Project traffic potentially generated by the proposed project was calculated using the Institute of Transportation Engineers (ITE) publication *Trip Generation Manual, 11th Edition*. When fitted curve equations were not available, weighted average rates were used. Similarly, when data plots had at least 20 data points and a fitted curve equation with an R^2 of at least 0.75, fitted curve equations were used. Exhibit 3 includes an excerpt from the ITE Trip Generation manual for the trip generation rates used in this analysis.

Table 1 shows the rates used in order to determine the trip generation for Daily, AM, and PM peak hour conditions. As part of a conservative analysis and for simplification purposes, no traffic credit was taken for vested uses on the subject site.

Table 1: Trip Generation Rates

Land Use	ITE Code	Daily	AM Peak Hour			PM Peak Hour		
			In	Out	Total	In	Out	Total
Single Family Detached	210	LN(T)=0.92 LN(X)+2.68	26%	74%	LN(T)=0.91 LN(X)+0.12	63%	37%	LN(T)=0.94 LN(X)+0.27
Townhomes	220	T = 6.41(X) + 75.31	24%	76%	T = 0.31(X) + 22.85	63%	37%	T = 0.43(X) + 20.55

According to Table 2, the net Daily, AM and PM peak hour trips potentially generated due to the planned development are 3,367, 215 (54 In/161 Out) and 282 (178 In/104 Out) trips respectively.

Table 2: Trip Generation

Land Use	Intensity	Daily Traffic	AM Peak Hour			PM Peak Hour		
			In	Out	Total	In	Out	Total
Single Family	130 DUs	1,285	25	70	95	80	47	127
Townhomes	313 DUs	2,082	29	91	120	98	57	155
Net Proposed Traffic		***3,367***	***54***	***161***	***215***	***178***	***104***	***282***

MEMORANDUM

TO: St. Lucie County Growth Management

FROM: William Blazak, Sr. Project Manager

DATE: April 2006

Re: Traffic Impact Report

The following Traffic impact report was prepared for the Creekside PUD. The Creekside Addition will utilize the same entrances as previously approved with the Creekside PUD.

It is important to note that the Traffic Impact Report recognizes the 40 additional units that the Creekside Addition will add to the already approved Creekside PUD.

The 40 additional units were openly discussed with the Board of County Commissioners, St. Lucie County Road and Bridge Department and the Growth Management Division with all in agreement that the Creekside PUD with a total of 840 units, complied with concurrency requirements with regard to traffic impacts.

TRIP GENERATION

Trip generation is based on Institute of Transportation Engineering's (ITE) manual, *Trip Generation Manual (11th Edition)*.

Proposed Use

- 955 dwelling units (DU) Single Family Detached (ITE Land Use 210)
- 758 dwelling units (DU) Multi-family Housing (Low-Rise) (ITE Land Use 220)

The proposed development will generate the following net new external and cumulative driveway trips:

- 12,979 daily, 839 AM peak hour (207 in/632 out), and 1,175 PM peak hour (740 in/435 out) trips.

Table 1 presents the project's trip generation.

Table 1. Trip Generation

Land Use	Intensity		Daily Trips	AM Peak Hour			PM Peak Hour		
				Total	In	Out	Total	In	Out
Proposed Traffic									
Single Family Detached	955	DU	8,045	581	145	436	829	522	307
Multi-family Housing (Low-rise)	758	DU	4,934	258	62	196	346	218	128
NET CHANGE IN TRIPS (FOR THE PURPOSES OF CONCURRENCY)			**12,979**	**839**	**207**	**632**	**1,175**	**740**	**435**
NET CHANGE IN DRIVEWAY VOLUMES			**12,979**	**839**	**207**	**632**	**1,175**	**740**	**435**

Note: Trip generation was calculated using the following data:

Land Use	ITE Code	Unit	Daily Rate	Pass-by Rate	AM Peak Hour		PM Peak Hour	
					in/out	Rate	in/out	Equation
Single Family Detached	210	DU	Ln(T) = 0.92 Ln(X) + 2.68	0%	25/75	Ln(T) = 0.91 Ln(X) + 0.12	63/37	Ln(T) = 0.94 Ln(X) + 0.27
Multi-family Housing (Low-rise)	220	DU	T = 6.41(X) + 75.31	0%	24/76	T = 0.31(X) + 22.85	63/37	T = 0.43(X) + 20.55

TRAFFIC ASSIGNMENT

The distributed net proposed trips for the project were assigned to the roadway network within the radius of influence. The project assignments are illustrated in Figure 3A and Figure 3B for Scenarios 1 and 2, respectively. Figure 3C (Scenario 1) shows the intersection assignment. Figure 3D (Scenario 2) shows the projected assignment if Road G connects to Kings Highway.

Revised August 15, 2025
Revised May 28, 2025
February 27, 2025

This item has been electronically signed and sealed by Dr. Juan F. Ortega, PE on August 15, 2025, using a Digital Signature. Printed copies of this document are not considered signed and sealed and the signature must be verified on any electronic copies.

2. TRIP GENERATION

Project traffic potentially generated by the proposed project was calculated using the Institute of Transportation Engineers (ITE) publication *Trip Generation Manual, 11th Edition*. When fitted curve equations were not available, weighted average rates were used. Similarly, when data plots had at least 20 data points and a fitted curve equation with an R^2 of at least 0.75, fitted curve equations were used. Exhibit 3 includes an excerpt from the ITE Trip Generation manual for the trip generation rates used in this analysis.

Table 1 shows the rates used in order to determine the trip generation for Daily, AM, and PM peak hour conditions. As part of a conservative analysis and for simplification purposes, no traffic credit was taken for vested uses on the subject site.

Table 1: Trip Generation Rates

Land Use	ITE Code	Daily Trip Gen.	AM Peak Hour			PM Peak Hour		
			In	Out	Total	In	Out	Total
Warehousing	150	T=1.58(X)+38.29	77%	23%	0.17	28%	72%	0.18
Small Office Building	712	14.39	82%	18%	1.67	34%	66%	2.16

According to Table 2, the net Daily, AM and PM peak hour trips potentially generated due to the planned development are 143, 12 (9 In/3 Out) and 14 (5 In/9 Out) trips respectively.

Table 2: Trip Generation

Land Use	Intensity	Daily Traffic	AM Peak Hour			PM Peak Hour		
			In	Out	Total	In	Out	Total
Warehousing	17,975 SF	67	2	1	3	1	2	3
Small Office Building	5,300 SF	76	7	2	9	4	7	11
Net Proposed Traffic		***143***	***9***	***3***	***12***	***5***	***9***	***14***

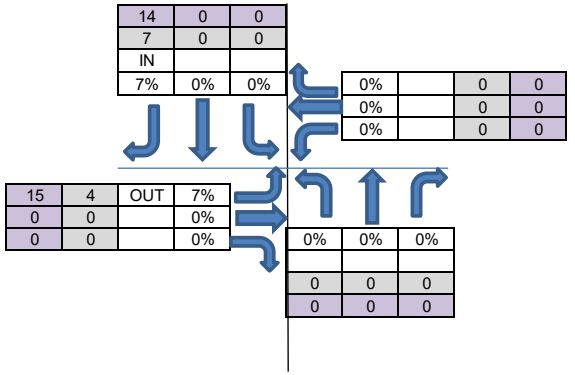
AM	97	60
PM	193	208



1. The Publix at Indrio Commons project trips were calculated per the Trip Generation table provided in Appendix G and distributed based on Figure 1 due to the proximity to the Indrio Road Development project.
2. The Cabo Rio RV Resort project trips were obtained from the Cabo Rio RV Resort Traffic Impact Study by Pinder Troutman Consulting, Inc. dated March 17, 2021.
3. The Sugar Sand Apartment project trips were obtained from the Sugar Sand Apartment Traffic Analysis by O'Rourke Engineering & Planning dated June 20, 2022.
4. The Indrio Pines project trips were obtained from the Indrio Pines Concurrency Traffic Analysis by O'Rourke Engineering & Planning dated September 16, 2021.
5. The Indrio Woods and Kings Highway Self Storage project trips were obtained from the 7075 Indrio Road Traffic Study by WGI dated April 12, 2024.
6. Feeder Road Self Storage project trips were not included, as fewer than 18 trips are proposed per day, per the Feeder Road Self Storage Traffic Statement by Abraham Chabab, Inc. dated June 5, 2023.

1. The Publix at Indrio Commons project trips were calculated per the Trip Generation table provided in Appendix G and distributed based on Figure 1 due to the proximity to the Indrio Road Development project.
2. The Cabo Rio RV Resort project trips were obtained from the Cabo Rio RV Resort Traffic Impact Study by Pinder Troutman Consulting, Inc. dated March 17, 2021.
3. The Sugar Sand Apartment project trips were obtained from the Sugar Sand Apartment Traffic Analysis by O'Rourke Engineering & Planning dated June 20, 2022.
4. The Indrio Pines project trips were obtained from the Indrio Pines Concurrency Traffic Analysis by O'Rourke Engineering & Planning dated September 16, 2021.
5. The Indrio Woods and Kings Highway Self Storage project trips were obtained from the 7075 Indrio Road Traffic Study by WGI dated April 12, 2024.
6. Feeder Road Self Storage project trips were not included, as fewer than 18 trips are proposed per day, per the Feeder Road Self Storage Traffic Statement by Abraham Chabab, Inc. dated June 5, 2023.

Intersection Summary

~ Volume exceeds capacity, queue is theoretically infinite.
Queue shown is maximum after two cycles.

95th percentile volume exceeds capacity, queue may be longer.
Queue shown is maximum after two cycles.

Intersection Summary

~ Volume exceeds capacity, queue is theoretically infinite.
Queue shown is maximum after two cycles.

95th percentile volume exceeds capacity, queue may be longer.
Queue shown is maximum after two cycles.

Intersection Summary

~ Volume exceeds capacity, queue is theoretically infinite.
Queue shown is maximum after two cycles.

95th percentile volume exceeds capacity, queue may be longer.
Queue shown is maximum after two cycles.

Intersection Summary

~ Volume exceeds capacity, queue is theoretically infinite.
Queue shown is maximum after two cycles.

95th percentile volume exceeds capacity, queue may be longer.
Queue shown is maximum after two cycles.

Intersection Summary

~ Volume exceeds capacity, queue is theoretically infinite.
Queue shown is maximum after two cycles.

95th percentile volume exceeds capacity, queue may be longer.
Queue shown is maximum after two cycles.

Intersection Summary

~ Volume exceeds capacity, queue is theoretically infinite.
Queue shown is maximum after two cycles.

95th percentile volume exceeds capacity, queue may be longer.
Queue shown is maximum after two cycles.

Intersection Summary

~ Volume exceeds capacity, queue is theoretically infinite.
Queue shown is maximum after two cycles.

95th percentile volume exceeds capacity, queue may be longer.
Queue shown is maximum after two cycles.

Intersection Summary

~ Volume exceeds capacity, queue is theoretically infinite.
Queue shown is maximum after two cycles.

95th percentile volume exceeds capacity, queue may be longer.
Queue shown is maximum after two cycles.

APPENDIX G: DRIVEWAY 1 TURN LANE EVALUATIONS

Figure 2 - 5. Guideline for determining the need for a major-road left-turn bay at a two-way stop-controlled intersection.

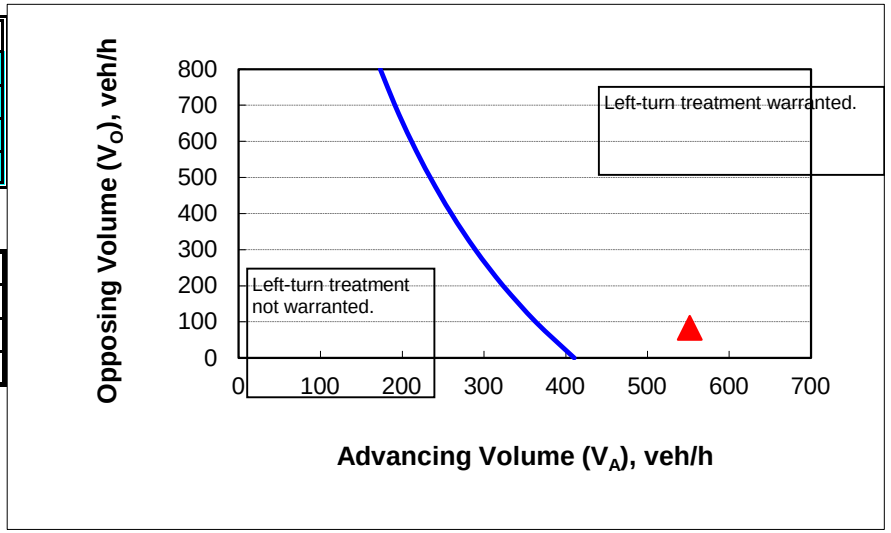
2-lane roadway (English)

INPUT

Variable	Value
85th percentile speed, mph:	25
Percent of left-turns in advancing volume (V_A), %:	55%
Advancing volume (V_A), veh/h:	552
Opposing volume (V_O), veh/h:	83

OUTPUT

Variable	Value
Limiting advancing volume (V_A), veh/h:	371
Guidance for determining the need for a major-road left-turn bay:	
Left-turn treatment warranted.	



CALIBRATION CONSTANTS

Variable	Value
Average time for making left-turn, s:	3.0
Critical headway, s:	5.0
Average time for left-turn vehicle to clear the advancing lane, s:	1.9

APPENDIX H: DRIVEWAY 2 TURN LANE EVALUATIONS

Figure 2 - 5. Guideline for determining the need for a major-road left-turn bay at a two-way stop-controlled intersection.

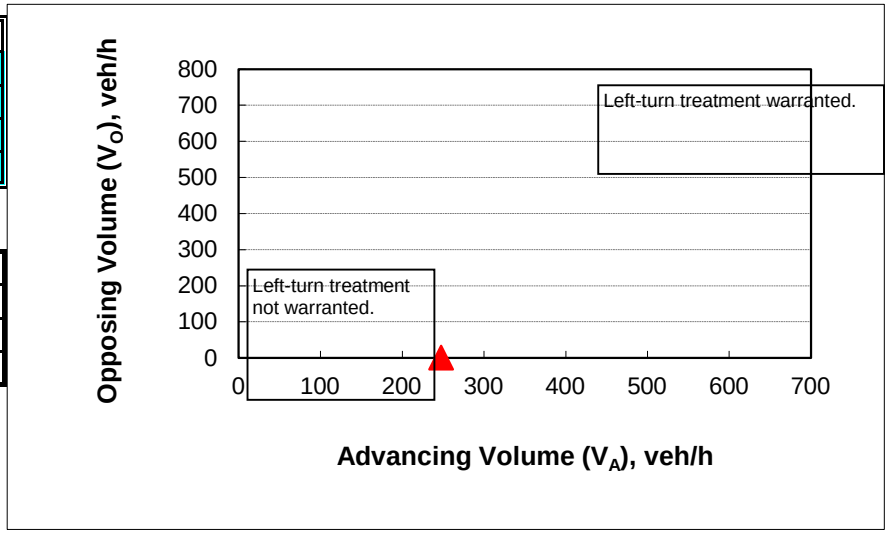
2-lane roadway (English)

INPUT

Variable	Value
85th percentile speed, mph:	25
Percent of left-turns in advancing volume (V_A), %:	99%
Advancing volume (V_A), veh/h:	248
Opposing volume (V_O), veh/h:	1

OUTPUT

Variable	Value
Limiting advancing volume (V_A), veh/h:	2049
Guidance for determining the need for a major-road left-turn bay:	
Left-turn treatment NOT warranted.	



CALIBRATION CONSTANTS

Variable	Value
Average time for making left-turn, s:	3.0
Critical headway, s:	5.0
Average time for left-turn vehicle to clear the advancing lane, s:	1.9

APPENDIX I: SIGNAL WARRANT SUMMARY

TRAFFIC SIGNAL WARRANT ANALYSIS

City/County:	St. Lucie County	85th-percentile speed on the major street exceeds 40 mph? (Y or N)	Y
State:	Florida	Isolated community with a population of less than 10,000? (Y or N)	N
Date:	1/20/2026	Apply 56% warrant to Warrant 1, Combination Warrant? (Y or N)	Y
Major Street:	Orange Avenue	Approach Lanes - Major? (1 or 2)	2
Minor Street:	Rock Road	Approach Lanes - Minor? (1 or 2)	2

Dear Property Owner,

Re: Invitation to Neighborhood Community Meeting – Proposed Project on Rock Road

Foundry Commercial Developer is in the early stages of planning a proposed development on property located on the west side of Rock Road, just north of the St. Lucie County Jail. The site is about 3,000 feet from the intersection of Rock Road and Orange Avenue. A location map is attached for your reference.

Project Orchid will include a new 1.4 million square foot window manufacturing facility along with a 27,300 square foot office building.

Because you live or own property nearby, we want to share information directly with you and provide an opportunity to learn more about the project as plans are taking shape. At this time, the project is in the programming and concept design phase, and no final approvals have been granted.

You are invited to attend a Neighborhood Community Meeting:

March 25, 2026
6:00 – 7:00 PM
Sunshine Kitchen
7550 Pruitt Research Road in Fort Pierce

The purpose of the meeting is to:

- Provide an overview of the proposed development
- Share preliminary site plans and project information
- Explain the anticipated review process
- Listen to questions, feedback, and concerns from nearby property owners

ST. LUCIE COUNTY BOARD OF COUNTY COMMISSIONERS PUBLIC HEARING AGENDA Tuesday, May 5, 2026

NOTICE OF PROPOSED AMENDMENTS TO THE COMPREHENSIVE PLAN FUTURE LAND USE MAP AND OFFICIAL ZONING ATLAS, AND A CONDITIONAL USE PERMIT

The Board of County Commissioners is scheduled to review and take action on the following proposals for adoption by Ordinance and Resolutions, respectively:

ORDINANCE

AN ORDINANCE OF THE BOARD OF COUNTY COMMISSIONERS OF ST. LUCIE COUNTY, FLORIDA, TO APPROVE A SMALL SCALE AMENDMENT OF THE ADOPTED COMPREHENSIVE PLAN FUTURE LAND USE MAP TO CREATE TO CREATE A +/- 20.85-ACRE SUBAREA OF THE LUCIE ROCK MIXED USE ACTIVITY AREA (INITIALLY ESTABLISHED AS AN EXTENSION OF THE MIXED USE ORANGE AVENUE/I-95 ACTIVITY AREA) THAT WOULD ALLOW AN 80-FOOT BUILDING HEIGHT LIMIT WITHIN A PORTION OF ESTABLISHED MEDIUM AND HIGH INTENSITY DEVELOPMENT AREAS, LOCATED BETWEEN NORTH ROCK ROAD, NSLRWCD CANAL NO. 41 AND THE RELIEF CANAL AND PROVIDING FOR FINDINGS, CONFLICTING PROVISIONS, SEVERABILITY, APPLICABILITY, FILING WITH THE FLORIDA DEPARTMENT OF STATE, FILING WITH THE FLORIDA DEPARTMENT OF COMMERCE, AN EFFECTIVE DATE, CODIFICATION AND ADOPTION.

RESOLUTION

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF ST. LUCIE COUNTY AMENDING THE OFFICIAL ZONING ATLAS FOR +/- 20.25 ACRES LOCATED WEST OF NORTH ROCK ROAD, SOUTH OF THE NORTH ROCK ROAD EXTENSION (ACCESS ROAD) AND NORTH OF THE RELIEF CANAL, IN UNINCORPORATED ST. LUCIE COUNTY, FROM THE IL (INDUSTRIAL, LIGHT) ZONING DISTRICT TO THE IH (INDUSTRIAL, HEAVY) ZONING DISTRICT.

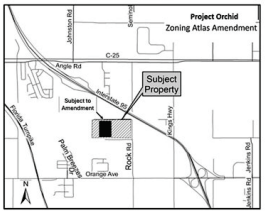
RESOLUTION

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF ST. LUCIE COUNTY GRANTING A CONDITIONAL USE PERMIT TO DEVELOP AND OPERATE A METAL FOUNDRY TOTALING APPROXIMATELY 76,200 SQUARE FEET AS PART OF A WINDOW MANUFACTURING FACILITY TO BE KNOWN AS PROJECT ORCHID LOCATED WEST OF NORTH ROCK ROAD, SOUTH OF THE NORTH ROCK ROAD EXTENSION (ACCESS ROAD) AND NORTH OF THE RELIEF CANAL, IN THE IH, INDUSTRIAL, HEAVY ZONING DISTRICT, IN UNINCORPORATED ST. LUCIE COUNTY.

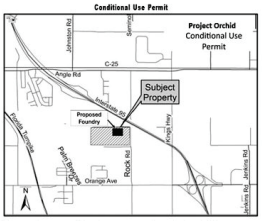
APPLICANT/OWNER: MC320, LLC.
Agent: HJA Design Studios
File Numbers: FLUMA-2603-000040, RZ-2603-000050, and CU-2603-000102.
LOCATION: West and south of North Rock Rd., approximately 2,700 feet north of Orange Ave. (see maps below).
Parcel ID Numbers: 2302-331-0001-000-7, 2302-341-0001-000-8, 2302-342-0001-000-1.
Purpose: to 1) approve a small scale amendment of the adopted Comprehensive Plan's Future Land Use Element – Future Land Use Map to create a +/- 20.85-acre subarea of the Lucie Rock Mixed Use Activity Area (initially established as an extension of the Mixed Use Orange Avenue/I-95 Activity Area) that would allow an 80-foot building height limit within the established Medium and High Intensity Development Areas, 2) to rezone +/- 20.25 acres from the IL (Industrial, Light) Zoning District to the IH (Industrial, Heavy) Zoning District, and 3) granting a Conditional Use Permit to develop and operate a metal foundry totaling approximately 76,200 square feet as part of a window manufacturing facility subject of a companion Major Site Plan application.

Future Land Use Map Amendment

Zoning Atlas Amendment



Conditional Use Permit



The Board of County Commissioners will hold the PUBLIC HEARINGS on this item in the Commission Chambers, Roger Poitras Annex, 3rd Floor, 2300 Virginia Avenue, Fort Pierce, FL on Tuesday, May 5, 2026, beginning at 6:00 pm or as soon thereafter as possible.

All interested persons will be given an opportunity to be heard. Written comments received in advance of the public hearing will also be considered. Written comments to the Board of County Commissioners should be received by the Planning and Development Services Department - Planning Division at least 3 days prior to the scheduled hearing. The petition file is available for review at the Planning and Development Services Department offices located at 2300 Virginia Avenue, 2nd Floor, Fort Pierce, Florida, during regular business hours. Please call (772) 462-2822 or TDD (772) 462-1428 if you have any questions or require additional information about this petition.

The St. Lucie County Board of County Commissioners has the power to review and approve or disapprove any applications within their area of responsibility.

The proceedings of the Board of County Commissioners are electronically recorded. **PURSUANT TO SECTION 286.0105, FLORIDA STATUTES**, if a person decides to appeal any decision made by the Board of County Commissioners with respect to any matter considered at a meeting or hearing, he or she will need a record of the proceedings. For such purpose, he or she may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based. Upon the request of any party to the proceeding, individuals testifying during a hearing will be sworn in. Any party to the proceeding will be granted an opportunity to cross-examine any individual testifying during a hearing upon request. If it becomes necessary, a public hearing may be continued to a date certain.

Anyone with a disability requiring accommodation to attend this meeting should contact the St. Lucie County Risk Manager at least forty-eight (48) hours prior to the meeting at (772) 462-1546 or T.D.D. (772) 462-1428.

Iran seizes 2 ships in Strait of Hormuz

Seizures follow Trump's extension of ceasefire

Michael Loria, Bart Jansen, Christopher Cann and Andrea Riquier
USA TODAY

Iran seized two ships in the Strait of Hormuz on April 22, tightening its grip on the strategic waterway, after President Donald Trump extended a ceasefire "until such time as their leaders and representatives can come up with a unified proposal."

Three container ships in total were fired upon around the strait, according to United Kingdom Maritime Trade Operations, a British organization that tracks merchant vessels. The Islamic Revolutionary Guard Corps seized two of the vessels for alleged maritime violations and escorted them to Iran's shores, according to the semi-official Tasnim news agency.

Of the two seized vessels, Epaminondas was headed to Mundra, India, and Euphoria was headed to Jeddah, Saudi Arabia, according to marinetraffic.com. The third ship that was fired upon, MSC Francesca, was headed to Hambantota, Sri Lanka, according to marinetraffic.com. The ships were the first seized since the beginning of the U.S.-Israeli war on Iran began Feb. 28.

The seizures came after Trump extended a two-week ceasefire, to give Iran's leaders more time to respond to U.S. peace proposals. But the U.S. Navy continues to blockade ships visiting Iranian ports, and Tehran continues to threaten ships attempting to travel through the strait of Hormuz, where one-fifth of the world's oil and natural gas transits.

Trump has threatened to "blow up the rest of their Country, their leaders included" if the two countries can't reach a settlement.

"Iran doesn't want the Strait of Hormuz closed, they want it open so they can make $500 Million Dollars a day (which is, therefore, what they are losing if it is closed)," Trump said on social media April 21. "They only say they want it closed because I have it totally BLOCKADED (CLOSED), so they mistakenly want to 'save face.'"

A first round of talks in Islamabad on April 11-12 produced no agreement, with the United States focusing on a long-standing dispute over Iran's stockpiles of highly enriched uranium.

Iran says it has only a peaceful civilian nuclear program and wants to continue that. It wants the war to end, sanctions to be lifted, reparations for wartime damage and recognition of its control over the strait.

U.S. forces patrol the Arabian Sea near the Touska, an Iranian-flagged cargo ship, on April 20. The U.S. Navy continues to blockade ships visiting Iranian ports, and Tehran continues to threaten ships attempting to travel through the Strait of Hormuz. PROVIDED BY MAYCHT PUBLIC AFFAIRS/U.S. NAVY/AFP VIA GETTY IMAGES

Oil stable, gas back above $4

As the diplomatic standoff drags on, traffic through the Strait of Hormuz remains significantly below average numbers. The critical shipping lane off the Iranian coast has become a focal point of the war.

Iran closed the channel after being attacked, driving up global fuel prices. Brent crude oil, the international standard, was trading just above $99 a barrel, up about 0.6% compared to the day before.

Gas prices, which lag behind the changes in oil, popped back above the psychologically important $4 threshold, with AAA's national average at $4.02 a gallon. That's about 15 cents higher than last year's average.

In a show of defiance, Iran showcased some of its ballistic weapons at a parade in Tehran late on April 21, with images showing a large banner in the background with a fist clutching off the Strait, the WANA news agency reported.

Average national gas prices have popped back above the psychologically important $4 threshold, with AAA's national average at $4.02 a gallon. MIKE SEGAR/REUTERS

'A setback we were not expecting'

Pakistan, which has acted as a mediator, was still trying to bring the sides together for negotiations after both failed to show up for last-ditch talks on April 22 before the ceasefire had been due to expire.

A luxury hotel in Islamabad had been cleared out for the talks, but Iran never publicly accepted the invitation and the U.S. delegation led by Vice President JD Vance never left Washington, DC.

"We were all prepared for the talks, the stage was set," a Pakistani official briefed on the preparations told Reuters. "If you look me honestly, it was a setback we were not expecting, because the Iranians never refused, they were up to come and join, and they still are."

Another Pakistani source who was involved in the talks said Pakistan was still "working very hard to bridge that conflict, talk to each side with their sensitivities in mind."

There was no response early on April 22 to Trump's ceasefire announcement from senior Iranian officials, although some initial reactions from Tehran suggested Trump's comments were being treated skeptically.

Tasnim said Iran had not asked for a ceasefire extension and repeated Tehran's threats to break the U.S. blockade by force.

An adviser to Iran's lead negotiator, the speaker of parliament Mohammad B. Ghalibaf, said Trump's announcement might be a ploy.

Just hours before Trump called off attacks, he had repeated threats to resume them, saying his military was "raring to go."

Lebanese, Israeli envoys to meet

Meanwhile, Lebanese and Israeli diplomats will meet in Washington on April 23 as the clock winds down on a fragile ceasefire agreement between the two countries.

The meeting will be the second between envoys of the two nations this month. The first meeting, which were the highest-level direct talks between the countries in three decades, led to a 10-day ceasefire that has been tested as Iran-backed Hezbollah and Israel continue to trade strikes.

While officials from both countries have expressed an interest in sealing a lasting peace agreement, there are several sticking points. Lebanese officials have called for Israel to remove its ground troops from southern Lebanon. Israel, meanwhile, has vowed to continue occupying a significant portion of southern Lebanon until it eliminates the threat posed by Hezbollah, which is not directly involved in the talks and is more powerful militarily than the Lebanese Armed Forces.

Secretary of State Marco Rubio is expected to attend the meeting, with Lebanon represented by its ambassador to Washington, Nada Hamwad, and Israel represented by its ambassador, Yechiel Leiter.

Sara Janet Shankland

VERO BEACH - Sara Janet Shankland of Vero Beach, Florida, passed away on April 17, 2026, following a brief illness, at the age of 88.

Born Sara Janet Jenkins on October 25, 1937, in Huntington, West Virginia, Sara graduated from Huntington High School and the University of Cincinnati, with a BA in Fine Arts and a BS in Education.

Sara spent several years as an educator, beginning her career as an English teacher in South Point, OH, where she also co-hosted local WSAZ TV station's Saturday night "Shockwatch" with Emmy award-winning NBC broadcaster Fred Briggs. She eventually moved on to become a high school art teacher - replacing artist George Segal - in Piscataway Township, NJ, and subsequently in Alexandria, VA.

While taking a career break to raise her children in Potomac, MD, Sara remained active in her community, volunteering for several civic and social organizations, including serving as a board member and officer of the Florence Crittenton Home; chair of the Junior Guild of the Davis Memorial Goodwill Industries DC annual Gala; and local volunteer coordinator for the 1984 Mondale presidential campaign's DC headquarters. Sara also continued her artistic and entrepreneurial pursuits, successfully building small home-based businesses through which she shared her creative talents in markets and shows around the area. She was a founding member of the Potomac Community Theatre, as well as a member of St. Francis Episcopal Church, where she participated in the Altar Guild and as a Lay Eucharistic Minister.

In 1995, Sara and her husband Bill retired to Vero Beach, FL, where she became active in the Vero Beach Museum of Art and the Vero Beach Art Club, and was accepted into the local famed Art Under the Oaks art show for several years, selling her handcrafted silver jewelry. Sara was a member of the Trinity Episcopal Church, where she served as a Lay Eucharistic Minister and a member of the Daughters of the King. Sara and Bill enjoyed extensive travel all over the world.

Predeceased by her parents, Lena Henrietta Jenkins and Austin Thomas Jenkins, Sara is survived by her husband Bill Shankland, and daughters Anne Gordon of Edgewater, MD, and Katherine Gordon (Pedro-Cruz Castro) of Brooklyn, NY.

A memorial service for Sara will be scheduled at a later date.

Engineers turned off the Low-energy Charged Particles experiment aboard Voyager 1 on April 17. PROVIDED BY NASA/JPL-CALTECH

Voyager 1 probe nears 16 billion miles from Earth

Eric Lagatta
USA TODAY

NASA has shut down one of the science instruments on board the iconic Voyager 1 space probe in an effort to extend the life of humanity's first interstellar vehicle.

NASA engineers sent commands on April 17 to Voyager 1 to shut down an instrument on the probe called the Low-energy Charged Particles experiment, or LECP, the space agency said in a news release.

"While shutting down a science instrument is not anybody's preference, it is the best option available," Kareem Badaruddin, Voyager mission manager at NASA's Jet Propulsion Laboratory in Southern California, said in a statement.

The decision came as the aging nuclear-powered spacecraft runs low on power. NASA officials are confident that by turning off the LECP instrument, Voyager 1 will be able to conserve energy without the spacecraft getting so cold that its fuel lines freeze.

Voyager 1 still has two of its 10 original science instruments remaining in operation – including one that listens to plasma waves and one that measures magnetic fields, according to NASA.

The LECP instrument has been operating almost without interruption since Voyager 1 launched almost 49 years ago.

Voyager 1 and Voyager 2 are the only spacecraft far enough from Earth to use the instrument to measure things like ions, electrons and cosmic rays originating from our solar system and galaxy – providing critical data about the space beyond the giant bubble around the sun and its planets known as the heliosphere.

A small motor on the LECP that spins and scans in all directions remains on, giving the team the ability to reactivate the entire instrument if they find extra power.

The twin Voyager probes were launched on separate dates in 1977 from Florida from what is now the Cape Canaveral Space Force Station with the mission of exploring the outer solar system.

Contrary to its name, Voyager 2 was the first of the two to be launched into orbit on Aug. 20, 1977. Its twin probe, Voyager 1, then launched Sept. 5.

Though it was the second of the probes to get off the ground, Voyager 1 was on a faster route than its counterpart as it whizzed beyond the asteroid belt between Mars and Jupiter and overtook Voyager 2 by December of that year. Voyager 1 has the distinction of being the farthest human-made object from Earth.

The spacecraft have investigated all the giant planets of our outer solar system – Jupiter, Saturn, Uranus and Neptune – as well as the planets' magnetic fields and a combined 48 of their moons, NASA says.

The probes completed that portion of their respective journeys by 1989, after which NASA retooled their mission as an interstellar expedition – meaning one to moving beyond our solar system into the notion between stars, farther into the Milky Way.

In 2003, Voyager 1 became the first spacecraft to reach interstellar space, followed in 2018 by Voyager 2, according to NASA.

Should they encounter extraterrestrial life, both Voyager 1 and 2 also carry the famous "golden record," functioning both as a time capsule and a friendly Earthling greeting.

BUSINESS BRIEFS

Toxic metals found in water near Tesla refinery in South Texas

An independent water study found toxic metals from wastewater discharge from a Tesla lithium refinery making their way into a waterway near Corpus Christi, Texas.

The Texas Commission on Environmental Quality tested in February and reported the wastewater was in compliance with the refinery's permits, but the Texas Tribune reported the tests did not look for heavy metals.

Allen Nueces County Drainage District No. 3 discovered a pipe discharging into a ditch that drains into Petronila Creek. It commissioned a third-party study examining water samples taken April 7. The study found trace levels of hexavalent chromium and arsenic, as well as elevated levels of manganese, iron, phosphorus, calcium, magnesium and potassium. According to the Environmental Protection Agency, hexavalent chromium "is a known human carcinogen when inhaled."

Best Buy taps Bonfiglio as CEO amid demand slowdown

Best Buy on April 22 named insider Jason Bonfiglio as CEO, replacing longtime executive Corie Barry. In a leadership change that comes as the U.S. retailer grapples with weak consumer demand and tariff-related supply-chain pressures.

The company, which operates more than 1,000 stores across North America, has been working to revive growth by expanding online sales, services and advertising as competition intensifies across the sector.

As the company's chief customer, product and fulfillment officer, Bonfig has been overseeing many of these initiatives, along with the company's Canadian business and its retail media unit, Best Buy Ads.

Hims & Hers to offer menopause, perimenopause treatments

Telehealth company Hims & Hers said on April 22 it will now offer treatment options for perimenopause and menopause via its platform, as rising U.S. demand for hormone therapy strains supplies of estrogen patches.

The company said the offering, available immediately to eligible users through its Hers platform, includes estrogen patch kits starting at $34 per month. Treatment plans may also include progesterone where clinically appropriate.

The launch comes as demand for estrogen patches has surged over the past year, leading to supply constraints nationwide. Industry sources have told investors shortages could last for up to three years following changes in U.S. health guidance on hormone replacement therapy.

Public Hearing Notice
Tuesday, May 5, 2026

Project Orchid—Notice of Proposed Future Land Use Map Amendment, Zoning Atlas Amendment & Conditional Use Permit

You are receiving this courtesy notice because you are a property owner within 500 feet of the proposed petition site.

Project Description
The applicant has petitioned approval of the following:

1. **Comprehensive Plan Future Land Use Map Amendment (Small-Scale):** To create a +/- 20.85-acre subarea of the Lucie Rock Mixed Use Activity Area. This would allow for an 80-foot building height limit within established Medium and High Intensity Development Areas.
2. **Rezoning:** To rezone +/- 20.25 acres from IL (Industrial, Light) to IH (Industrial, Heavy); and
3. **Conditional Use Permit:** To develop and operate a 76,200 square foot metal foundry as part of a window manufacturing facility, at the northwest portion of the subject site, currently in the IH (Industrial Heavy) Zoning District as part of a companion Major Site Plan application for the entire +/-73.48 acre site.

The purpose of these requests is to allow for the development of a window manufacturing facility approximately 1,390,000 square feet in size, with associated site improvements such as parking, landscape buffers, and stormwater ponds, within the IL, Industrial Light and IH, Industrial Heavy Zoning Districts.

Upcoming Public Hearings
The second public hearings at for these petitions will be held on May 5, 2026 at 6:00 PM or shortly thereafter before the St. Lucie County Board of County Commissioners, which has the power to review and approve or deny applications within their responsibility.

The Board encourages your input and comment at the public hearing. You may also mail or email written comments regarding this proceeding in advance of the public hearing for inclusion in the official record. Written comments should be received by the Planning and Development Services Department, Planning Division at least 3 days prior to the scheduled hearing.

Anyone with a disability requiring accommodations to attend this meeting may contact the SLC Community Risk Manager at least 48 hours in advance at 772.462.1580 or TDD 772.462.1428

AGENDA REQUEST

10.A.2.
RES-2026-81
PUBLIC HEARINGS - PLANNING & DEVELOPMENT SERVICES
DATE: **5/5/2026**
*RESOLUTION ITEM - CHANGE IN ZONING
QUASI-JUDICIAL ITEM? YES

TO: **Board of County Commissioners**

PRESENTED BY: Kori Benton, Planning & Zoning Manager

SUBMITTED BY: Planning & Development Services

SUBJECT: Project Orchid - Rezoning +/-20.25 Acres from IL, Industrial Light to IH, Industrial Heavy - **THIS ITEM IS QUASI-JUDICIAL - ADD ON**

BACKGROUND:

The Applicant, MC320, LLC, is requesting an amendment to the Official Zoning Atlas for +/-20.25 acres of the overall +/-73.27-acre site, from the IL (Industrial, Light) Zoning District to the IH (Industrial, Heavy) Zoning District. A concurrent Small-Scale Comprehensive Plan Future Land Use Map Amendment (FLUMA) is proposed to create a +/- 20.85-acre subarea of the Lucie Rock Mixed Use Activity Area (initially established as an extension of the Mixed Use Orange Avenue/I-95 Activity Area), which provides an 80-foot building height limit within the established Medium and High Intensity Development Area

The petition set, which also includes a Major Site Plan and Conditional Use Permit, support the proposed Project Orchid which proposes construction and operation of a windows manufacturing facility which includes a metal foundry in which aluminum is melted, formed into components, combined with glass, and assembled into finished windows. All processes are proposed to take place indoors.

The property is located west of North Rock Rd, south of North Rock Rd. Extension (Access Rd.), and north of the Relief Canal, just north of the St. Lucie County Correctional Facility. The property is located within the Urban Service Boundary (USB).

PREVIOUS ACTION:

On October 18, 2004, the St. Lucie County Board of County Commissioners approved Ordinance 04-031, granting a Future Land Use Map Amendment from the RS (Residential, Suburban) Category to MXD - Orange Avenue (Mixed Use Development - Orange Avenue/I-95) Activity Area, including Medium and High Intensity Areas. This MXD Activity Area is known today as the Lucie Rock MXD, encompassing the petition site.

On September 3, 2013, the St. Lucie County Board of County Commissioners granted approval, through Resolution No. 2013-167, the petition of Lucie Rock, LLC, for a Major Site Plan known as St. Lucie Commerce Center.

On September 17, 2013, the St. Lucie County Board of County Commissioners approved the St. Lucie Commerce Center 10-Year Agreement extending Resolution No. 2013-167 to September 17, 2023.

On October 9, 2020, PDS Order 2020-058 was approved by the St. Lucie County Planning & Development Services Director granting a statutory extension under Florida Statute Section 252.363 extending the expiration date for the Major Site Plan known as St. Lucie Commerce Center to November 24, 2025.

On October 10, 2023, PDS Order 2023-064 was approved by the St. Lucie County Planning & Development Services Director granting a statutory extension under Florida Statute Section 252.363 extending the expiration date for the Major Site Plan known as St. Lucie Commerce Center to November 24, 2029, and extended the Development Agreement term through September 17, 2027.

On April 16, 2026, the Planning & Zoning Commission held a public hearing on the proposal and unanimously voted to forward a recommendation of approval to the Board of County Commissioners.

FINANCIAL IMPACT:

Potential Increase in Ad-Valorem Tax Revenue.

RECOMMENDATION:

Staff recommends the Board evaluate the proposed amendments and approve the rezoning of +/- 20.25 acres from the IL (Industrial, Light) Zoning District to the IH (Industrial, Heavy) Zoning District.

DATE: April 27, 2026

SUBJECT: Project Orchid FLUMA-2603-000040 & RZ-2603-000050
Future Land Use Map (Small-Scale) and Official Zoning Atlas Amendments

GENERAL INFORMATION

Property Owner/Applicant: MC320, LLC
5701 SW Sunshine Farms Way
Palm City, FL 34990-5608

Agent: HJA Design Studio, Patti Tobin
3500 SW Corporate Pkwy Suite 203,
Palm City, FL 34990

Location: West of N. Rock Rd., south of N. Rock Rd. Ext. (Access Rd.), and north of NSLRWCD Canal #44 (Relief Canal).

Parcel ID Numbers: 2302-342-0001-000-1 (CUP & Partial FLUMA), 2302-341-0001-000-8 & 2302-331-0001-000-7 (Partial Rezoning & FLUMA).

Petition Area(s): +/-20.85 acres (new MXD subarea), +/-20.25 acres (rezoning to IH),
73.27 acres (total project site)

Future Land Use: MXD, Mixed Use District - Lucie Rock Mixed Use Activity Area (initially established as an extension of the Mixed Use Orange Avenue/I-95 Activity Area)

Proposed Land Use: MXD, Mixed Use District - Lucie Rock Mixed Use Activity Area – Amendment to create a +/- 20.85-acre subarea that would set an 80-foot building height limit within established Medium and High Intensity Development Areas

Existing Zoning: IH, Industrial Heavy (+/- 36.06 acres) & IL, Industrial Light (+/- 37.21 acres)

Proposed Zoning: IH, Industrial Heavy (+/- 20.25 acres) currently zoned IL would be rezoned to IH, resulting in +/- 56.31 acres in IH and +/- 16.96 acres in IL

Existing Use(s): Undeveloped

Utilities: FPUA service area, water & sewer lines are present on the west side of Rock Rd .

BACKGROUND ANALYSIS

The Agent, Patti Tobin of HJA Design Studio, on behalf of the owner MC320, LLC, is requesting

1) A Comprehensive Plan Future Land Use Map Amendment (FLUMA) that would create a +/- 20.85-acre subarea of the Lucie Rock Mixed Use Activity Area (initially established as an extension of the Mixed Use Orange Avenue/I-95 Activity Area), an area in which an 80-foot building height limit is set, within the established Medium and High Intensity Development Areas; and
2) An amendment to the Official Zoning Atlas assigning the IH (Industrial, Heavy) zoning to +/-20.25 acres land that is currently zoned IL (Industrial, Light). The rezoning would allow construction and operation of a metals foundry as part of a windows manufacturing facility.

The Applicant also filed three companion petitions:

3) A Conditional Use Permit to allow for an approximately 76,200 square foot metals foundry within the manufacturing facility (on the north central portion of the building);
4) A Major Site Plan for the overall Project Orchid Development Plan; and
5) An Amendment to the St. Lucie Commerce Center (Lucie Rock) Development Agreement.

The proposed MXD subarea and the area requested for rezoning are internal to a site that includes three properties located west of North Rock Rd, south of North Rock Rd. Extension (Access Rd.), and north of the Relief Canal, just north of the County Correctional Facility. The site was historically used for agricultural purposes. In 2007 the BoCC rezoned the parcels from AG-1 to IL. In 2013 the BoCC approved Major Site Plan MJSP-05028 through Resolution No. 2013-167, for St. Lucie Commerce Center (aka Lucie Rock) for an industrial park with a maximum of 1,232,835 sq. ft. across four parcels. The Major Site Plan has remained active through a Board Resolution and series of PDS Orders linked to a 10-Year Development Agreement (and an Executive Order due to the threat of several hurricanes to the State of Florida). PDS Order 2023-064 granted a 48-month Major Site Plan extension until November 24, 2029, and the Development Agreement is scheduled to expire September 27, 2027.

The property is located within the Urban Service Boundary (USB).

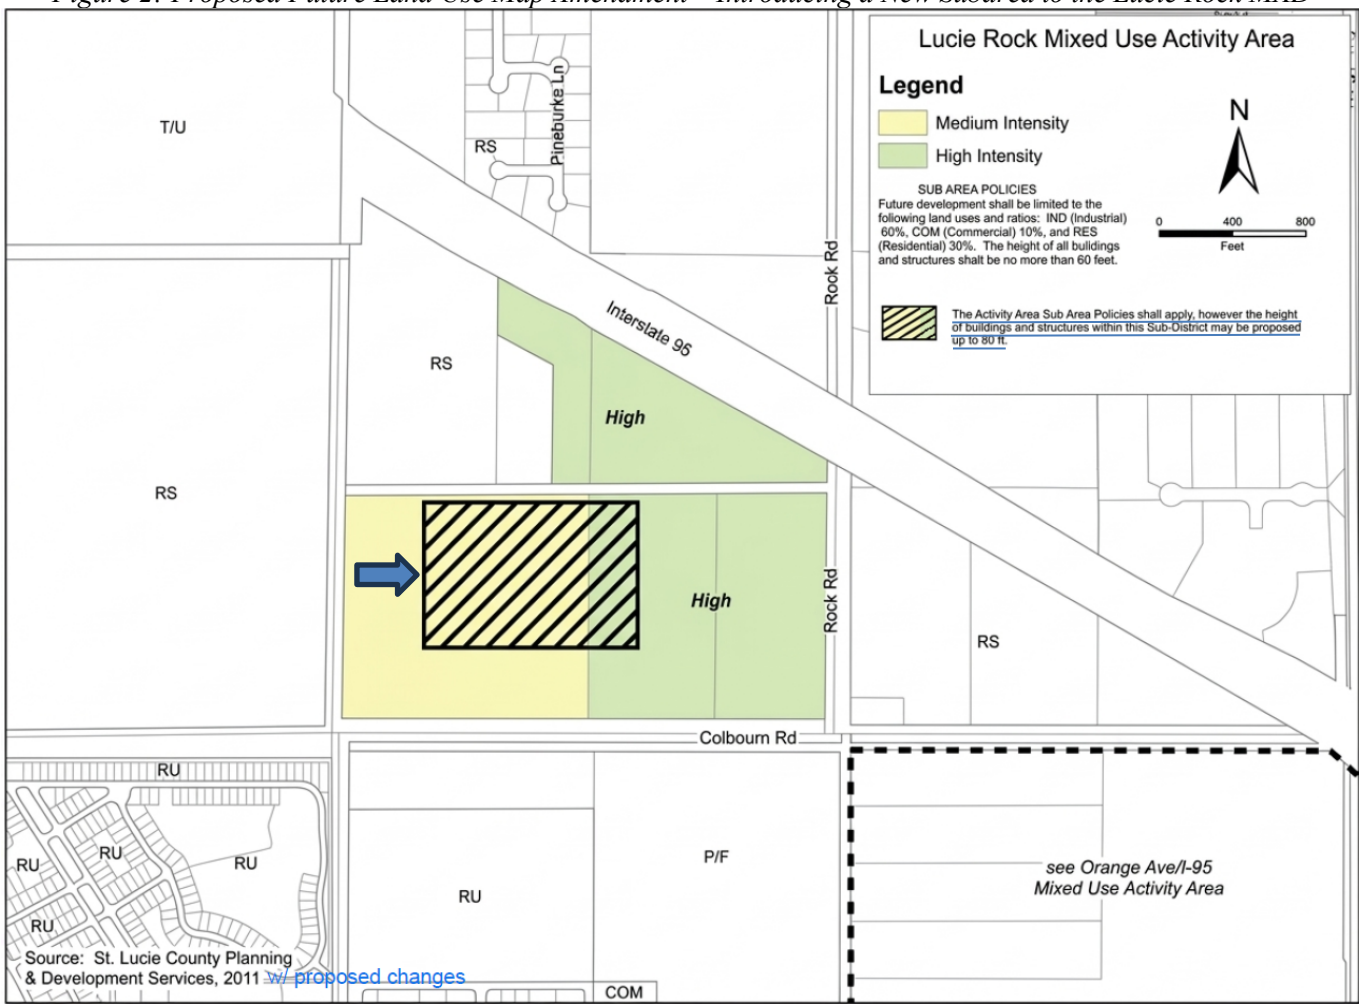

Figure 3: Proposed Rezoning Area

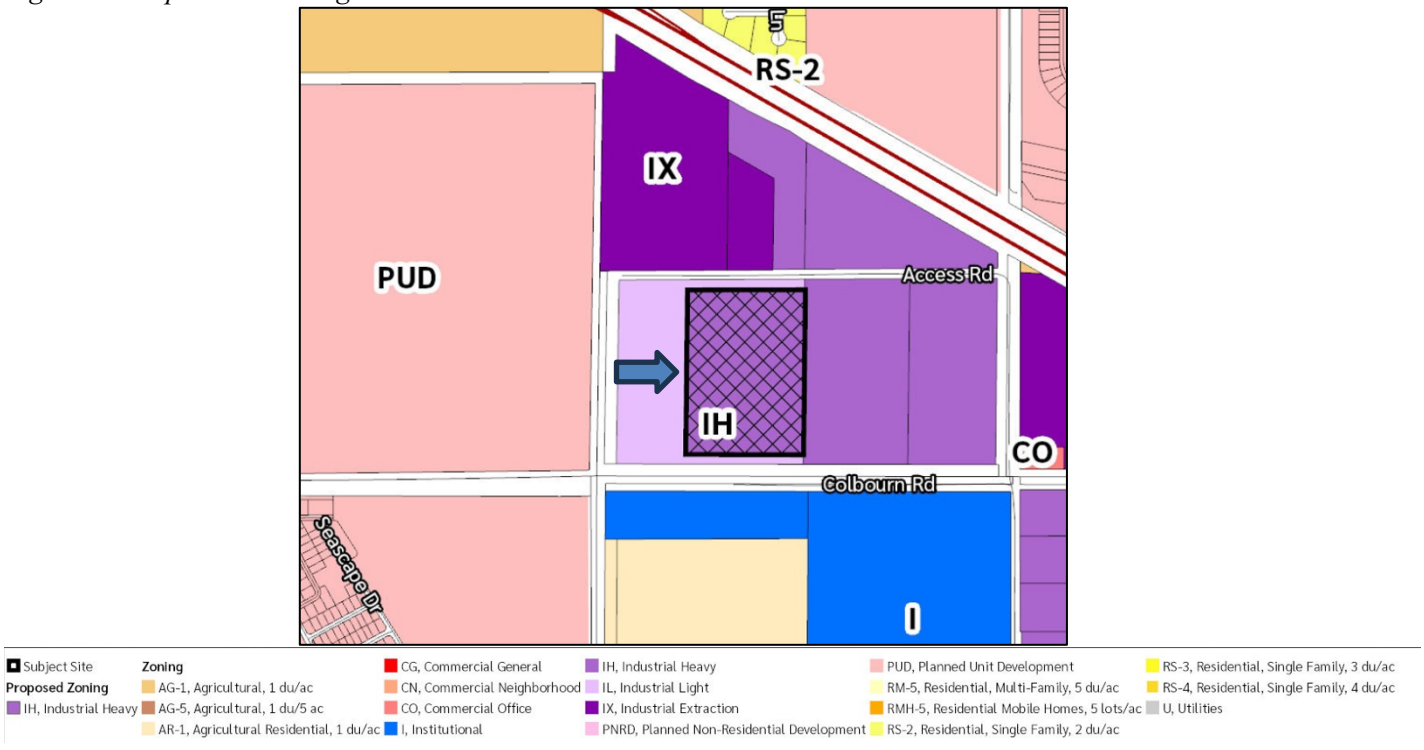

****

FUTURE LAND USE MAP AMENDMENT STANDARDS OF REVIEW SET FORTH IN THE ST. LUCIE COUNTY COMPREHENSIVE PLAN

Proposed Amendment Consistency with Comprehensive Plan

Current Future Land Use:

The Future Land Use designation of the subject property is MXD, Mixed Use District. Comprehensive Plan Policy 1.1.1.2.H. describes the MXD future land use category as follows:

Mixed Use Development (MXD) The intent of the Mixed Use Development (MXD) designation is to identify those areas where innovative land use concepts are encouraged. Application of this district should be with prudence, and should be only to those areas where traditional land use classifications do not afford the desired flexibility and community input in land use planning necessary to address local concerns. Candidates for this district include all I-95 interchange areas, the Treasure Coast International Airport, Community Development Districts created pursuant to Chapter 190, Florida Statutes and areas of special or unique environmental consideration that may not be appropriate for traditional land use designations. Uses within the areas classified as Mixed Use should be segregated as to intensity and indicated in the form of a concept master plan which is to be included as a part of the land use designation process. The following criteria, in addition to those as cited in Objective 1.1.7 (PUD, PNRD & PMUD), are to be used in the development of Mixed Use areas:

- *Unless otherwise compliant with the identified intensity classification, any change in zoning shall be to the Planned Unit Development (PUD), Planned Nonresidential Development (PNRD) or Planned Mixed Use Development (PMUD), as described in the St. Lucie County Land Development Code. Those properties with compatible existing zoning designations are encouraged to develop under the PUD, PNRD or PMUD regulations.*
- *Residential development shall be regulated by the intensity district in which it is to take place. In no case should gross residential density exceed 15 du/ac.*
- *All uses shall be compatible with adjacent land uses.*

The adopted Lucie Rock Mixed Use Activity Area (MUAA) (Figure 4) was initially established as an extension of the Mixed-Use Orange Avenue/I-95 Activity Area (Figure 5). The Lucie Rock MUAA limits height to 60 feet, and the proposed FLU amendment would allow an 80-foot height limit within the hatched subarea shown in Figure 2, above.

Figure 4: Adopted Lucie Rock MUAA

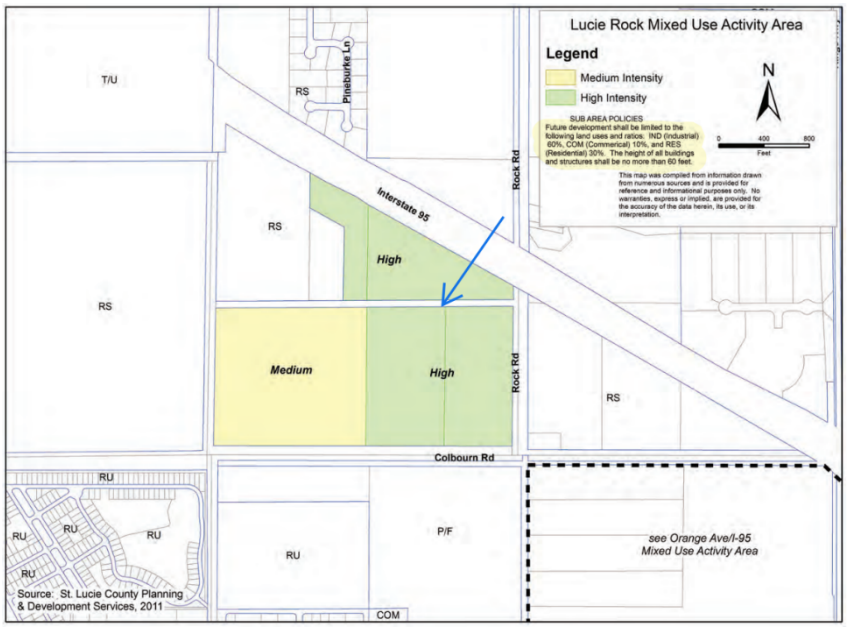

Figure 5: Orange Ave./I-95 MUAA

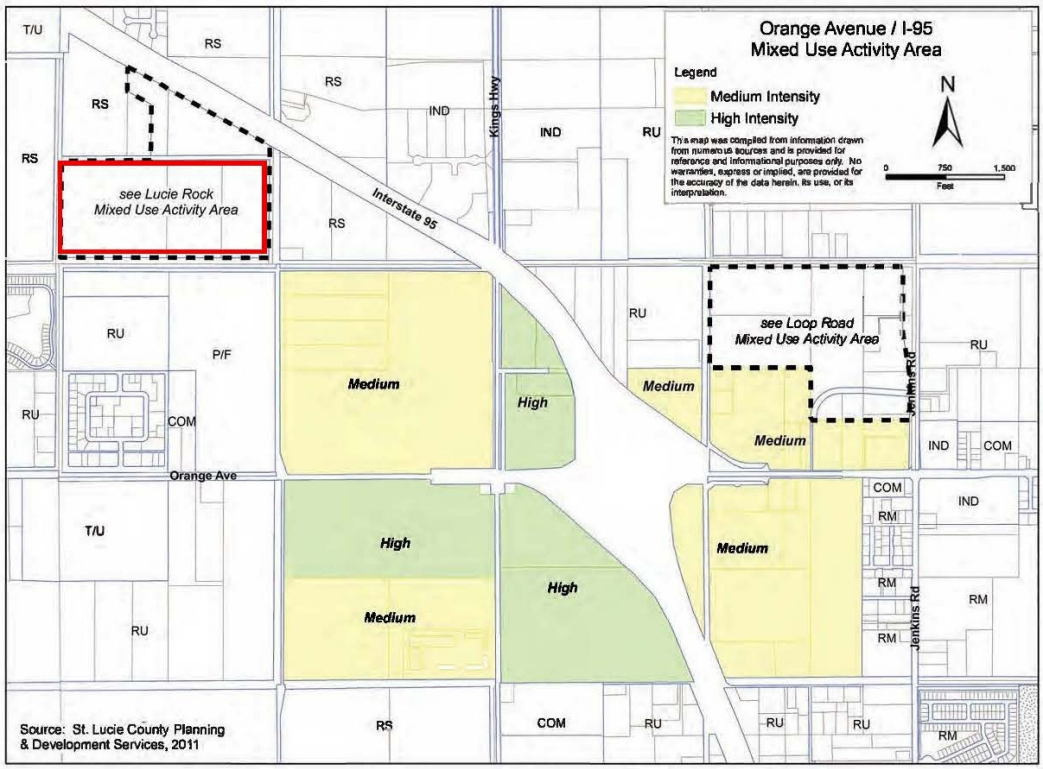

The proposed Future Land Use Map MUAA subarea, shown in the diagonal pattern in Figure 2 would allow an 80-foot building height limit; the remainder of the MUAA would retain the current adopted 60-foot height limit.

In reviewing petitions for amendments to the Future Land Use Map (FLUM), the Planning and Zoning Commission, acting as the Local Planning Agency, and Board of County Commissioners shall consider whether the proposed amendment is consistent with all elements of the St. Lucie County Comprehensive Plan and Florida Statutes. The following analysis presents Comprehensive Plan policies pertinent to this amendment.

(Comprehensive Plan) Future Land Use Element (FLUE) Policy 1.1.2.1.
The adopted Future Land Use Map Series and any amendments shall promote responsible growth management practices. When considering any amendment to the Future Land Use Maps of the County's Comprehensive Plan, the County Commission shall make the following findings, supported by the other elements of this Plan, prior to taking any approval actions granting an individual amendment to the Future Land Use Maps:

1. *That the property under land use amendment application is adjunct to, or within no more than one-quarter mile of the same or greater type of land use classification.*
2. *That the property under land use amendment consideration lies within the Five-Year Capital Improvement Program of the Water and Wastewater Master Plan for St. Lucie County (or can be reasonably accommodated with an amendment to the Master Plan) or otherwise meets the requirements of Policy 1.1.5.4 [formerly Policy 1.1.5.3].*

Regarding # 1. above, the FLUMA would not change the land use category, but would provide for a taller height limit for a subsection in the Lucie Rock MUAA which is eligible for MXD categories. The site also meets the intent of # 2. above as it is within the Urban Service Boundary and is served by paved roads along with central water and sewer services.

FLUE Policy 1.1.2.2.
In accordance with Florida Statutes, proposed future land use map amendments to the County's Comprehensive Plan, shall be based upon the following analyses:

1. An analysis of anticipated growth;

2. An analysis of the availability of facilities and services;
3. An analysis of the suitability of the plan amendment for its proposed use considering the character of the undeveloped land, soils, topography, natural resources, and historic resources on site;
4. An analysis of compatibility of adjacent land uses; and
5. An analysis of the need for job creation, capital improvement, and economic development that will strengthen and diversify the community's economy; and
6. A consultation with the Florida Department of Transportation when it is determined that a proposed amendment has the potential to affect facilities on the Strategic Intermodal System.

The subject site and the requested amendment are evaluated pursuant to the factors in Policy 1.1.2.2. below.

1. An analysis of anticipated growth.
Table 1 shows population growth in the County from 2010 to last year.

Table 1: St. Lucie County & Municipal Census Data – 2010 to 2020 Changes

Jurisdiction	April 1, 2010	April 1, 2020	April 1, 2025	Numerical Growth 2020-2025	Percentage Growth 2020-2025
St. Lucie Co. Total	**277,789**	**329,226**	**394,074**	**64,848**	**19.7%**
Fort Pierce	41,590	47,297	51,352	4,055	8.6%
Port St. Lucie	164,603	204,851	260,194	55,343	27.0%
St. Lucie Village	590	613	623	10	1.6%
UNINCORPORATED	71,006	76,465	81,905	5,440	7.1%

Sources: 2010 Population from US Census and 2025 Population Estimates from University of Florida Bureau of Economic & Business Research

The University of Florida Bureau of Economic and Business Research (BEBR) Projections of Florida Population by County for 2025–2050, projects a total population between 406,000 to 655,400 by 2050. BEBR believes the medium series is the most likely to provide accurate forecasts in most circumstances, which would place the St. Lucie County population at 530,700 by 2050. This is a total change of 201,474 or a percent change of 61.2% from the 2020 Census count. The population within the unincorporated County continues to increase, with increased demand to develop property along the western edge of growth centers and the interstate network. Encouraging and allowing industrial employment centers will provide jobs for local residents who might otherwise have to drive longer distances for work.

Pursuant to Section 163.3177, Florida Statutes, the comprehensive plan is intended to provide the principles, guidelines, standards, and strategies for the orderly and balanced future economic, social, physical, environmental, and fiscal development of the area that reflects community commitments to implement the plan and its elements; and requires that the comprehensive plan be based upon permanent and seasonal population estimates and projections, on at least the minimum amount of land required to accommodate the medium projections as published by the Office of Economic and Demographic Research (EDR) for at least a 10-year planning period. The EDR population projections for St. Lucie County are below.

Table 2: EDR Population Projections for St. Lucie County, 10 year period

ST. LUCIE	368,628						
Low		362,300	381,600	394,000	400,600	404,500	406,000
Medium		385,400	423,900	456,800	484,200	508,800	530,700
High		408,600	466,300	519,600	567,700	613,100	655,400
Bureau of Economic and Business Research, Florida Population Studies, Bulletin 198							7

2. An analysis of the availability of facilities and services.

Utilities. Water, sewer, and natural gas are available through Fort Pierce Utility Authority (FPUA), with existing

water and sewer lines adjacent to the site on N. Rock Rd. right-of-way. Florida Power and Light (FP&L) is the electric provider for the area.

Transportation

The Applicant's Transportation Impact Report (TIR), using the Institute of Transportation Engineers Trip Generation Handbook, estimated the manufacturing use would generate 6,166 weekday daily trips, including 736 AM peak hour trips and 910 PM peak hour trips. The proposed FLUMA is not proposing an increase to the allowable Floor Area Ratio (FAR) or building floor area, but rather height for operational flexibility and maneuvering.

Table 3: Project Trip Generation

Source	Land Use	ITE Code	Intensity	Daily Trips	AM Peak Hour			PM Peak Hour		
					Total	In	Out	Total	In	Out
Proposed Scenario										
ITE	Manufacturing	140	1,444.000 ksf	6,166	736	552	184	910	264	646
Driveway Volumes				6,166	736	552	184	910	264	646
Net New External Trips				6,166	736	552	184	910	264	646
Proposed - Existing Net New Traffic				6,166	736	552	184	910	264	646
Radius of Development Influence:				3 miles						

Source	Land Use	Daily	AM Peak Hour	PM Peak Hour	Avg. Pass By
ITE	Manufacturing	4.27 trips/ksf	0.51 trips/ksf (75% in, 25% out)	0.63 trips/ksf (29% in, 71% out)	0.0%

The TIR determined the following significant impacted (by the project) roadway links, with significance thresholds being project traffic exceeding 5% of roadway links not directly accessed by the project and 1% of roadways directly accessed by the project.

- **Orange Avenue** – From Rock Road to Kings Highway
- **Orange Avenue** – From Kings Highway to I-95
- **Orange Avenue** – From I-95 to Jenkins Road
- **Kings Highway** – From Picos Road to Orange Avenue
- **Kings Highway** – From Orange Avenue to Angle Road
- **Kings Highway** – From Angle Road to St. Lucie Boulevard
- **Kings Highway** – From St. Lucie Boulevard to Indrio Road
- **Graham Road** – From Kings Highway to Jenkins Road
- **Rock Road** – From Orange Avenue to Project Driveway

Orange Avenue from Rock Rd. to Kings Hwy. will exceed roadway capacity with project traffic, therefore the Applicant would be responsible for proportionate share payments toward the widening of this link of Orange Ave. The project's share would be at least 39% of project costs for the eastbound direction and 27% of the cost for the westbound direction.

The TIR recommends the following improvements for the Rock Rd./Orange Ave. intersection:

- Construction of an eastbound left-turn lane
- Construction of a southbound left-turn lane
- Restriping second southbound lane as a shared left/through/right turn lane
- Construction of an additional eastbound receiving lane on Orange Avenue
- Installation of a traffic signal

These improvements will result in acceptable LOS for this intersection ranging between B and D.

Access to the site is proposed via two driveways on Rock Road. The proposed driveway connections were subject to turn lane analysis using information in the FDOT Multimodal Access Management Guidebook as a reference. The analysis indicated that the southerly Driveway 1 is anticipated to require a northbound left-turn lane on Rock Rd.

3. An analysis of the suitability of the plan amendment for its proposed use considering the character of the undeveloped land, soils, topography, natural resources, and historic resources on-site.

The County's Environmental Resources Department provided the following statement: *ERD has no objection to the*

(land use amendment and) *rezoning of the subject parcel. Further review of the development plans will be conducted as part of the site plan approval or building permit process.*

A Major Site Plan application is being reviewed for the new location of Project Orchid headquarters. ERD has reviewed the application and provided a report with a partial list of conditions of approval. ERD will conduct further review of the site plan or building permit review process, including but not limited to, tree mitigation requirements, updating listed species surveys as necessary per individual species requirements, a vegetation removal permit or exemption, issued by the department. Clearing and earthwork will be conducted outside of the Scrub-jay nesting season and prior to Certificate of occupancy invasive plant species shall be removed from the site.

4. An analysis of the compatibility of adjacent land uses.

Manufacturing facilities are intensive uses that often generate truck traffic, loading/unloading, noise, and particle emissions. The companion Conditional Use Permit can provide conditions of approval to minimize incompatibility. The Applicant in their community meeting booklet pledged to employ the following elements to diminish potential noise, odor, and other impacts.

- All activities occur within enclosed buildings to reduce machinery & industrial processes noise.
- Fully enclosed air systems.
- Capture & filtering of emissions before their release using adsorption, absorption, and mechanical separation with the use of chemical scrubbers, sorbent-based filters, and baghouses to trap pollutants.

5. An analysis of the need for job creation, capital improvement, and economic development that will strengthen and diversify the community's economy.

The Applicant maintains that construction of the facility is expected to generate over $200 million in economic activity, supporting construction jobs and local contractors during the building phase. Anticipated employment includes more than 1,000 jobs over five years, with the median starting hourly wage at $28.50 and an estimated $53 million annual payroll. At this time, the largest manufacturing facility in the County is TAMCO in Port St. Lucie, which manufactures and distributes lighting and electrical products in a 441,000 square feet building, but the 1.3 million square foot Project Orchid would become the largest manufacturing facility in the County. Based on Property Appraiser estimates for similar manufacturing facilities, Project Orchid would generate somewhere between $2.8 and $3.0 million in annual tax revenue.

6. A consultation with the Florida Department of Transportation when it is determined that a proposed amendment has the potential to affect facilities on the Strategic Intermodal System.

St. Lucie County Engineering and Planning staff regularly consult with the Florida Department of Transportation (FDOT) regarding development projects that directly or indirectly impact the Strategic Intermodal System (SIS) and other state-owned roadways (Orange Ave. is a state highway but is not in the SIS). The Applicant must schedule a pre-application conference with FDOT. In accordance with Policy 1.1.2.2 and Objectives 1.2.1 and 2.1.1, Staff continues to involve FDOT in ongoing review of these applications.

Figure 6: Rock Rd., a substandard County road, is the eastern project boundary

Figure 7: Alcrete, a concrete precast manufacturing facility nearby on N. Rock Rd.

Proposed Amendment Consistency with Land Development Code

Current Zoning:
The overall project site is now split zoned between IL (Industrial, Light) and IH (Industrial, High, with 20.25 IL acres proposed for a rezone to IH. The St. Lucie County Land Development Code (LDC), Section 3.01.03.V. describes the purpose of the IL zoning district:

The purpose of this district is to provide and protect an environment suitable for light manufacturing, wholesale, and warehousing activities that do not impose undesirable noise, vibration, odor, dust, or other offensive effects on the surrounding are, together with such other uses as may be necessary to and compatible with light industrial surroundings.

IL permitted uses include a wide variety of office, manufacturing, motor freight transportation & warehousing, repair services, retail trade, vocational schools, and wholesale trade. Mobile vendors, landscape services, and personal services are also permitted uses. Single-family detached dwelling units provided that the single-family dwelling unit is located on an existing lot or parcel or record, as further defined in this Code, that existed on or before August 1, 1990. Conditional uses include manufacturing, boat building and repair, wholesale: petroleum bulk station and terminals, scrap and waste materials and kennels. Accessory uses include one detached single-family dwelling or mobile home, for on-site security purposes per property.

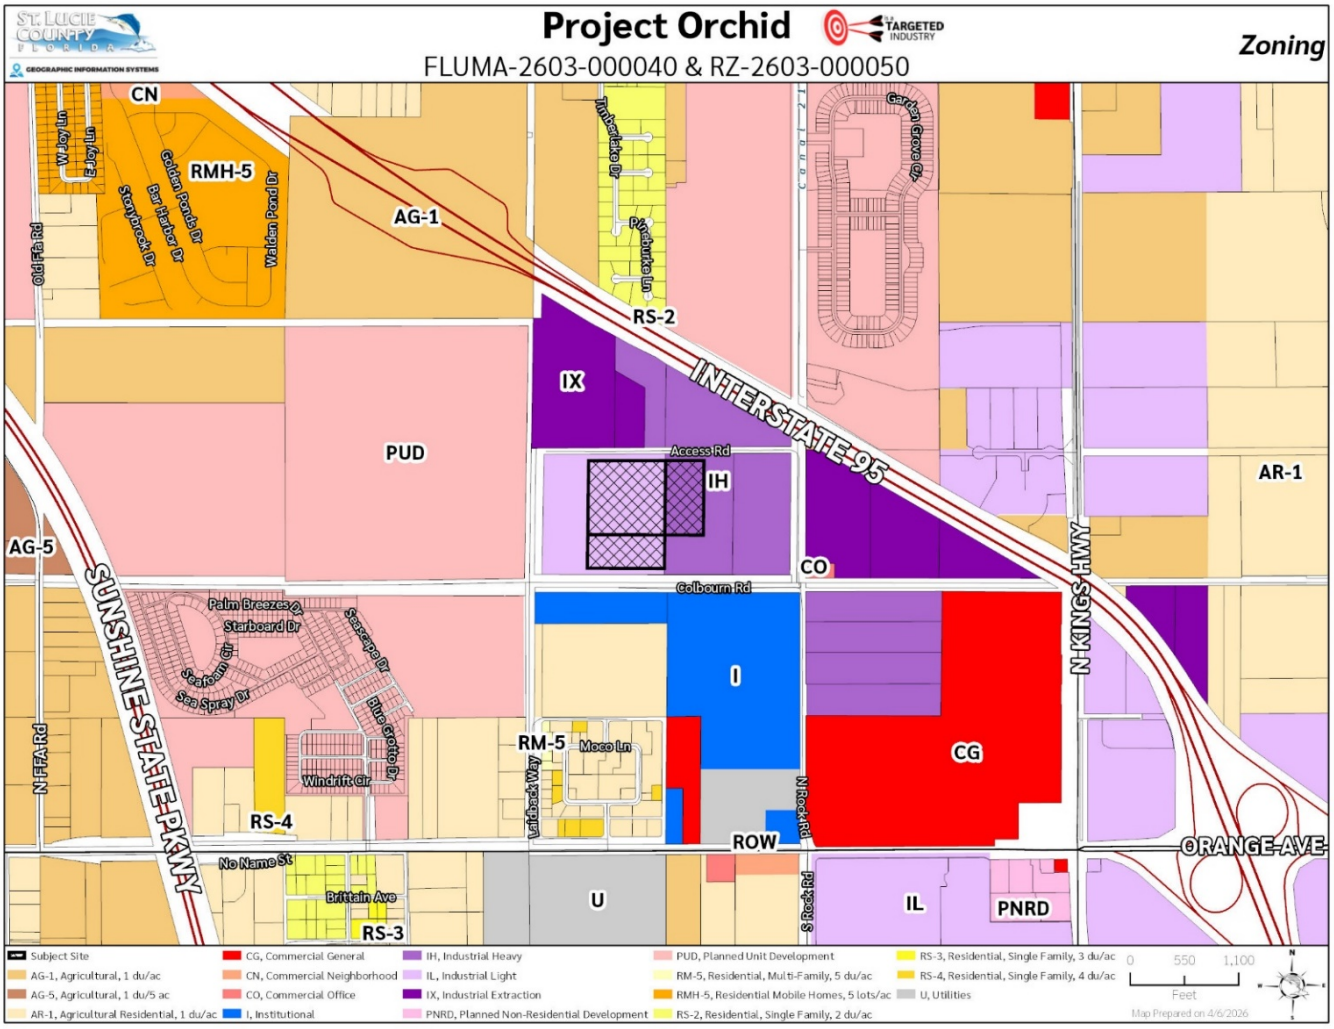

Figure 8: Current Zoning

Proposed Zoning:
The Applicant proposes to rezone +/- 20.25 acres of the subject property from IL (Industrial, Light) to IH (Industrial, Heavy), as highlighted in Exhibit 3, above, and with a broader Atlas Snapshot in Figure 9 below.

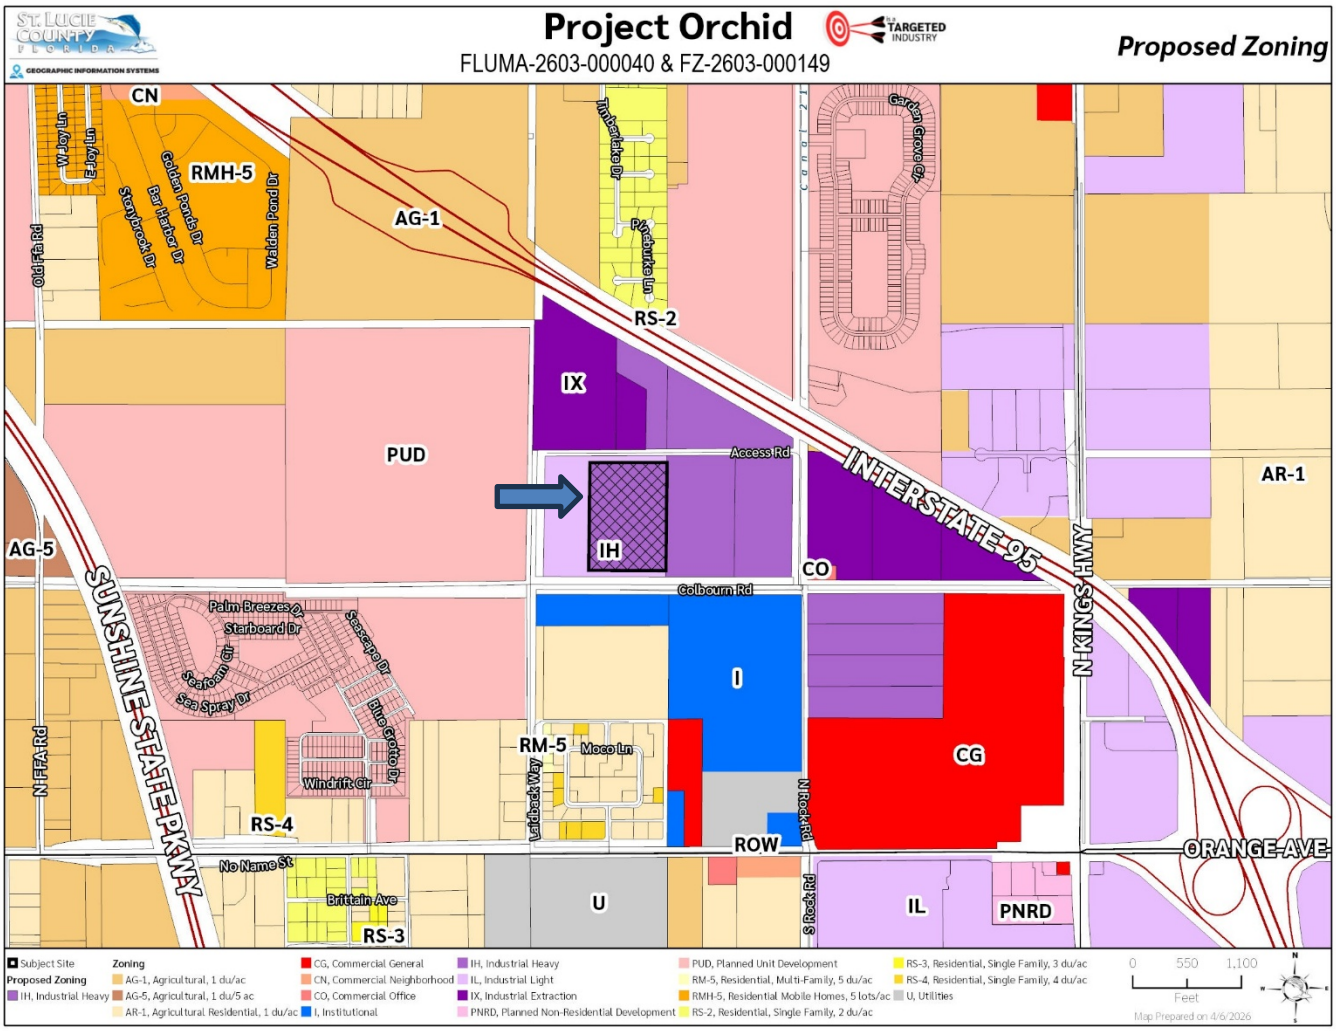

Figure 9: Proposed Zoning

LDC Section 3.01.03.U. sets forth the purpose of the IH zoning district.

The purpose of the IH zoning district is *"to provide an environment suitable for heavy manufacturing and other activities that may impose undesirable noise, vibration, odor, dust, or other offensive effects on the surrounding area together with such other non-residential uses as may be necessary to and compatible with heavy industrial surroundings"*

Industrial, Heavy (IH) permitted uses include agricultural services, construction services, engineering services, and a broad range of manufacturing, wholesale, and retail trade activities. Conditional uses include various types of manufacturing, warehousing and storage services, scrap, waste, and recycling operations, as well as wholesale trade of non-durable goods, including petroleum and petroleum products. Accessory uses allow for one detached single-family dwelling or mobile home per property for onsite security purposes. Figure 9, on the next page, shows Industrial, Heavy-zoned areas. This zoning district is relatively scarce, with a total of 1,261.44 acres in the Unincorporated County, compared to 3,655.25 acres of Industrial, Light-zoned areas.

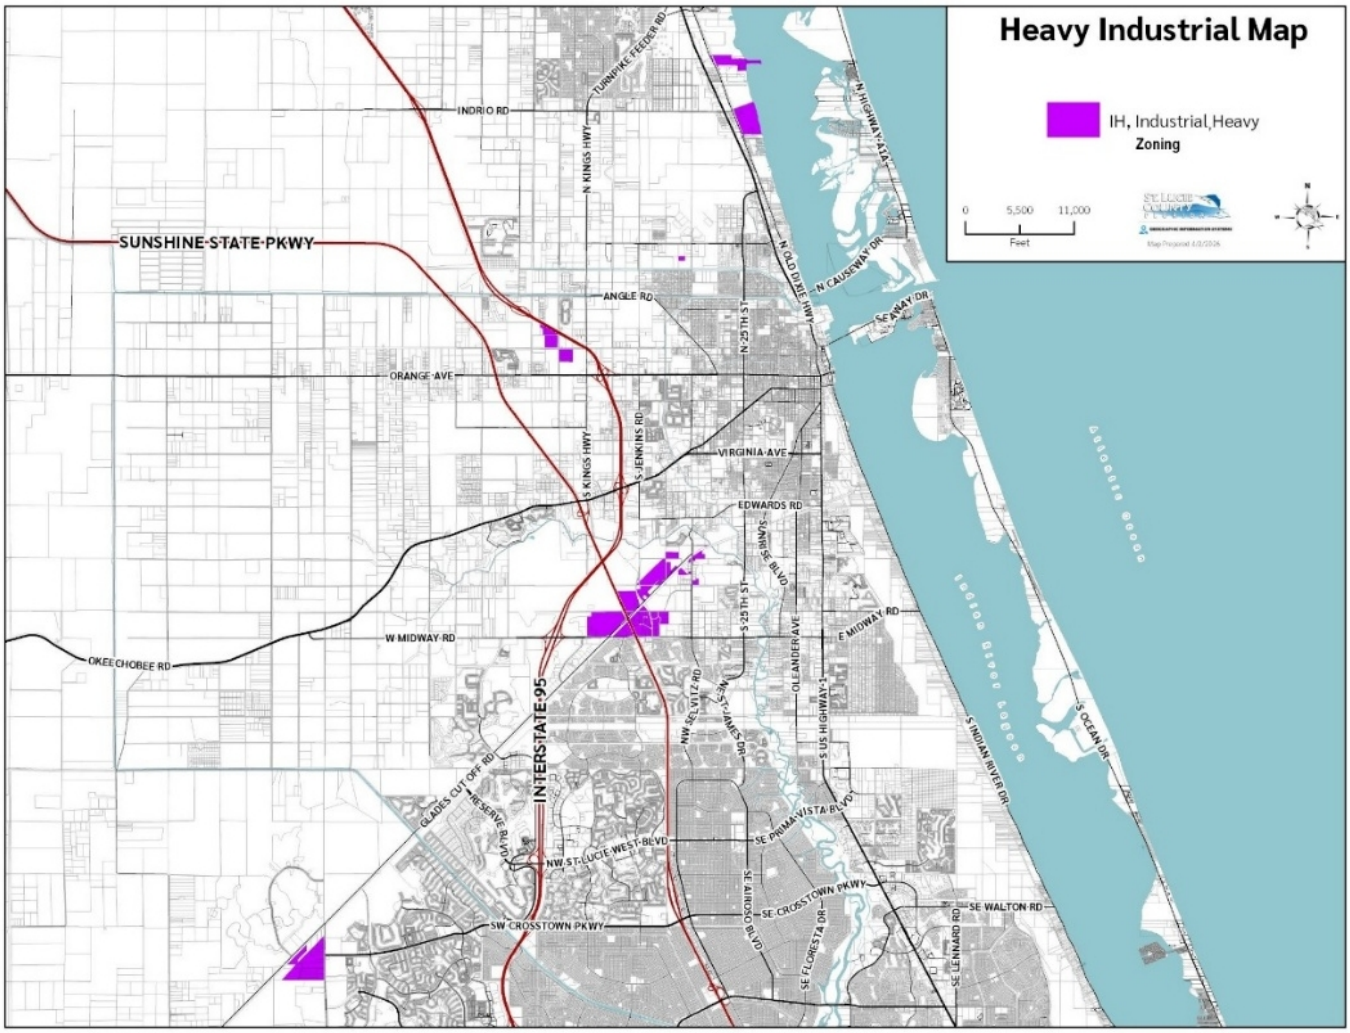

Figure 10: IH Zoning Countywide

****

STANDARDS OF REVIEW FOR REZONING
AS SET FORTH IN THE LAND DEVELOPMENT CODE SECTION 11.06.03

In reviewing this application for an amendment to the Official Zoning Atlas, the Board of County Commissioners shall consider standards of review set forth in LDC Sec. 11.06.03, as follows.

A. Whether the proposed rezoning is in conflict with any applicable portions of the St. Lucie County Land Development Code;

The proposed IH zoning designation is consistent with the MXD FLUM designation. The proposed rezoning to the IH zoning district is consistent with the St. Lucie County Land Development Code (LDC) and meets the Standards of Review set forth in LDC Section 11.06.03, as displayed in Sections A thru J of this report. The rezoning is consistent with LDC Section 11.09.02(A), Table 11-1 - *Zoning District/ Land Use Category Compatibility Chart* and the site meets the dimensional requirements set forth in Section 7.04.00 and Table 7-10 – *Lot Size and Dimensional Requirements* for the IL & IH Zoning Districts.

The proposed IH zoning district is consistent with surrounding parcels, providing the use scope in LDC Sections 3.01.03(T)(U) and District purposes. Certain Conditional Uses outlined under the Heavy Industrial Zoning District may not be appropriate for this particular property, due to proximity to single-family dwellings now under development (Pineapple Grove PUD, +/- 1,300 feet to the north, and proposed single-family dwellings (Sunnyland PUD, +/- 175 feet to the west). Examples of potentially impactful Conditional Uses in the IH district include textile mills and the manufacturing of paper products, lumber and wood products, chemicals, and perfumes. All future uses must be reviewed by the St. Lucie County Development Review Committee for compliance with design standards, and Conditional Uses evaluated with greater examination for compatibility with the subject site and surrounding uses.

B. Whether the proposed amendment is consistent with all elements of the St. Lucie County Comprehensive Plan;

The IH zoning district is consistent with the IND Future Land Use designation as provided within Comprehensive Plan Policy 1.1.1.3 - *Land Use Designation / Zoning Compatibility Chart*.

ZONING DISTRICT	FUTURE LAND USE CATEGORIES																
	AG-5	AG-2.5	RE	RS	RU	RM	RH	R/C	Cpub	COM	IND	P/F	MXD	SD	H	T/U	TVC
IH, Industrial Heavy											X		**X**				**X**

The proposed amendment is consistent with the following Comprehensive Plan Future Land Use Element's (FLUE) Goals, Objectives, and Policies:

The proposed rezoning conforms to the MXD FLU Category, particularly the concurrent amendment, and is consistent with most Urban Sprawl policies associated with FLUE Objective 1.1.5; is within the Urban Service Boundary as set forth in FLUE Objective 1.1.10.6 and its policies.

Future Land Use Element Policy 1.1.13.2 sets forth the following specific criteria to be utilized for determining the suitability of new property for IH zoning, applicable to the +/-20.25-acre portion proposed for rezoning: and strengthens the industrial base, tax base, and job market as called for in Economic Development Element Policy 10.1.1.1.

1. Heavy Industrial property should have available to it central water services necessary for both domestic and fire protection purposes.
Water and sewer lines run along the west side of Rock Rd. adjacent to the property.

2. New Heavy Industrial property should not be located within 1000 feet of any Aquatic Preserve or other specially designated aquatic habitat, or a Category I Wetlands as described in the Conservation Element of this Plan.
The subject property is not within 1000 feet of such areas (known).

3. New Heavy Industrial property should not be located within the 100-year floodplain.
The property is located outside of the Special Flood Hazard Area, in Zone X.

4. Heavy Industrial property should have immediate access to the regional transportation network without the need to travel through residential areas.
The property has immediate access to the regional transportation network, with direct access to Orange Ave., a state road, without having to go through residential areas. I-95 is approximately 1.4 miles away via Rock Rd. and then east on Orange Avenue.

5. New Heavy Industrial property should not be located within any cone of influence, as identified under the County's wellfield protection program.
The property is located outside any Wellfield Protection zone.

Also, FLUE Objective 1.1.5 policies discourage urban sprawl. The property is an infill project and not in a sprawl

location, located close to Orange Ave., I-95, and the Turnpike. A water main line and sewer force main runs along eastern boundary of the site, and the property is not far from employment centers and emerging commercial areas.

C. Whether and the extent to which the proposed zoning is inconsistent with the existing and proposed land uses;
As shown in Table 3, the proposed industrial zoning is in keeping with similar existing industrial uses along Rock Rd. to the south, which include a portable buildings manufacturer and an auto broker. The County Jail is to the south. The requested rezoning is not expected to harm other properties or improvements in the area and will not create a conflict with the surrounding zoning districts.

Table 3: Land Use Table

Location		Future Land Use	Zoning	Existing Land Use
Subject Property		MXD (Mixed Use District)	IH (Industrial, Heavy, eastern half)/ IL (Industrial, Light, western half)	Undeveloped
Adjacent Parcels	***North***	MXD (Mixed Use Development), RS (Residential Suburban)	IH (Industrial, Heavy, eastern half)/ IX (Industrial, Extraction, western half)	Undeveloped, retention pond/abandoned extraction area
	South	P/F (Public Facilities)	I (Institutional)	County Correctional Facility
	East	RS (Residential Suburban)	IX (Industrial Extraction) / CO (Commercial, Office)	Office/Undeveloped
	West	RS (Residential Suburban)	PUD (Sunnyland Farms Planned Unit Development – Lapsed / Newly Proposed)	Undeveloped

D. Whether there have been changed conditions that require an amendment.
Changed conditions include ongoing improvements to Interstate 95 (now an eight-lane freeway several hundred feet east of the site), Florida's Turnpike, Kings Highway and Orange Avenue which have improved the accessibility of properties in this area for trucking/freight distribution, warehousing, and manufacturing, and have increased the demand for industrial zoned property. Additionally, development continues in and around the Treasure Coast International Airport, a 14-minute drive away.

E. Whether and the extent to which the proposed amendment would result in demands on public facilities, and whether or to the extent to which the proposed amendment would exceed the capacity of such public facilities, including but not limited to transportation facilities, sewage facilities, water supply, parks, drainage, schools, solid waste, mass transit, and emergency medical facilities.
The property is located within the Urban Service Boundary and is adjacent to a water and sewer line. The proposed change in zoning should not adversely affect the acceptable level of service capacity of sewage facilities, water supply, parks, drainage, schools, solid waste, mass transit, or emergency medical facilities. The Transportation Impact Report (TIR) indicated that Applicant proportionate share payments would help fund intersection improvements to the intersection of Rock Rd. & Orange Ave. Prior to the issuance of any Final Development Order, the developer must demonstrate that all public facilities are available to serve the parcel and obtain a Certificate of Capacity. On March 6, 2026, the applicant signed the required Concurrency Deferral Affidavit recognizing this requirement for future project phases.

Transportation:
Some intersections and vicinity roadway links will be significantly or adversely impacted by project traffic. However, even without the project, Orange Ave. would fail, and therefore the Applicant is not responsible for improvements. The Rock Rd./Orange Ave. is adversely impacted by the project, and the Applicant would be responsible for funding roughly one-third of improvement costs of signalization and new turn lanes. See more detailed analysis on Pages 6-7.

Water and Sewer:
Water and sewer lines run within the adjacent right-of-way of Rock Rd.

Parks:
N/A (nonresidential).

Drainage:
Development of the property is subject to County, South Florida Water Management District, US Army Corps of Engineers, and Florida Department of Environmental Protection standards.

Schools:
N/A (nonresidential)

Solid Waste:
This area is served by WastePro.

Mass Transit:
The Area Regional Transit (ART) has no fixed service routes in this area, but potential job creation in this area and along Kings Highway may warrant future expansion, whether via a fixed route or micro transit services.

Emergency Medical Facilities:
The nearest Fire Station, Fire Station #1 (Central), is currently located at 2400 Rhode Island Avenue, approximately 5.45 miles southeast of the site. Fire Station #19, located on Research Center Road, broke ground in January 2025 and is projected to be completed in mid-2026. The station will be next to the Sunshine Kitchen, approximately 2.6 miles from the site.

F. Whether and the extent to which the proposed amendment would result in significant adverse impacts on the natural environment;
The County's Environmental Resources Department provided the following statement: *ERD has no objection to the rezoning of the subject parcel. Further review of the development plans will be conducted as part of the site plan approval or building permit process.*

A concurrent Major Site Plan application has been reviewed for the new location of Project Orchid headquarters. ERD has reviewed the application and provided a report with a partial list of conditions of approval. ERD's review of the site plan and building permit include but are not limited to, tree mitigation requirements, updating listed species surveys as necessary per individual species requirements, a vegetation removal permit or exemption, issued by the department. Clearing and earthwork will be conducted outside of the Scrub-jay nesting season and prior to Certificate of occupancy invasive plant species shall be removed from the site.

***G.* Whether and the extent to which the proposed amendment would adversely affect the property values in the area**;
Given the prevalence of like uses in the vicinity, it is not likely that the proposed change in zoning will adversely affect the property values in the area. The proposed zoning is consistent with the existing Future IND land use designation.

H. Whether and the extent to which the proposed amendment would result in an orderly and logical development pattern specifically identifying any negative effects of such patterns;
The proposed change in zoning will result in an orderly and logical development pattern. The subject property is in the Urban Service Boundary and is served by improved roadways with central water and sewer lines along those roadways. Staff would also note that IL-zoned land will remain on the western parcel, providing for a transition of zoning from the more intensive IH to the residentially-zoned areas to the west.

I. Whether the proposed amendment would be in conflict with the public interest, and is in harmony with the purpose and intent of this Code;
The proposed rezoning to IH zoning is not in conflict with the public interest and is in harmony with the purpose and intent of the LDC.

J. Any other matters that may be deemed appropriate by the Planning and Zoning Commission or the Board of County Commissioners, in review and consideration of the proposed amendment.
The Board of County Commissioners may raise other matters regarding the proposed amendment.

CONCLUSION:
Staff has reviewed this petition and determined that it conforms to the Standards of Review as set forth in Section 11.06.03 of the St. Lucie County Land Development Code and is consistent with the St. Lucie County Comprehensive Plan Goals, Objectives, and Policies. A leading justification for the rezoning is the existing Lucie Rock Mixed Use Activity Area future land use, which allows industrial uses, along with the presence of similar adjacent and nearby industrial uses.

COMMUNITY PARTICIPATION MEETING:
A community meeting was held at the Sunshine Kitchen on March 25, 2026, where the Applicant set up display boards showing future development and answered the questions of attendees.

PLANNING & ZONING COMMISSION:
On April 16, 2026, the Planning & Zoning Commission held a public hearing on the proposal and unanimously voted to forward a recommendation of approval to the Board of County Commissioners. The Commission briefly discussed the development scale and traffic impacts, particularly during construction of the facility – prior to improvements to Orange Avenue and Rock Road associated with the project.

PUBLIC NOTICE:
Notice requirements were met by Planning Staff and the Applicant. The Board's Hearings for these two (2) petitions were noticed by a publication in the St. Lucie News Tribune on April 23, 2026; a sign was placed on the property; and written notice was mailed to owners of property within 500 feet of the subject property.

STAFF RECOMMENDATION:
Staff recommends the Board of County Commissioners evaluate the proposed amendments and approve the requested small scale amendment of the adopted Comprehensive Plan's Future Land Use Element – Future Land Use Map to create a +/- 20.85-acre subarea of the Lucie Rock Mixed Use Activity Area (initially established as an extension of the Mixed Use Orange Avenue/I-95 Activity Area) that would allow an 80-foot building height limit within a Medium Intensity subarea within established Medium and High Intensity Development Areas; and rezoning of +/- 20.25 acres from the IL (Industrial, Light) Zoning District to the IH (Industrial, Heavy) Zoning District.

RESOLUTION No. 2026-81

FILE NO.: RZ-2603-000050

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF ST. LUCIE COUNTY AMENDING THE OFFICIAL ZONING ATLAS FOR +/- 20.25 ACRES LOCATED WEST OF NORTH ROCK ROAD, SOUTH OF THE NORTH ROCK ROAD EXTENSION (ACCESS ROAD) AND NORTH OF THE RELIEF CANAL, IN UNINCORPORATED ST. LUCIE COUNTY, FROM THE IL (INDUSTRIAL, LIGHT) ZONING DISTRICT TO THE IH (INDUSTRIAL, HEAVY) ZONING DISTRICT

WHEREAS, the Board of County Commissioners of St. Lucie County, Florida, based on testimony and evidence, including, but not limited to the staff report, has made the following determinations:

1) MC320, LLC presented a petition for an Amendment to the Official Zoning Atlas from IL (Industrial, Light) Zoning District to the IH (Industrial, Heavy) Zoning District, for +/- 20.25 acres of property located West of N. Rock Rd., south of N. Rock Rd. Ext. (Access Rd.), and north of the NSLRWCD Canal #44 (Relief Canal), in unincorporated St. Lucie County, Florida, as depicted on the attached map as Exhibit A and described in Part A.

2) On April 16, 2026 the St. Lucie County Planning and Zoning Commission held a public hearing on this petition, after advertising in the newspaper of local circulation, installing a sign on the property, and notifying by mail all owners of property within 500 feet of the subject at which all interested persons were given an opportunity to be heard, and recommended that the Board of County Commissioners approve the request for the property described in Part A.

3) On May 5, 2026, the Board of County Commissioners of St. Lucie County, Florida, held a public hearing after due notice was published in the St. Lucie News Tribune, a sign posted on the property, and mailed notice to owners of property within 500ft., at which all interested persons were given an opportunity to be heard regarding the request for the property described in Part A.

4) The St. Lucie County Development Review Committee has reviewed the Rezone Petition and found it to meet the technical requirements and to be consistent with the St. Lucie County Comprehensive Plan.

5) The proposed change in zoning has/has not satisfied the requirements of Section 11.06.03 of the St. Lucie County Land Development Code and is consistent with the goals, objectives, and policies of the St. Lucie County Comprehensive Plan.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of St. Lucie County, Florida:

ZONING MAP AMENDMENT

A. The property on which the Zoning Map Amendment, or change in zoning, from IL (Industrial, Light) Zoning District to IH (Industrial, Heavy) is being granted is described as follows:

Legal Description:
A PORTION OF SOUTH ONE HALF OF THE SOUTHWEST ONE QUARTER OF SECTION 2, TOWNSHIP 35 SOUTH, RANGE 39 EAST, ST. LUCIE COUNTY, FLORIDA, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:
COMMENCING AT THE SOUTHWEST CORNER OF SAID SECTION 2; THENCE N00°13'36"E ALONG THE WEST LINE OF THE SOUTHWEST ONE OF SAID SECTION 2, A DISTANCE OF 1,316.05 FEET TO A POINT OF INTERSECTION WITH A LINE LYING 5.00 FEET SOUTH OF AND PARALLEL WITH SAID SOUTH ONE HALF OF THE SOUTHWEST ONE QUARTER OF SECTION 2; THENCE N89°50'57"E ALONG SAID PARALLEL LINE AND THE SOUTH RIGHT-OF-WAY LINE OF SUNNYLAND DRIVE, AS RECORDED IN OFFICIAL RECORD BOOK 3664, PAGE 1430 OF THE PUBLIC RECORDS OF ST. LUCIE COUNTY, FLORIDA, A DISTANCE OF 580.99 FEET; THENCE S00°03'07"E, A DISTANCE OF 69.15 FEET TO THE POINT OF BEGINNING; THENCE N89°56'53"E, A DISTANCE OF 801.42 FEET; THENCE S00°03'07"E, A DISTANCE OF 1102.50 FEET; THENCE S89°55'26"W, A DISTANCE OF 798.75 FEET; THENCE N00°03'07"W, A DISTANCE OF 1102.84 FEET TO THE POINT OF BEGINNING.

CONTAINING 882,226 SQUARE FEET OR 20.254 ACRES, MORE OR LESS.

Parcel ID Number: 2302-331-0001-000-7 (Portion)

B. The St. Lucie Planning and Development Services Director shall be authorized to amend the Official Zoning Map to change the zoning of the property herein described, from IL (Industrial, Light) to IH (Industrial, Heavy) and to make a notation of the reference to the date of adoption of this Resolution.

C. A Concurrency Deferral Affidavit, a copy which is attached to this Resolution as Exhibit "B" was signed by the applicant in March 2026.

D. A copy of this Resolution shall be mailed to the owner of record as identified on the application.

E. This Resolution shall be recorded in the Public Records.

F. **ADOPTION**

After the motion and second, the vote on this Resolution was as follows:

Jamie Fowler, Chair	XXX
Larry Leet, Vice-Chair	XXX
James Clasby, Commissioner	XXX
Erin Lowry, Commissioner	XXX
Cathy Townsend, Commissioner	XXX

PASSED AND DULY ADOPTED this day of , 2026.

I, Don Mancil Jr. (Name), residing or doing business at 5701 SW Sunshine Farms Way (Street)
Palm City (City), FL (State), 34990 (Zip), 772-260-7334 (Phone)
have applied for a _____ (Type of Development Order) from St. Lucie County, Florida,

for the following project: Project Orchid (Name of Proposed Development).

I do hereby affirm that in connection with my application for the above project, I have elected to defer the certificate of capacity and reservation of capacity in public facilities for the above property until a later time, but no later than the application for a final development order for the same property.

I understand and acknowledge that the above listed property will be subject to the certificate of capacity before any final development order can be issued, and that St. Lucie County can make no guarantee that adequate public facilities will be available when I apply for the final development order.

I further acknowledge that according to Section 5.08.01 of the St. Lucie County Land Development Code, no final development approval can be granted until capacity in those facilities is available at that time. The issuance of a preliminary development order without a certificate of capacity creates no vested or other rights to develop the subject property.

Signed: _____ Applicant Don Mancil Jr Date: 3/6/2026

FUTURE LAND USE ELEMENT
GOALS, OBJECTIVES AND POLICIES

Goal 1.1: Ensure the highest quality living environment possible, through a mixture of land uses reflecting the needs and desires of the local residents and how they want their community to develop. The goal shall be implemented by strictly enforced building, zoning and development codes based on objectives and policies that will enhance St. Lucie County's natural and man-made resources while minimizing any damage or threat of degradation to the health, safety and welfare of the county's citizens, native wildlife and environment, through incompatible land uses.

Objective 1.1.1: *Land Use*. Maintain the Future Land Use Map land with the following use designations to portray the future development patterns of St. Lucie County.

Policy 1.1.1.1 - The following land use designations/intensities, as indicated on the Future Land Use Maps are provided as the pattern for the future development of the area within unincorporated St. Lucie County.

Future Land Use Designation		Residential Density	Max Height[4] (For Buildings)	Max Lot Coverage (For Buildings)
AG-5	Agriculture-5	1 du/5 acres (0.2 du/1 acre)	-	-
AG-2.5	Agriculture-2.5	1 du/2.5 acres (0.4 du/1 acre)	-	-
RE	Residential Estate	1 du/a acre	-	-
RS	Residential Suburban	2 du/1 acre	-	-
RU	Residential Urban	5 du/1 acre	-	-
RM	Residential Medium	9 du/ 1 acre	-	-
RH	Residential High	15 du/ 1 acre	-	-
R/C	Residential/Conservation	1 du/5 acres (0.2 du/1 acre)	-	-
Cpub	Conservation-Public	0 du[1]	20 ft	5-10%
COM	Commercial	0 du[1,5]	60 ft[3]	40—50%
IND	Industrial	0 du[1]	80 ft	40—50%
P/F	Public Facilities	0 du[1]	80 ft	40—50%
T/U	Transportation/Utilities	0 du[1]	40 ft[6]	40—50%
MXD	Mixed Use Development	0.2-15 du/acre[2,5]	80 ft	40—50%
H	Historic	0 du[1]	40 ft	40—50%
SD	Special District	0.2-15 du/acre	80 ft	40—50%
TVC	Towns, Villages, & Countryside	Variable pursuant to special areas plan. See TVC Element Goals, Objectives, and Policies. 1-9 du/acre	-	-

Notes:	
1	Residential uses permitted under specific conditions only. Refer to Zoning/Land Development Code for special restrictions in individual zoning districts.
2	Maximum Densities subject to compliance with intensity with intensity plans for each mixed use area, as set forth in Policy 1.1.8.4
3	For motel or hotel uses, the building spacing formula as identified in the Land Development Code shall be used to establish maximum building height, unless otherwise stipulated in the Hutchinson Island Building Height Overlay Zone section of the Land Development Code, or unless otherwise restricted by Code or Ordinance of the County.
4	Unless otherwise stipulated in the Hutchinson Island Height Overlay Zone section in the Land Development Code
5	Motels/hotels shall be allowed up to 36 units/acre.
6	The height of the Treasure Coast Airport shall be regulated by the Airport Zone Height Limitations established in Section 4.00.03, of the Land Development Code, as reviewed and approved by the Federal Aviation Administration (FAA).

and restrictions as set forth in the Land Development Code.

Medium density residential land uses can act as a transition between the lower intensity RU areas and the more intense land use designations. Zoning applications within the RM land use area include single-family, multifamily, or PD zoning.

G. Residential High (RH)
Areas designated Residential High (RH) are intended to accommodate high density development, not to exceed 15 dwelling units per gross acre. In order to develop at this intensity, it must be possible to connect into a central water and wastewater service facility, and the subject property must be located in an area of the County which has available all urban services and facilities including fire protection, police, recreation, roadways, and schools.

Limited nonresidential uses may be appropriate, in accordance with applicable standards and restrictions as set forth in the Land Development Code.

H. Mixed Use Development (MXD)
The intent of the Mixed Use Development (MXD) designation is to identify those areas where innovative land use concepts are encouraged. Application of this district should be with prudence, and should be only to those areas where traditional land use classifications do not afford the desired flexibility and community input in land use planning necessary to address local concerns. Candidates for this district include all I-95 interchange areas, the Treasure Coast International Airport, Community Development Districts created pursuant to Chapter 190, Florida Statutes and areas of special or unique environmental consideration that may not be appropriate for traditional land use designations.

Uses within the areas classified as Mixed Use should be segregated as to intensity and indicated in the form of a concept master plan which is to be included as a part of the land use designation process. The following criteria, in addition to those as cited in Objective 1.1.7 (PUD, PNRD & PMUD), are to be used in the development of Mixed Use areas:

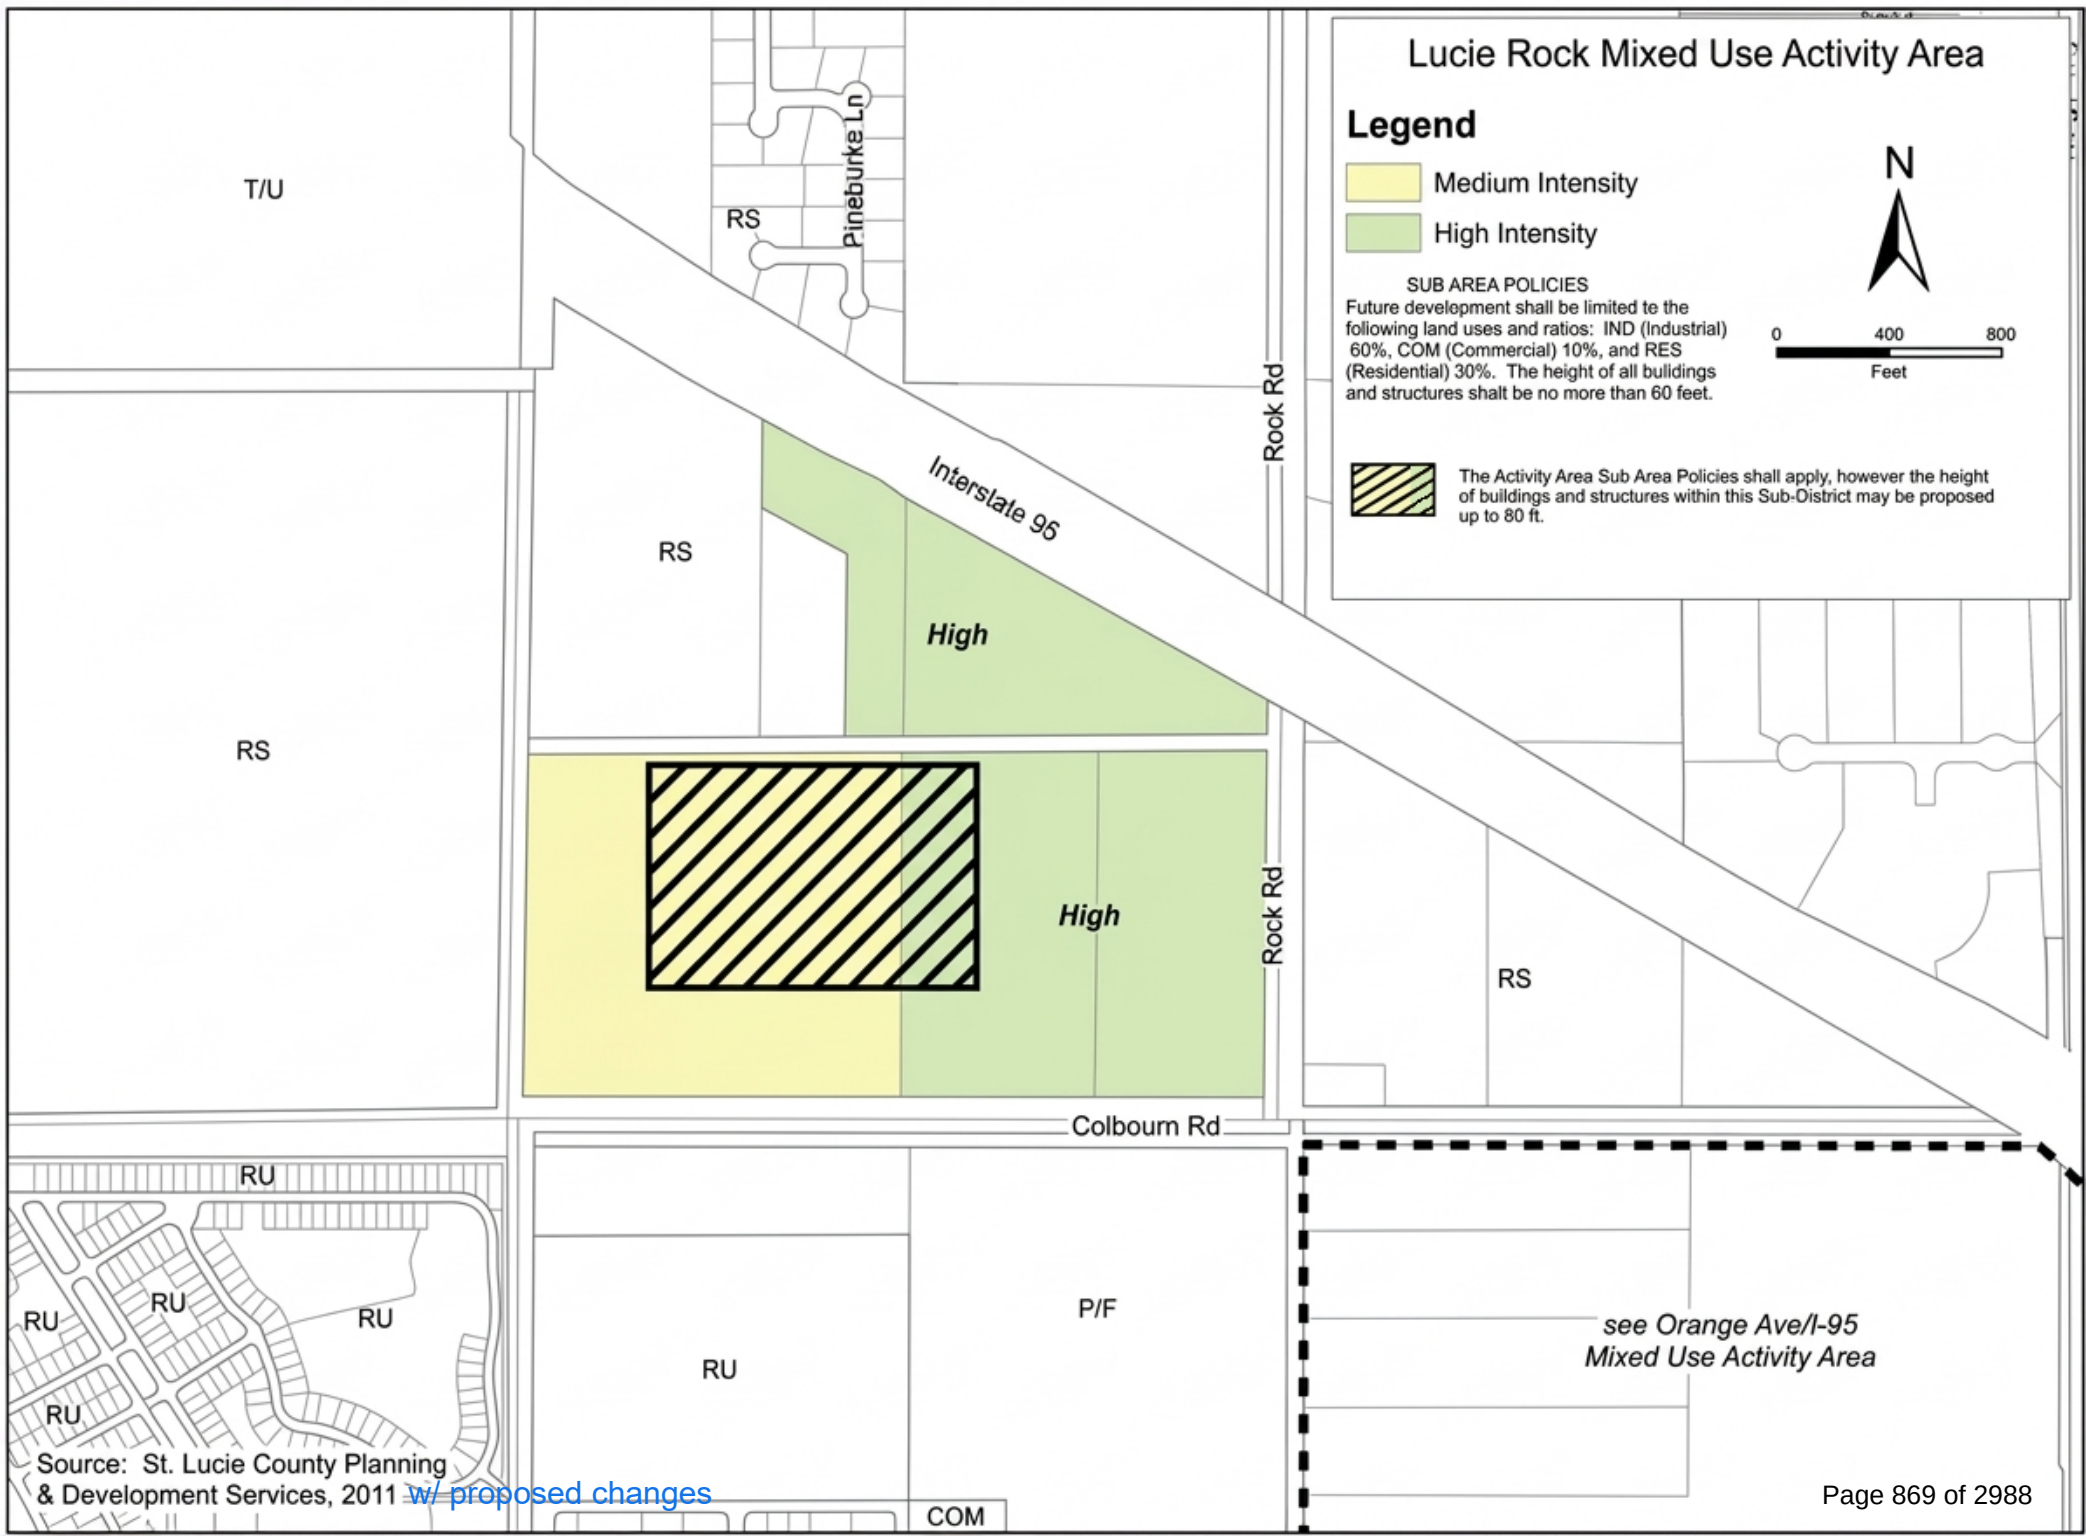
- Unless otherwise compliant with the identified intensity classification, any change in zoning shall be to the Planned Unit Development (PUD), Planned Non-Residential Development (PNRD) or Planned Mixed Use Development (PMUD), as described in the St. Lucie County Land Development Code. Those properties with compatible existing zoning designations are encouraged to develop under the PUD, PNRD or PMUD regulations.
- Residential development shall be regulated by the intensity district in which it is to take place. In no case should gross residential density exceed 15 du/ac.
- All uses shall be compatible with adjacent land uses.

I. Special District (SD)
The intent of the Special District (SD) designation is to identify those areas where specific uses or combinations of uses are anticipated. SD designated areas include previously approved Community Development Districts, areas for which a site specific development plan or concept has been granted, or areas which by their location have specific issues and concerns for their development.

Residential densities within an area designated as a Special District are limited to what the current land use designation authorizes. Any increase over the present designation may be considered only through the Plan Amendment process.

Policy 1.1.8.4 - The following use density and intensity standards shall be used for the purpose of this plan for the Mixed Use activity areas:

1. *High* Intensity development areas may include the following types of land uses:	
Residential	5 to 15 du/acres
Institutional	1.5 FAR *
Professional Service/Office	1.5 FAR *
General Commercial	1.0 FAR *
Public Service/Utility	0.5 FAR *
Industrial	0.75 FAR *
* FAR = Floor Area Ratio	
2. *Medium* Intensity development areas may include the following types of land uses:	
Residential	5 to 9 du/acres
Institutional	1.0 FAR *
Professional Service/Office	1.0 FAR *
General Commercial	0.75 FAR *
Public Service/Utility	0.25 FAR *
Industrial	0.5 FAR *
* FAR = Floor Area Ratio	
3. *Low* Intensity development areas may include the following types of uses:	
Residential	not to exceed 5 du/acres
Institutional	0.5 FAR *
Professional Service/Office	0.5 FAR *
General Commercial	0.5 FAR *
Public Service/Utility	0.25 FAR *
Industrial	0.5 FAR
* FAR = Floor Area Ratio	
4. Specific Use Areas: Areas with special or unique local character may be included within the Mixed Use Designation. These areas, because of conditions unique or peculiar to them alone, have been limited to specific activities and zoning options as set forth in the activity area plans described in Policy 1.1.8.3. Any zoning application not consistent with this policy must be accompanied by a corresponding Comprehensive Plan Amendment indicating the change in intensity classification.	
Application of the Specific Use Area designation is to be made to those areas recognized by the County as suitable for alternative land use as the full spectrum of community services become available. This designation would serve to prevent the unplanned or premature development of such areas until all services were provided for and are consistent with the Future Land Use development philosophy of St. Lucie County.	
The terminology used in the Specific Use designation identifies the type of permitted activity, maximum zoning density or maximum zoning intensity. Each Mixed Use Activity area will identify the type of Special Use areas in the legends of each area.	
Industrial and Professional Service/Office uses may receive an intensity bonus of up to 100% of the FAR, within specific use areas served by Strategic Intermodal System (SIS) facilities operating at or above the adopted level of service (LOS) and with available water service and wastewater service.	



Lucie Rock Mixed Use Activity Area
Legend
Medium Intensity
High Intensity
SUB AREA POLICIES
Future development shall be limited te the foliowing land uses and ratios: IND (Industrial) 60%, COM (Commercial) 10%, and RES (Residential) 30%. The height of all bulidings and structures shalt be no more than 60 feet.
The Activity Area Sub Area Policies shall apply, however the height of buildings and structures within this Sub-District may be proposed up to 80 ft.

3.01.03. - Zoning Districts.

U. *IH INDUSTRIAL, HEAVY.*

1. *Purpose.* The purpose of this district is to provide an environment suitable for heavy manufacturing and other activities that may impose undesirable noise, vibration, odor, dust, or other offensive effects on the surrounding area together with such other non-residential uses as may be necessary to and compatible with heavy industrial surroundings. The number in "( )" following each identified use corresponds to the SIC Code reference described in Section 3.01.02(B). The number 999 applies to a use not defined under the SIC Code but may be further defined in Section 2.00.00 of this Code.

2. *Permitted Uses.* Any use permitted in the Industrial Light (IL) zoning district:

   a. Agricultural services. (07)

   b. Construction services:

      (1) Building construction - general contractor. (15)

      (2) Other construction - general contractors. (16)

      (3) Construction - special trade contractors. (17)

   c. Docks and boathouses (private). (999)

   d. Engineering services. (871)

   e. Manufacturing:

      (1) Food and kindred products. (20)

      (2) Tobacco products. (21)

      (3) Textile mill products. (22)

      (4) Apparel and other finished products. (23)

      (5) Lumber and wood products, except furniture. (24)

      (6) Furniture and fixtures. (25)

      (7) Printing and publishing and allied industries. (27)

      (8) Chemicals and allied products:

      (a) Drugs. (283)

      (b) Soap, detergents and cleaning preparations; perfumes, cosmetics and other toilet preparations. (284)

      (c) Agricultural chemicals. (287)

      (9) Rubber and misc. plastic products. (30)

      (10) Leather and leather products. (31)

      (11) Glass:

      (a) Flat glass. (321)

      (b) Glass and glassware - pressed or blown. (322)

      (c) Glass products - made of purchased glass. (323)

      (12) Fabricated metal products (except ammunition and ordnance). (34)

      (13) Industrial/commercial machinery and computer equipment. (35)

(14) Electronic and other electrical equipment and components, except computer equipment. (36)

(15) Transportation equipment. (37)

(16) Measuring, analyzing and controlling instruments. (38)

(17) Misc. manufacturing industries:

(a) Jewelry, silverware, and platedware. (391)
(b) Musical instruments and parts. (393)
(c) Dolls, toys, games and sporting goods. (394)
(d) Pens, pencils and other office and artists' materials. (395)
(e) Costume jewelry, costume novelties, and notions. (396)
(f) Brooms and brushes. (3991)
(g) Signs and advertising displays. (3993)
(h) Morticians goods. (3995)
(i) Manufacturing industries, NIC. (3999)

(18) Paper and allied products:

(a) Paperboard containers and boxes. (265)
(b) Converted paper and paperboard products. (267)

f. Local and suburban transit. (41)
g. Water transportation. (44)
h. Transportation services. (47)
i. Communications. (48)
j. Motor freight transportation and warehousing. (42)
k. Motion pictures. (78)
l. Membership organizations. (86)
m. Personal and business services. (72)
n. Research, development, and testing services. (873)
o. Repair services:
    (1) Automotive and automotive parking. (75)
    (2) Electrical. (762)
    (3) Watch, clock and jewelry repair. (763)
    (4) Reupholstery and furniture repair. (764)
    (5) Misc. repairs and services. (769)
p. Retail trade:
    (1) Lumber and other building materials. (521)
    (2) Paint, glass and wallpaper. (523)
    (3) Hardware. (525)
    (4) Nurseries, lawn and garden supplies. (526)

(5) Mobile home dealers. (527)

(6) Automotive/boat/RV/motorcycle dealers. (55)

(7) Gasoline service. (55)

(8) Furniture and furnishings. (57)

q. Telecommunication towers - subject to the standards of Section 7.10.23. (999)

r. Wholesale trade - durable goods:

(1) Motor vehicle and automotive equipment. (501)

(2) Furniture and home furnishings. (502)

(3) Lumber and other building materials. (503)

(4) Professional and commercial equipment/supplies. (504)

(5) Metals and minerals, except petroleum. (505)

(6) Electrical goods. (506)

(7) Hardware, plumbing and heating equipment, and supplies. (507)

(8) Machinery, equipment, and supplies. (508)

(9) Misc. durable goods:

(a) Sporting and recreational goods. (5091)

(b) Toys and hobby goods. (5092)

(c) Jewelry, watches, precious stones and metals. (5094)

(d) Durable goods NEC. (5099)

s. Wholesale trade - nondurable goods:

(1) Paper and paper products. (511)

(2) Drugs. (512)

(3) Dry goods and apparel. (513)

(4) Groceries and related products. (514)

(5) Farm products - raw materials. (515)

(6) Chemicals, and allied products. (516)

(7) Beer, wine, and distilled alcoholic beverages. (518)

(8) Misc. nondurable goods:

(a) Farm supplies. (5191)

(b) Books, periodicals, and newspapers. (5192)

(c) Flowers, nursery stock and florists' supplies. (5193)

(d) Tobacco/tobacco products. (5194)

(e) Paints, varnishes and supplies. (5198)

(f) Nondurable goods, NEC. (5199)

t. Mobile food vendors. (999)

3. *Lot Size Requirements.* Lot size requirements shall be in accordance with Section 7.04.00.

4. *Dimensional Regulations.* Dimensional requirements shall be in accordance with Section 7.04.00.

5. *Offstreet Parking and Loading Requirements.* Offstreet parking and loading requirements are subject to Section 7.06.00.

6. *Landscaping Requirements.* Landscaping requirements are subject to Section 7.09.00.

7. *Conditional Uses:*

   a. Airport, landing and takeoff fields - general aviation. (4581)

   b. Manufacturing:

      (1) Paper and allied products. (26)

      (2) Chemicals and allied products. (28)

      (3) Petroleum refining and related products. (29)

      (4) Stone, clay, glass and concrete products. (32)

      (5) Primary metal industries. (33)

      (6) Ammunition and ordinance. (348)

   c. Natural or manufactured gas storage and distribution points. (492)

   d. Scrap, waste and land clearing and yard trash recycling operations - subject to the provisions of Section 7.10.12.

   e. Warehousing and storage services - stockyards. (999)

   f. Wholesale trade - nondurable goods:

      (1) Petroleum and petroleum products. (999)

8. *Accessory Uses.* Accessory uses are subject to the requirements of Section 8.00.00, and include the following:

   a. Co-generation facilities. (999)

   b. Fueling facilities. (999)

   c. Industrial wastewater disposal. (999)

   d. One (1) detached single-family dwelling or mobile home, for on-site security purposes per property. (999)

   e. Retail:

      (1) Bottled gas. (999)

      (2) Fuel oil. (999)

      (3) Gasoline service stations. (999)

      (4) Retail trade accessory to the primary manufacturing or wholesaling use. (999)

   f. Solar energy systems, subject to the requirements of Section 7.10.28.

3.01.03. - Zoning Districts.

T. *IL INDUSTRIAL, LIGHT.*

1. *Purpose.* The purpose of this district is to provide and protect an environment suitable for light manufacturing, wholesale, and warehousing activities that do not impose undesirable noise, vibration, odor, dust, or other offensive effects on the surrounding are, together with such other uses as may be necessary to and compatible with light industrial surroundings. The number in "( )" following each identified use corresponds to the SIC Code reference described in Section 3.01.02(B). The number 999 applies to a use not defined under the SIC Code but may be further defined in Section 2.00.00 of this Code.

2. *Permitted Uses:*

   a. Business services. (73)

   b. Communications - including telecommunication towers - subject to the standards of Section 7.10.23. (48)

   c. Construction services:

      (1) Building construction - general contractors. (15)

      (2) Other construction - general contractors. (16)

      (3) Construction - special trade contractors. (17)

   d. Engineering, architectural and surveying services. (871)

   e. Commercial fishing. (091)

   f. Laundry, cleaning and garment services. (721)

   g. Local and suburban transit. (41)

   h. Manufacturing:

      (1) Food and kindred products. (20)

      (2) Tobacco products. (21)

      (3) Textile mill products. (22)

      (4) Apparel and other finished products. (23)

      (5) Furniture and fixtures. (25)

      (6) Printing, publishing and allied industries. (27)

      (7) Drugs. (283)

      (8) Leather and leather products. (31)

      (9) Glass:

      (a) Flat glass. (321)

      (b) Glass and glassware - pressed or blown. (322)

      (c) Glass products - made of purchased glass. (323)

      (10) Fabricated metal prod. - except machinery and transport. equip.:

      (a) Metal cans and shipping containers. (341)

      (b) Cutlery, handtools and general hardware. (342)

      (c) Heating equipment, except electric and warm air, and plumbing fixtures. (343)

      (d) Fabricated structural metal products. (344)

(e) Coating, engraving and allied services. (347)

(f) Miscellaneous fabricated metal products:

(1) Wire products. (3495)

(2) Misc. fabricated wire products. (3496)

(3) Metal foil and leaf. (3497)

(4) Fabricated metal products - NEC. (3499)

(11) Industrial/commercial machinery and computer equipment:

(a) Metalworking machinery and equipment. (354)

(b) Special industry machinery, except metalworking machinery. (355)

(c) General industrial machinery and equipment. (356)

(d) Computers and office equipment. (357)

(12) Electronic and other electrical equipment and components, except computer equipment:

(a) Household appliances. (363)

(b) Electric lighting and wiring equipment. (364)

(c) Household audio and video equipment. (365)

(d) Communications equipment. (366)

(e) Electronic components and accessories. (367)

(f) Misc. electrical machinery equipment and supplies. (369)

(13) Measuring, analyzing and controlling instruments. (38)

(14) Photographic, medical and optical goods. (38)

(15) Watches and clocks. (38)

(16) Misc. manufacturing industries:

(a) Jewelry, silverware, and platedware. (391)

(b) Musical instruments and parts. (393)

(c) Dolls, toys, games and sporting goods. (394)

(d) Pens, pencils, and other office and artists' materials. (395)

(e) Costume jewelry, costume novelties, and notions. (396)

(f) Brooms and brushes. (3991)

(g) Signs and advertising displays. (3993)

(h) Morticians goods. (3995)

(i) Manufacturing industries, NEC. (3999)

(17) Plastic products - fabrication, molding, cutting, extrusion, and injection processing. (308)

i. Marinas. (4493)

j. Millwork and structural wood members. (243)

k. Motion pictures. (78)

l. Motor freight transportation and warehousing. (42)

m. Repair services:
    (1) Automotive and automotive parking. (75)
    (2) Electrical. (762)
    (3) Watch, clock and jewelry repair. (763)
    (4) Reupholstery and furniture repair. (764)
    (5) Misc. repairs and services. (769)
n. Retail trade:
    (1) Lumber and other building materials. (521)
    (2) Paint, glass and wallpaper. (523)
    (3) Hardware. (525)
    (4) Nurseries, lawn and garden supplies. (526)
    (5) Mobile home dealers. (527)
    (6) Automotive/boat/RV/motorcycle dealers. (55)
    (7) Gasoline service. (55)
    (8) Furniture and furnishings. (57)
o. Research, development, and testing services. (873)
p. Ship, boat building and repairing - less than forty-five (45) feet. (373)
q. Sorting, grading and packaging services - citrus/vegetables. (0723)
r. Vocational schools. (824)
s. Wholesale trade - durable goods:
    (1) Motor vehicle and automotive equipment. (501)
    (2) Furniture and home furnishings.(502)
    (3) Lumber and other building materials. (503)
    (4) Professional and commercial equipment/supplies. (504)
    (5) Metals and minerals except petroleum. (505)
    (6) Electrical goods. (506)
    (7) Hardware, plumbing and heating equipment, and supplies. (507)
    (8) Machinery, equipment, and supplies. (508)
    (9) Misc. durable goods:
        (a) Sporting and recreational goods. (5091)
        (b) Toys and hobby goods. (5092)
        (c) Jewelry, watches, precious stones and metals. (5094)
        (d) Durable goods NEC. (5099)
t. Wholesale trade - nondurable goods:
    (1) Paper and paper products. (511)
    (2) Drugs. (512)
    (3) Dry goods and apparel. (513)

(4) Groceries and related products. (514)

(5) Farm products - raw materials. (515)

(6) Chemicals, and allied products. (516)

(7) Beer, wine, and distilled alcoholic beverages. (518)

(8) Misc. nondurable goods:

(a) Farm supplies. (5191)

(b) Books, periodicals and newspapers. (5192)

(c) Flowers, nursery stock and florists' supplies. (5193)

(d) Tobacco/tobacco products. (5194)

(e) Paints, varnishes and supplies. (5198)

(f) Nondurable goods, NEC. (5199)

u. Mobile food vendors. (999)

v. Single-family detached dwelling units provided that the single-family dwelling unit is located on an existing lot or parcel or record, as further defined in this Code, that was existing on or before August 1, 1990. (999)

w. Kennels. Allowed as a permitted use only when the property is surrounded by industrial uses or zoning and is five hundred (500) feet or more from residential uses or zoning. All distance requirements shall be measured from the nearest point of the existing home or area of single-family zoning to the nearest point of the proposed kennel.

x. Landscape and horticultural services. (078)

y. Personal services. (72)

3. *Lot Size Requirements.* Lot size requirements shall be in accordance with Section 7.04.00.

4. *Dimensional Regulations.* Dimensional requirements shall be in accordance with Section 7.04.00.

5. *Offstreet Parking and Loading Requirements.* Offstreet parking and loading requirements are subject to Section 7.06.00.

6. *Landscaping Requirements.* Landscaping requirements are subject to Section 7.09.00.

7. *Conditional Uses:*

a. Airports, landing and takeoff fields - general aviation. (4581)

b. Manufacturing:

(1) Cut stone and stone products. (328)

(2) Motorcycles, bicycles, and parts. (375)

(3) Wood containers, wood buildings and mobile homes. (244/245)

c. Ship, boat building and repairing (excluding ship or boat salvaging) - forty-five (45) to one hundred fifty (150) feet. (373)

d. Wholesale:

(1) Petroleum bulk stations and terminals.

e. Scrap and waste materials - subject to the provisions of Section 7.10.12.A.

f. Kennels. (0752) Other than those permitted under Section 3.01.03 T.2.w. of the Land Development Code.

8. *Accessory Uses.* Accessory uses are subject to the requirements of Section 8.00.00 and include the following:

   a. Co-generation facilities. (999)

   b. Fueling facilities. (999)

   c. Industrial wastewater disposal. (999)

   d. One detached single-family dwelling or mobile home for on-site security purposes per property. (999)

   e. Retail trade accessory to the primary manufacturing or wholesaling use. (999)

   f. Solar energy systems, subject to the requirements of Section 7.10.28.

PROJECT ORCHID

Environmental Impact Report

Prepared For:

Foundry Commercial

Prepared By:

EW Consultants, Inc.

March 2026

1000 SE Monterey Commons Boulevard, Suite 208 • Stuart, FL 34996 772-287-8771 • Fax 772-287-2988
www.ewconsultants.com

Purpose and Intent

This report has been prepared in support of a proposed industrial development on a 73.48 +/- acre property referred to as Project Orchid. The subject property is located north of and adjacent to Colbourn Road, south of I-95, east of the Florida Turnpike, and west of and adjacent to Rock Road. The northern and eastern boundary of the property are defined by Rock Road. This report has been prepared in accordance with Section 11.02.09.A.5 "Environmental Impact Report" of the St. Lucie County Land Development Code.

Introduction

The subject 73.48 +/- acre property covered by this Environmental Impact Report is located within Section 2, Township 35 South, Range 39 East within unincorporated St. Lucie County, Florida. A Location Map (Figure 1), USGS Quad Map (Figure 2), and Aerial Photo (Figure 3) depicting the property boundaries and the immediate surrounding area are provided in the Appendix.

Property Description

The property is comprised of several different land cover types with the predominate land cover type being abandoned citrus groves that are no longer in production. The property also contains several man-made agricultural conveyance ditches that were constructed for the purpose of drainage and irrigation of the former citrus groves. Native species including cabbage palm and laurel oak have naturally colonized throughout the property as have non-native invasive species, predominantly Brazilian pepper and Australian pine. A review of historic aerial imagery indicates that the property was converted to agricultural use more than 65 years ago and was subsequently converted for the purpose of citrus production by 1985. The property does not contain any native upland habitat, and no wetlands were identified during field reconnaissance conducted for this Environmental Impact Report.

Soils

A Custom Soils Resource Report for the subject property is provided in the Appendix. This report, prepared by the United States Department of Agriculture (USDA) Natural Resource Conservation Service (NRCS) provides complete descriptions of all soil types within the Project Orchid property along with acreage summaries and soil descriptions.

Natural Communities and Land Cover

The following is a summary of the land cover types and vegetative communities found on the subject site. Land cover and vegetative community classifications are mapped based on the Florida Land Use, Cover and Forms Classification System (FLUCFCS) developed by the Florida Department of Transportation. Field reconnaissance and aerial imagery interpretation were employed in the mapping of the vegetative communities on the subject property. The vegetative community descriptions include discussions of potential wildlife habitat provided by the various resources present in those communities. Detailed observations and occurrences of wildlife are discussed in subsequent sections of this report.

The FLUCFCS classifications observed on the site are described below. A Land Cover Map of the observed vegetative community types is included as Figure 4 in the Appendix of this report. The land cover types on the property are described as follows:

224 – Abandoned Groves –

This is the predominant land cover type on the subject property and includes the portions of the property that were previously converted for the purpose of citrus production that are no longer in operation. The network of ridges, furrows, and ditches were constructed for the purpose of drainage and irrigation of the former citrus grove remains. Non-native invasive plant species including Brazilian pepper, carrotwood, old-world climbing fern, downy rose myrtle, strawberry guava, Caesar weed, smut grass, and cogan grass are present throughout and are the dominant coverage in some areas. Native species including live oak, laurel oak, and cabbage palm are also present within the abandoned grove portions of the property.

437 – Australian Pine –

There is a portion of the property where the vegetation cover is dominated by non-native invasive Australian pine trees. As generally occurs in areas that are dominated by Australian pines, the occurrence of other plant species in this area is sparse and consists of scattered ruderal shrubs and ground cover.

510 – Ditches –

There are several conveyance ditches present within the central and eastern portions of the property. Vegetation present within the ditches includes a variety of native, non-native, and nuisance species including jointed spike rush, Peruvian primrose willow, and cattail.

Wildlife

Non-listed Wildlife

Observations for wildlife presence and signs of utilization were made during site reconnaissance conducted beginning in January and and continuing on a regular basis through the preparation of this report in March 2026. Several common avian species were observed within the property and several others are likely to occur on a foraging or migratory basis.

The following non-listed avian species have been observed during site reconnaissance of the property: mourning dove, eastern meadowlark, American crow, black vulture, red-shoulder hawk, swallow tailed kite, and cattle egret. Several species of wading birds including great egret, white ibis, and little blue heron were also observed both in transit and forging within the on site agricultural ditches.

Direct observation and signs of utilization by mammals were observed during the site reconnaissance including raccoon, coyote, feral hog, and rodents.

Reptile observations included soft-shell turtle, black racer snake, and southern leopard frog.

Listed Species Inventory and Evaluation –

The survey methodologies used for determining the status of state and/or federally listed wildlife species occurrence on the site followed generally accepted protocols as specified in state and Federal guidance documents. The geographic range of the property and its associated habitats, vegetative cover types, and natural or disturbed status were the primary considerations in assessing the potential occurrence of listed species.

Pedestrian and vehicular surveys were employed to assess the relative quality and wildlife utilization of the property. In addition, the protected species evaluations and survey methodologies have been, and will continue to be, addressed on a species-specific basis in accordance with Florida Fish and Wildlife Conservation Commission (FFWCC) and U.S. Fish and Wildlife Service (USFWS) protocols and techniques relative to the species under consideration.

The state and/or federally listed wildlife species with potential to occur on the subject site are summarized in the following table. Likelihood of occurrence has been indicated based on species-specific evaluations and best professional judgement and noted as either observed during site review or likelihood of occurrence as high, medium, or low.

Table 1. Known and Potentially Occurring Listed Faunal Species

Common Name	Scientific Name	Preferred Habitat	Sampling Method	Occurrence*	Listed Status
					State/Federal
American alligator	*Alligator mississippiensis*	Wetland and aquatic habitat	Pedestrian and vehicular transects	M	FT/SA
Audubon's crested caracara	*Caracara cheriway*	Dry prairie, open rangeland	Pedestrian and vehicular transects	M	FT
Bald eagle	*Haliaeetus leucocephalus*	Nest in tall trees (usually pine) near coasts, rivers, lakes and wetlands	Pedestrian and vehicular transects	L	No longer listed Nest trees protected
Eastern indigo snake	*Drymarchon corais couperi*	A diversity of upland/low land habitat	Pedestrian and vehicular transects	M	FT
Florida bonneted bat	*Eumops floridanus*	A diversity of forested habitats	Acoustic and roost surveys	L	FE
Florida burrowing owl	*Athene cunicularia*	Sandhills, ruderal communities, dry prairies	Pedestrian and vehicular transects	M	ST
Florida pine snake	*Pituophis melanoleucus mugitus*	Well drained sandy soils, moderate to open pine canopy	Pedestrian and vehicular transects	L	ST
Florida sandhill crane	*Grus canadensis pratensis*	Breed in emergent palustrine wetlands; forage in pastures/prairies	Pedestrian and vehicular transects; aerial nest survey	L	ST
Florida scrub-jay	*Aphelocoma coerulescens*	Xeric oak scrub and scrubby flatwoods on sandy ridges and dunes	Pedestrian and vehicular transects	L	FT
Gopher tortoise	*Gopherus polyphemus*	Sandhills, xeric oak scrub, sand pine scrub, scrubby flatwoods; agricultural lands	Burrow survey 100% of suitable habitat	M	ST
Little blue heron	*Egretta caerulea*	Breeding: marshes, swamps, ponds, estuaries, rivers; nest in shrubs and small trees	Pedestrian and vehicular transects	[1]O	ST
Red-cockaded woodpecker	*Picoides borealis*	Mature pine woodlands	Pedestrian and vehicular transects	L	FE
Reddish egret	*Egretta rufescens*	Breeding: marshes, swamps, ponds, estuaries, rivers; nest in shrubs and small trees	Pedestrian and vehicular transects	L	ST

Common Name	Scientific Name	Preferred Habitat	Sampling Method	Occurrence*	Listed Status
Roseate spoonbill	*Ajaia ajaja*	Breeding: marshes, swamps, ponds, estuaries, rivers; nest in shrubs and small trees	Pedestrian and vehicular transects	M	ST
Southeast American kestrel	*Falco sparverius paulus*	Sandhill and open rangeland nest in cavities of dead trees and abandoned woodpecker nests	Pedestrian and vehicular transects	L	ST
Tricolored heron	*Egretta tricolor*	Breeding: marshes, swamps, ponds, nest in shrubs and small trees	Pedestrian and vehicular transects	M	ST
Wood stork	*Mycteria americana*	Estuarine or freshwater wetlands; nest in tops of trees in cypress or mangrove swamps	Pedestrian and vehicular transects	M	No longer Federally listed

O* = Observed; [1] Observed transient ; [2] Observed nesting and/or resident
Probability of Occurrence: H= High probability; M= Medium; L= Low;

FE = Federally-designated Endangered; FT = Federally-designated Threatened; FXN = Federally-designated Threatened Nonessential Experimental Population; FT(S/A) = Federally-designated Threatened species due to similarity of appearance; ST = State-designated Threatened; SSC = State Species of Special Concern

The American alligator is listed as Federally Threatened due to similarity of appearance with the American crocodile and alligators are relatively common throughout the region in wetland and aquatic systems. Although no alligators were observed during field reconnaissance, there remains a moderate chance of occurrence of alligators within the on site agricultural ditches.

The subject property is located within the consultation area of the Audubon's crested caracara and the portions of the abandoned citrus groves that contain sparse occurrences of trees provide suitable foraging habitat for this species. The property also contains mature cabbage palms that provide caracara with preferred nesting structures. Although no crested caracara or caracara nests were observed during field reconnaissance, in order to verify the absence of this species, a crested caracara nesting season survey is currently under way. The nesting season survey was initiated on January 1, 2026 and, in accordance with U.S. Fish and Wildlife Service (USFWS) guidelines, will continue through April 2026. A caracara nesting season survey report documenting the findings of the nesting season survey will be provided under separate cover following the completion of the survey.

Bald eagles, while no longer listed, remain protected under the Bald and Golden Eagle Protection Act. The property does not contain mature slash pines that are large enough to provide nesting opportunities and no bald eagles or bald eagle nests were observed during field reconnaissance.

The eastern indigo snake is a secretive species that ranges widely over a diversity of upland and wetland habitats and is known to occur in the region. No eastern indigo snakes have been observed during multiple site visits and the absence of any significant gopher tortoise population indicates that indigo snakes are unlikely to occur. Regardless, standardized and specific construction awareness and notification procedures will need to be implemented for the protection of this species during site development.

The Florida bonneted bat is listed as endangered by the U.S. Fish and Wildlife Service (USFWS). This species preferred habitat for roosting and nesting includes a variety of forested habitats and man-made structures which do not occur on site. The property is located outside of the designated consultation area for this species, thus its potential for occurrence is considered low. No bonneted bats were observed during site reconnaissance conducted in January and February 2026.

Florida burrowing owls are listed as Threatened by the State of Florida and the portions of the site with only sparse occurrences of canopy trees and palms provide potentially suitable habitat for this species. However, no Florida burrowing owls or burrowing owl burrows were observed during field reconnaissance and the occurrence of this species is unlikely.

The Florida pine snake inhabits areas that feature well-drained sandy soils with moderate to open canopy. According to the FFWCC publicly available database, the subject site is located within the distribution area for this species. The property does not contain any pine flatwoods habitat suitable for this species and no Florida pine snakes were observed, thus the potential for their occurrence is considered low.

The Florida sandhill crane is a State-designated Threatened species that is relatively common within the region. The preferred nesting habitat for this species is freshwater marsh habitat which does not occur onsite and no sandhill cranes or sandhill crane nests were observed during field reconnaissance.

The Florida scrub-jay is a Federally threatened species that inhabits xeric oak and scrubby flatwoods habitats along sandy ridges and dunes. The subject property does not contain any suitable habitat for this species and no Florida scrub-jays were observed or heard during field reconnaissance.

In January and February 2026, habitat reconnaissance surveys were conducted by Jason Hahner (Licensed Gopher Tortoise Agent #GTA-14-00024I) to identify the occurrence of gopher tortoises, their burrows, or indicators of their presence. The habitat surveys were conducted in accordance with Florida Fish and Wildlife Conservation Commission (FFWCC) Gopher Tortoise Permitting Guidelines (revised April 2023).

No gopher tortoises, gopher tortoise burrows, or indicators of the presence of gopher tortoises were observed during the representative habitat survey conducted in January and February 2026. Although no gopher tortoises or gopher tortoise burrows were observed, a 100% habitat survey for this species will need to be conducted prior to the commencement of any land development activities. A gopher tortoise relocation permit will be required should any potentially occupied gopher tortoise burrows be identified that cannot be avoided by development within a radius of at least 25-feet from the burrow entrance.

The on site ditches provide potential foraging opportunities for listed wading bird species and one of these species, the State-designated Threatened little blue heron was observed during field reconnaissance. Other listed wading bird species that are likely to forage on the property include the tricolored heron and roseate spoonbill, although neither of these species have been observed during field reconnaissance.

As of March 9, 2026, the wood stork is no longer listed as a federally threatened species by the U.S. Fish and Wildlife Service (USFWS). As of the date of this report (March 2026), it is not currently clear whether the wood stork will remain protected at the state level by Florida Fish and Wildlife Conservation Commission (FFWCC). Regardless, no wood storks were observed during the January and February 2026 site reconnaissance and the property does not provide suitable nesting habitat due to the absence of naturally forested wetlands.

Impact Summary

Uplands –

Development of the project will require a vegetation removal permit issued by St. Lucie County for removal of native trees. Issuance of the vegetation removal permit will require demonstration of avoidance and minimization of impacts to native vegetation, a tree survey, and a mitigation plan for proposed impacts. A tree inventory is under way (by others) which will be provided to the project land planner for tree disposition plans. Vegetation designated to be preserved will need to meet the St. Lucie County vegetation protection standards.

Wetlands –

A review of permitting records on the South Florida Water Management District (SFWMD) online web portal did not reveal that any past or current permits exist for the subject property. As such, an application for an Environmental Resource Permit (ERP) will be required for any future proposed development.

The opinion of the absence of wetlands on site has not yet been verified by SFWMD as of the date of this report (March 2026). A site review with SFWMD staff to confirm these conditions will be required as part of a Formal Wetland Determination or upon submittal of an Environmental Resource Permit (ERP) application.

MAP INFORMATION

The soil surveys that comprise your AOI were mapped at 1:24,000.

Warning: Soil Map may not be valid at this scale.

Enlargement of maps beyond the scale of mapping can cause misunderstanding of the detail of mapping and accuracy of soil line placement. The maps do not show the small areas of contrasting soils that could have been shown at a more detailed scale.

Please rely on the bar scale on each map sheet for map measurements.

Source of Map: Natural Resources Conservation Service
Web Soil Survey URL:
Coordinate System: Web Mercator (EPSG:3857)

Maps from the Web Soil Survey are based on the Web Mercator projection, which preserves direction and shape but distorts distance and area. A projection that preserves area, such as the Albers equal-area conic projection, should be used if more accurate calculations of distance or area are required.

This product is generated from the USDA-NRCS certified data as of the version date(s) listed below.

Soil Survey Area: St. Lucie County, Florida
Survey Area Data: Version 19, Aug 29, 2025

Soil map units are labeled (as space allows) for map scales 1:50,000 or larger.

Date(s) aerial images were photographed: Jan 18, 2022—Jan 30, 2022

The orthophoto or other base map on which the soil lines were compiled and digitized probably differs from the background imagery displayed on these maps. As a result, some minor shifting of map unit boundaries may be evident.

11.06.03. Standards of Review.

In reviewing the application of a proposed amendment to the text of this Code or an application for a proposed amendment to the Official Zoning Atlas, the Board of County Commissioners and the Planning and Zoning Commission shall consider:

A. Whether the proposed amendment is in conflict with any applicable portions of this Code;

B. Whether the proposed amendment is consistent with all elements of the St. Lucie County Comprehensive Plan.

C. Whether and the extent to which the proposed amendment is inconsistent with existing and proposed land uses;

D. Whether there have been changed conditions that require an amendment;

E. Whether and the extent to which the proposed amendment would result in demands on public facilities, and whether or to the extent to which the proposed amendment would exceed the capacity of such public facilities, including but not limited to transportation facilities, sewage facilities, water supply, parks, drainage, schools, solid waste, mass transit and emergency medical facilities;

F. Whether and the extent to which the proposed amendment would result in significant adverse impacts on the natural environment;

G. Whether and the extent to which the proposed amendment would adversely affect the property values in the area;

H. Whether and the extent to which the proposed amendment would result in an orderly and logical development pattern, specifically identifying any negative effects on such pattern;

I. Whether the proposed amendment would be in conflict with the public interest, and is in harmony with the purpose and interest of this Code; and

J. Any other matters that may be deemed appropriate by the Planning and Zoning Commission or the Board of County Commissioners, in review and consideration of the proposed amendment.

ST. LUCIE COUNTY BOARD OF COUNTY COMMISSIONERS PUBLIC HEARING AGENDA Tuesday, May 5, 2026

NOTICE OF PROPOSED AMENDMENTS TO THE COMPREHENSIVE PLAN FUTURE LAND USE MAP AND OFFICIAL ZONING ATLAS, AND A CONDITIONAL USE PERMIT

The Board of County Commissioners is scheduled to review and take action on the following proposals for adoption by Ordinance and Resolutions, respectively:

ORDINANCE

AN ORDINANCE OF THE BOARD OF COUNTY COMMISSIONERS OF ST. LUCIE COUNTY, FLORIDA, TO APPROVE A SMALL SCALE AMENDMENT OF THE ADOPTED COMPREHENSIVE PLAN FUTURE LAND USE MAP TO CREATE TO CREATE A +/- 20.85-ACRE SUBAREA OF THE LUCIE ROCK MIXED USE ACTIVITY AREA (INITIALLY ESTABLISHED AS AN EXTENSION OF THE MIXED USE ORANGE AVENUE/I-95 ACTIVITY AREA) THAT WOULD ALLOW AN 80-FOOT BUILDING HEIGHT LIMIT WITHIN A PORTION OF ESTABLISHED MEDIUM AND HIGH INTENSITY DEVELOPMENT AREAS, LOCATED BETWEEN NORTH ROCK ROAD, NSLRWCD CANAL NO. 41 AND THE RELIEF CANAL AND PROVIDING FOR FINDINGS, CONFLICTING PROVISIONS, SEVERABILITY, APPLICABILITY, FILING WITH THE FLORIDA DEPARTMENT OF STATE, FILING WITH THE FLORIDA DEPARTMENT OF COMMERCE, AN EFFECTIVE DATE, CODIFICATION AND ADOPTION.

RESOLUTION

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF ST. LUCIE COUNTY AMENDING THE OFFICIAL ZONING ATLAS FOR +/- 20.25 ACRES LOCATED WEST OF NORTH ROCK ROAD, SOUTH OF THE NORTH ROCK ROAD EXTENSION (ACCESS ROAD) AND NORTH OF THE RELIEF CANAL, IN UNINCORPORATED ST. LUCIE COUNTY, FROM THE IL (INDUSTRIAL, LIGHT) ZONING DISTRICT TO THE IH (INDUSTRIAL, HEAVY) ZONING DISTRICT.

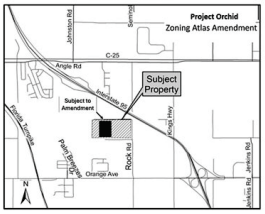
RESOLUTION

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF ST. LUCIE COUNTY GRANTING A CONDITIONAL USE PERMIT TO DEVELOP AND OPERATE A METAL FOUNDRY TOTALING APPROXIMATELY 76,200 SQUARE FEET AS PART OF A WINDOW MANUFACTURING FACILITY TO BE KNOWN AS PROJECT ORCHID LOCATED WEST OF NORTH ROCK ROAD, SOUTH OF THE NORTH ROCK ROAD EXTENSION (ACCESS ROAD) AND NORTH OF THE RELIEF CANAL, IN THE IH, INDUSTRIAL, HEAVY ZONING DISTRICT, IN UNINCORPORATED ST. LUCIE COUNTY.

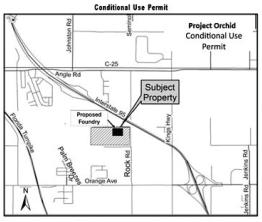
APPLICANT/OWNER: MC320, LLC.
Agent: HJA Design Studios
File Numbers: FLUMA-2603-000040, RZ-2603-000050, and CU-2603-000102.
LOCATION: West and south of North Rock Rd., approximately 2,700 feet north of Orange Ave. (see maps below).
Parcel ID Numbers: 2302-331-0001-000-7, 2302-341-0001-000-8, 2302-342-0001-000-1.
Purpose: to 1) approve a small scale amendment of the adopted Comprehensive Plan's Future Land Use Element – Future Land Use Map to create a +/- 20.85-acre subarea of the Lucie Rock Mixed Use Activity Area (initially established as an extension of the Mixed Use Orange Avenue/I-95 Activity Area) that would allow an 80-foot building height limit within the established Medium and High Intensity Development Areas, 2) to rezone +/- 20.25 acres from the IL (Industrial, Light) Zoning District to the IH (Industrial, Heavy) Zoning District, and 3) granting a Conditional Use Permit to develop and operate a metal foundry totaling approximately 76,200 square feet as part of a window manufacturing facility subject of a companion Major Site Plan application.

Future Land Use Map Amendment

Zoning Atlas Amendment



Conditional Use Permit



The Board of County Commissioners will hold the PUBLIC HEARINGS on this item in the Commission Chambers, Roger Poitras Annex, 3rd Floor, 2300 Virginia Avenue, Fort Pierce, FL on Tuesday, May 5, 2026, beginning at 6:00 pm or as soon thereafter as possible.

All interested persons will be given an opportunity to be heard. Written comments received in advance of the public hearing will also be considered. Written comments to the Board of County Commissioners should be received by the Planning and Development Services Department - Planning Division at least 3 days prior to the scheduled hearing. The petition file is available for review at the Planning and Development Services Department offices located at 2300 Virginia Avenue, 2nd Floor, Fort Pierce, Florida, during regular business hours. Please call (772) 462-2822 or TDD (772) 462-1428 if you have any questions or require additional information about this petition.

The St. Lucie County Board of County Commissioners has the power to review and approve or disapprove any applications within their area of responsibility.

The proceedings of the Board of County Commissioners are electronically recorded. **PURSUANT TO SECTION 286.0105, FLORIDA STATUTES**, if a person decides to appeal any decision made by the Board of County Commissioners with respect to any matter considered at a meeting or hearing, he or she will need a record of the proceedings. For such purpose, he or she may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based. Upon the request of any party to the proceeding, individuals testifying during a hearing will be sworn in. Any party to the proceeding will be granted an opportunity to cross-examine any individual testifying during a hearing upon request. If it becomes necessary, a public hearing may be continued to a date certain.

Anyone with a disability requiring accommodation to attend this meeting should contact the St. Lucie County Risk Manager at least forty-eight (48) hours prior to the meeting at (772) 462-1546 or T.D.D. (772) 462-1428.

Iran seizes 2 ships in Strait of Hormuz

Seizures follow Trump's extension of ceasefire

Michael Loria, Bart Jansen, Christopher Cann and Andrea Riquier
USA TODAY

Iran seized two ships in the Strait of Hormuz on April 22, tightening its grip on the strategic waterway, after President Donald Trump extended a ceasefire "until such time as their leaders and representatives can come up with a unified proposal."

Three container ships in total were fired upon around the strait, according to United Kingdom Maritime Trade Operations, a British organization that tracks merchant vessels. The Islamic Revolutionary Guard Corps seized two of the vessels for alleged maritime violations and escorted them to Iran's shores, according to the semi-official Tasnim news agency.

Of the two seized vessels, Epaminondas was headed to Mundra, India, and Euphoria was headed to Jeddah, Saudi Arabia, according to marinetraffic.com. The third ship that was fired upon, MSC Francesca, was headed to Hambantota, Sri Lanka, according to marinetraffic.com. The ships were the first seized since the beginning of the U.S.-Israeli war on Iran began Feb. 28.

The seizures came after Trump extended a two-week ceasefire, to give Iran's leaders more time to respond to U.S. peace proposals. But the U.S. Navy continues to blockade ships visiting Iranian ports, and Tehran continues to threaten ships attempting to travel through the strait of Hormuz, where one-fifth of the world's oil and natural gas travels.

Trump has threatened to "blow up the rest of their Country, their leaders included" if the two countries can't reach a settlement.

"Iran doesn't want the Strait of Hormuz closed, they want it open so they can make $500 Million Dollars a day (which is, therefore, what they are losing if it is closed)," Trump said on social media April 21. "They only say they want it closed because I have it totally BLOCKADED (CLOSED), so they mistakenly want to 'save face.'"

A first round of talks in Islamabad on April 11-12 produced no agreement, with the United States focusing on a long-standing dispute over Iran's stockpiles of highly enriched uranium.

Iran says it has only a peaceful civilian nuclear program and wants to continue that. It wants the war to end, sanctions to be lifted, reparations for wartime damage and recognition of its control over the strait.

U.S. forces patrol the Arabian Sea near the Touska, an Iranian-flagged cargo ship, on April 20. The U.S. Navy continues to blockade ships visiting Iranian ports, and Tehran continues to threaten ships attempting to travel through the Strait of Hormuz. PROVIDED BY MAYCNIT PUBLIC AFFAIRS/U.S. NAVY/AFP VIA GETTY IMAGES

Oil stable, gas back above $4

As the diplomatic standoff drags on, traffic through the Strait of Hormuz remains significantly below average numbers. The critical shipping lane off the Iranian coast has become a fixed point of the war.

Iran closed the channel after being attacked, driving up global fuel prices. Brent crude oil, the international standard, was trading just above $99 a barrel, up about 0.6% compared to the day before.

Gas prices, which lag behind the changes in oil, popped back above the psychologically important $4 threshold, with AAA's national average at $4.02 a gallon. That's about 15 cents higher than last year's average.

In a show of defiance, Iran showcased some of its ballistic weapons at a parade in Tehran late on April 21, with images showing a large banner in the background with a fist choking off the strait, the WANA news agency reported.

Average national gas prices have popped back above the psychologically important $4 threshold, with AAA's national average at $4.02 a gallon. MARIO TAMA/GETTY IMAGES

'A setback we were not expecting'

Pakistan, which has acted as a mediator, was still trying to bring the sides together for negotiations after both failed to show up for last-ditch talks on April 22 before the ceasefire had been due to expire.

A luxury hotel in Islamabad had been cleared out for the talks, but Iran never publicly accepted the invitation and the U.S. delegation led by Vice President JD Vance never left Washington, DC.

"We were all prepared for the talks, the stage was set," a Pakistani official briefed on the preparations told Reuters. "If you look me honestly, it was a setback we were not expecting, because the Iranians never refused, they were up to come and join, and they still are."

Another Pakistani source who was involved in the talks said Pakistan was still "working very hard to bridge that conflict, talk to each side with their sensitivities in mind."

There was no response early on April 22 to Trump's ceasefire announcement from senior Iranian officials, although some initial reactions from Tehran suggested Trump's comments were being treated skeptically.

Tasnim said Iran had not asked for a ceasefire extension and repeated Tehran's threats to break the U.S. blockade by force.

An adviser to Iran's lead negotiator, the speaker of parliament Mohammad B. Ghalibaf, said Trump's announcement might be a ploy.

Just hours before Trump called off attacks, he had repeated threats to resume them, saying his military was "raring to go."

Lebanese, Israeli envoys to meet

Meanwhile, Lebanese and Israeli diplomats will meet in Washington on April 23 as the clock winds down on a fragile ceasefire agreement between the two countries.

The meeting will be the second between envoys of the two nations this month. The first meeting, which were the highest-level direct talks between the countries in three decades, led to a 10-day ceasefire that has been tested as Iran-backed Hezbollah and Israel continue to trade strikes.

While officials from both countries have expressed an interest in sealing a lasting peace agreement, there are several sticking points. Lebanese officials have called for Israel to remove its ground troops from southern Lebanon. Israel, meanwhile, has vowed to continue occupying a significant portion of southern Lebanon until it eliminates the threat posed by Hezbollah, which is not directly involved in the talks and is more powerful militarily than the Lebanese Armed Forces.

Secretary of State Marco Rubio is expected to attend the meeting, with Lebanon represented by its ambassador to Washington, Nada Hamwad, and Israel represented by its ambassador, Yechiel Leiter.

Sara Janet Shankland

VERO BEACH - Sara Janet Shankland of Vero Beach, Florida, passed away on April 17, 2026, following a brief illness, at the age of 88.

Born Sara Janet Jenkins on October 25, 1937, in Huntington, West Virginia, Sara graduated from Huntington High School and the University of Cincinnati, with a BA in Fine Arts and a BS in Education.

Sara spent several years as an educator, beginning her career as an English teacher in South Point, OH, where she also co-hosted local WSAZ TV station's Saturday night "Shockwatch" with Emmy award-winning NBC broadcaster Fred Briggs. She eventually moved on to become a high school art teacher - replacing artist George Segal - in Piscataway Township, NJ, and subsequently in Alexandria, VA.

While taking a career break to raise her children in Potomac, MD, Sara remained active in her community, volunteering for several civic and social organizations, including serving as a board member and officer of the Florence Crittenton Home; chair of the Junior Guild of the Davis Memorial Goodwill Industries DC annual Gala; and local volunteer coordinator for the 1984 Mondale presidential campaign's DC headquarters. Sara also continued her artistic and entrepreneurial pursuits, successfully building small home-based businesses through which she shared her creative talents in markets and shows around the area. She was a founding member of the Potomac Community Theatre, as well as a member of St. Francis Episcopal Church, where she participated in the Altar Guild and as a Lay Eucharistic Minister.

In 1995, Sara and her husband Bill retired to Vero Beach, FL, where she became active in the Vero Beach Museum of Art and the Vero Beach Art Club, and was accepted into the local famed Art Under the Oaks art show for several years, selling her handcrafted silver jewelry. Sara was a member of the Trinity Episcopal Church, where she served as a Lay Eucharistic Minister and a member of the Daughters of the King. Sara and Bill enjoyed extensive travel all over the world.

Predeceased by her parents, Lena Henrietta Jenkins and Austin Thomas Jenkins, Sara is survived by her husband Bill Shankland, and daughters Anne Gordon of Edgewater, MD, and Katherine Gordon (Pedro-Cruz Castro) of Brooklyn, NY.

A memorial service for Sara will be scheduled at a later date.

Engineers turned off the Low-energy Charged Particles experiment aboard Voyager 1 on April 17. PROVIDED BY NASA/JPL-CALTECH

Voyager 1 probe nears 16 billion miles from Earth

Eric Lagatta
USA TODAY

NASA has shut down one of the science instruments on board the iconic Voyager 1 space probe in an effort to extend the life of humanity's first interstellar vehicle.

NASA engineers sent commands on April 17 to Voyager 1 to shut down an instrument on the probe called the Low-energy Charged Particles experiment, or LECP, the space agency said in a news release.

"While shutting down a science instrument is not anybody's preference, it is the best option available," Kareem Badaruddin, Voyager mission manager at NASA's Jet Propulsion Laboratory in Southern California, said in a statement.

The decision came as the aging nuclear-powered spacecraft runs low on power. NASA officials are confident that by turning off the LECP instrument, Voyager 1 will be able to conserve energy without the spacecraft getting so cold that its fuel lines freeze.

Voyager 1 still has two of its 10 original science instruments remaining in operation – including one that listens to plasma waves and one that measures magnetic fields, according to NASA.

The LECP instrument has been operating almost without interruption since Voyager 1 launched almost 49 years ago.

Voyager 1 and Voyager 2 are the only spacecraft far enough from Earth to use the instrument to measure things like ions, electrons and cosmic rays originating from our solar system and galaxy – providing critical data about the space beyond the giant bubble around the sun and its planets known as the heliosphere.

A small motor on the LECP that spins and scans in all directions remains on, giving the team the ability to reactivate the entire instrument if they find extra power.

The twin Voyager probes were launched on separate dates in 1977 from Florida from what is now the Cape Canaveral Space Force Station with the mission of exploring the outer solar system.

Contrary to its name, Voyager 2 was the first of the two to be launched into space on Aug. 20, 1977. Its twin probe, Voyager 1, then launched Sept. 5.

Though it was the second of the probes to get off the ground, Voyager 1 was on a faster route than its counterpart as it whizzed beyond the asteroid belt between Mars and Jupiter and overtook Voyager 2 by December of that year. Voyager 1 has the distinction of being the farthest human-made object from Earth.

The spacecraft have investigated all the giant planets of our outer solar system – Jupiter, Saturn, Uranus and Neptune – as well as the planets' magnetic fields and a combined 48 of their moons, NASA says.

The probes completed that portion of their respective journeys by 1989, after which NASA retooled their mission as an interstellar expedition – meaning one to moving beyond our solar system into the notion between stars, farther into the Milky Way.

In 2003, Voyager 1 became the first spacecraft to reach interstellar space, followed in 2018 by Voyager 2, according to NASA.

Should they encounter extraterrestrial life, both Voyager 1 and 2 also carry the famous "golden record," functioning both as a time capsule and a friendly Earthling greeting.

BUSINESS BRIEFS

Toxic metals found in water near Tesla refinery in South Texas

An independent water study found toxic metals from wastewater discharge from a Tesla lithium refinery making their way into a waterway near Corpus Christi, Texas.

The Texas Commission on Environmental Quality tested in February and reported the wastewater was in compliance with the refinery's permits, but the Texas Tribune reported the tests did not look for heavy metals.

Allen Nueces County Drainage District No. 3 discovered a plume flowing into a ditch that drains into Petronila Creek. It commissioned a third-party study examining water samples taken April 7. The study found trace levels of hexavalent chromium and arsenic, as well as elevated levels of manganese, iron, phosphorus, calcium, magnesium and potassium. According to the Environmental Protection Agency, hexavalent chromium "is a known human carcinogen when inhaled."

Best Buy taps Bonfiglio as CEO amid demand slowdown

Best Buy on April 22 named insider Jason Bonfiglio as CEO, replacing longtime executive Corie Barry. In a leadership change that comes as the U.S. retailer grapples with weak consumer demand and tariff-related supply-chain pressures.

The company, which operates more than 1,000 stores across North America, has been working to revive growth by expanding online sales, services and advertising as competition intensifies across the sector.

As the company's chief customer, product and fulfillment officer, Bonfig has been overseeing many of these initiatives, along with the company's Canadian business and its retail media unit, Best Buy Ads.

Hims & Hers to offer menopause, perimenopause treatments

Telehealth company Hims & Hers said on April 22 it will now offer treatment options for perimenopause and menopause via its platform, as rising U.S. demand for hormone therapy strains supplies of estrogen patches.

The company said the offering, available immediately to eligible users through its Hers platform, includes estrogen patch kits starting at $34 per month. Treatment plans may also include progesterone where clinically appropriate.

The launch comes as demand for estrogen patches has surged over the past year, leading to supply constraints nationwide. Industry sources have told investors shortages could last for up to three years following changes in U.S. health guidance on hormone replacement therapy.

Project Orchid—Notice of Proposed Future Land Use Map Amendment, Zoning Atlas Amendment & Conditional Use Permit

You are receiving this courtesy notice because you are a property owner within 500 feet of the proposed petition site.

Project Description
The applicant has petitioned approval of the following:

1. **Comprehensive Plan Future Land Use Map Amendment (Small-Scale):** To create a +/- 20.85-acre subarea of the Lucie Rock Mixed Use Activity Area. This would allow for an 80-foot building height limit within established Medium and High Intensity Development Areas.
2. **Rezoning:** To rezone +/- 20.25 acres from IL (Industrial, Light) to IH (Industrial, Heavy); and
3. **Conditional Use Permit:** To develop and operate a 76,200 square foot metal foundry as part of a window manufacturing facility, at the northwest portion of the subject site, currently in the IH (Industrial Heavy) Zoning District as part of a companion Major Site Plan application for the entire +/-73.48 acre site.

The purpose of these requests is to allow for the development of a window manufacturing facility approximately 1,390,000 square feet in size, with associated site improvements such as parking, landscape buffers, and stormwater ponds, within the IL, Industrial Light and IH, Industrial Heavy Zoning Districts.

Upcoming Public Hearings
This second public hearing at for these petitions will be held on May 5, 2026 at 6:00 PM or shortly thereafter before the St. Lucie County Board of County Commissioners, which has the power to review and approve or deny applications within their responsibility.

The Board encourages your input and comment at the public hearing. You may also mail or email written comments regarding this proceeding in advance of the public hearing for inclusion in the official record. Written comments should be received by the Planning and Development Services Department, Planning Division at least 3 days prior to the scheduled hearing.

Anyone with a disability requiring accommodations to attend this meeting may contact the SLC Community Risk Manager at least 48 hours in advance at 772.462.1580 or TDD 772.462.1428

Further details are available in the Planning and Development Services Department—please contact: Planning & Development Services Planning & Zoning Division 772-462-2822 /772-462-2518

Dear Property Owner,

Re: Invitation to Neighborhood Community Meeting – Proposed Project on Rock Road

Foundry Commercial Developer is in the early stages of planning a proposed development on property located on the west side of Rock Road, just north of the St. Lucie County Jail. The site is about 3,000 feet from the intersection of Rock Road and Orange Avenue. A location map is attached for your reference.

Project Orchid will include a new 1.4 million square foot window manufacturing facility along with a 27,300 square foot office building.

Because you live or own property nearby, we want to share information directly with you and provide an opportunity to learn more about the project as plans are taking shape. At this time, the project is in the programming and concept design phase, and no final approvals have been granted.

You are invited to attend a Neighborhood Community Meeting:

March 25, 2026
6:00 – 7:00 PM
Sunshine Kitchen
7550 Pruitt Research Road in Fort Pierce

The purpose of the meeting is to:

- Provide an overview of the proposed development
- Share preliminary site plans and project information
- Explain the anticipated review process
- Listen to questions, feedback, and concerns from nearby property owners

EXHIBIT "A"

DESCRIPTION:

A PORTION OF SOUTH ONE HALF OF THE SOUTHWEST ONE QUARTER OF SECTION 2, TOWNSHIP 35 SOUTH, RANGE 39 EAST, ST. LUCIE COUNTY, FLORIDA, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

COMMENCING AT THE SOUTHWEST CORNER OF SAID SECTION 2; THENCE N00°13'36"E ALONG THE WEST LINE OF THE SOUTHWEST ONE OF SAID SECTION 2, A DISTANCE OF 1,316.05 FEET TO A POINT OF INTERSECTION WITH A LINE LYING 5.00 FEET SOUTH OF AND PARALLEL WITH SAID SOUTH ONE HALF OF THE SOUTHWEST ONE QUARTER OF SECTION 2; THENCE N89°50'57"E ALONG SAID PARALLEL LINE AND THE SOUTH RIGHT-OF-WAY LINE OF SUNNYLAND DRIVE, AS RECORDED IN OFFICIAL RECORD BOOK 3664, PAGE 1430 OF THE PUBLIC RECORDS OF ST. LUCIE COUNTY, FLORIDA, A DISTANCE OF 580.99 FEET; THENCE S00°03'07"E, A DISTANCE OF 69.15 FEET TO THE POINT OF BEGINNING; THENCE N89°56'53"E, A DISTANCE OF 801.42 FEET; THENCE S00°03'07"E, A DISTANCE OF 1102.50 FEET; THENCE S89°55'26"W, A DISTANCE OF 798.75 FEET; THENCE N00°03'07"W, A DISTANCE OF 1102.84 FEET TO THE POINT OF BEGINNING.

CONTAINING 882,226 SQUARE FEET OR 20.254 ACRES, MORE OR LESS.

RES-2026-83
PUBLIC HEARINGS - PLANNING & DEVELOPMENT SERVICES
DATE: **5/5/2026**
*RESOLUTION ITEM - CONDITIONAL USE
QUASI-JUDICIAL ITEM? YES

AGENDA REQUEST

TO: **Board of County Commissioners**

PRESENTED BY: Kori Benton, Planning & Zoning Manager

SUBMITTED BY: Planning & Development Services

SUBJECT: Project Orchid Metal Foundry - Conditional Use Permit in the IH, Industrial Heavy Zoning District on N. Rock Road - **THIS ITEM IS QUASI-JUDICIAL - ADD ON**

BACKGROUND:

The applicant has petitioned for a Conditional Use Permit to develop and operate a +/-76,200 square foot metal foundry as part of a window manufacturing facility, at the northwest portion of the subject site, currently in the IH (Industrial Heavy) Zoning District as part of a companion Major Site Plan application for the entire +/-73.48 acre site. The property is located west of North Rock Rd, south of North Rock Rd. Extension (Access Rd.), and north of the Relief Canal, just north of the County jail. The property is located within the Urban Service Boundary (USB).

The applicant has also proposed a Comprehensive Plan Future Land Use Map Amendment (Small-Scale) to create a +/- 20.85-acre subarea of the Lucie Rock Mixed Use Activity Area. This Amendment would allow for an 80-foot building height limit within established Medium and High Intensity Development Areas. Additionally, an associated Zoning Atlas Amendment proposes to rezone +/- 20.25 acres of the site from IL (Industrial, Light) to IH (Industrial, Heavy).

The purpose of the collective requests is to allow for the development of a window manufacturing facility approximately 1,390,000 square feet in size, with associated site improvements such as parking, landscape buffers, and stormwater ponds, within the IL, Industrial
Light and IH, Industrial Heavy Zoning Districts.

PREVIOUS ACTION:

On September 3, 2013, the St. Lucie County Board of County Commissioners granted approval, through Resolution No. 2013-167, the petition of Lucie Rock, LLC, for a Major Site Plan known as St. Lucie Commerce Center.

On September 17, 2013, the St. Lucie County Board of County Commissioners approved the St. Lucie Commerce Center 10-Year Agreement extending Resolution No. 2013-167 to September 17, 2023.

On October 9, 2020, PDS Order 2020-058 was approved by the St. Lucie County Planning & Development Services Director granting a statutory extension under Florida Statute Section 252.363 extending the expiration date for the Major Site Plan known as St. Lucie Commerce Center to November 24, 2025.

On October 10, 2023, PDS Order 2023-064 was approved by the St. Lucie County Planning & Development Services Director granting a statutory extension under Florida Statute Section 252.363 extending the expiration date for the Major Site Plan known as St. Lucie Commerce Center to November 24, 2029, and extended the Development Agreement term through September 17, 2027.

On April 16, 2026, the Planning and Zoning Commission held a public hearing on this petition and after discussion voted unanimously to recommend approval.

FINANCIAL IMPACT:

N/A

RECOMMENDATION:

Staff recommends the Board approves the Project Orchid Conditional Use with conditions as contained in Resolution 2026-83, authorizing the Chair to sign documents as approved by the County Attorney.

SUBJECT: Project Orchid Conditional Use Permit (CU-2603-000102) – Metal Foundry

GENERAL INFORMATION:

Property Owner/Applicant:	MC320, LLC 5701 SW Sunshine Farms Way Palm City, FL 34990-5608
Agent:	HJA Design Studio, Patti Tobin 3500 SW Corporate Pkwy Suite 203 Palm City, FL 34990
Design & Traffic Consultant:	Kimley-Horn and Associates, Inc. 477 South Rosemary Avenue, Suite 215 West Palm Beach, FL 33401
Location:	West of N. Rock Rd., south of N. Rock Rd. Ext. (Access Rd.), and north of NSLRWCD Canal #44 (Relief Canal).
Parcel ID Numbers:	2302-342-0001-000-1 (CUP & Partial FLUMA), 2302-341-0001-000-8 & 2302-331-0001-000-7 (Partial Rezoning & FLUMA).
Project Size:	73.27 acres (total project site), CUP area is +/-9 acres.
Future Land Use:	MXD, Mixed Use District - Lucie Rock Mixed Use Activity Area (initially established as an extension of the Mixed-Use Orange Avenue/I-95 Activity Area)
Proposed Land Use:	MXD, Mixed Use District - Lucie Rock Mixed Use Activity Area – proposed to be amended to create a +/- 20.85-acre subarea that would set an 80-foot building height limit within established Medium and High Intensity Development Areas.
Existing Zoning:	IH, Industrial Heavy (+/- 36.06 acres) & IL, Industrial Light (+/- 37.21 acres)
Proposed Zoning:	IH, Industrial Heavy (+/- 20.25 acres) currently zoned IL would be rezoned to IH, resulting in +/- 56.31 acres in IH and +/- 16.96 acres in IL.
Existing Use(s):	Undeveloped
Utilities:	FPUA service area, water & sewer lines are present on the west side of Rock Rd.

BACKGROUND:

The Agent, Patti Tobin of HJA Design Studio, on behalf of Applicant and Property Owner MC320, LLC, petitioned for a Conditional Use Permit (CUP) for a metal foundry up to 76,200 sq. ft. in size, as part of a glass window manufacturing plant on the subject property. In addition, the Applicant filed four companion applications for the subject property (three parcels located west of N. Rock Rd., south of N. Rock Rd. Extension (Access Rd.), and north of the Relief Canal):

1) A Comprehensive Plan Future Land Use Map Amendment (FLUMA) that would create a +/-20.85-acre subarea of the Lucie Rock Mixed Use Activity Area (initially established as an extension of the Mixed Use Orange Avenue/I-95 Activity Area), an area in which an 80-foot building height limit is set, within the established Medium and High Intensity Development Areas;
2) An amendment to the Official Zoning Atlas seeking to assign the IH (Industrial, Heavy) zoning district to an additional +/-20.25 acres of the overall +/-73.27-acre site, land that is currently zoned IL (Industrial, Light);
3) A Major Site Plan for the complete manufacturing plant; and
4) An Amendment to the St. Lucie Commerce Center (Lucie Rock) Development Agreement.

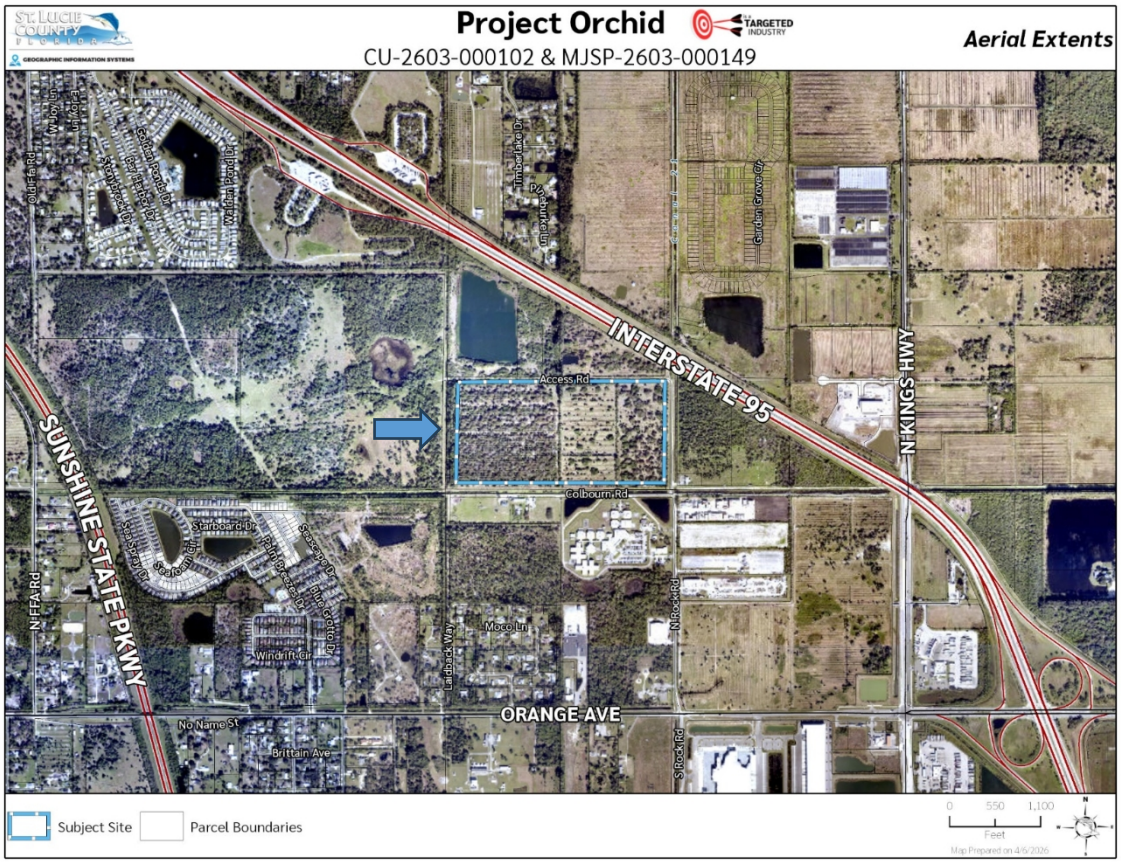

Figure 1: Aerial Map of Project Orchid Site

The Conditional Use / Major Site Plan shows the proposed +/-1,283,744 sq. ft. manufacturing building, with the subject of this Conditional Use Permit (CUP) being the approximate 76,200 sq. ft. Foundry, located in the northeastern corner of the larger building. Glass, window and metal product manufacturing is an allowable use in IL zoning, but the foundry element is appropriately classified as under Land Development Code (LDC) Section 3.01.03. U.7.b. (5) Primary metal industries manufacturing, provide under Standard Industrial Classification (SIC) Code 33, which requires Conditional Use approval.

The foundry is utilized to melt aluminum, which is then formed into components, combined with glass, and assembled into finished windows. All processes take place indoors. A two-story office building is located east of the plant, with employee parking around the office and east of the foundry. An internal driveway loops around the building, to support onsite vehicular movements, with all loading bays situated on the east façade.

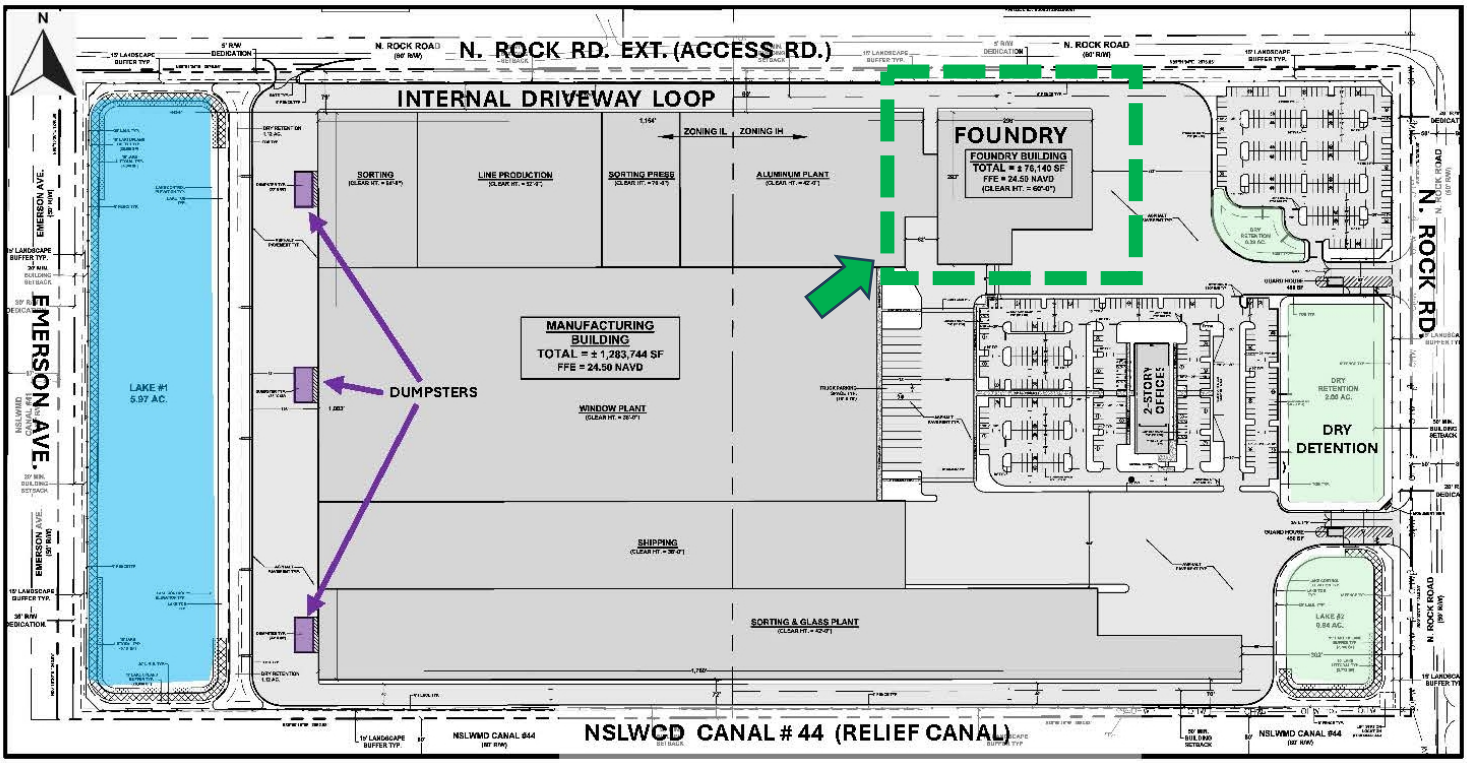

Figure 2: Site Plan Overview – Proposed Foundry Noted in Green

{The rest of this page is left intentionally blank}

The proposed Project Orchid site has an active site plan on it currently, see Figure 3 below. On September 3, 2013, the St. Lucie County Board of County Commissioners granted approval, through Resolution No. 2013-167, for a Major Site Plan known as the St. Lucie Commerce Center. The approval included a 40-lot subdivision in the IL (Industrial, Light) and IH (Industrial, Heavy) Zoning Districts. The Major Site Plan has remained active through a Board Resolution and series of PDS Orders because of a 10-Year Development Agreement (and an Executive Order due to the threat of several hurricanes to the State of Florida. PDS Order 2023-064 granted a 48-month Major Site Plan extension until November 24, 2029, and the Development Agreement is scheduled to expire September 27, 2027.

CONDITIONAL USE PERMIT STANDARDS OF REVIEW SET FORTH IN LAND DEVELOPMENT CODE SECTION 11.07.03

The St. Lucie County Land Development Code Sec. 11.07.01 sets forth the purpose of a Conditional Use Permit (CUP) as follows:*...to provide for uses that are generally compatible with the use characteristics of a zoning district, but which require individual review of their location, design, intensity, configuration, and public facility impact in order to determine the appropriateness of the use on any particular site in the district and their compatibility with adjacent uses. Conditional uses may require the imposition of additional conditions to make the uses compatible in their specific contexts.*

Per LDC Section 11.07.03, a CUP shall be granted only if the applicant demonstrates conformance with Criteria A.-E. below.

A. Consistency With Local Code and Comprehensive Plan.

The proposed Foundry site is situated within the IH, Industrial Heavy Zoning District. The purpose of the IH district to *"provide an environment suitable for heavy manufacturing and other activities that may impose undesirable noise, vibration, odor, dust, or other offensive effects on the surrounding area together with such other non-residential uses as may be necessary to and compatible with heavy industrial surroundings."*

While the proposed foundry use is permitted as a Conditional Use within the IH Zoning District, such uses are recognized as having the potential to generate off-site impacts including noise, vibration, odor, and emissions. Accordingly, consistency with the Land Development Code and Comprehensive Plan is contingent upon the implementation of enforceable performance standards and operational controls to ensure compatibility with surrounding and planned land uses.

LDC Section 3.01.03.U. IH, Industrial Heavy identifies the manufacturing of fabricated metal products (except ammunition and ordnance), SIC #34, such as window manufacturing as a permitted use.

Metal melting and casting activities are characteristics of a foundry operation, classified as a primary metal processing activity, SIC #33, is an eligible conditional use in the IH Zoning District. The overall site plan is being evaluated to ensure comprehensive compliance with application dimensional, design and performance standards.

The current Future Land Use Map (FLUM) designates these three properties and other properties to the north and southeast with the MXD (Mixed Use District) category. Comprehensive Plan Policy 1.1.1.2.H. describes the MXD future land use category as follows:

Mixed Use Development (MXD): The intent of the Mixed Use Development (MXD) designation is to identify those areas where innovative land use concepts are encouraged. Application of this district should be with prudence, and should be only to those areas where traditional land use classifications do not afford the desired flexibility and community input in land use planning necessary to address local concerns. Candidates for this district include all I-95 interchange areas, the Treasure Coast International Airport, Community Development Districts created pursuant to Chapter 190, Florida Statutes and areas of special or unique environmental consideration that may not be appropriate for traditional land use designations. Uses within the areas classified as Mixed Use should be segregated as to intensity and indicated in the form of a concept master plan which is to be included as a part of the land use designation process. The following criteria, in addition to those as cited in Objective 1.1.7 (PUD, PNRD & PMUD), are to be used in the development of Mixed Use areas:

• Unless otherwise compliant with the identified intensity classification, any change in zoning shall be to the Planned Unit Development (PUD), Planned Nonresidential Development (PNRD) or Planned Mixed Use Development (PMUD), as described in the St. Lucie County Land Development Code. Those properties with compatible existing zoning designations are encouraged to develop under the PUD, PNRD or PMUD regulations.

• Residential development shall be regulated by the intensity district in which it is to take place. In no case should gross residential density exceed 15 du/ac.

• All uses shall be compatible with adjacent land uses.

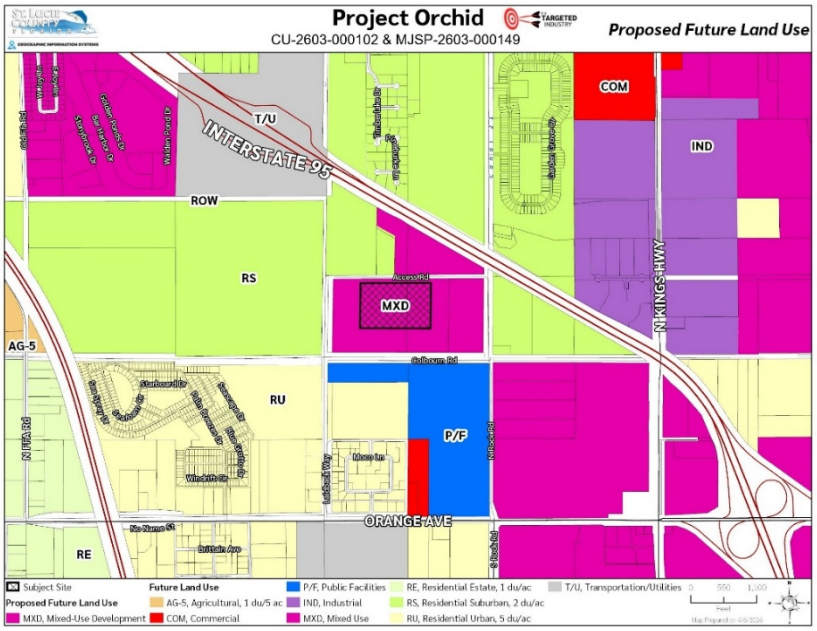

Figure 6: Proposed Future Land Use

The following Comprehensive Plan objectives and policies pertaining to economic sustainability, targeted industry support, and economic development provide support for the proposed CUP.

<u>*Future Land Use Element*</u>

Objective 1.1.13: Economic Sustainability. To enhance the quality of life of St. Lucie County and promote a sound and resilient local economy, St. Lucie County shall continue to work with the interested groups and agencies to increase and broaden the County's economic base while expanding existing business and industrial opportunities.

Policy 1.1.13.1: St. Lucie County shall actively assist to the maximum extent practical in the recruitment of clean high growth industrial activities and maintain an expedited permitting process for bona fide economic development projects, especially those within the Targeted Industry List, and for development projects located within the Foreign Trade Zone.

Policy 1.1.13.4: The County shall maintain procedures and incentive tools to encourage business development and assist economic development in St. Lucie County, especially for business within the Targeted Industry List. This goal shall be further implemented by developing innovative land use codes to provide an enhanced the quality of life for St. Lucie County and promote a sound, diverse and resilient local economy.

Economic Development Element
Goal 10.1: Support economic development in St. Lucie County as part of an overall strategy for sustainability and quality of life.

Objective 10.1.1: Develop and implement activities designed to improve the overall prosperity of St. Lucie County and its residents.

Policy 10.1.1.1 - Attract investors to help diversify the industrial base, broaden the economic tax base and strengthen the job market.

Policy 10.1.1.4 - Place a high priority on infill and redevelopment projects that are consistent with the smart growth policies of St. Lucie County.

Policy 10.1.1.6 - Continue to encourage the development of high wage, high skill, long term job creation in the County.

Policy 10.2.1.4 - Encourage the development of clusters of industries according to the adopted targeted industry list such as Manufacturing Facilities, Finance and Insurance, Information, Clean Energy, Professional, Scientific, and Technical Services, Management and Distribution, and Administrative and Support Services at appropriate locations in St. Lucie County.

B. Effect on Adjacent Properties.
Criterion B provides the following compatibility tests for proposed Conditional Uses.

Figure 7: Site Plan Rendering with Nearby Lands *(Foundry Denoted by Blue Arrow)*

1. *The proposed conditional use will not have an undue adverse effect upon nearby property.*
   As shown in Table 1, adjacent properties have similar intensive industrial or institutional future land use and zoning. The County Correctional Facility is to the south of the site, and a modest business office is situated to the east; other adjacent properties are undeveloped, but in the vicinity, there are similar industrial uses including a precast concrete manufacturer and an auto auction yard. While the surrounding area contains industrial and institutional uses, compatibility concerns exist with respect to the planned residential development to the west. With appropriate mitigation measures, including noise, emission, and odor controls in place, adverse impacts from the proposed metal foundry are not anticipated.

Table 1: Adjacent Zoning and Future Land Uses

Location		Future Land Use	Zoning	Existing Land Use
Subject Property		MXD (Mixed Use District)	IH (Industrial, Heavy, eastern half)/ IL (Industrial, Light, western half)	Undeveloped
Adjacent Parcels	***North***	MXD (Mixed Use Development), RS (Residential Suburban)	IH (Industrial, Heavy, eastern half)/ IX (Industrial, Extraction, western half)	Undeveloped, retention pond
	South	P/F (Public Facilities)	I (Institutional)	County Correctional Facility
	East	RS (Residential Suburban)	IX (Industrial Extraction) / CO (Commercial, Office)	Office/Undeveloped
	West	RS (Residential Suburban)	PUD (Sunnyland Farms Planned Unit Development – Lapsed / Newly Proposed)	Undeveloped

2. *The proposed conditional use is compatible with the existing or planned character of the neighborhood in which it would be located.*

   The proposed manufacturing use is compatible with area land use and zoning and with other similar industrial uses nearby. Staff's review emphasized potential impacts to lands planned for residential use to the west (Proposed Sunnyland Farms PUD), ensuring design and operational details provide performance standards that minimize noise, emissions, and odor impacts. The Foundry location is roughly a one-third mile from the proposed PUD to the west.

3. *All reasonable steps have been taken to minimize any adverse effect of the proposed conditional use on the immediate vicinity through building design, site design, landscaping, and screening.*

   Project Orchid attempts to mitigate impacts to the residential use to the west by situating the building on the eastern portion of the property and placing a 5.97-acre lake between the manufacturing building and the proposed Sunnyland Farms development to the west. In addition, Project Orchid provides a 15-foot landscape buffer along all four sides of the site, as well as a 1.12-acre dry retention area located between the building and the western lake.

   The project will comply with required landscape buffering and screening standards, including a 15-foot-wide perimeter landscape buffer. The following mitigation measures are essential to address potential noise, odor, and emissions impacts:
   a. All activities occur within enclosed buildings to reduce machinery & industrial processes noise.
   b. Fully enclosed air systems.

c. Protocols to support the capture & filtering of emissions before their release using adsorption, absorption, and mechanical separation with the use of chemical scrubbers, sorbent-based filters, and baghouses to trap pollutants.

4. *The proposed conditional use will be constructed, arranged, and operated so as not to interfere with the development and use of neighboring property, in accordance with applicable district regulations.*

The CUP site plan complies with applicable standards related to driveway design, site access, parking, buffering, and screening. Vehicular circulation has been designed to provide safe and efficient ingress and egress, while parking is adequate to serve the proposed use. Required buffering and screening elements are incorporated to minimize visual and operational impacts on adjacent properties. Additionally, the layout and design of the site ensure compatibility with surrounding uses and will not interfere with the orderly development or continued use of neighboring properties.

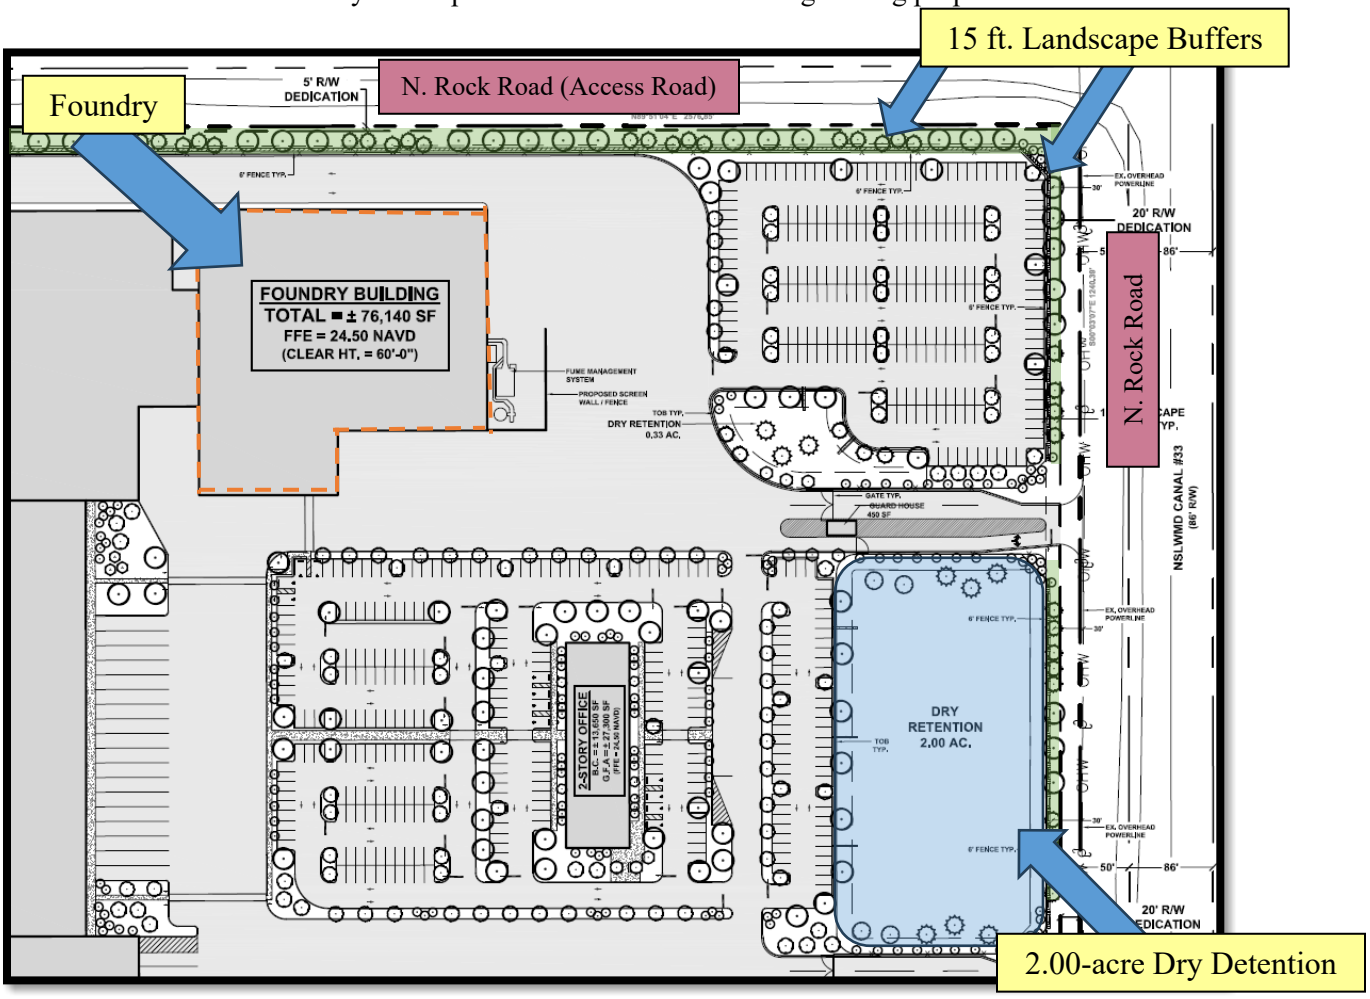

Figure 8: Snapshot from Proposed Landscape Plan for St. Lucie Commerce Center – Foundry Building

The foundry is located on the northeastern side of the project near the two parking lots and 2-story office building. The circular internal drive aisle and 15 ft. landscape buffers separate the foundry from the N. Rock Road Access Road to the north.

Figures 9 and 10, below, illustrate the western boundaries of the property and the approved St. Lucie Commerce Center lake, dry detention pre-treatment area, and landscape buffer and the proposed Project Orchid lake, dry detention area, and landscape buffer. Project Orchid is encouraged to minimize offsite impacts through landscape buffering, screening, and building placement. Future development on the residentially zoned property to the west has also been encouraged to reduce impacts to its residents through thoughtful design, mitigation efforts, and adequate screening and buffering.

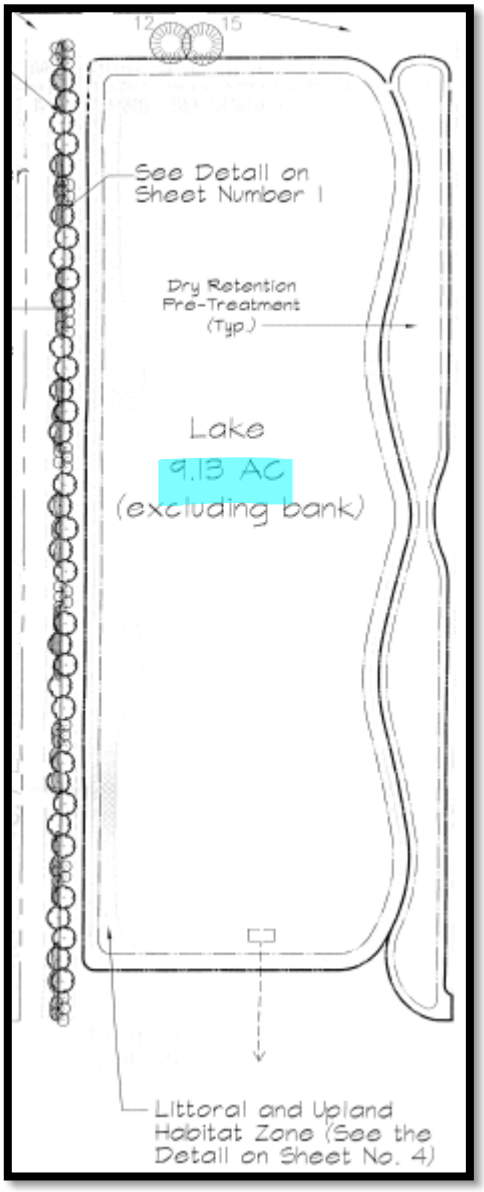

Figure 9: Snapshot from Previously Approved Landscape Plan for St. Lucie Commerce Center – Western Property Buffer

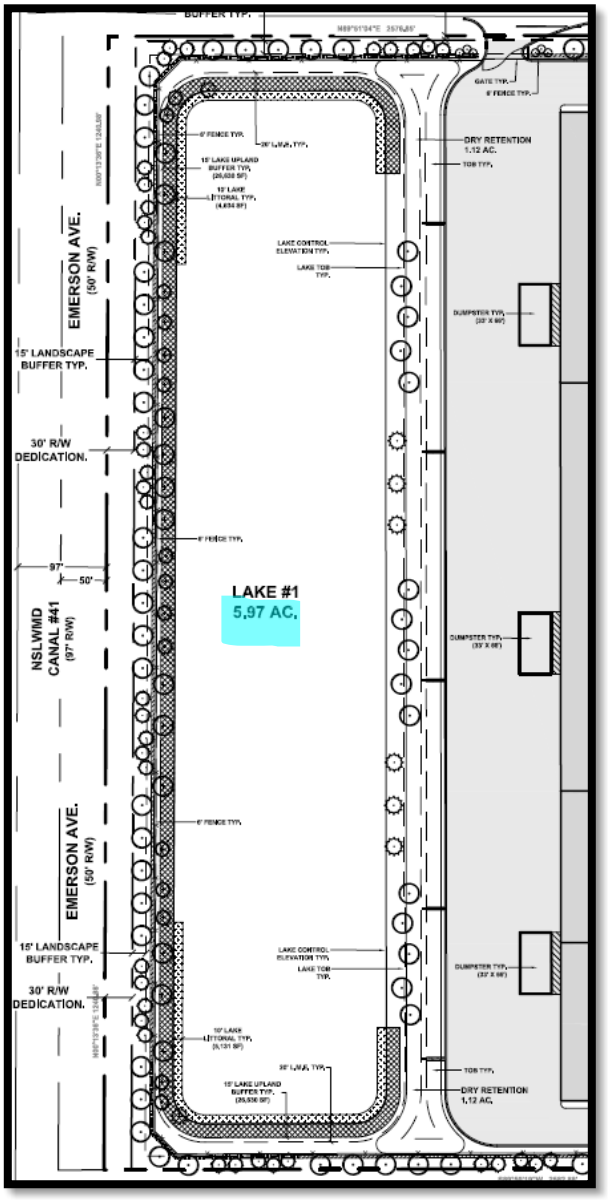

Figure 10: Snapshot from Proposed Landscape Plan for St. Lucie Commerce Center – Western Property Buffer

C. Adequacy of Public Facilities

Water and Wastewater

Central water and sewer are available, provided by Fort Pierce Utilities Authority (FPUA).

Transportation

The Applicant's Transportation Impact Report (TIR), using the Institute of Transportation Engineers Trip Generation Handbook, estimated the overall manufacturing facility, which includes the Foundry, would generate 6,166 weekday daily trips, 736 AM peak hour trips and 910 PM peak hour trips.

Table 2: Project Trip Generation Estimates

Source	Land Use	ITE Code	Intensity	Daily Trips	AM Peak Hour			PM Peak Hour		
					Total	In	Out	Total	In	Out
Proposed Scenario										
ITE	Manufacturing	140	1,444.000 ksf	6,166	736	552	184	910	264	646
Driveway Volumes				**6,166**	**736**	**552**	**184**	**910**	**264**	**646**
Net New External Trips				**6,166**	**736**	**552**	**184**	**910**	**264**	**646**
Proposed - Existing Net New Traffic				**6,166**	**736**	**552**	**184**	**910**	**264**	**646**
Radius of Development Influence:				**3 miles**						

Source	Land Use	Daily	AM Peak Hour	PM Peak Hour	Avg. Pass By
ITE	Manufacturing	4.27 trips/ksf	0.51 trips/ksf (75% in, 25% out)	0.63 trips/ksf (29% in, 71% out)	0.0%

The TIR determined the following roadway links are significantly impacted by the project:

Orange Avenue – From Rock Road to Kings Highway
Orange Avenue – From Kings Highway to I-95
Orange Avenue – From I-95 to Jenkins Road
Kings Highway – From Picos Road to Orange Avenue
Kings Highway – From Orange Avenue to Angle Road
Kings Highway – From Angle Road to St. Lucie Boulevard
Kings Highway – From St. Lucie Boulevard to Indrio Road
Graham Road – From Kings Highway to Jenkins Road
Rock Road – From Orange Avenue to Project Driveway

Orange Avenue from Rock Rd. to Kings Hwy. is projected to exceed roadway capacity with project traffic, therefore the Applicant would be responsible for completing improvements or providing proportionate share payments toward the widening of this link of Orange Ave. The project's contribution would be at least 39% of project costs for the eastbound direction and 27% of the cost for the westbound direction.

The intersection of Rock Road & Orange Avenue will operate acceptably with the following recommended improvements:

- Construction of an eastbound left-turn lane (245 feet)
- Extension of the existing westbound right-turn lane to 245 feet
- Construction of a southbound left-turn lane (650 feet)
- Restriping second southbound lane as a shared left/through/right turn lane
- Construction of an additional eastbound receiving lane on Orange Avenue
- Installation of a traffic signal

These improvements are anticipated to result in acceptable level of service (LOS) for this intersection ranging between B and D.

Access to the site is proposed via two driveways on Rock Road. The proposed driveway connections were subject to turn lane analysis using information in the FDOT Multimodal Access Management Guidebook as a reference. The analysis indicated that the southerly Driveway 1 is anticipated to require a northbound left-turn lane on Rock Rd.

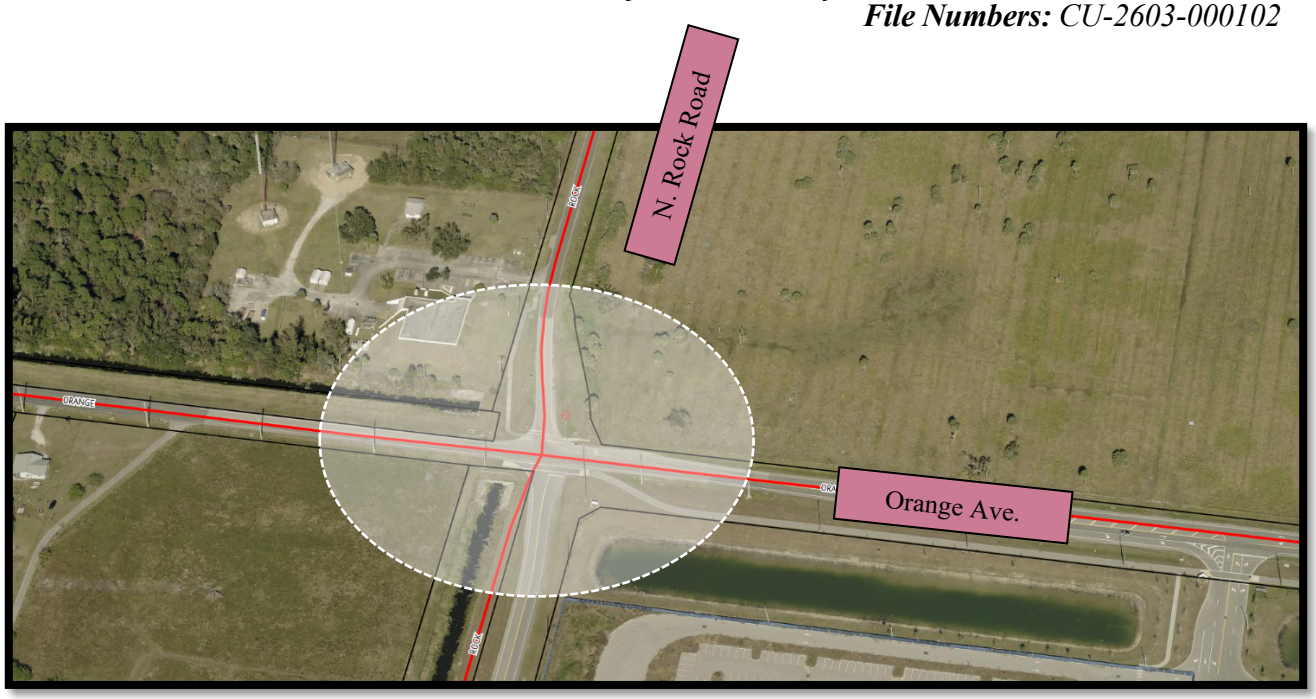

Figure 11: Intersection of Orange Ave. and N. Rock Road, Existing Conditions

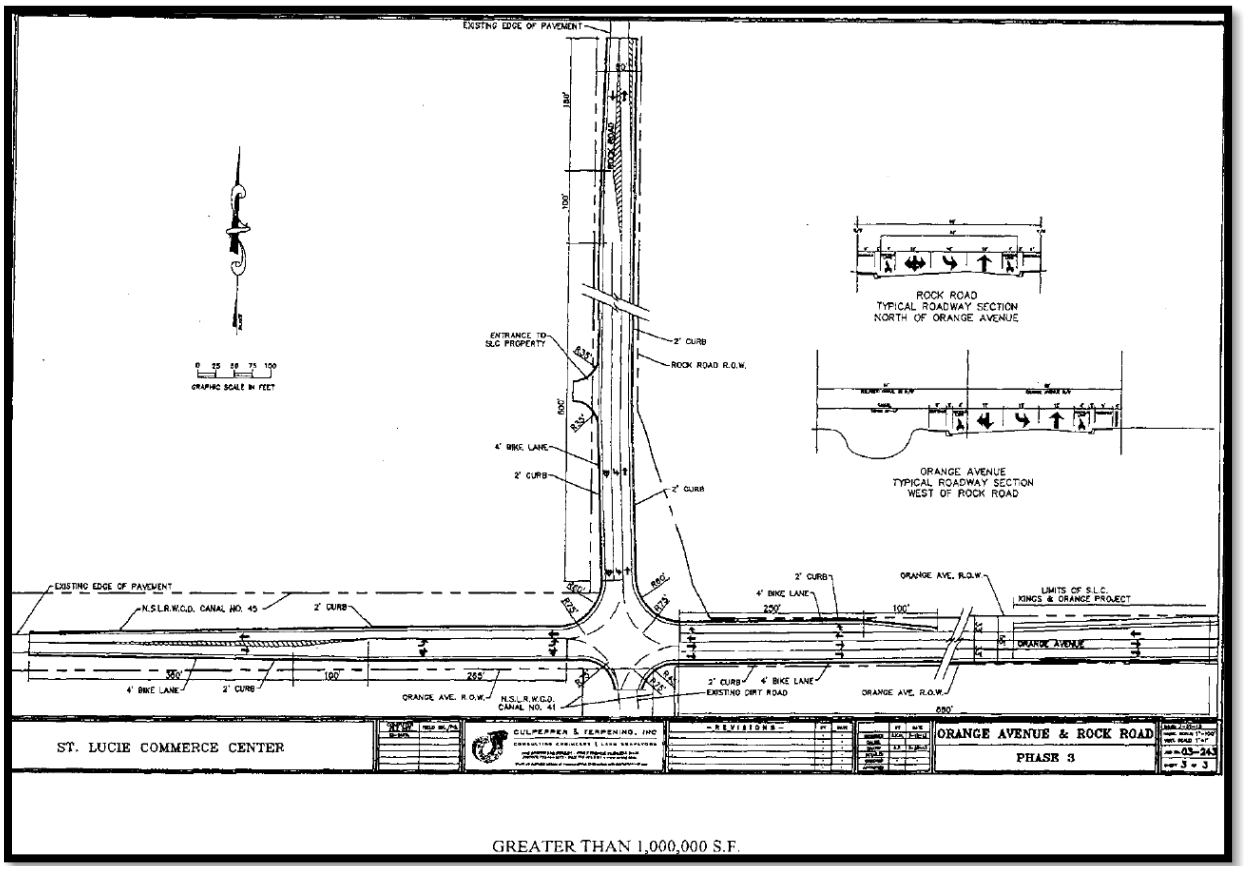

Figure 12: St. Lucie Commerce Center's Previously Committed Intersection Improvements for more than 1,000,000 sq. ft. of development

The Applicant and County are working to update the proposed off-site improvements, including design for Orange Avenue between Kings Highway and Rock Road, including the subject intersection. Revisions to the active Development Agreement are expected to address these concurrency related matters.

Transit
The Area Regional Transit (ART) currently has no fixed service routes in this area; however, the expansion of industrial and commercial related employment along the Kings Highway and potential creation of approximately 1,000 jobs amplifies the value of further assessment of whether transit demand would support a new route or microtransit.

Schools and Parks
The proposed industrial facility will not impact local parks or schools.

D. Adequacy of Fire Protection.

The nearest Fire Station, Fire Station #1 (Central), is currently located at 2400 Rhode Island Avenue, approximately 5.45 miles southeast of the site. Fire Station #19, located on Research Center Road, broke ground in January 2025 and is projected to be completed in mid-2026. The station will be next to the Sunshine Kitchen, approximately 2.6 miles from the site.

E. Environmental Impact

Background

The Environmental Resources Department (ERD) is in receipt of the April 3, 2026, date-stamped submittal, transmitted on April 3, 2026, from Planning and Development Services with comments due April 9, 2026. The applicant is requesting approval of a Future Land Use Map Amendment (FLUMA-2603-000040), a Rezone (RZ-2603-000050), a Conditional Use (CU-2603-000102), and a Major Site Plan (MJSP-2603-000149) for construction of the 1,390,000 SQ. FT. window manufacturing building. The vacant subject site consists of three (3) parcels (Parcel ID 230234100010008 [±16.46 ac], 230234200010001 [±19.60 ac], 230233100010007 [±37.21 ac]) totaling ±73.27 [sic] per the Property Appraiser website and ±73.48 per the applicant's data. The site is located at TBD Rock Road in Ft. Pierce and is north of and adjacent to Colbourn Road, south of I-95, east of the Florida Turnpike, and west of and adjacent to Rock Road.

Findings

An Environmental Impact Report (EIR) dated March 2026, prepared by EW Consultants, Inc Consultants, Inc., was reviewed for consistency with the Land Development Code (LDC) and Comprehensive Plan (CP). Land cover and vegetative community classifications were based on the Florida Land Use, Cover and Forms Classification System (FLUCFCS) developed by the Florida Department of Transportation. A review of historic aerial imagery indicates that the property was converted to agricultural use more than 65 years ago and was subsequently converted for the purpose of citrus production by 1985. The property does not contain any native upland habitat, and no wetlands were identified during field reconnaissance. This opinion of the absence of wetlands onsite has not yet been verified by South Florida Water Management District (SFWMD) as of the date of this report. A site review with SFWMD staff to confirm these conditions will be required as part of a Formal Wetland Determination or upon submittal of an Environmental Resource Permit (ERP) application. A review of permitting records on the SFWMD online portal did not reveal that any past or current permits exist for the subject property. As such, an application for an ERP will be required for any future proposed development.

Observations for wildlife presence and signs of utilization were made during site reconnaissance conducted beginning in January and continuing on a regular basis through the preparation of the EIR in March 2026. Several common avian species, reptiles, and mammals were observed within the property, and several others are likely to occur on a foraging or migratory basis.

The proposed CUP is not anticipated to result in any adverse environmental impacts as native uplands or wetlands exist onsite, nor were any listed species located onsite. Development of the project will require a vegetation removal permit issued by ERD for removal of native trees. Issuance of the vegetation removal permit will require demonstration of avoidance and minimization of impacts to native vegetation, a tree survey, and a mitigation plan for proposed impacts. A tree inventory is under way (by others) which will be provided to the project land planner for tree disposition plans. Vegetation designated to be preserved will need to meet the St. Lucie County vegetation protection standards.

Recommendation

The Environmental Resources Department has no objection to the approval of the CUP application.

COMMUNITY PARTICIPATION MEETING

A community meeting was held at the Sunshine Kitchen on Wednesday, March 25, 2026, attended by approximately 10 citizens, a County Commissioner, and interested parties.

PLANNING & ZONING COMMISSION:
On April 16, 2026, the Planning & Zoning Commission held a public hearing on the proposal and unanimously voted to forward a recommendation of approval to the Board of County Commissioners. The Commission briefly discussed the development scale and traffic impacts, particularly during construction of the facility – prior to improvements to Orange Avenue and Rock Road associated with the project.

PUBLIC NOTICE
The CUP was advertised in the St. Lucie County Tribune on April 23, 2026, a sign was posted on the property, and a mailer was sent to the 12 property owners within 500 feet of the subject property.

In response to the collective mailings, Staff received 2 Conditional Use Response forms, both supporting the request.

STAFF RECOMMENDATION:
With recommended conditions, Staff finds the Conditional Use petition to meet the Standards of Review as set forth in LDC Section 11.07.03, and is not in conflict with the goals, objectives, and policies of the St. Lucie County Comprehensive Plan.

Staff recommend the Board of County Commissioners evaluate and approve the proposed Conditional Use Permit with the conditions listed below, which require integration into the companion Major Site Plan:

1. The applicant shall implement site-specific control measures to minimize off-site impacts related to noise, vibration, and odor on adjacent properties.
2. Exterior lighting shall be downcast and hooded to minimize light trespass.
3. The western landscape area shall feature a berm and integrated opaque wall of fence, totaling 8ft. to further screen dumpster locations to minimize dumpster loading noise.

RESOLUTION No. 2026-83

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF ST. LUCIE COUNTY GRANTING A CONDITIONAL USE PERMIT TO DEVELOP AND OPERATE A METAL FOUNDRY TOTALING APPROXIMATELY 76,200 SQUARE FEET AS PART OF A WINDOW MANUFACTURING FACILITY TO BE KNOWN AS PROJECT ORCHID LOCATED WEST OF NORTH ROCK ROAD, SOUTH OF THE NORTH ROCK ROAD EXTENSION (ACCESS ROAD) AND NORTH OF THE RELIEF CANAL, IN THE IH, INDUSTRIAL, HEAVY ZONING DISTRICT, IN UNINCORPORATED ST. LUCIE COUNTY.

WHEREAS, the Board of County Commissioners of St. Lucie County, Florida, based on testimony and evidence, including, but not limited to the staff report, has made the following determinations:

1) MC320, LLC presented a petition for a Conditional Use Permit to develop and operate a metal foundry totaling approximately 76,200 square feet in the IH (Industrial, Heavy) Zoning District, as part of a window manufacturing facility subject of a companion Major Site Plan application, for a property located west of N. Rock Rd., south of N. Rock Rd. Ext. (Access Rd.), and north of the NSLRWCD Relief Canal, in unincorporated St. Lucie County, Florida, as depicted on the attached map as Exhibit A and described in Part A.

2) On April 16, 2026, the St. Lucie County Planning and Zoning Commission held a public hearing on this petition, after advertising in the newspaper of local circulation, installing a sign on the property, and notifying by mail all owners of property within 500 feet of the subject at which all interested persons were given an opportunity to be heard, and recommended that the Board of County Commissioners approve the request for the property described in Part A.

3) On May 5, 2026, the Board of County Commissioners of St. Lucie County, Florida, after advertising in the newspaper of local circulation, installing a sign on the property, and notifying by mail all owners of property within 500 feet of the subject at which all interested persons were given an opportunity to be heard.

4) The St. Lucie County Development Review Committee has reviewed the Conditional Use Permit Petition and found it to meet the technical requirements and to be consistent with the St. Lucie County Comprehensive Plan.

5) The proposed Conditional Use Permit has satisfied the requirements of Section 11.07.03 of the St. Lucie County Land Development Code and is consistent with the goals, objectives, and policies of the St. Lucie County Comprehensive Plan.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of St. Lucie County, Florida:

A. The property on which the Conditional Use Permit is being granted/denied is described as follows:

Legal Description:

Subset of PARCEL 1:
THE SOUTH ONE-HALF OF THE SOUTHWEST ONE-QUARTER OF SECTION 2, TOWNSHIP 35 SOUTH, RANGE 39 EAST, ST. LUCIE COUNTY, FLORIDA, LESS AND EXCEPT ALL RIGHTS-OF-WAY OF RECORD.

TOGETHER WITH:

PARCEL 2:

THAT PART OF THE NE 1/4 OF THE SW 1/4 OF SECTION 2, TOWNSHIP 35 SOUTH, RANGE 39 EAST, LYING SOUTHWESTERLY OF 1-95 LESS AND EXCEPT THE EAST 93 FEET AND THE SOUTH 60 FEET FOR ROAD AND CANAL RIGHT-OF-WAY. ALL LYING AND BEING IN ST. LUCIE COUNTY, FLORIDA.

TOGETHER WITH:

PARCEL 3:

FROM THE SOUTHEAST CORNER OF THE NW 1/4 OF THE SW 1/4 OF SECTION 2, TOWNSHIP 35 SOUTH, RANGE 39 EAST, ST. LUCIE COUNTY, FLORIDA, RUN NORTH 00°08'13" WEST ALONG THE 1/4 SECTION LINE 60 FEET TO THE POINT OF BEGINNING, THENCE CONTINUE NORTH 00°08'13"W 846.63 FEET TO THE SOUTHERLY RIGHT-OF-WAY LINE FOR INTERSTATE 95 HIGHWAY; THENCE RUN NORTH 60°08'02" WEST ALONG SAID RIGHT-OF-WAY LINE 107.58 FEET; THENCE RUN NORTH 62°25'28" WEST 300.24 FEET; THENCE RUN NORTH 60°08'02" WEST 182.77 FEET; THENCE RUN SOUTH 00°11'29" WEST 346.62 FEET; THENCE RUN SOUTH 60°08'02" EAST 354.41 FEET; THENCE RUN SOUTH 00°08'13" EAST, 607.48 FEET; THENCE RUN NORTH 89°53'47" EAST, 210 FEET TO THE POINT OF BEGINNING.

Parcel ID Number: 2302-342-0001-000-1 & 2302-341-0001-000-8 (Foundry Site) and 2302-331-0001-000-7

B. The Conditional Use Permit to develop and operate a metal foundry totaling approximately 76,200 square feet in the IH (Industrial, Heavy) Zoning District, as part of a window manufacturing facility subject of a companion Major Site Plan application as generally depicted in Exhibit C herein, is hereby approved/denied, subject to the following conditions:
    1. The applicant shall implement site-specific control measures to minimize off-site impacts related to noise, vibration, and odor on adjacent properties.
    2. Exterior lighting shall be downcast and hooded to minimize light trespass.
    3. The western landscape area shall feature a berm and integrated opaque wall of fence, totaling 8ft. to further screen dumpster locations to minimize dumpster loading noise.

C. The St. Lucie Planning and Development Services Director shall be authorized to make a notation of the reference to the date of adoption of this Resolution on the Official Zoning Map.

D. A Concurrency Deferral Affidavit, a copy which is attached to this Resolution as Exhibit "B" was signed by the applicant in March 2026.

E. The approvals and authorizations granted by this Resolution are for the purpose of obtaining a Building Permit and/or Zoning Compliance Certificate from St. Lucie County and are not assigned to any other party or institution. Should the petitioners choose or decide to assign this business to another entity or individual, a minor adjustment to the Conditional Use Permit shall be required.

F. The conditions set forth in Part B are an integral non-severable part of the approval granted by this Resolution. If any condition set forth in Part B is determined to be invalid or unenforceable for any reason and the applicant or property owner declines to comply voluntarily with that condition, the Conditional Use approval granted by this Resolution shall become null and void.

G. Pursuant to Section 11.07.05(I) of the St. Lucie County Land Development Code, approvals and authorizations granted by this Resolution shall expire after twelve (12) months from the date of approval, unless a Building Permit or Certificate of Zoning Compliance is obtained for the uses described in Part A above, or an extension has been granted in accordance with Section 11.07.05(F), which is proposed by a corresponding Development Agreement to allow the approval period of the Conditional Use Permit and associated Major Site Plan to coincide.

H. A copy of this Resolution shall be mailed to the owner of record as identified on the application.

I. This Resolution shall be recorded in the Public Records.

J. **ADOPTION**

After the motion and second, the vote on this Resolution was as follows:

Jamie Fowler, Chair	XXX
Larry Leet, Vice-Chair	XXX
James Clasby, Commissioner	XXX
Erin Lowry, Commissioner	XXX
Cathy Townsend, Commissioner	XXX

PASSED AND DULY ADOPTED this 5th day of May, 2026.

I, Don Mancil Jr. (Name), residing or doing business at 5701 SW Sunshine Farms Way (Street)
Palm City (City), FL (State), 34990 (Zip), 772-260-7334 (Phone)
have applied for a _____ (Type of Development Order) from St. Lucie County, Florida,

for the following project: Project Orchid (Name of Proposed Development).

I do hereby affirm that in connection with my application for the above project, I have elected to defer the certificate of capacity and reservation of capacity in public facilities for the above property until a later time, but no later than the application for a final development order for the same property.

I understand and acknowledge that the above listed property will be subject to the certificate of capacity before any final development order can be issued, and that St. Lucie County can make no guarantee that adequate public facilities will be available when I apply for the final development order.

I further acknowledge that according to Section 5.08.01 of the St. Lucie County Land Development Code, no final development approval can be granted until capacity in those facilities is available at that time. The issuance of a preliminary development order without a certificate of capacity creates no vested or other rights to develop the subject property.

Neighbor Community Meeting

Wednesday, March 25, 2026 | 6:00 – 7:00 PM

Sunshine Kitchen | 7550 Pruitt Research Road, Fort Pierce

Disclaimer: The images shown are preliminary and may change as the design progresses

What is Project Orchid?

- A window manufacturing company headquartered in Miami
- Designed to serve growing customer portfolio
- A modern, fully enclosed manufacturing operation using advanced technology

Disclaimer: The images shown are preliminary and may change as the design progresses

Project Location

- Located on N. Rock Road
- Approximately 73 acres
- Previously used for agricultural purposes

Disclaimer: The images shown are preliminary and may change as the design progresses

Facility Overview

- Approximately 1.4 million sq ft
- Multiple production areas within one building
- Two-story office component (27,300 sq ft)
- 504 parking spaces
- Ride share & bus drop off
- Two main access drives off Rock Rd
- One driveway off north access road
- Two interconnected lakes
- One dry retention area for stormwater
- Security perimeter fencing
- Secured access via guard booths

Disclaimer: The images shown are preliminary and may change as the design progresses

Building Design

- Modern office entrance
- Parking designed for daily activity
- Landscaped buffers & setbacks

- Approximately 60–80 feet
- Height varies based on specialized equipment needs

Disclaimer: The images shown are preliminary and may change as the design progresses

How the Facility Operates

Inside the building:

- Aluminum is melted and prepared
- Formed into components
- Combined with glass
- Assembled into finished windows

All processes take place indoors

Disclaimer: The images shown are preliminary and may change as the design progresses

Environmental Protections

- Fully enclosed air systems
- Emissions captured and filtered before release
- Closed-loop water system that recycles water

These systems are standard for modern facilities of this type.

Disclaimer: The images shown are preliminary and may change as the design progresses

Noise Expectations

- At the property line, sound levels are expected to be similar to a supermarket loading area.
- Noise is contained within the building and managed through design and buffering.

Disclaimer: The images shown are preliminary and may change as the design progresses

Water and Utilities

- Water is reused through a closed-loop system
- No continuous discharge from manufacturing processes
- Utilities have confirmed capacity to serve the site

The facility is designed to operate efficiently without placing strain on local systems.

Disclaimer: The images shown are preliminary and may change as the design progresses

What This Facility Does NOT Include

- No outdoor manufacturing processes
- No exposed production areas
- No noticeable odors
- No visible emissions

All operations are contained within the building.

Disclaimer: The images shown are preliminary and may change as the design progresses

Traffic Overview

Based on current studies:

- Approximately 6,166 trips per day
- 736 trips during morning peak
- 910 trips during evening peak

Traffic is distributed throughout the day rather than concentrated at a single time.

Disclaimer: The images shown are preliminary and may change as the design progresses

Planned Road Improvements

To support traffic flow, the project includes:

- New turn lanes at Rock Rd & Orange Ave
- Signal installation when warranted
- Additional travel lanes on Orange Ave
- Roadway widening on Rock Rd

These improvements are required as part of the development process.

Disclaimer: The images shown are preliminary and may change as the design progresses

Construction Impacts

- Construction will occur during normal working hours
- Dust and noise will be managed using best practices
- Site will be maintained safely and responsibly
- Goal is to minimize disruption during construction

Construction of the facility is expected to generate over $200 million in economic activity, supporting construction jobs and local contractors during the building phase.

Disclaimer: The images shown are preliminary and may change as the design progresses

Jobs and Economic Impact

- > 1,000 jobs over five years
- $28.50/hour - median starting wage
- $53 million – estimated annual payroll

This represents a significant long-term investment in the local community.

Disclaimer: The images shown are preliminary and may change as the design progresses

Why St. Lucie County?

This location was selected because of:

- Available industrially zoned land
- Access to workforce and training programs
- Strong infrastructure and utilities
- Proximity to major markets
- Supportive economic development environment

Disclaimer: The images shown are preliminary and may change as the design progresses

What Happens Next

- The project is currently in the development review process
- All steps include public input and oversight.

Disclaimer: The images shown are preliminary and may change as the design progresses

Project Timeline

Disclaimer: The images shown are preliminary and may change as the design progresses

Questions

We appreciate your time and input.

What questions or concerns can we address?

Disclaimer: The images shown are preliminary and may change as the design progresses

PROJECT ORCHID

THANK YOU!

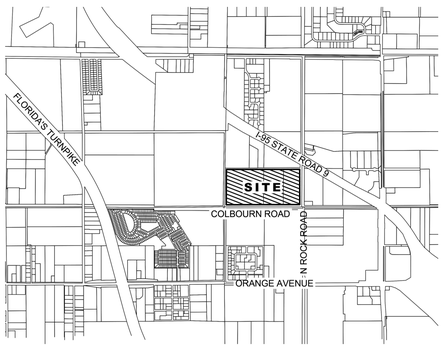
Location Map



Legal Description

THE SOUTH ONE-HALF OF THE SOUTHWEST ONE-QUARTER OF SECTION 2, TOWNSHIP 35 SOUTH, RANGE 39 EAST, ST. LUCIE COUNTY, FLORIDA, LESS AND EXCEPT ALL RIGHTS-OF-WAY OF RECORD.

CONTAINING 73.485 ACRES, MORE OR LESS.

Utilities

Water:	FPUA
Wastewater:	FPUA
Gas:	FPUA
Electric:	FPL

Drainage Statement

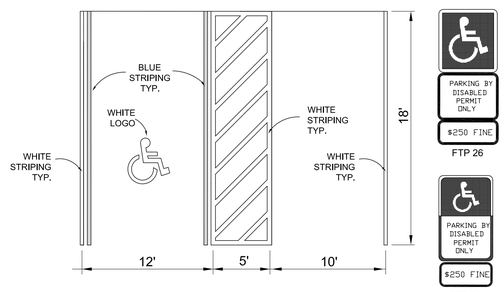
The proposed project will construct a stormwater management area that will consist of a series of interconnected dry retention and wet detention areas with associated underground piping and storm structures. The new system will maintain the general existing drainage patterns of the site. The new system will provide treatment and attenuation of stormwater runoff in accordance with St Lucie County and South Florida Water Management District prior to discharging to the North St Lucie Water Control District Canal 44 located on the southern boundary of the site. This will include a net improvement for the average annual loads of nitrogen and phosphorus. The post-development peak discharge rate shall be no greater than the pre-development conditions. No offsite flows are taken into account onsite at that time.

Flood Zone & FIRM Information

SUBJECT PROPERTY FALLS WITHIN ZONE "X", AREA OF MINIMAL FLOOD HAZARD ACCORDING TO THE NATIONAL FLOOD INSURANCE PROGRAM (NFIP) FLOOD INSURANCE RATE MAP (FIRM); COMMUNITY PANEL NO. 12111C0166J UNINCORPORATED ST. LUCIE COUNTY, COMMUNITY NO. 12285; DATED FEBRUARY 16, 2012.

Parking Space Detail

N.T.S.



NOTES:
1. TOP PORTION OF FTP 25 & 26 SHALL HAVE A REFLECTIVE BLUE BACKGROUND WITH WHITE REFLECTIVE SYMBOL AND BORDER.
2. BOTTOM PORTION SHALL HAVE A REFLECTIVE WHITE BACKGROUND WITH BLACK OPAQUE LEGEND AND BORDER
3. FTP 25 & 26 MAY BE FABRICATED ON ONE PANEL OR TWO.
4. FTP 25 IS FOR USE IN AREAS WHERE SPACE IS LIMITED

Landscape Data

Required Landscaping Adjacent to Road Right-of-Way

A strip of land at least fifteen (15) feet in depth shall be located abutting street or road right-of-way and shall be landscaped to include one (1) tree for each thirty (30) linear feet of abutting right-of-way. In addition, a hedge, wall or other durable landscaping barrier shall be placed along the interior perimeter of this required landscaped strip. Hedge shall not be less than (2) two feet in height at the time of planting.

East Property Buffer: 1,152 LF

Trees Required: (1,152 LF / 30)	= 39 Trees
Trees Provided:	= 39 Trees (34 Trees + 15 Palms @ 3:1)

North Property Buffer: 2,497 LF

Trees Required: (2,497 LF / 30)	= 83 Trees
Trees Provided:	= 83 Trees (80 Trees + 9 Palms @ 3:1)

West Property Buffer: 1,241 LF

Trees Required: (1,241 LF / 30)	= 41 Trees
Trees Provided:	= 41 Trees

South Property Buffer: 2,503 LF

Trees Required: (2,503 LF / 30)	= 84 Trees
Trees Provided:	= 84 Trees

Lake Upland Buffer Requirement

As a minimum, ten (10) square feet of such buffer shall be provided for each linear foot of wetland or deepwater habitat perimeter that lies adjacent to uplands. This upland edge habitat shall be located such that no less than fifty percent (50%) of the total shoreline is buffered by a minimum width of ten (10) feet of upland habitat.

Lake #1 Linear Footage: 2,663 LF

Area Required: (2,663 LF x 10)	26,630 sf
Area Provided:	26,630 sf
Trees Required: (26,630 sf / 900 sf)	= 30 Trees
Trees Provided:	= 30 Trees
Shrubs Required: (26,630 sf / 100 sf)	= 267 Shrubs
Shrubs Provided:	= 307 Shrubs
Groundcovers Required: (26,630 sf / 9 sf)	= 2,959 GC
Groundcovers Provided:	= 3,037 GC

Lake #2 Linear Footage: 776 LF

Area Required: (776 LF x 10)	7,760 sf
Area Provided:	7,760 sf
Trees Required: (7,760 sf / 900 sf)	= 9 Trees
Trees Provided:	= 9 Trees
Shrubs Required: (7,760 sf / 100 sf)	= 78 Shrubs
Shrubs Provided:	= 90 Shrubs
Groundcovers Required: (7,760 sf / 9 sf)	= 863 GC
Groundcovers Provided:	= 886 GC

Parking / Vehicular Use Area Interior Landscape Requirement

Vehicular use areas shall have at least one (1) square foot of interior landscaping for every eighteen (18) square feet or major fraction thereof of off-street parking and vehicular use area. Each separately landscaped area shall contain a minimum of one hundred eighty (180) square feet and shall include at least one (1) tree.

Total Vehicular Use Area: 903,490 sf

Area Required: (903,490 sf / 18 sf)	50,194 sf
Trees Required: (50,194 sf / 180 sf)	= 279 Trees
Trees Provided:	= 279 Trees (226 Trees + 159 Palms @ 3:1)

Total Required Trees:	565 Trees
Total Required Trees:	565 Trees
Required Species Mix:	5
Provided Species Mix:	9

Landscape Notes

1. Any plant materials used to satisfy the requirements of this plan shall conform to the standards of Florida No. 1 or better as given in the most recent edition of "Grades and Standards for Nursery Plants" by the Florida Dept. of Agriculture and Consumer Services, or standards equal thereto.

2. An automatic irrigation system shall be installed to ensure continued growth of all planting areas. Automatic irrigation systems shall be equipped with an automatic rain shut off device for each zone.

3. For existing or proposed utilities, no tree shall be planted where it could, at mature height, conflict with overhead power lines. Large trees [height at maturity of more than thirty (30) feet] shall be planted no closer than a horizontal distance of thirty (30) feet from the nearest overhead power line. Medium height tree [height at maturity between twenty (20) and thirty (30) feet] shall be offset at least twenty (20) feet and small trees [height at maturity of less than (20) feet] require no offset.

4. No tree, shrubs, hedges or vines shall be planted within five (5) feet of any existing or proposed utility pole, guy wire or-pad mounted transformer. Palms should be planted at a distance equal to or greater than the average front length plus two (2) feet from power lines.

5. All property lying between the right-of-way and off-street parking or other vehicular use area outside the required landscape strip shall be landscaped with at least grass or other groundcover .

6. Trees of species whose roots are known to cause damage to public roadways or other public works shall not be planted any closer than 12 ft, unless root system is completely contained with a barrier which shall have the min. dimensions of 5 ft square and 5 ft deep.

7. All plant material shall receive at least 3 inches of mulch and no cypress mulch is permitted.

8. No landscape materials other than sod grasses may be planted within a 5' radius maintenance area of any SLCUD facility such as water meters, backflow devices, fire hydrants, sanitary sewer cleanouts, manholes, air release valves, etc. Mulch beds are permitted.

9. No landscaping shall be planted in such a manner as to adversely affect utility installation, operation and maintenance.

10. All landscaping within St. Lucie County Utility Systems Department (SLCUSD) utility easements shall comply with SLCUSD technical specifications, policies, and codes.

11. Trees placed within ten (10') feet of underground utilities shall include a root barrier product to protect the utilities.

12. It shall be the responsibility of the property owner to maintain all landscaping along the outside edge of any wall or opaque fence consistent with the requirements of this Code.

13. Landscaping 3ft in all directions from the base of the proposed signage shall be provided in accordance with LDC 9.02.01.D.6.

14. Tree & Shrub locations are conceptual and may be adjusted based on final utility layout.

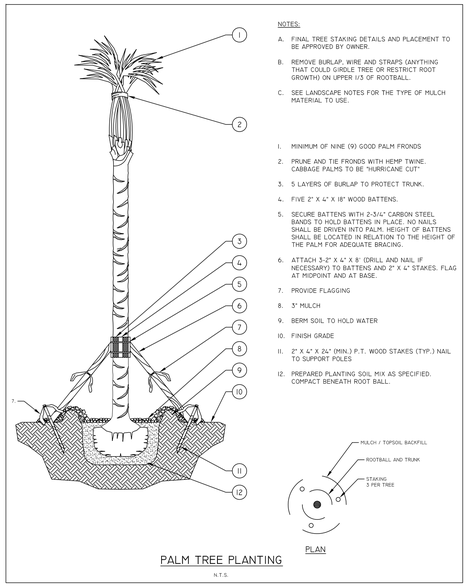
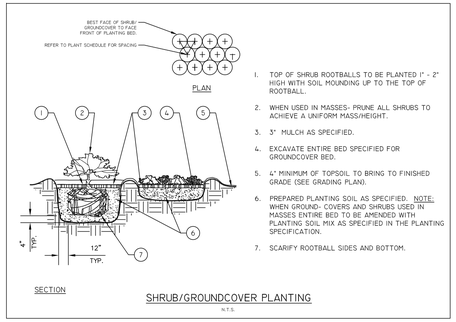
Landscape Details



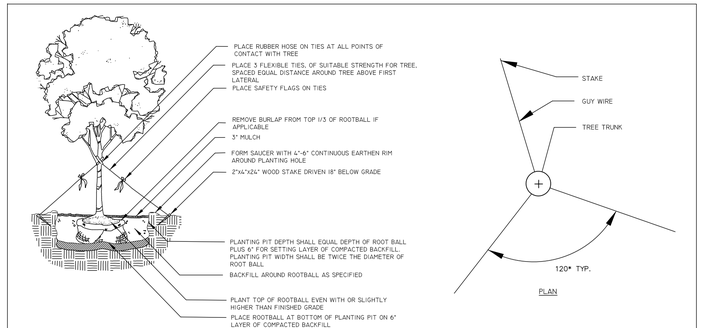
PALM TREE PLANTING

N.T.S.



SHRUB/GROUNDCOVER PLANTING

N.T.S.



TREE PLANTING DETAIL

N.T.S.

Landscape Notes

1. Any plant materials used to satisfy the requirements of this plan shall conform to the standards of Florida No. 1 or better as given in the most recent edition of "Grades and Standards for Nursery Plants" by the Florida Dept. of Agriculture and Consumer Services, or standards equal thereto.

2. An automatic irrigation system shall be installed to ensure continued growth of all planting areas. Automatic irrigation systems shall be equipped with an automatic rain shut off device for each zone.

3. For existing or proposed utilities, no tree shall be planted where it could, at mature height, conflict with overhead power lines. Large trees [height at maturity of more than thirty (30) feet] shall be planted no closer than a horizontal distance of thirty (30) feet from the nearest overhead power line. Medium height tree [height at maturity between twenty (20) and thirty (30) feet] shall be offset at least twenty (20) feet and small trees [height at maturity of less than (20) feet] require no offset.

4. No tree, shrubs, hedges or vines shall be planted within five (5) feet of any existing or proposed utility pole, guy wire or-pad mounted transformer. Palms should be planted at a distance equal to or greater than the average front length plus two (2) feet from power lines.

5. All property lying between the right-of-way and off-street parking or other vehicular use area outside the required landscape strip shall be landscaped with at least grass or other groundcover .

6. Trees of species whose roots are known to cause damage to public roadways or other public works shall not be planted any closer than 12 ft, unless root system is completely contained with a barrier which shall have the min. dimensions of 5 ft square and 5 ft deep.

7. All plant material shall receive at least 3 inches of mulch and no cypress mulch is permitted.

8. No landscape materials other than sod grasses may be planted within a 5' radius maintenance area of any SLCUD facility such as water meters, backflow devices, fire hydrants, sanitary sewer cleanouts, manholes, air release valves, etc. Mulch beds are permitted.

9. No landscaping shall be planted in such a manner as to adversely affect utility installation, operation and maintenance.

10. All landscaping within St. Lucie County Utility Systems Department (SLCUSD) utility easements shall comply with SLCUSD technical specifications, policies, and codes.

11. Trees placed within ten (10') feet of underground utilities shall include a root barrier product to protect the utilities.

12. It shall be the responsibility of the property owner to maintain all landscaping along the outside edge of any wall or opaque fence consistent with the requirements of this Code.

13. Landscaping 3ft in all directions from the base of the proposed signage shall be provided in accordance with LDC 9.02.01.D.6.

14. Tree & Shrub locations are conceptual and may be adjusted based on final utility layout.

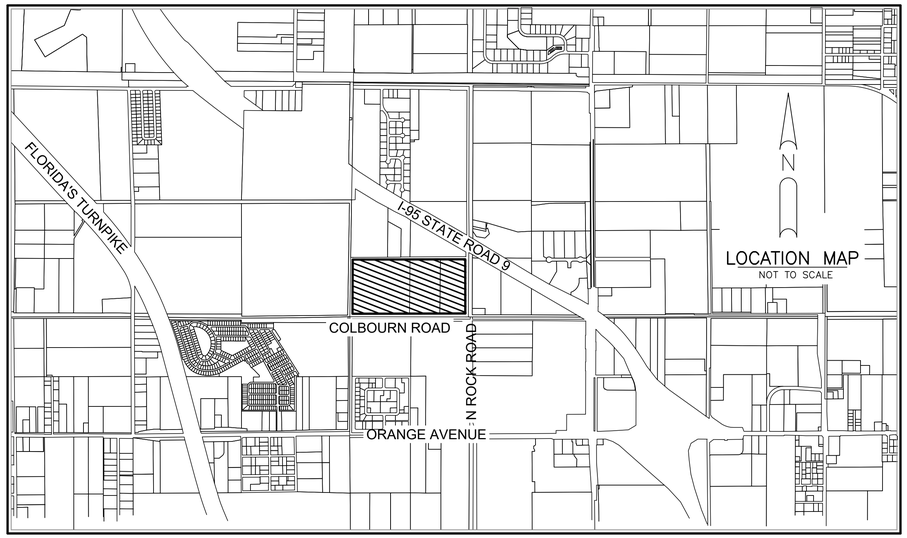
BOUNDARY TOPOGRAPHIC

LAND LYING IN SECTION THE SOUTH ONE-HALF OF THE
SOUTHWEST ONE-QUARTER OF SECTION 2, TOWNSHIP 35 SOUTH,
RANGE 39 EAST, ST. LUCIE COUNTY, FLORIDA



LOCATION MAP
NOT TO SCALE

DESCRIPTION:

THE SOUTH ONE-HALF OF THE SOUTHWEST ONE-QUARTER OF SECTION 2, TOWNSHIP 35 SOUTH, RANGE 39 EAST, ST. LUCIE COUNTY, FLORIDA, LESS AND EXCEPT ALL RIGHTS-OF-WAY OF RECORD.

CONTAINING 73.485 ACRES, MORE OR LESS.

SURVEY NOTES:

1. LAST DATE OF FIELD DATA ACQUISITION FOR THIS SURVEY IS JANUARY 13, 2026.
2. THIS SURVEY MAP AND REPORT OR THE COPIES THEREOF ARE NOT VALID WITHOUT THE SIGNATURE AND THE ORIGINAL SEAL OF A FLORIDA LICENSED SURVEYOR AND MAPPER.
3. ALL MEASUREMENTS ARE IN ACCORDANCE WITH THE UNITED STATES STANDARD FEET. FIELD LOCATIONS DEPICTED ON THIS SURVEY WERE OBTAINED USING REAL TIME KINEMATIC (RTK) GPS METHODS WITH AN EXPECTED ACCURACY OF +/- 0.05'. ALL PROPERTY CORNERS WERE DOUBLE OCCUPIED FOR REDUNDANT MEASUREMENTS.
4. ADDITIONS OR DELETIONS TO SURVEY MAPS OR REPORTS BY OTHER THAN THE SIGNING PARTY OR PARTIES IS PROHIBITED WITHOUT WRITTEN CONSENT OF THE SIGNING PARTY OR PARTIES.
5. THE DESCRIPTION OF THE LAND CONTAINED IN THIS SURVEY WAS PROVIDED BY THE CLIENT.
6. BEARINGS SHOWN HEREON ARE BASED ON GRID NORTH, AND ARE REFERENCED TO THE FLORIDA STATE PLANE COORDINATE SYSTEM, EAST ZONE, NORTH AMERICAN DATUM OF 1983, 2011 ADJUSTMENT. THE BEARING BASIS FOR THIS SURVEY IS BASED ON A MEASURED NORTH LINE OF CANA; NO. 44, SAID LINE BEARS S 89°50'19" W AND ALL OTHER BEARINGS ARE RELATIVE THERETO. ALL MEASUREMENTS ARE IN ACCORDANCE WITH THE UNITED STATES STANDARD FEET. FIELD LOCATIONS DEPICTED ON THIS SURVEY WERE OBTAINED USING REAL TIME KINEMATIC (RTK) GPS METHODS.
7. THE VERTICAL DATUM REFERENCES THE NORTH AMERICAN VERTICAL DATUM (NAVD) OF 1988 AND IS IN THE U.S. SURVEY FOOT UNIT OF MEASUREMENT.
8. ELEVATIONS SHOWN HEREON ARE REFERENCED TO THE NORTH AMERICAN VERTICAL DATUM OF 1988 (NAVD 88), AS ESTABLISHED BY THE NATIONAL GEODETIC SURVEY (NGS) CONTROL POINT DESIGNATION "I95 K 14", PDI AF7282 HAVING A PUBLISHED ELEVATION OF 16.46' (NAVD88) A FOUND FDOT SURVEY DISK SET IN A CONCRETE HEADWALL STAMPED BM I95 K 14.
9. SUBJECT PROPERTY FALLS WITHIN ZONE "X", AREA OF MINIMAL FLOOD HAZARD ACCORDING TO THE NATIONAL FLOOD INSURANCE PROGRAM (NFIP) FLOOD INSURANCE RATE MAP (FIRM); COMMUNITY PANEL NO. 12111C0160J UNINCORPORATED ST. LUCIE COUNTY, COMMUNITY NO. 12285; DATED FEBRUARY 16, 2012.
10. THERE ARE NOT GAPS, GORES OR HIATUSES, THE TRACTS ARE CONTIGUOUS ALONG THEIR BOUNDARIES.
11. ALL BEARING AND DISTANCES ARE MEASURED BETWEEN FOUND MONUMENTATION. THE BOUNDARY SURVEY IS A RETRACEMENT SURVEY TO FOLLOW IN THE FOOTSTEPS OF THE PREVIOUS SURVEYOR AND BASED ON THE SURVEYS OF CULPEPPER & TERPENING, INC. DATED 11/04/05 WITH A LAST REVISION DATE OF 4/30/13 HAVING A JOB NUMBER 03-243.

SURVEYOR'S CERTIFICATE:

I HEREBY CERTIFY THAT THE ATTACHED BOUNDARY SURVEY OF THE HEREON DESCRIBED PROPERTY IS TRUE AND CORRECT TO THE BEST OF MY KNOWLEDGE AND BELIEF AS SURVEYED UNDER MY DIRECTION ON JANUARY 13. 2026 I FURTHER CERTIFY THAT THIS BOUNDARY SURVEY MEETS THE STANDARDS OF PRACTICE SET FORTH IN CHAPTER 5J-17.050, 5J-17.051, 5J-17.052, FLORIDA ADMINISTRATIVE CODE, ADOPTED BY THE FLORIDA BOARD OF PROFESSIONAL SURVEYORS AND MAPPERS, PURSUANT TO FLORIDA STATUTES 472.027, AS AMMENDED AND CHAPTERS 177.041 AND 177.061, FLORIDA STATUTES. THE FIELDWORK WAS COMPLETED ON JANUARY 13, 2026.

FUTURE LAND USE ELEMENT
GOALS, OBJECTIVES AND POLICIES

Goal 1.1: Ensure the highest quality living environment possible, through a mixture of land uses reflecting the needs and desires of the local residents and how they want their community to develop. The goal shall be implemented by strictly enforced building, zoning and development codes based on objectives and policies that will enhance St. Lucie County's natural and man-made resources while minimizing any damage or threat of degradation to the health, safety and welfare of the county's citizens, native wildlife and environment, through incompatible land uses.

Objective 1.1.1: *Land Use*. Maintain the Future Land Use Map land with the following use designations to portray the future development patterns of St. Lucie County.

Policy 1.1.1.1 - The following land use designations/intensities, as indicated on the Future Land Use Maps are provided as the pattern for the future development of the area within unincorporated St. Lucie County.

Future Land Use Designation		Residential Density	Max Height[4] (For Buildings)	Max Lot Coverage (For Buildings)
AG-5	Agriculture-5	1 du/5 acres (0.2 du/1 acre)	-	-
AG-2.5	Agriculture-2.5	1 du/2.5 acres (0.4 du/1 acre)	-	-
RE	Residential Estate	1 du/a acre	-	-
RS	Residential Suburban	2 du/1 acre	-	-
RU	Residential Urban	5 du/1 acre	-	-
RM	Residential Medium	9 du/ 1 acre	-	-
RH	Residential High	15 du/ 1 acre	-	-
R/C	Residential/Conservation	1 du/5 acres (0.2 du/1 acre)	-	-
Cpub	Conservation-Public	0 du[1]	20 ft	5-10%
COM	Commercial	0 du[1,5]	60 ft[3]	40—50%
IND	Industrial	0 du[1]	80 ft	40—50%
P/F	Public Facilities	0 du[1]	80 ft	40—50%
T/U	Transportation/Utilities	0 du[1]	40 ft[6]	40—50%
MXD	Mixed Use Development	0.2-15 du/acre[2,5]	80 ft	40—50%
H	Historic	0 du[1]	40 ft	40—50%
SD	Special District	0.2-15 du/acre	80 ft	40—50%
TVC	Towns, Villages, & Countryside	Variable pursuant to special areas plan. See TVC Element Goals, Objectives, and Policies. 1-9 du/acre	-	-

Notes:	
1	Residential uses permitted under specific conditions only. Refer to Zoning/Land Development Code for special restrictions in individual zoning districts.
2	Maximum Densities subject to compliance with intensity with intensity plans for each mixed use area, as set forth in Policy 1.1.8.4
3	For motel or hotel uses, the building spacing formula as identified in the Land Development Code shall be used to establish maximum building height, unless otherwise stipulated in the Hutchinson Island Building Height Overlay Zone section of the Land Development Code, or unless otherwise restricted by Code or Ordinance of the County.
4	Unless otherwise stipulated in the Hutchinson Island Height Overlay Zone section in the Land Development Code
5	Motels/hotels shall be allowed up to 36 units/acre.
6	The height of the Treasure Coast Airport shall be regulated by the Airport Zone Height Limitations established in Section 4.00.03, of the Land Development Code, as reviewed and approved by the Federal Aviation Administration (FAA).

and restrictions as set forth in the Land Development Code.

Medium density residential land uses can act as a transition between the lower intensity RU areas and the more intense land use designations. Zoning applications within the RM land use area include single-family, multifamily, or PD zoning.

G. Residential High (RH)
Areas designated Residential High (RH) are intended to accommodate high density development, not to exceed 15 dwelling units per gross acre. In order to develop at this intensity, it must be possible to connect into a central water and wastewater service facility, and the subject property must be located in an area of the County which has available all urban services and facilities including fire protection, police, recreation, roadways, and schools.

Limited nonresidential uses may be appropriate, in accordance with applicable standards and restrictions as set forth in the Land Development Code.

H. Mixed Use Development (MXD)
The intent of the Mixed Use Development (MXD) designation is to identify those areas where innovative land use concepts are encouraged. Application of this district should be with prudence, and should be only to those areas where traditional land use classifications do not afford the desired flexibility and community input in land use planning necessary to address local concerns. Candidates for this district include all I-95 interchange areas, the Treasure Coast International Airport, Community Development Districts created pursuant to Chapter 190, Florida Statutes and areas of special or unique environmental consideration that may not be appropriate for traditional land use designations.

Uses within the areas classified as Mixed Use should be segregated as to intensity and indicated in the form of a concept master plan which is to be included as a part of the land use designation process. The following criteria, in addition to those as cited in Objective 1.1.7 (PUD, PNRD & PMUD), are to be used in the development of Mixed Use areas:

- Unless otherwise compliant with the identified intensity classification, any change in zoning shall be to the Planned Unit Development (PUD), Planned Non-Residential Development (PNRD) or Planned Mixed Use Development (PMUD), as described in the St. Lucie County Land Development Code. Those properties with compatible existing zoning designations are encouraged to develop under the PUD, PNRD or PMUD regulations.
- Residential development shall be regulated by the intensity district in which it is to take place. In no case should gross residential density exceed 15 du/ac.
- All uses shall be compatible with adjacent land uses.

I. Special District (SD)
The intent of the Special District (SD) designation is to identify those areas where specific uses or combinations of uses are anticipated. SD designated areas include previously approved Community Development Districts, areas for which a site specific development plan or concept has been granted, or areas which by their location have specific issues and concerns for their development.

Residential densities within an area designated as a Special District are limited to what the current land use designation authorizes. Any increase over the present designation may be considered only through the Plan Amendment process.

Policy 1.1.8.4 - The following use density and intensity standards shall be used for the purpose of this plan for the Mixed Use activity areas:

1. *High* Intensity development areas may include the following types of land uses:	
Residential	5 to 15 du/acres
Institutional	1.5 FAR *
Professional Service/Office	1.5 FAR *
General Commercial	1.0 FAR *
Public Service/Utility	0.5 FAR *
Industrial	0.75 FAR *
* FAR = Floor Area Ratio	
2. *Medium* Intensity development areas may include the following types of land uses:	
Residential	5 to 9 du/acres
Institutional	1.0 FAR *
Professional Service/Office	1.0 FAR *
General Commercial	0.75 FAR *
Public Service/Utility	0.25 FAR *
Industrial	0.5 FAR *
* FAR = Floor Area Ratio	
3. *Low* Intensity development areas may include the following types of uses:	
Residential	not to exceed 5 du/acres
Institutional	0.5 FAR *
Professional Service/Office	0.5 FAR *
General Commercial	0.5 FAR *
Public Service/Utility	0.25 FAR *
Industrial	0.5 FAR
* FAR = Floor Area Ratio	
4. Specific Use Areas: Areas with special or unique local character may be included within the Mixed Use Designation. These areas, because of conditions unique or peculiar to them alone, have been limited to specific activities and zoning options as set forth in the activity area plans described in Policy 1.1.8.3. Any zoning application not consistent with this policy must be accompanied by a corresponding Comprehensive Plan Amendment indicating the change in intensity classification.	
Application of the Specific Use Area designation is to be made to those areas recognized by the County as suitable for alternative land use as the full spectrum of community services become available. This designation would serve to prevent the unplanned or premature development of such areas until all services were provided for and are consistent with the Future Land Use development philosophy of St. Lucie County.	
The terminology used in the Specific Use designation identifies the type of permitted activity, maximum zoning density or maximum zoning intensity. Each Mixed Use Activity area will identify the type of Special Use areas in the legends of each area.	
Industrial and Professional Service/Office uses may receive an intensity bonus of up to 100% of the FAR, within specific use areas served by Strategic Intermodal System (SIS) facilities operating at or above the adopted level of service (LOS) and with available water service and wastewater service.

SUB AREA POLICIES
Future development shall be limited te the foliowing land uses and ratios: IND (Industrial) 60%, COM (Commercial) 10%, and RES (Residential) 30%. The height of all bulidings and structures shalt be no more than 60 feet.
The Activity Area Sub Area Policies shall apply, however the height of buildings and structures within this Sub-District may be proposed up to 80 ft.

11.07.03. Standards for Review of Conditional Use Permits.

A conditional use permit shall be granted only if the applicant demonstrates the following:

A. *Consistency With Local Code and Comprehensive Plan.* The proposed conditional use is in compliance with all requirements, and is consistent with the general purpose, goals, objectives, and standards of this Code, the St. Lucie County Comprehensive Plan, and the Code of Ordinances of St. Lucie County; and is in compliance with all additional standards imposed on it by the particular provisions of this Code authorizing such use.

B. *Effect on Adjacent Properties.*

1. The proposed conditional use will not have an undue adverse effect upon nearby property.
2. The proposed conditional use is compatible with the existing or planned character of the neighborhood in which it would be located.
3. All reasonable steps have been taken to minimize any adverse effect of the proposed conditional use on the immediate vicinity through building design, site design, landscaping, and screening.
4. The proposed conditional use will be constructed, arranged, and operated so as not to interfere with the development and use of neighboring property, in accordance with applicable district regulations.

C. *Adequacy of Public Facilities.* The proposed conditional use will be served by adequate public facilities and services, including roads, police protection, fire protection, solid waste disposal, water, sewer, drainage structures, parks and mass transit.

D. *Adequacy of Fire Protection.* The applicant for the proposed conditional use has obtained from the St. Lucie County - Fort Pierce Fire Prevention Bureau written confirmation, or has otherwise demonstrated by substantial credible evidence, that water supply, evacuation facilities, and emergency access are satisfactory to provide adequate fire protection.

E. *Environmental Impact.* For developments required to provide an environmental impact report under Section 11.02.09(A)(5), the proposed conditional use will not contravene any applicable provision of the St. Lucie County Comprehensive Plan, or of Chapter VIII, "Natural Environment Analysis", of the St. Lucie County Barrier Island Study Analysis of Growth Management Policy Plan, Kimley-Horn and Associates, Inc. (August 1982).

3.01.03. - Zoning Districts.

U. *IH INDUSTRIAL, HEAVY.*

1. *Purpose.* The purpose of this district is to provide an environment suitable for heavy manufacturing and other activities that may impose undesirable noise, vibration, odor, dust, or other offensive effects on the surrounding area together with such other non-residential uses as may be necessary to and compatible with heavy industrial surroundings. The number in "( )" following each identified use corresponds to the SIC Code reference described in Section 3.01.02(B). The number 999 applies to a use not defined under the SIC Code but may be further defined in Section 2.00.00 of this Code.

2. *Permitted Uses.* Any use permitted in the Industrial Light (IL) zoning district:

   a. Agricultural services. (07)

   b. Construction services:

      (1) Building construction - general contractor. (15)

      (2) Other construction - general contractors. (16)

      (3) Construction - special trade contractors. (17)

   c. Docks and boathouses (private). (999)

   d. Engineering services. (871)

   e. Manufacturing:

      (1) Food and kindred products. (20)

      (2) Tobacco products. (21)

      (3) Textile mill products. (22)

      (4) Apparel and other finished products. (23)

      (5) Lumber and wood products, except furniture. (24)

      (6) Furniture and fixtures. (25)

      (7) Printing and publishing and allied industries. (27)

      (8) Chemicals and allied products:

      (a) Drugs. (283)

      (b) Soap, detergents and cleaning preparations; perfumes, cosmetics and other toilet preparations. (284)

      (c) Agricultural chemicals. (287)

      (9) Rubber and misc. plastic products. (30)

      (10) Leather and leather products. (31)

      (11) Glass:

      (a) Flat glass. (321)

      (b) Glass and glassware - pressed or blown. (322)

      (c) Glass products - made of purchased glass. (323)

      (12) Fabricated metal products (except ammunition and ordnance). (34)

      (13) Industrial/commercial machinery and computer equipment. (35)

(14) Electronic and other electrical equipment and components, except computer equipment. (36)

(15) Transportation equipment. (37)

(16) Measuring, analyzing and controlling instruments. (38)

(17) Misc. manufacturing industries:

(a) Jewelry, silverware, and platedware. (391)
(b) Musical instruments and parts. (393)
(c) Dolls, toys, games and sporting goods. (394)
(d) Pens, pencils and other office and artists' materials. (395)
(e) Costume jewelry, costume novelties, and notions. (396)
(f) Brooms and brushes. (3991)
(g) Signs and advertising displays. (3993)
(h) Morticians goods. (3995)
(i) Manufacturing industries, NIC. (3999)

(18) Paper and allied products:

(a) Paperboard containers and boxes. (265)
(b) Converted paper and paperboard products. (267)

f. Local and suburban transit. (41)
g. Water transportation. (44)
h. Transportation services. (47)
i. Communications. (48)
j. Motor freight transportation and warehousing. (42)
k. Motion pictures. (78)
l. Membership organizations. (86)
m. Personal and business services. (72)
n. Research, development, and testing services. (873)
o. Repair services:
    (1) Automotive and automotive parking. (75)
    (2) Electrical. (762)
    (3) Watch, clock and jewelry repair. (763)
    (4) Reupholstery and furniture repair. (764)
    (5) Misc. repairs and services. (769)
p. Retail trade:
    (1) Lumber and other building materials. (521)
    (2) Paint, glass and wallpaper. (523)
    (3) Hardware. (525)
    (4) Nurseries, lawn and garden supplies. (526)

(5) Mobile home dealers. (527)

(6) Automotive/boat/RV/motorcycle dealers. (55)

(7) Gasoline service. (55)

(8) Furniture and furnishings. (57)

q. Telecommunication towers - subject to the standards of Section 7.10.23. (999)

r. Wholesale trade - durable goods:

(1) Motor vehicle and automotive equipment. (501)

(2) Furniture and home furnishings. (502)

(3) Lumber and other building materials. (503)

(4) Professional and commercial equipment/supplies. (504)

(5) Metals and minerals, except petroleum. (505)

(6) Electrical goods. (506)

(7) Hardware, plumbing and heating equipment, and supplies. (507)

(8) Machinery, equipment, and supplies. (508)

(9) Misc. durable goods:

(a) Sporting and recreational goods. (5091)

(b) Toys and hobby goods. (5092)

(c) Jewelry, watches, precious stones and metals. (5094)

(d) Durable goods NEC. (5099)

s. Wholesale trade - nondurable goods:

(1) Paper and paper products. (511)

(2) Drugs. (512)

(3) Dry goods and apparel. (513)

(4) Groceries and related products. (514)

(5) Farm products - raw materials. (515)

(6) Chemicals, and allied products. (516)

(7) Beer, wine, and distilled alcoholic beverages. (518)

(8) Misc. nondurable goods:

(a) Farm supplies. (5191)

(b) Books, periodicals, and newspapers. (5192)

(c) Flowers, nursery stock and florists' supplies. (5193)

(d) Tobacco/tobacco products. (5194)

(e) Paints, varnishes and supplies. (5198)

(f) Nondurable goods, NEC. (5199)

t. Mobile food vendors. (999)

3. *Lot Size Requirements.* Lot size requirements shall be in accordance with Section 7.04.00.

4. *Dimensional Regulations.* Dimensional requirements shall be in accordance with Section 7.04.00.

5. *Offstreet Parking and Loading Requirements.* Offstreet parking and loading requirements are subject to Section 7.06.00.

6. *Landscaping Requirements.* Landscaping requirements are subject to Section 7.09.00.

7. *Conditional Uses:*

   a. Airport, landing and takeoff fields - general aviation. (4581)

   b. Manufacturing:

      (1) Paper and allied products. (26)

      (2) Chemicals and allied products. (28)

      (3) Petroleum refining and related products. (29)

      (4) Stone, clay, glass and concrete products. (32)

      (5) Primary metal industries. (33)

      (6) Ammunition and ordinance. (348)

   c. Natural or manufactured gas storage and distribution points. (492)

   d. Scrap, waste and land clearing and yard trash recycling operations - subject to the provisions of Section 7.10.12.

   e. Warehousing and storage services - stockyards. (999)

   f. Wholesale trade - nondurable goods:

      (1) Petroleum and petroleum products. (999)

8. *Accessory Uses.* Accessory uses are subject to the requirements of Section 8.00.00, and include the following:

   a. Co-generation facilities. (999)

   b. Fueling facilities. (999)

   c. Industrial wastewater disposal. (999)

   d. One (1) detached single-family dwelling or mobile home, for on-site security purposes per property. (999)

   e. Retail:

      (1) Bottled gas. (999)

      (2) Fuel oil. (999)

      (3) Gasoline service stations. (999)

      (4) Retail trade accessory to the primary manufacturing or wholesaling use. (999)

   f. Solar energy systems, subject to the requirements of Section 7.10.28.

INTRODUCTION

Kimley-Horn and Associates, Inc. has been retained to conduct a traffic impact analysis for the Project Orchid site. The site is located on the west side of Rock Road, north of Orange Avenue, in St. Lucie County, Florida. The proposed project would develop the vacant site into a 1,444,000 square-foot manufacturing facility, with a mix of foundry, warehouse, and office uses to support the production of goods. **Figure 1** illustrates the site location and project trip assignment, which is reflective of a Treasure Coast Regional Planning Model (TCRPM) run to determine the site's distribution. The project site plan is included in Appendix A.

This document presents the methodology used and the findings of the traffic impact analysis. The analysis was conducted in accordance with the requirements published by the St. Lucie County TPO in the document, *Standardized Traffic Impact Studies (TIS) Methodology and Procedures.* A buildout year of 2031 was analyzed for the proposed development.

PROJECT TRAFFIC

Project traffic used in this analysis is defined as the vehicle trips expected to be generated by the project, and the distribution and assignment of that traffic over the study roadway network.

Existing and Proposed Land Uses

The site is currently vacant and is proposed to be developed with 1,444,000 square feet of manufacturing use.

Trip Generation

The trip generation potential for the proposed development program was calculated using trip generation rates and equations published by the Institute of Transportation Engineers' (ITE) *Trip Generation Report, 12th Edition*. As indicated in Table 1, the proposed development is projected to generate 6,166 net new external daily trips, 736 net new external AM peak hour trips (+552 inbound, +184 outbound), and an additional 910 net new external PM peak hour trips (+264 inbound, +646 outbound).

Table 1: Trip Generation Calculations

Source	Land Use	ITE Code	Intensity	Daily Trips	AM Peak Hour			PM Peak Hour		
					Total	In	Out	Total	In	Out
Proposed Scenario										
ITE	Manufacturing	140	1,444.000 ksf	6,166	736	552	184	910	264	646
Driveway Volumes				**6,166**	**736**	**552**	**184**	**910**	**264**	**646**
Net New External Trips				**6,166**	**736**	**552**	**184**	**910**	**264**	**646**
Proposed - Existing Net New Traffic				**6,166**	**736**	**552**	**184**	**910**	**264**	**646**
Radius of Development Influence:				**3 miles**						

Source	Land Use	Daily	AM Peak Hour	PM Peak Hour	Avg. Pass By
ITE	Manufacturing	4.27 trips/ksf	0.51 trips/ksf (75% in, 25% out)	0.63 trips/ksf (29% in, 71% out)	0.0%

Traffic Distribution and Assignment

Based on the St. Lucie County Standardized Traffic Impact Studies (TIS) Methodology and Procedures, the radius of development influence is 3 miles. Traffic distribution is the pairing of trip ends from the subject site with other land uses in the area. A projected traffic distribution was developed using Treasure Coast Regional Planning Model, Version 5 (TCRPM5) modeled distributions.

Figure 1 illustrates the proposed roadway link assignment. Using these percentages, project traffic was then assigned to the surrounding roadway network projected to be in place by 2031.

SIGNIFICANCE CALCULATIONS AND LINK ANALYSIS

The study roadway links were defined as the roadways upon which the project traffic has an impact of 5% or higher of the level of service capacity of the roadway links which are not directly accessed by the project and 1% or higher of the level of service capacity of the directly accessed roadway links. Significance was determined on a peak hour, peak direction (PHPD) basis using the project's PM peak hour outbound trips because this represents the highest trip generation on a PHPD basis. Existing traffic volumes were obtained from the *St. Lucie County Traffic Counts and Level of Service Report* for 2025 and FDOT count stations. For links on which capacity was not published in the *St. Lucie County Traffic Counts and Level of Service Report*, facility capacity was obtained from FDOT 2023 Quality Level of Service Handbook. **Table 2** summarizes the project percent impact as a percentage of the service volume capacity for the PM peak hour. As shown in **Table 2**, the following roadway links were determined to be significantly impacted by project traffic:

- Orange Avenue – From Rock Road to Kings Highway
- Orange Avenue – From Kings Highway to I-95
- Orange Avenue – From I-95 to Jenkins Road
- Kings Highway – From Picos Road to Orange Avenue
- Kings Highway – From Orange Avenue to Angle Road
- Kings Highway – From Angle Road to St. Lucie Boulevard
- Kings Highway – From St. Lucie Boulevard to Indrio Road
- Graham Road – From Kings Highway to Jenkins Road
- Rock Road – From Orange Avenue to Project Driveway

Therefore, further capacity analysis is required on these roadway links.

Capacity Analysis

The future traffic volumes on each significantly impacted roadway identified in **Table 2** were evaluated based on capacities established in Table 2. Existing traffic volumes were obtained from the *St. Lucie County LOS Report* for 2025 and FDOT count stations. In order to grow existing volumes for future background conditions, the greater of two volumes was added:

- A two and one half percent (2.5%) growth rate compounded annually.
- A one percent nominal growth rate compounded annually, in addition to traffic from committed projects in the surrounding area.

Table 3 summarizes the capacity analysis on these significantly impacted links on a peak hour, peak directional basis. Because the project's PM peak hour outbound trips represent the peak hour, peak direction of the proposed development, these trips were utilized in the roadway link analysis.

Table 2: Peak Hour Peak Direction Significance Calculations

*Count data at the intersection of Rock Road & Orange Avenue used.

As shown in **Table 3**, Orange Avenue from Rock Road to Kings Highway is projected to be over capacity with the addition of project traffic. This facility will require the following improvements to meet the adopted LOS D standards:

- Widening of Orange Avenue from Rock Road to Kings Highway from 2L to 4L.

Therefore, the proposed development is responsible for the proportionate share of these improvements. To determine the percentage the proposed development is responsible for, the following methodology was followed:

- Project Traffic along Orange Avenue from Rock Road to Kings Highway:
  - Eastbound: 627 vehicles
  - Westbound: 256 vehicles
- Current Capacity of the Roadway Segment
  - Directional: 1,070 vehicles
  - Two-way: 1,950 vehicles
- Capacity of 4L Undivided Segment
  - Directional: 2,765 vehicles
  - Two-way: 5,026 vehicles
- **Proportionate Share Calculation 1**: (627+256) / (5,026-1,950) = **29%**
- **Proportionate Share Calculation 2**:
  - Eastbound: Full cost
  - Westbound (AM Peak Hour): (1255-1070) / (2,765 – 1,070) = 11%
  - Total proportionate share of improvement: **56%**

Two calculations were performed to determine the proportionate share of the improvements attributable to the proposed development. The first calculation evaluated project-generated trips during the PM peak hour in the eastbound and westbound directions and divided them by the increase in two-way roadway service capacity, resulting in a proportionate share of 29% for the roadway widening.

The second calculation considered the full cost of improvements in the eastbound direction while determining the share for the westbound approach. AM peak hour westbound project trips were added to projected future volumes in the westbound direction and compared to the existing directional roadway service capacity; this difference was then divided by the increase in service capacity needed to determine the proportionate share. This resulted in 11% for the westbound approach, which, when combined with the full cost of the eastbound direction, yields a total proportionate share of 56% for the conversion from a two-lane roadway to four lanes.

Therefore, the proportionate share of improvements attributable to the proposed development is 56% of the road widening of Orange Avenue from Rock Road to Kings Highway from a 2-lane roadway to a 4-lane roadway.

INTERSECTION ANALYSIS

Operation conditions at the following intersections were analyzed using *Synchro 12* software and the *HCM 2000* Edition methodology [(1)]:

- Kings Highway & Orange Avenue
- I-95 Northbound Ramps & Orange Avenue
- I-95 Southbound Ramps & Orange Avenue
- Jenkins Road & Orange Avenue
- Kings Highway & Okeechobee Boulevard
- Rock Road & Orange Avenue
- Kings Highway & Angel Road
- Kings Highway & St Lucie Boulevard
- Kings Highway & Graham Road

(1) ***HCM 2000 Edition was used for this analysis since there were several intersections that had nonstandard phasing which cannot be analyzed by HCM 7th Edition methodology.***

Data Collection

Baseline traffic counts were collected during the AM peak period (7:00 AM – 9:00 AM) and the PM peak hour (4:00 PM – 6:00 PM) at the studied intersections. The turning movement counts were collected on February 3, 2026, March 27, 2025, September 3, 2025, January 14, 2026, March 11, 2026, and March 24, 2026. Turning movement counts for the following intersections were taken from the Hope Commercial traffic study:

- I-95 Northbound Ramps & Orange Avenue
- I-95 Southbound Ramps & Orange Avenue

Existing Conditions:

This analysis scenario provides a baseline evaluation of current conditions, based upon traffic volume data collected at the study intersections. Existing counts collected outside of peak season have been adjusted for peak season using Peak Season Correction Factors (PSCF) published by FDOT. The existing volumes used in the analysis are shown in **Figure 2**.

Future Background Conditions (2031)

This analysis scenario includes the baseline traffic volumes adjusted to future year conditions without the project by applying the greater of two options:

- An annually compounding background growth rate of 2.5% ***or***
- A one percent (1%) nominal growth rate compounded annually, in addition to committed traffic in the surrounding area.

The future background condition volumes are shown in **Figure 3**.

Future Total Conditions (2031)

This analysis scenario uses the Future Background Conditions (2031) volumes as a baseline and adds new project traffic generated by the proposed development. The Future Total Conditions (2031) volumes assume an estimated fully built out condition in the year 2031. The net change in trip generation potential that was calculated for the site was distributed across the transportation network using the trip distribution illustrated in **Figure 4**. The resulting project traffic volumes are shown in **Figure 5**. **Figure 6** illustrates the resulting Future Total volumes.

Synchro summaries for Existing Conditions, Future Background Conditions (2031), and Future Total Conditions (2031) are shown in **Table 4, Table 5**, and **Table 6,** respectively.

As shown in the tables, the following intersections operate at LOS E and F during the peak hours under future total conditions:

- Kings Highway & Orange Avenue (LOS F - AM and PM peak hours)
- Kings Highway & Okeechobee Boulevard (LOS E – AM and PM peak hours)
- Rock Road & Orange Avenue (LOS F – AM and PM peak hours)
- Kings Highway & Angle Road (LOS F – AM and PM peak hours)
- Kings Highway & Graham Road (LOS F – AM and PM peak hours)

Signalization at the intersection of Rock Road & Orange Avenue is recommended based on the anticipated delays associated with the southbound movements.

The deficiencies at the intersections of Kings Highway & Orange Avenue, Kings Highway & Okeechobee Boulevard, Kings Highway & Angle Road, and Kings Highway & Graham Road are projected to occur under background conditions without the addition of project traffic.

According to Florida State Statute 163.3180, because the facility identified on the page exceeds its respective threshold under background conditions, and because the improvements required to address future background conditions will also provide sufficient capacity for the proposed project traffic, the project is not responsible for the proportionate share of these improvements.

Signal optimization can be performed at the intersection of Kings Highway & Orange Avenue, Kings Highway & Okeechobee Boulevard, and Kings Highway & Angle Road to reduce delays. **Table 7** shows the results of the signal optimization at these intersections.

			Overall	**228.9**	**F**	**294.4**	**F**

Signalization at Rock Road and Orange Avenue

As previously mentioned, signalization of the intersection of Rock Road & Orange Avenue is recommended based on the anticipated delays under two-way stop control conditions. A signal warrant analysis was conducted at this intersection and is summarized later in this report. Operational conditions at the intersection of Rock Road & Orange Avenue were analyzed under signalized conditions utilizing *Synchro 12* software and the *HCM 2000* Methodology.

It should be noted that, in order for the intersection to operate acceptably, the following improvements will be needed:

- Construction of an eastbound left-turn lane
- Construction of a southbound left-turn lane
- Restriping second southbound lane as a shared left/through/right turn lane
- Construction of an additional eastbound receiving lane on Orange Avenue
- Installation of a traffic signal

Table 8 summarizes the Synchro summary for the Rock Road & Orange Avenue intersection under signalized conditions. As shown in the table below, the intersection of Rock Road & Orange Avenue is anticipated to operate at LOS B and C during the AM and PM peak hour, respectively.

Table 8: Signalization at Rock Road & Orange Avenue Synchro Summary

#	Intersection	Control Type	Movement	AM Peak Hour		PM Peak Hour	
				Delay (s)	LOS	Delay (s)	LOS
6	Rock Road & Orange Avenue	Signalized	EB	24.4	C	32.7	C
			WB	9.9	A	20.5	C
			NB	37.3	D	40.9	D
			SB	32.3	C	34.1	C
			Overall	**17.5**	**B**	**28.7**	**C**

95th Percentile Queues

As requested, a 95th percentile queue analysis was conducted to evaluate the required storage lengths for the eastbound left turn lane and the westbound right turn lane at the intersection of Rock Road & Orange Avenue. *Synchro 12* software and the *HCM 2000* methodology were used to determine the results of the analysis. **Table 9** summarizes the future total queue lengths at Rock Road & Orange Avenue. As shown in the following table, the 95th percentile eastbound left-turn queue is anticipated to be 18 feet, and the 95th percentile westbound right-turn lane queue is anticipated to be 25 feet.

Table 9: Turn Lane Length Evaluation at Orange Avenue & Rock Road

#	Intersection	Movement	Storage	Future - Build	
				95th Percentile Queue (AM) (feet)	95th Percentile Queue (PM) (feet)
6	Rock Road & Orange Avenue	EBL	-	17	13
		WBL	-	38	20
		WBR	110	22	25
		SBL	-	154	538

Turn Lane Length Evaluation

A review of the turn lane lengths at the intersection of Rock Road & Orange Avenue was conducted to determine the recommended turn bay lengths for the eastbound left-turn lane and the westbound right-turn lane. As previously mentioned, the 95th percentile queue anticipated for the westbound right-turn lane is 25 feet, and the 95th percentile eastbound left-turn lane queue is 17 feet.

Guidance on deceleration lane length is provided in Chapter 212 of the FDOT Design Manual. The posted speed limit along Orange Avenue is 45 miles per hour. As outlined in Exhibit 212-1 of the FDOT Design Manual, the total deceleration length for a design speed of 45 miles per hour is 185 feet, plus the queue length. To account for heavy vehicle traffic, it is recommended that a queue length of 60 feet be added to the deceleration length, although the 95th percentile queues were lower.

Therefore, it is recommended that the eastbound left-turn lane and the westbound right-turn lane have a total length of 245 feet, consisting of 195 feet of storage and 50 feet of transition each.

SITE CIRCULATION AND TURN LANE REQUIREMENTS

Future total driveway volumes were determined by applying the distribution referenced in **Figure 1** to the proposed future trip generation potential of the site. The resulting driveway trip assignment is shown in **Figure 7** while driveway volumes are illustrated in **Figure 8.** Access to the site is proposed via two driveway connections along Rock Road.

Driveway	Location	Description
Driveway 1	Rock Road	Full-Access
Driveway 2	Rock Road	Full-Access

Turn Lane Analysis

The proposed driveway connections were subject to turn lane analysis using information in the FDOT *Multimodal Access Management Guidebook* as a reference.

Driveway 1: Left-Turn Lane Evaluation

The FDOT *Multimodal Access Management Guidebook* provides guidance related to left turn lanes at unsignalized intersections and driveways. These standards are based on the National Cooperative Highway Research Program (NCHRP) Report 457. Future Total Conditions (2031) volumes were compared to Figure 2-5a of the NCHRP Report 457. The results of the analysis are shown below:

Driveway 1 Northbound Left Turn Lane (AM Peak Hour)

Following are the parameters for analysis for this turn lane:

- Opposing Volume: 83 vehicles/hour
- Advancing Volume: 552 vehicles/hour
- Left Turn Percentage of Advancing Volume: 55%
- Speed Limit of Major Road: 25 miles per hour

Comparing the results with Figure 2-5a of the NCRHP Report 457, the plotted point for the left-turn volume is above the reference curve, therefore, a northbound left turn lane is warranted at this driveway.

Driveway 2: Left-Turn Lane Evaluation

The FDOT *Multimodal Access Management Guidebook* provides guidance related to left turn lanes at unsignalized intersections and driveways. These standards are based on the National Cooperative Highway Research Program (NCHRP) Report 457. Future Total Conditions (2031) volumes were compared to Figure 2-5a of the NCHRP Report 457. The results of the analysis are shown below:

Driveway 2 Northbound Left Turn Lane (AM Peak Hour)

Following are the parameters for analysis for this turn lane:

- Opposing Volume: 0 vehicle/hour
- Advancing Volume: 248 vehicle/hour
- Left Turn Percentage of Advancing Volume: 100%
- Speed Limit of Major Road: 25 miles per hour

Comparing the results with Figure 2-5a of the NCRHP Report 457, the plotted point for the left-turn volume is below the reference curve, therefore, a left turn lane is not warranted at this driveway.

SIGNAL WARRANT ANALYSIS

An analysis of signal warrant criteria at the intersection of Rock Road & Orange Avenue was performed to evaluate future traffic projections on the approaches of Rock Road & Orange Avenue with respect to applicable signal warrant criteria.

Existing Conditions

The intersection of Rock Road & Orange Avenue currently operates as a four-legged unsignalized intersection. The major street, Orange Avenue, is a 2-lane undivided east/west roadway with a posted speed limit of 45 miles per hour. The minor street, Rock Road, is a 2-lane undivided north/south roadway with a posted speed limit of 25 miles per hour.

Data Collection

12-hour continuous roadway count data were collected at the intersection of Rock Road & Orange Avenue on Wednesday, January 14, 2026, on all approach legs of the intersection.

Future Total Conditions (2031) Volume Development

Roadway count data at the intersection of Orange Avenue & Rock Road were not taken during the peak season and therefore a peak season correction factor of 1.10 was applied. These volumes were then grown to reflect year 2031 background conditions using a nominal 2.5% growth rate compounded annually.

Signal Warrant Analysis

To perform the analyses, the volume warrant criteria contained in Chapter 4C of the 2009 *Manual on Uniform Traffic Control Devices*, *11th Edition* (MUTCD) were considered.

A two-lane approach was assumed for the major street (Orange Avenue) approach and the minor street (Rock Road) for the purposes of comparison to the warrants contained in the *MUTCD*. For this analysis, right turn volumes were adjusted by a 50% reduction. Warrants applicable for use at this location were identified.

The analysis indicates that the criteria for warrant 1B and 2 are satisfied and therefore signalization of the intersection of Rock Road & Orange Avenue is warranted. Signal warrant summary forms are included in Appendix I for reference.

CONCLUSION

Kimley-Horn and Associates, Inc. has been retained to conduct a traffic impact analysis for the Project Orchid site. The site is located on the west side of Rock Road, north of Orange Avenue, in St. Lucie County, Florida. The proposed project would develop the vacant site into 1,444,000 square feet of Manufacturing facility, with a mix of foundry, warehouse, and office uses to support the production of goods. The proposed buildout date is the end of 2031.

Based on the results of the traffic impact analysis, the roadway segment of Orange Avenue from Rock Road to Kings Highway is anticipated to be overcapacity due to the addition of project traffic. The roadway segment will require widening from a 2L facility to a 4L undivided facility. A calculation was performed to determine the development's proportionate share of the widening. The calculation indicated that the proposed development would be responsible for 56% of the costs to widen the roadway from 2L facility to 4L undivided facility.

Operational conditions at the study intersections indicated that the study intersections will operate acceptably with addition of project traffic with the exception of Kings Highway & Orange Avenue, Kings Highway & Okeechobee Boulevard, Rock Road & Orange Avenue, Kings Highway & Angle Road, and Kings Highway & Graham Road. The deficiency at the intersections of Kings Highway & Orange Avenue, Kings Highway & Okeechobee Boulevard, Kings Highway & Angle Road, and Kings Highway & Graham Road are projected to occur under background conditions without the addition of project traffic and therefore are not due to the addition of traffic from the development.

The intersection of Rock Road & Orange Avenue will operate acceptably with the following recommended improvements:

- Construction of an eastbound left-turn lane (245 feet)
- Extension of the existing westbound right-turn lane to 245 feet
- Construction of a southbound left-turn lane (650 feet)
- Restriping second southbound lane as a shared left/through/right turn lane
- Construction of an additional eastbound receiving lane on Orange Avenue
- Installation of a traffic signal

An analysis of signal warrant criteria at the intersection of Rock Road & Orange Avenue was performed to evaluate future traffic projections on the approaches of Rock Road & Orange Avenue with respect to applicable signal warrant criteria. The analysis indicates that the criteria for warrant 1B, and 2 are satisfied upon buildout of the project and therefore signalization of the intersection of Rock Road & Orange Avenue is warranted.

Access to the site is proped via two driveways on Rock Road. The proposed driveway connections were subject to turn lane analysis using information in the FDOT Multimodal Access Management Guidebook as a reference. The analysiis indicated that Driveway 1 is anticipated to require a northbound left-turn lane.

* **NOTE:** A six digit number in the "STATION ID" column identifies segment counted by FDOT.
Peak hour data is not available for locations on State roads due to differences in data availability, LOS Methodologies, and service level thresholds.
Please refer to FDOT sources for detailed data on FDOT traffic counts.

* Volumes shown were adjusted using FDOT Seasonal Factors
* AADT = Annual Average Daily Traffic (volumes for both directions where applicable)

* **NOTE:** If the Last Count Year is older than the year of the report, the AADT is projected from historical traffic count data.
